REPORT OF THE AUDITOR GENERAL

DEPARTMENT OF FINANCE,
Ottawa, October 17, 1958.

The Honourable Donald M. Fleming,
Minister of Finance,
Ottawa, Canada.

Sir:

I have the honour to submit the Public Accounts of the Government of Canada for the fiscal year ended March 31, 1958.

Section 64 of the Financial Administration Act provides that:

"(1) An annual report, called the Public Accounts, shall be laid before the House of Commons by the Minister on or before the thirty-first day of December or, if Parliament is then not in session, within fifteen days after the commencement of the next ensuing session thereof.

(2) The Public Accounts shall be in such form as the Minister may direct, and shall include:

- (a) a report on the financial transactions of the fiscal year;
- (b) a statement, certified by the Auditor General, of the expenditures and revenues of Canada for the fiscal year;
- (c) a statement, certified by the Auditor General, of such of the assets and liabilities of Canada as in the opinion of the Minister are required to show the financial position of Canada as at the termination of the fiscal year;
- (d) the contingent liabilities of Canada; and
- (e) such other accounts and information as are necessary to show, with respect to the fiscal year, the financial transactions and financial position of Canada, or are required by any Act to be shown in the Public Accounts."

The report required by the statute is presented in three parts:

Part I—A survey of the transactions of the fiscal year, together with statements, certified by the Auditor General, of the revenues and expenditures for the fiscal year ended March 31, 1958, and of the assets and liabilities of Canada as at March 31, 1958, together with a statement of the contingent liabilities as of that date and various other supporting schedules, statements and appendices.

Part II—Details of revenue, expenditure and asset and liability transactions by departments together with certain statements required by the Financial Administration Act to be published in the Public Accounts.

Part III—The financial statements of all Crown corporations and the auditors' reports thereon. This Part is published as a separate volume.

The Auditor General's report to the House of Commons on his examination of the accounts for the year is appended to volume I.

Respectfully submitted,

K. W. TAYLOR,
Deputy Minister of Finance.

PART I

SURVEY OF THE PUBLIC ACCOUNTS

To place the voluminous details to be found in this report in proper perspective in relation to one another, the government's financial transactions for the fiscal year 1957-58 are summarized in this introductory survey.

The pages which follow present:

1. A summary of the highlights of the government's financial operations during the fiscal year ended March 31, 1958.
2. A brief outline of the principal features of the government's financial statements and accounting system.
3. A review of the budgetary accounts for 1957-58, with an analysis of the budgetary revenues and expenditures and deficit for the fiscal year and comments on the more significant aspects of the more important items.
4. A summary of the government's statement of assets and liabilities as at March 31, 1958, with an analysis of the changes that have taken place during the fiscal year in the principal asset and liability categories.
5. A review of the changes in the government's cash position in 1957-58, with an explanation of the relationship between budgetary and cash transactions.
6. An analysis of the public debt as at March 31, 1958, together with a summary of security issues and redemptions and a review of the changes in interest rates during the fiscal year.

To facilitate reading, the figures in the survey have been given in most cases to the nearest million dollars.

1. HIGHLIGHTS OF THE GOVERNMENT'S FINANCIAL OPERATIONS DURING 1957-58

Budgetary transactions

Revenues of the government for the fiscal year ended March 31, 1958, amounted to \$5,049 million. This was \$95 million or about 2 per cent less than the forecast of \$5,144 million given in the financial statement of December 6, 1957 and \$58 million or one per cent less than the total of \$5,107 million collected in 1956-57.

Expenditures amounted to \$5,087 million and were \$23 million or about $\frac{1}{2}$ of one per cent more than the December forecast of \$5,064 million and \$238 million or 5 per cent more than the total spent in 1956-57.

Expenditures in 1957-58 exceeded revenues and resulted in a budgetary deficit of \$38 million compared with a December forecast of a surplus of \$80 million and a surplus of \$258 million in 1956-57.

BUDGETARY REVENUES AND EXPENDITURES

BUDGETARY SURPLUS OR DEFICIT

In 1957-58 budgetary revenues were equivalent to 16.1 per cent of the gross national product compared with 16.9 per cent in 1956-57 while expenditures were 16.2 per cent compared with 16.1 per cent in 1956-57. Expressed in terms of revenues and expenditures per capita of population, the 1957-58 budgetary revenues were \$304.36 and expenditures \$306.65. In 1956-57 the per capita revenues were \$319.79 and per capita expenditures \$303.63.

On the revenue side of the government's budgetary operations collections have shown a decline from the previous year. This was due in part to the reductions in taxes announced in the March, 1957 budget and in the financial statement of December 6, 1957, and in part to the fact that the general level of activity and production in the economy was somewhat less than that on which the forecasts had been based. Although receipts from corporation income tax, succession duties, excise duties and taxes other than sales tax, and non-tax revenues exceeded expectations, these were more than offset by the amount by which collections of personal and non-resident income taxes, customs import duties and sales tax fell short of expectations.

On the expenditure side defence was again the most significant feature in the government's programme. In 1957-58 defence expenditures amounted to \$1,687 million, a decrease of \$96 million or 5 per cent from the preceding year and represented 33 per cent of the government's total budgetary outlay. In 1956-57 defence expenditures amounted to \$1,783 million and constituted 37 per cent of the total.

Civil expenditures amounted to \$3,400 million, an increase of \$335 million or 11 per cent over the corresponding total for the previous fiscal year. Of this increase, \$33 million was due to higher public debt charges, \$100 million to the grants to the Canada Council and \$48 million to an increase in the charges to budgetary expenditures for the reduction in the temporary loans to the old age security fund. In addition, family allowances were \$40 million higher, federal contributions in respect of the Trans-Canada Highway \$26 million higher, Department of Transport expenditures \$49 million higher (due mainly to increases of \$20 million for air services and \$22 million for the Canadian National Railways deficit for 1957) and Department of Veterans Affairs expenditures \$26 million higher (due mainly to increased pensions for disability or death). There was no expenditure in 1957-58 comparable to the 1956-57 charges for the \$50 million provision for reserve for losses on the realization of assets and the \$50 million provision for the actuarial deficiency in the superannuation account.

Non-budgetary transactions

Although the budgetary deficit for 1957-58 was only \$38 million, the government's bank balances at the end of the fiscal year were \$165 million less than a year ago. This reduction was the net result of the budgetary deficit of \$38 million, payments of \$562 million for loans, investments and working capital advances and other non-budgetary disbursements offset by receipts of \$435 million from repayments of loans and investments, annuity, insurance and pension accounts and other non-budgetary sources together with a very small increase in outstanding unmatured debt.

The following table summarizes the budgetary and non-budgetary transactions for the fiscal year and indicates how they, together with changes in the unmatured debt, affected the government's cash balances. For purposes of comparison, the corresponding figures for 1956-57 are also shown. In the section entitled "The Cash Position" a more detailed explanation of these transactions is given.

Old age security fund

Pension payments from the old age security fund amounted to \$474 million in 1957-58 and tax receipts credited to the fund totalled \$372 million, and the deficit of \$102 million for the fiscal year was covered by a temporary loan by the Minister of Finance. During 1956-57 pension payments amounted to \$379 million and tax receipts credited to the fund to \$371 million, resulting in an excess of pension payments over tax receipts of \$8 million, of which \$6 million was charged to expenditures in 1956-57 under the authority of a vote of parliament. The remainder of the 1956-57 deficit of \$2 million and the 1957-58 deficit of \$102 million were charged to budgetary expenditures in 1957-58 in accordance with Vote 820 of the Special Appropriation Act, 1958.

Debt transactions

During 1957-58, the government issued securities amounting to \$2,527 million (excluding the refunding of treasury bills which mature periodically) and redeemed or converted issues in the amount of \$2,650 million, resulting in a decrease of \$123 million in unmatured debt. However, other liabilities increased by \$206 million and consequently the government's gross public debt increased by \$83 million to \$18,418 million at March 31, 1958. During the fiscal year the government's net assets increased by \$44 million to \$7,372 million. As a result the government's net debt at March 31, 1958, was \$11,046 million, the increase of \$38 million reflecting the budgetary deficit for the fiscal year.

Cash position

Receiver General bank balances were drawn down by \$165 million during the fiscal year reflecting cash requirements for budgetary and non-budgetary transactions of \$165 million and a very small increase in outstanding unmatured debt (after taking into account transactions in the securities investment and sinking fund accounts).

2. THE GOVERNMENT'S ACCOUNTING SYSTEM

To assist the reader who is not familiar with the government's financial statements and general system of accounting, a brief outline of some of the more significant features of these and particularly of those aspects which differ from what may be described as normal commercial accounting practices is given in the paragraphs which follow.

There are two generally accepted bases or systems of accounting. One is the "cash" basis under which revenues are taken into the accounts in the period in which they are received in cash and expenditures are accounted for when the actual disbursements are made; the other is the "accrual" basis under which revenues are accounted for when earned or due, even though not collected, and expenditures are accounted for when the liabilities are incurred whether payment is made in that accounting period or not.

Many factors must be considered in determining how the government's voluminous and varied transactions should be recorded and brought into focus in a clear and comprehensive way. In business, the accounts are usually maintained on an accrual basis. However, the prime purpose of government accounting is to serve the requirements of Parliament and more particularly to ensure effective control by Parliament over public moneys. As parliamentary control in Canada is predicated on the operation of the Consolidated Revenue Fund, which is by law a cash account, and on regulating the flow of cash receipts into and cash payments out of the Fund, it follows that the accounts of Canada are maintained basically on a cash system. However, there is provision in the Financial Administration Act for bringing into the accounts of each fiscal year expenditures relating to that year, which on a pure cash basis would be excluded, and in addition certain modifications have been made to facilitate the maintenance of accounting control over certain assets and liabilities, and to provide for valuation adjustments for recorded assets in anticipation of possible losses on ultimate realization.

Revenues and expenditures

Revenues are reported on a cash basis and consequently taxes assessed and due and other revenues receivable or accrued (including interest accrued) are not normally set up as assets on the government's statement of assets and liabilities.

On the expenditure side, under the provisions of section 35 of the Financial Administration Act, for thirty days after the end of each fiscal year, payments for the discharge of debts properly applicable to the old year may be made and charged to that year. Consequently, liabilities under contracts and other accounts payable at March 31 for which cheques are issued during the month of April are charged as expenditures in the old year and appear as current liabilities on the statement of assets and liabilities. This is a significant modification of pure "cash" accounting, and brings into the year's transactions the greater part of those expenditures which on the cash basis would be excluded, but which on the accrual basis would be included and carried to the statement of assets and liabilities as accounts payable. In other respects the expenditure accounts reflect refinements of the cash basis. For example, discounts and commissions on loans are not charged to expenditures in the year in which they are paid, but are set up as deferred charges on the statement of assets and liabilities and are amortized or written off to expenditures during the period of the loan. Also, losses on loans and advances

and on other assets are not generally charged to expenditures in the year in which the loss is sustained; instead provision has been made from time to time for a reserve for possible losses on the realization of assets to which the ultimate loss when determined may be charged by parliamentary authority.

Prior to 1951-52, it was the practice to charge interest on the public debt as it became due rather than when it was paid. This was a modification of the strict cash basis of accounting, but in 1951-52 a further modification was made whereby the charges to budgetary expenditures for interest on the public debt were made month by month as the interest accrued rather than annually or semi-annually as it became due and payable. This change is in line with the aim previously mentioned of bringing into the accounts of the year all the expenditures relating to that year. No comparable change in the treatment of interest receivable was made as it was not considered appropriate to accrue interest receivable which might or might not be received or to take it into account in determining the revenues for the year before it was actually received.

These examples will serve to indicate that while revenues are reported on a cash basis, in expenditure reporting significant modifications have been made in the cash basis to achieve many of the advantages which accrual accounting would produce. The practice is essentially conservative in that on the one hand the budgetary liabilities are set up or are otherwise taken into the accounts for the year, and on the other, tax and other revenue assessments, interest accruals (with certain exceptions) and accounts receivable are not treated as assets or taken into revenue until collected.

Assets and liabilities

Section 64 of the Financial Administration Act directs that the Public Accounts of Canada shall include:

"a statement, certified by the Auditor General, of such of the assets and liabilities of Canada as in the opinion of the Minister are required to show the financial position of Canada as at the termination of the fiscal year."

The assets and liabilities of Canada are set out so as to disclose the amount of the net debt. In 1920, the practice was established of offsetting against the gross liabilities only what were designated as "active" assets in determining the net debt. In the budget speech of May 18, 1920, the following explanation was given by the Minister of Finance:

"Assets which are not readily convertible, as the reserve is convertible, or are not interest producing, are not such assets as ought to be deducted from the gross debt. They are inactive, they are items of such a character as might well be placed in a suspense account. At any rate, whatever may be their future value, however great it may be, they are not assets of such a character as to directly reduce the gross debt any more than the other capital accounts of the country ought to be deducted from it."

Since that time, there has been no fundamental change in the basic structure of the statement or in its main purpose. With certain exceptions, taxes and revenues receivable, revenue and other asset accruals and inventories of materials, supplies and equipment are not recorded as assets (except when these are held as charges against working capital accounts or revolving funds) nor are public works and buildings or other fixed or capital assets. Following the principle that only realizable or interest- or revenue-producing assets should be offset against the gross liabilities, costs of capital works are charged to expenditures at the time of acquisition or construction. Consequently government buildings, public works, national monuments, military assets (such as aircraft, naval vessels, and army equipment) and other capital works and equipment are recorded on the statement of assets and liabilities at a nominal value of \$1 as the value is not considered as a proper offset to the gross liabilities in determining the net debt of Canada.

On the liabilities side, accrued liabilities (except for interest accrued on the public debt) are not taken into account in determining the obligations of the government. However, under section 35 of the Financial Administration Act, liabilities under contracts and other accounts payable at March 31 may be paid on or before April 30 and these are charged to the accounts for the year and recorded as accounts payable in the "Current and demand liabilities" schedule of the statement of assets and liabilities.

The *liabilities* of the government, as shown in the statement of assets and liabilities include:

- (1) unmatured debt, consisting of bonds and treasury bills;
- (2) current and demand liabilities, including matured debt outstanding, outstanding cheques and interest, interest accrued, accounts payable, non-interest bearing notes payable to the international monetary fund and the international bank for reconstruction and development and other obligations payable on demand;
- (3) sundry funds deposited with the Receiver General of Canada or held in trust for various purposes;
- (4) amounts to the credit of various annuity, insurance and pension accounts;
- (5) undisbursed balances of appropriations to special accounts, which, in accordance with the legislation under which they are authorized, are available for expenditures in periods subsequent to the fiscal year in which they are granted; and
- (6) suspense accounts, consisting of balances where some uncertainty as to disposition exists.

The *indirect or contingent liabilities* of the government are not reflected in the statement of assets and liabilities but are set out in a supplementary statement.

Offsetting the direct liabilities, and in a measure explaining their existence, as a substantial portion of the total debt is attributable to them, are the government's recorded *assets*. For the most part, these consist of assets which yield interest, profits or dividends, and very liquid assets such as cash and departmental working funds. The principal classes of assets are:

- (1) current assets, including cash, securities held in the securities investment account and departmental working capital advances and revolving funds;
- (2) advances to the exchange fund for the acquisition of gold and foreign exchange;
- (3) sinking fund and other investments held for retirement of unmatured debt;
- (4) loans to, and investments in, Crown corporations;
- (5) loans to national governments;
- (6) other loans and investments, including loans to provincial and municipal governments, subscriptions to international organizations and a number of miscellaneous advances to veterans and others;
- (7) securities held in trust for various deposit and trust and annuity, insurance and pension and liability suspense accounts and bonds and certified cheques held in connection with contractors' security deposits;
- (8) deferred charges, including certain loan flotation costs in the process of being amortized;
- (9) the unamortized portion of the actuarial deficiency in the superannuation account — that portion of the government's liability in respect of the superannuation account that has not been charged to budgetary expenditure;
- (10) suspense accounts;
- (11) capital assets, a category set up to cover capital assets that are charged to budgetary expenditure at the time of acquisition or construction and which are shown on the statement of assets and liabilities at a nominal value of \$1; and
- (12) inactive loans and investments which are not currently yielding interest, profits or dividends.

A reserve for losses on the realization of assets is not shown as a liability but is deducted from the total of the assets.

The excess of the gross liabilities over the recorded net assets is designated as the *net debt* and the transactions affecting it during the fiscal year are set out in a separate schedule to the statement of assets and liabilities. In effect, the net debt is the accumulated overall deficit since Confederation. Prior to the 1954-55 fiscal year it had been the practice to show it as represented by:

- (a) the non-active assets which consisted of expenditures on certain government-owned properties or public works designated as capital in the schedules to the appropriation acts which authorized the expenditures, and those loans and investments which were regarded currently as neither productive of revenue nor readily realizable; and
- (b) the balance of the consolidated deficit account which was the accumulation of the excess of expenditures over revenues since Confederation, exclusive of capital expenditures and other charges to the non-active accounts.

However, as the capital accounts included only those items paid from appropriations designated as capital in annual appropriation acts (and departmental practices varied in this respect), they were not an all inclusive listing of capital expenditures. Moreover, the non-active schedules included many items of a nature similar to others which had been charged directly to the consolidated deficit account.

In 1954-55, a change was made in the manner of presentation and the classification of the net debt into capital and non-active accounts on the one hand and the consolidated deficit account on the other was dropped from the schedules to the statement of assets and liabilities, although for purposes of historical record a listing was shown in an appendix to Part I. In its place a schedule was presented showing the changes in the net debt during the fiscal year due to:

- (a) budgetary transactions; and
- (b) adjustments in respect of prior years' transactions.

The practice adopted in 1954-55 has been continued and the list of items charged to net debt is presented in Appendix No. 11 to Part I. An explanation in greater detail is given in the explanatory notes which follow the statement of assets and liabilities.

Changes introduced in 1957-58

As indicated, the purpose of the balance sheet or statement of assets and liabilities, as adopted in 1920, was to disclose the amount of the net debt of Canada. Although no change has been made in the basic structure of the statement or in its prime purpose, revisions have been made from time to time to improve the form or manner of presentation, and it is believed that to a substantial degree the present statement fulfils the original intention. However, consideration is given continually to the possibility of further improvements. A number of these have been made in the present volume and others are currently under review.

In 1957-58 improvements have been made in the presentation and in the method of computation of certain of the asset and liability accounts. The following are the principal changes:

- (1) in order to record the amounts of deferred interest on loans and advances to certain Crown corporations and national governments a new asset account has been set up under "Loans to, and investments in, Crown corporations" with a contra item in the same amount in a new account called "Deferred interest" under "Suspense liabilities"; during the year deferred interest on advances to The St. Lawrence Seaway Authority and on loans under the United Kingdom Financial Agreement Act, 1946, as amended, were set up in this manner;

- (2) in previous years security holdings of various deposit and trust and annuity, insurance and pension and liability suspense accounts were shown as deductions from the liability; in 1957-58 a change was made and, except for the unemployment insurance fund which is shown as in the past, the full liability is now shown in the appropriate liability schedule with the value of securities recorded in a new asset category "Securities held in trust";
- (3) in 1957-58 the value of bonds and uncashed certified cheques held in connection with contractors' securities, which previously had not been shown in the government's financial statements, has been recorded under the category "Deposit and trust accounts" with a contra item under "Securities held in trust";
- (4) in 1957-58 the Governor in Council approved an arrangement whereby Crown corporations with the approval of the Minister of Finance and the Minister through whom the corporation reports could deposit in the consolidated revenue fund on an interest-bearing basis that portion of their cash which is temporarily in excess of their current requirements; the deposits are recorded in the new account "Crown corporation deposits" under the category "Deposit and trust accounts".

3. THE BUDGETARY ACCOUNTS

A summary statement of revenues and expenditures and surplus or deficit for the fiscal years ended March 31, 1954 to 1958, inclusive, is given in the following table:

BUDGETARY REVENUES AND EXPENDITURES BY MONTHS
FOR THE FISCAL YEAR ENDED MARCH 31, 1958

BUDGETARY SURPLUS OR DEFICIT BY MONTHS
FOR THE FISCAL YEAR ENDED MARCH 31, 1958

As may be noted from Table 4 there were considerable month to month variations in both revenues and expenditures during 1957-58. However, with respect to revenues it may be noted that while changes in taxation rates, in the base on which taxes are calculated and in economic conditions generally, affect the revenues, the introduction of the system of paying personal and corporation income taxes on the instalment plan has resulted in a greater degree of continuity and stability in collections and, other things being equal, approximately one-half of the year's revenues is received during the first half of the fiscal year and approximately one-half during the second. During 1957-58, of total revenues of \$5,049 million, \$2,476 million or about 49 per cent was received during the first six months and \$2,573 million or 51 per cent in the remainder of the fiscal year.

For expenditures, variation between the first and second halves of the year was somewhat more pronounced. Many construction contracts which are normally let in the early part of the year do not come up for payment until some months later, and deficits sustained by Crown corporations and losses incurred in the operation of various agencies and accounts are not known until the end or towards the end of the fiscal year. There is also a further factor tending to make expenditures higher in the last half of the fiscal year. Under section 35 of the Financial Administration Act the government's books remain open after March 31 to record expenditures which, although they originate in and are attributable to the current fiscal year, are not actually paid until April, the first month of the following year. The effect of this procedure is that the greater part of an extra month's expenditure is carried back to the old year so that the second half of the fiscal year includes expenditures for approximately seven months and the first half for approximately five months.

In 1957-58 these factors resulted in expenditures in the latter part of the year being somewhat larger than in the early months of the year. As shown in Table 4, of total expenditures of \$5,087 million, \$2,244 million or about 44 per cent were made in the first six months and \$2,843 million or 56 per cent in the last six months. Moreover, while \$4,552 million or 90 per cent of the revenues for the year had been collected up to the end of February, only \$4,299 million or 85 per cent of the expenditures had been made to that date, and the accumulated budgetary surplus of \$253 million at February 28, 1958 became a deficit of \$38 million at the year-end.

While both revenue collections and expenditures varied from month to month, the monthly variations in some categories of revenues and expenditures were greater than in others as may be seen in the data presented in Tables 5 and 6 which appear below.

The table which follows immediately shows the major sources of budgetary revenues by months for the fiscal year 1957-58:

In considering the revenue table it should be noted that revenues in the hands of collectors and in transit on the thirty-first day of March in each fiscal year are treated as revenues of that fiscal year even though they are not deposited in the Receiver General's bank accounts until April. These amounts are shown in the table as receipts in the supplementary period.

As the table indicates, receipts of personal income tax deducted at the source were considerably lower in the period April to July, 1957 and in February and March, 1958, than they were in other months. In the first four months of 1957-58, this was due to payments of refunds of \$125 million to taxpayers which were deducted from the tax collections for those months while March, 1958 collections were affected by refunds of \$43 million and also by the rate changes announced in December, 1957. February receipts also reflected the change in rates. Receipts in the month of January from deductions at the source have been in recent years somewhat greater than in other months probably due to tax deductions from year-end bonuses. Other collections of personal income tax include taxes paid by instalments, which are usually received in April, July, October and January in each year as well as amounts paid on the filing of income tax returns; these latter sums are for the most part collected in April and May with May receipts being much the greater. Corporation income tax receipts in the months of May to July, 1957 inclusive were greater than in other months reflecting payments by corporation taxpayers to make up the balance of payments due on their 1956 tax liabilities which were underpaid in the first nine months of the period over which their 1956 taxation year payments were spread. In the months subsequent to July, receipts were largely in respect of the 1957 taxation year. Commodity tax receipts, that is, receipts of customs import duties, and sales and other excise taxes and duties, varied from month to month although receipts in the first and second halves of the year did not differ greatly; receipts in the first half of the year were

49 per cent of the total for the year. As for receipts from all other sources, the larger receipts in the months of July and December, 1957 and in January and March 1958 are largely due to returns on investments.

The table which follows shows major classifications of budgetary expenditures by months for the fiscal year 1957-58:

BUDGETARY EXPENDITURES BY MONTHS AND MAJOR CLASSIFICATIONS
FOR FISCAL YEAR ENDED MARCH 31, 1958
MILLIONS OF DOLLARS

From the table it may be seen that certain classes of expenditures appeared to follow clearly defined patterns while others did not. Expenditures for family allowances, public debt charges and veterans affairs did not vary greatly from month to month during 1957-58, although family allowance payments, which increased gradually during the year reflecting the increase in the number of children in the eligible age groups, rose significantly in September, 1957 reflecting higher family allowance rates. Payments to the provinces under the tax-sharing agreements also did not vary greatly from month to month, with the exception of the April payments which were lower because certain provinces had not then signed tax-sharing agreements. The larger payments for May offset by smaller payments for June as shown in the table were due to adjustments in respect of 1952 tax-rental agreement payments. Subsidies were paid mainly in July, 1957 and January, 1958 and the transfer to the provinces of certain public utility tax receipts was made in February, 1958. It is the usual practice to let construction contracts early in the fiscal year and payments are generally substantially higher during and following the construction period. This is reflected particularly in the monthly expenditures of the Departments of Public Works and Transport and to a lesser extent in those of the Department of National Defence. The substantial variations in monthly expenditures of the latter department are due in large part to expenditures on operations, maintenance and equipment. Expenditures in the month of July, 1957 for this department also included amounts representing additional pay and allowances for the months of May and June consequent upon the increase in rates which were effective May 1, 1957. All other expenditures were much greater in the last half of the fiscal year than in the first half, due in part, as previously pointed out, to payments made during the supplementary period. However, expenditures in the first half of the year included a payment in April of \$100 million to the Canada Council and supplementary payments in August in respect of civil service salaries for May, June and July consequent upon the salary revision effective May 1, 1957. Expenditures in the latter half of the year included such expenditures as the contribution to the Colombo plan, the purchase of wheat and flour for countries in south and south-east Asia, the grants to municipalities and universities, increased allowances for old age assistance, blind and disabled persons, and, in the supplementary period, \$104 million for old age security fund deficits and \$44 million as an additional contribution to the superannuation account consequent upon the revision of civil service salaries.

B. REVENUES

Budgetary revenues amounted to \$5,049 million in the fiscal year 1957-58. This was \$58 million or one per cent less than in the previous year. Of the total for the year, \$4,623 million or 92 per cent was derived from taxes and \$426 million or 8 per cent from non-tax revenues.

A statement of revenues for 1957-58 classified by major sources and the corresponding figures for 1956-57 is given in the following table:

BUDGETARY REVENUES BY SOURCE

(1) TAX REVENUES

Tax on personal incomes

The largest source of government revenue in 1957-58 was again the personal income tax. The yield (excluding the old age security tax) was \$1,500 million, an increase of \$99 million or 7 per cent over the previous year. This increase was due to the rise in the total of personal incomes that took place in 1957.

In addition, the 2 per cent tax on personal incomes levied under the Old Age Security Act totalled \$135 million during 1957-58 compared with \$125 million in 1956-57. The maximum tax is \$60 per person. This revenue was credited to the old age security fund.

Corporation income tax

The second largest revenue producer in 1957-58 was the corporation income tax. Collections (excluding the old age security tax) were \$1,235 million, a decrease of \$33 million from the previous year. This decrease was due to lower profits in 1957 and the re-entry of the Province of Ontario into the corporation income tax field. These influences were offset in part by substantial receipts early in the year on account of high 1956 profits.

In addition, the 2 per cent tax on income of corporations under the Old Age Security Act yielded \$61 million during 1957-58 compared with \$67 million collected from this source in 1956-57. These collections were credited to the old age security fund.

PRINCIPAL SOURCES OF TAX REVENUES

Taxes on interest, dividends, rents and royalties going abroad

Revenue under this heading is derived from taxes withheld on payments of interest, dividends, rents, royalties, alimony and income from estates and trusts made to non-residents. The total of \$64 million for 1957-58 was \$12 million less than in the previous year reflecting lower corporate profits in 1957 and the fact that refunds adjusting overpayments in previous years were larger than usual.

Excise taxes

Included under this heading are the revenues from the general sales tax and the special excise taxes levied on a wide range of manufactured products. Net collections for the year were \$953 million, a decrease of \$32 million or 3 per cent from 1956-57.

The most important tax levied under the Excise Tax Act is the sales tax which yielded a net revenue of \$703 million in the year (excluding the 2 per cent old age security sales tax). This was \$14 million or 2 per cent less than in the previous year reflecting the changes announced in the March 1957 Budget which exempted a number of commodities from this tax.

Excise taxes other than the general sales tax yielded \$249 million or \$18 million less than in 1956-57. This decrease was due mainly to tax changes. The repeal of the tax on candy and chewing gum in March 1957 resulted in a reduction of \$9 million and the repeal of the tax on soft drinks at the same time reduced revenue by \$8 million. The reduction in the tax on automobiles from 10 per cent to 7½ per cent on December 6, 1957 resulted in revenue from this source declining \$7 million. In addition, lower sales of television sets caused the revenue from the tax on this item to decline by \$2 million.

These declines were partly offset by an increase of \$10 million from the taxes on tobacco products. The revenues from the taxes on jewellery, matches, lighters, toilet preparations, wines and sundry commodities showed little change from the previous year.

The 2 per cent tax on sales levied under the Old Age Security Act and credited to the old age security fund yielded \$176 million in 1957-58 compared with \$179 million in the previous year.

The details of the excise tax collections for 1957-58 and 1956-57 are shown in the following table:

Customs import duties

Revenue from customs import duties was \$498 million, a decrease of \$51 million or 9 per cent from 1956-57. This decrease in revenue reflected the decrease in the volume and value of imports during the year.

Excise duties

Excise duties are levied exclusively on alcoholic beverages and tobacco products. (Additional taxes on tobacco products are levied under the Excise Tax Act referred to above.) The revenue from excise duties for the year was \$300 million, an increase of \$29 million or 11 per cent over the previous year. The collections from the taxes on alcoholic beverages, before deducting refunds, were \$172 million, an increase of \$18 million over the previous year. The gross receipts from the taxes on tobacco products amounted to \$132 million, an increase of \$11 million.

The distribution of revenue from excise duties is shown in the following table:

Succession duties

Revenue from succession duties totalled \$72 million in 1957-58, a decrease of \$8 million from the previous year. The revenue from this source for the year as for the previous year was substantially affected by collections from two unusually large estates.

Other taxes

The principal source of revenue under this heading in the previous year was the tax on the premium income of insurance companies amounting to \$17 million. In 1957-58 the federal government withdrew from the premium tax field in favour of the provinces and as a result the total revenue from other taxes dropped to \$1½ million. Most of this revenue was received from the special taxes on the export of electrical energy from Canada but a small amount was also received from the tax on the export of furs from the Northwest Territories.

The following table shows the amounts collected during the fiscal year and the comparable figures for the previous year:

(2) NON-TAX REVENUES

Non-tax revenues for 1957-58 amounted to \$426 million, \$33 million less than the 1956-57 total of \$459 million. The following table presents a comparative summary of these revenues for the two fiscal years by principal classifications:

Return on investments

The amount of \$169 million from return on investments in 1957-58 was \$37 million less than the yield of \$206 million in 1956-57.

Payments from Crown corporations were \$114 million or \$39 million less than similar payments of \$153 million received in 1956-57. A large part of this decrease was due to receipts from the Bank of Canada and reflected an increase of \$21 million in the Bank's profits for 1957 transferred to the Receiver General over those for 1956, more than offset by the non-recurring payment of \$43 million in 1956 on inner investment reserves set aside out of past years' profits which were no longer required when the Bank adopted amortized values as the basis for valuing its holdings of securities. Most of the remainder of the decrease was due to a reduction of \$18 million in receipts from the Canadian National Railways as there were no profits of the Company in 1957 to be transferred to the Receiver General.

Other loans and investments yielded \$55 million, \$2 million more than in 1956-57. Increases of \$6 million in exchange fund profits and \$1 million in sinking fund and other investments held for retirement of unmatured debt were nearly offset by decreases of \$4 million in the earnings of the securities investment account and \$1 million in receipts from interest-bearing balances with chartered banks.

A comparative summary of the receipts for 1957-58 and the previous year is given in the following table:

Post office

Net post office receipts credited to budgetary revenues in 1957-58 totalled \$153 million or \$7 million more than in 1956-57. Gross receipts were \$178 million but authorized disbursements from revenues for salaries and rent allowances at semi-staff and revenue offices, commissions at sub-offices, transit charges on Canadian mail forwarded through or delivered in foreign countries, etc., amounted to \$25 million. Last year, gross receipts amounted to \$168 million and authorized disbursements totalled \$22 million.

As costs of operating the post office during 1957-58 (excluding the \$25 million charged to revenues) were \$153 million, net costs and net revenue were the same for 1957-58. However, in making this comparison, it is to be noted that the total shown for post office revenue does not reflect any payment for the franking privilege covering parliamentary and departmental mail or for certain miscellaneous services provided for other government departments and agencies, nor does the total shown for operating expenses reflect any charges for premises occupied by the Post Office Department or for certain accounting and miscellaneous services provided by other departments.

Refunds of previous years' expenditures

Refunds in the current fiscal year of expenditures made in prior years totalled \$28 million, the same as was received last year. A large part of these refunds arose from previous years' expenditures by the Department of National Defence on contracts with the United States

Government for the supply of engines, aircraft and other defence equipment. The arrangement is that when Canada places contracts with the Government of the United States, payments of the estimated costs are made to the United States Treasury. If these estimated costs are revised, or if there are reductions in the contracts, the United States Government refunds the over-payments. Refunds arising from this source totalled \$13 million in 1957-58; in 1956-57 the total was \$7 million.

Services and service fees

Sums totalling \$23 million were collected during 1957-58 by various government departments for services and service fees, about the same as the total collected during 1956-57. The total of \$23 million included \$6 million received by the Department of Trade and Commerce, mainly for services in connection with the inspection, weighing, storage and elevation of grain and for electricity, gas and weights and measures inspection services; \$7 million received by the Royal Canadian Mounted Police, mainly for police services to provinces and municipalities; and \$3 million received by the Department of Transport, chiefly for wharfage and other canal and marine service fees, steamship inspection, air-ground radio at airports, and government telegraph and telephone services.

Proceeds from sales

Receipts from proceeds from sales were \$22 million for 1957-58 or about \$7 million less than the total received in 1956-57. This amount included \$7 million from Crown Assets Disposal Corporation representing amounts realized from the disposal of surplus Crown assets (after deducting certain agency fees and transfers), \$4 million under agreements of sale, and \$5 million from Central Mortgage and Housing Corporation representing the proceeds from the sale of wartime housing properties and including amounts available as the result of the reversal of the provision for depreciation set aside by the Corporation in previous years on properties that have now been sold.

Privileges, licences and permits

Revenues of \$19 million were received during the fiscal year on account of privileges, licences and permits compared with \$18 million received last year. Included in the total for the current fiscal year was approximately \$8 million for collections by the Department of Transport, mainly on account of aircraft landing fees, rentals of hangar accommodation, and other miscellaneous rental charges.

Bullion and coinage

Revenue under this heading arose out of the operations of the Royal Canadian Mint and included assaying, refining and handling charges and the net gain on coinage and refining operations. The amount credited to bullion and coinage revenue for 1957-58 was \$5 million, \$1 million more than in the previous year.

Premium, discount and exchange

Premium, discount and exchange transactions in the current fiscal year resulted in a net credit of \$1 million to revenues compared with a net charge of \$1 million to expenditures in the previous fiscal year.

Other non-tax revenues

Other non-tax revenues amounted to \$5 million, about the same as was received in 1956-57.

C. APPROPRIATIONS

Although a major part of the expenses of the public service is defrayed from moneys granted by parliament in the annual appropriation acts, substantial payments are also made under the authority of other acts, which authorize expenditures out of the consolidated revenue fund for

specified purposes and for such definite or indefinite amounts and during such periods of time as the acts may prescribe. The spending authority granted in these annual appropriation acts differs from that granted in "statutory" authorities in that it is usually for a specific amount and of definite duration and, unless there is provision to the contrary in the vote, any unused balance lapses at the end of the fiscal year for which it was granted as provided by section 35 of the Financial Administration Act.

The following is a summary of budgetary expenditures under the authority of the annual appropriation acts and various statutory authorities for the fiscal year ended March 31, 1958. A statement in greater detail, classified by departments, is included at the end of this part.

In Appropriation Acts Nos. 3, 4, 5, 6 and 7, Statutes of 1957, Appropriation Act No. 1 and Special Appropriation Act, Statutes of 1958, amounts aggregating \$3.354 million were granted by parliament to cover the expenses of the public service other than outlays for loans, investments and working capital advances for the fiscal year ended March 31, 1958. Disbursements during 1957-58, under the authority of these grants, amounted to \$3.262 million. Consequently \$92 million, or about 3 per cent of the amount provided by the appropriation acts for budgetary expenditures, was unspent at the close of the fiscal year and lapsed in accordance with section 35 of the Financial Administration Act.

Budgetary expenditures under 1957-58 under the authority of statutes authorizing payments from the consolidated revenue fund for specific purposes without further appropriations amounted in the aggregate to \$1,826 million representing approximately 36 per cent of the total of \$5.087 million for all budgetary expenditures. A comparative summary of these statutory expenditures by principal classes is shown in the following table:

(1) In addition \$24.4 million for capital expenditures and operating deficit of the radio broadcasting and television services was provided by Votes 56, 57 and 679. The comparable amount provided by Statute was \$18.3 million in 1957.

PRINCIPAL CLASSES OF BUDGETARY EXPENDITURE

1. The unshaded areas of the columns in the chart for health, welfare and social security represent pension payments out of the old age security fund not charged to budgetary expenditure in the year in which they were paid.

2. Does not include those payments made to provincial and municipal governments for specific purposes.

D. EXPENDITURES

Budgetary expenditures in 1957-58 amounted to \$5,087 million an increase of \$238 million or 5 per cent over the total of \$4,849 million in 1956-57.

Defence expenditures, which were again the largest category of budgetary expenditures amounted to \$1,687 million or 33 per cent of the total. This was a decrease of \$96 million or 5 per cent from the 1956-57 defence expenditures which totalled \$1,783 million and were 37 per cent of the total 1956-57 expenditures.

Non-defence expenditures amounted to \$3,400 million an increase of \$335 million or 11 per cent over the total of \$3,065 million in 1956-57. This increase was due to the \$100 million granted to the Canada Council, increases of \$48 million in the charges to budgetary expenditure for the reduction in temporary loans to the old age security fund, \$40 million in family allowance payments, and \$33 million in public debt charges, and increases in expenditures of \$49 million by the Department of Transport, \$41 million by the Department of Public Works, \$26 million by the Department of Veterans Affairs, and increases totalling \$98 million in expenditures by other departments and major classifications. These increases were partly offset by a decrease of \$100 million due to the fact that the 1957-58 expenditures did not include

amounts comparable to the charges to the 1956-57 expenditures of \$50 million for the provision for reserve for losses on realization of assets or \$50 million for the actuarial deficiency in the superannuation account. More detailed explanations of the increases and decreases are given in the sections which follow.

A comparative summary of budgetary expenditures for the last two fiscal years, classified by departments and principal purposes, is given in the following table:

As statements of accountability to parliament it is appropriate that the expenditures should be reported on the basis of the classifications adopted in the Appropriation Acts and the Estimates, and so in the accounting statements in subsequent sections of this report and in the analysis of the year's expenditures later in this section of the survey these are the classifications that have been followed. However, analyses of expenditures by function or purpose on the one hand, and by object or type of goods or service acquired on the other, supplement the information contained in statements of expenditures by departmental or administrative units. In the table which follows a classification of expenditures by major function or purpose is presented. For purposes of comparison, expenditures for the four preceding years have been compiled on the same basis.

Defence expenditure

Defence expenditure consisting of expenditures of the Departments of National Defence and Defence Production and the government's outlay for the civil defence programme were again the largest category of government expenditure. The total of \$1,687 million for the fiscal year was approximately 33 per cent of the aggregate budgetary expenditures of the government. This was a decrease of \$96 million or about 5 per cent less than the 1956-57 total of \$1,783 million when defence expenditures were 37 per cent of aggregate budgetary expenditures.

Expenditures of the Department of National Defence amounted to \$1,668 million and those of the Department of Defence Production to \$15 million, while outlays in connection with the civil defence programme were \$4 million. In 1956-57 expenditures were \$1,759 million, \$20 million and \$4 million, respectively.

A comparative summary of defence expenditures for 1957-58 and 1956-57 is shown in the following table:

Expenditures for army, naval and air services amounted in the aggregate to \$1,401 million, \$89 million less than the total for 1956-57. Outlay in 1957-58 was less than in the previous year by \$10 million for army services, \$64 million for naval services and \$15 million for air services. The following table gives a summary of expenditures for the three services by major classifications for the last two fiscal years.

(1) Less than \$50,000.

Expenditures for defence research and development were \$79 million, an increase of \$9 million over the 1956-57 programme.

Expenditures of \$118 million under the mutual aid programme and contributions to the military costs of NATO were \$15 million less than in the previous fiscal year. Under the provisions of section 3 of the Defence Appropriation Act, defence equipment and supplies may be transferred from Canadian stocks to other parties to the North Atlantic Treaty. The expenditures of \$118 million for 1957-58 included \$78 million for the transfer of equipment and supplies, and \$30 million for costs incurred in acquiring and supplying military equipment for, and in the training in Canada of aircrews from, countries which are parties to the North Atlantic Treaty. The contribution of \$10 million on account of Canada's share of the NATO military budgets and infrastructure costs which was also included in this total was \$4 million less than in 1956-57. The percentage share of these costs to be borne by each nation is established in the North Atlantic Council and is subject to ratification by the respective member governments.

The government's contribution to the permanent services pension account during 1957-58 of an amount equal to $1\frac{2}{3}$ times the contributions by permanent services personnel was \$50 million consisting of \$46 million relating to current contributions and \$4 million to contributions for arrears. This was \$3 million more than the 1956-57 contribution of \$46 million of which \$41 million related to current contributions and \$5 million to contributions for arrears.

The expenditures of \$15 million for 1957-58 for the Department of Defence Production reflected a decrease of \$5 million, mainly in respect of the programme under which capital assistance is given to private contractors, Crown plants operated on a management-fee basis, and Crown corporations undertaking contracts essential to the defence programme. For 1957-58 this capital assistance was \$5 million compared with \$10 million in 1956-57.

Civil defence expenditures at \$4 million, reflected a slight increase over the 1956-57 expenditures.

In addition to these budgetary expenditures for defence, there were certain other cash outlays which must be considered in assessing the full effect of the defence programme on the economy of Canada.

The Department of Defence Production makes cash disbursements for the procurement of materials for use in the manufacture of defence equipment, which are not recorded as budgetary expenditures. For purposes of accounting and control, these amounts are charged to the defence production revolving fund and are treated as assets on the books of the government until they are billed to the Department of National Defence or sold to defence contractors for use in the manufacture of defence equipment. As a result of the transactions during 1957-58, the assets of the revolving fund were reduced by \$2 million leaving a balance in the account of \$55 million at March 31, 1958.

As indicated above, defence equipment and supplies may, under the provisions of Section 3 of the Defence Appropriation Act, be transferred from Canadian stocks as mutual aid to other parties to the North Atlantic Treaty. For several years the estimated replacement values of equipment and supplies acquired by the Department of National Defence prior to March 31, 1950, and later transferred to NATO countries, were credited to the National Defence equipment account. These credits may be used subsequently to purchase equipment or supplies for the army, naval or air services, thereby involving cash outlays which are not reflected as budgetary expenditures. Since 1956 no further credits have been made to this equipment account. The Defence Services Vote provides that where any equipment or supplies are transferred as mutual aid, the estimated present value thereof shall be credited to that vote instead of being paid into the special equipment account, and when so credited may be expended for the purposes of

the Canadian forces. Disbursements from the equipment account during the fiscal year were \$24 million. The balance available at March 31, 1958 for disbursements in subsequent years was \$212 million compared with \$236 million at March 31, 1957. The Minister of Finance announced in his budget speech of June 17, 1958 that this account would be liquidated in 1958-59.

Under section 11 of the National Defence Act there is provision for the sale of materiel, not immediately required for the use of the Canadian defence forces or the Defence Research Board, to such countries and upon such terms as the Governor in Council may determine. The proceeds of such sales are credited to a special account to be used for the procurement of materiel. Net credits to the account during 1957-58 were \$17 million leaving a balance of \$18 million at March 31, 1958.

The following table summarizes the cash outlays for defence for the past two fiscal years:

Public debt charges

In 1957-58 public debt charges were again the second largest item of budgetary expenditures. These charges, which consist of interest on public debt, the annual amortization of bond discounts and commissions, the cost of issuing new loans and other costs incurred in servicing the public debt, amounted to \$567 million in 1957-58 or 11 per cent of all budgetary expenditure compared with \$534 million or 11 per cent for 1956-57.

The table which follows presents a comparative summary of public debt charges for 1957-58 and 1956-57. Statements in greater detail are presented in Appendices Nos. 6 to 9.

Interest on public debt was \$539 million, of which \$438 million was for interest on unmaturred debt and \$101 million for interest on other liabilities. In 1956-57 comparable amounts were \$520 million, \$430 million and \$90 million respectively.

Despite the fact that unmaturred debt was reduced by \$123 million during 1957-58, the rise in interest rates during the year was responsible for a net increase of \$8 million in interest on unmaturred debt to \$438 million from the 1956-57 total of \$430 million. Interest on other liabilities increased by \$11 million to \$101 million in 1957-58 from \$90 million in 1956-57. Increases of \$5 million in respect of the superannuation account, \$3 million in respect of the permanent services pension account and \$2 million in respect of the government annuities account were mainly responsible for bringing interest on annuity, insurance and pension accounts to \$98 million for 1957-58 compared with \$87 million for 1956-57. Interest of \$3 million on deposit and trust accounts was slightly higher than the total for 1956-57.

The following table shows the liability as at March 31 and interest charges for the fiscal year ended March 31 for the years 1954 to 1958, inclusive, with respect to unmaturred debt, deposit and trust accounts and annuity, insurance and pension accounts:

⁽¹⁾No interest is payable on a portion of these amounts. Interest was paid on \$107.4 million in 1954; \$105.9 million in 1955; \$110.5 million in 1956; \$101.2 million in 1957; and \$106.5 million in 1958.

⁽²⁾No interest is payable on a portion of these amounts. Interest was paid on \$1,721 million in 1954; \$1,894.5 million in 1955; \$2,103 million in 1956; \$2,361.4 million in 1957; and \$2,639 million in 1958.

The 1957-58 amortization of bond discounts and commissions was \$26 million compared with \$12 million for 1956-57. The increase of \$14 million was due to \$9 million for new loans issued in 1957-58 and to the fact that the 1956-57 charges had been reduced by a premium of \$5 million obtained on the partial conversion in October 1956 of the fifth victory loan. A statement in greater detail of these charges for 1957-58 is presented in Appendix No. 7.

Other public debt charges, which include the cost of issuing new loans, fees for the services of fiscal agents and registrars, commission for the payment of interest on the public debt and other costs of servicing the public debt, totalled \$2 million for 1957-58, a slight increase over the 1956-57 total.

When considering the magnitude of these public debt charges and the burden they place upon the public treasury, it must be borne in mind that a substantial portion of the debt is attributable to, or is invested in, productive or earning assets. Therefore, in calculating the *net* burden of the government's annual interest charges, the income derived from loans, investments and other productive assets must be taken into account. For 1957-58 this income was \$169 million as shown in the non-tax revenue section under the heading "Return on investments". This sum deducted from the gross total of \$539 million for interest shown in the previous table leaves a net amount of \$370 million compared with \$314 million in 1956-57. Measured as a percentage of the net debt the burden of the net annual interest charges was 3.35 per cent in 1957-58 compared with 2.85 per cent in 1956-57. As a percentage of the gross national product for the calendar year ending within the fiscal year, the relative burden was 1.18 per cent compared with 1.05 per cent in 1956-57.

The following table presents the gross interest charges, the return on investments, the net interest charges, the net debt and the net interest as a percentage of the net debt for the fiscal years 1953-54 to 1957-58 inclusive:

Subsidies and tax-sharing payments to provinces

Payments to the provinces during 1957-58 for statutory subsidies, rentals under the tax-sharing arrangements act, the transitional grant to Newfoundland and the transfer of a portion of income tax receipts from certain public utility companies amounted to \$383 million compared with \$396 million in 1956-57.

A comparative summary of the payments for the two years is given in the following table:

Payments under the Federal-Provincial tax-sharing arrangements in 1957-58 were \$13 million less than the payments under the tax-rental agreements in 1956-57. This reduction occurred despite the incorporation in the new arrangements of tax equalization payments, payable to both renting and non-renting provinces. The decrease was due to the decision of the Province of Ontario not to rent the corporation income tax field to Canada. If Ontario had rented the corporation tax field, the rental for that field would have amounted to \$118 million and the 1957-58 payments would have been \$105 million in excess of the 1956-57 payments. Corporations earning profits in provinces which did not rent the corporation income tax field to Canada were allowed an offsetting credit of 9 per cent against the federal corporation income tax on such profits.

Payments to the provinces under the Federal-Provincial tax-sharing arrangements in 1957-58 as shown in the next table were adjusted by deducting \$1 million from the tax-sharing entitlement of the provinces of Newfoundland, Prince Edward Island, New Brunswick, Manitoba and Saskatchewan. This deduction represented recovery of one-fifth of the overpayment made to those provinces under the 1952 tax-rental agreements on account of an over-estimation of their population as revealed by the 1956 census.

By memoranda of agreement with the provinces concerned, the 1952 tax agreements were amended to authorize the recovery of the overpayment in equal monthly deductions from the tax-sharing payments of those provinces over the five-year life of the new agreements.

Statutory subsidies at \$21 million in 1957-58 were unchanged from the previous year.

A summary of payments, by provinces, during 1957-58 is given in the following table:

TABLE 25

The amount of public utility tax receipts transferred to the provinces in 1957-58 amounted to \$7 million or \$1 million more than in the previous year. Section 6 of the Tax-Rental Agreements Act, 1952, authorizes the payment to the provinces, whether participating in the agreements or not, of a portion of the income tax collected from corporations whose main business is the distribution to, or the generation for distribution to, the public of electrical energy, gas or steam.

Family allowances

Family allowances are payable in respect of all children under sixteen resident in Canada, with minor exceptions such as in the case of children of immigrants who must reside in Canada a year before an allowance is payable. The monthly allowance prior to September 1, 1957, was \$5 if the child was under 6 years; \$6 in the age group 6 to 9; \$7 in the age group 10 to 12; and \$8 in the age group 13 to 15. Effective September 1, 1957, the monthly allowance was changed to \$6 if the child in under 10 years and \$8 in the age group 10 to 15. Children of immigrants receive family assistance of \$5 per month during their first year of residence in Canada from the Department of Citizenship and Immigration if during that period they are under sixteen years of age.

During 1957-58 a total of \$438 million was paid out in family allowances, being 9 per cent of total expenditures for the fiscal year. The \$40 million increase over the 1956-57 outlay was due to the increase in the number of children in the eligible age groups and the increase in the monthly allowances.

The following table presents a comparative summary of payments by provinces:

Grants to Canada Council

During the fiscal year \$100 million was paid to the Council, of which \$50 million was paid under section 14 of the Act as an endowment fund for the purposes of the arts, humanities and social sciences, and \$50 million under section 17 to establish a university capital grants fund for making grants to universities and similar institutions of higher learning by way of capital assistance in respect of building construction projects.

Unemployment Insurance Act administration and government's contribution

Expenditures in 1957-58 relating to the Unemployment Insurance Act (excluding the government's payment as an employer) amounted to \$70 million compared with \$66 million in 1956-57.

Unemployment insurance benefit payments are not charged directly to budgetary expenditures but are paid from the unemployment insurance fund which is financed by contributions from employees and employers, by interest earned on investments, and by the government's contribution of an amount equal to one-fifth of combined employer-employee contributions.

The government's contribution to the fund for 1957-58 was \$38 million and administration costs were \$32 million; the corresponding figures for 1956-57 were \$37 million and \$29 million.

The following table presents a comparative summary of the transactions in the fund for the fiscal years 1953-54 to 1957-58 inclusive:

Government contribution with respect to the superannuation account

In 1957-58 the government contributed \$78 million to the superannuation account, compared with \$72 million in 1956-57. The Public Service Superannuation Act states that there shall be credited to the superannuation account, as soon as possible following the authorization of any salary increase of general application to the public service, such amount as, in the opinion of the Minister, is necessary to provide for the increase in the cost to Her Majesty in right of Canada of the benefits payable under this Act, as a result of such salary increase. There was a general salary increase effective May 1, 1957 and the government contributed to the fund \$44 million in accordance with the Act. The remaining \$34 million was the government's regular contribution of an amount equal to the current and prior service payments of individuals. The corresponding figures for 1956-57 were \$41 million (resulting from salary increases effective April 1, 1956) and \$31 million respectively.

Provision for reserve for losses on realization of assets

In 1957-58 no charge was made to expenditure to increase the general reserve for losses on realization of assets, as compared with the \$50 million charged to expenditure during 1956-57. The balance in the reserve at March 31, 1958, of \$546 million was equivalent to 7 per cent of the aggregate active assets.

Reduction in the amount of temporary loans to the old age security fund

In accordance with Vote 820 of the Special Appropriation Act, 1958, a charge of \$104 million was made to 1957-58 expenditures to cover the reduction in the temporary loans made to the old age security fund which were outstanding at March 31, 1958. These temporary loans consisted of \$2 million of the 1956-57 deficit in the fund (the other \$6 million of the 1956-57 deficit was charged to 1956-57 expenditures) and the 1957-58 deficit of \$102 million.

Agriculture

Expenditures of the Department of Agriculture were \$95 million for 1957-58 compared with \$85 million for 1956-57, an increase of \$10 million.

This increase was due mainly to the deficit of \$6 million in the prairie farm emergency fund, for which there was no corresponding charge in 1956-57. The remaining \$4 million was the result of increases of \$2 million in the costs of experimental farms service, \$1 million each in costs of marketing service, science service, and operating losses of the agricultural stabilization board, partly offset by a decrease of \$1 million in outlays for rehabilitation and reclamation projects.

The following table presents a comparative summary of expenditures for 1957-58 and 1956-57:

Atomic Energy

Expenditures of the Atomic Energy Control Board and payments to Atomic Energy of Canada Limited, totalled \$22 million for 1957-58, the same as for 1956-57.

Administration expenses of the Atomic Energy Control Board and grants for research and investigations with respect to atomic energy were \$0.4 million compared with \$0.3 million for the previous year.

During the fiscal year \$21 million was paid to Atomic Energy of Canada Limited, for its research programme, \$1 million less than the 1956-57 payments largely due to delay in the construction of the nuclear power demonstrator project. Of the total, \$14 million was for current operations and maintenance and \$7 million for the construction and acquisition of buildings, land, works and equipment.

In addition, advances of \$3 million were made to Atomic Energy of Canada Limited, during the year, for the construction or acquisition of buildings and equipment at Chalk River and Deep River and for the commercial products division at Ottawa. This brought the total of advances covered, or to be covered, by obligations or shares of the company to \$56 million at March 31, 1958.

Canadian Broadcasting Corporation

Grants of \$43 million were made by the government to the Canadian Broadcasting Corporation during 1957-58, compared with \$39 million in 1956-57. The increase of \$4 million was due to an increase of \$6 million in the grant toward the deficit in radio broadcasting and television service offset in part by a decrease of \$2 million in the payment to the corporation of an amount equal to the collection of the 15 per cent special tax imposed on radio and television sets and tubes.

The following table presents a comparative summary of expenditures and advances for the past five years:

The corporation repaid \$252 thousand during the year, the balance being \$27 million at March 31, 1958. Interest at various rates is being paid semi-annually and is included in non-tax revenues under the heading "Return on investments".

Citizenship and Immigration

Expenditures of the Department of Citizenship and Immigration were \$52 million in 1957-58, an increase of \$8 million over the \$44 million spent in 1956-57.

This increase was due mainly to an increase of \$4 million in Indian Affairs, particularly for Indian education, and \$3 million in immigration expenditures which included family assistance under which children of immigrants under the age of sixteen in their first year in Canada are eligible for a monthly allowance of \$5. The increase in immigration expenditures was due to higher immigration and Hungarian refugee movements.

A comparative summary of expenditures for 1957-58 and 1956-57 is presented in the following table:

External Affairs

Expenditures of the Department of External Affairs for 1957-58 remained unchanged in total from the \$60 million spent in 1956-57.

The decrease of \$2 million in Canada's assessment for membership in international or Commonwealth organizations, which was due mainly to a change in the effective date of payments in 1956-57, thereby increasing the payments for that year, was offset by increases in assistance to other countries, contributions to international organizations, representation abroad and administration and general expenses.

The following table presents a comparative summary of expenditures for 1957-58 and 1956-57:

Finance

The major items of expenditure for the Department of Finance have been dealt with in previous paragraphs under the headings of "Public debt charges", "Subsidies and tax-sharing payments to provinces", "Grants to Canada Council" and "Government contributions with respect to the superannuation account".

Other expenditures amounted to \$59 million, an increase of \$8 million over the 1956-57 total of \$51 million. The increase is accounted for by increases of \$8 million in grants to municipalities in lieu of taxes on federal property and \$2 million in administration expenses of the Office of the Comptroller of the Treasury, partly offset by decreases of \$1 million in premium, discount and exchange and \$1 million in administration and general costs.

A comparative summary of expenditures for 1957-58 and 1956-57 is presented in the following table:

Mines and Technical Surveys

Expenditures of the Department of Mines and Technical Surveys for 1957-58 were \$36 million, the same as for 1956-57. A decrease of \$1 million in connection with the movement of coal under the Dominion Coal Board was offset by smaller increases in other expenditure categories.

National Health and Welfare

Family allowance payments amounting to \$438 million and the reduction in the amount of temporary loans to the old age security fund amounting to \$104 million constituted the main items of expenditure for the Department of National Health and Welfare for 1957-58 and have been dealt with under separate headings in preceding paragraphs. Civil defence expenditures, amounting to \$4 million have been dealt with under the heading "Defence expenditures".

Other expenditures of the department in 1957-58 were \$117 million, an increase of \$12 million over the \$105 million spent in 1956-57.

The following table presents a comparative summary of expenditures for 1957-58 and 1956-57:

Expenditures for Indian and Eskimo health services were \$20 million for 1957-58 compared with \$18 million for 1956-57, and for other health services they were \$10 million in 1957-58 compared with \$7 million in 1956-57.

General health grants to the provinces for assistance in hospital construction, general health services and the control of diseases totalled \$35 million in 1957-58 compared with expenditures of \$36 million in 1956-57. A comparative summary, by provinces, of these payments for 1957-58 and 1956-57 is presented in the following table:

Under the Old Age Assistance Act, the federal government reimburses the provinces by paying 50 per cent of the lesser of \$55 monthly or the amount of assistance given by the provinces in the form of monthly pensions to eligible persons in need who are in the age group 65 to 69. (Under the Old Age Security Act, all persons 70 years and over who satisfy the residence requirements of the Act may receive a pension of \$55 per month from the federal government out of the old age security fund.) Similarly, the federal government reimburses the provinces under the Blind Persons Act for allowances of not more than \$55 per month to blind persons in need over the age of 18 by paying 75 per cent of the total payments, and under the Disabled Persons Act by paying 50 per cent of not more than \$55 per month for allowances to disabled persons in need over the age of 18 years. Two sets of amendments to the Old Age Assistance Act, the Blind Persons Act, and the Disabled Persons Act, raised the maximum pension towards which the Federal Government would contribute from \$40 to \$46 effective July 1, 1957 and from \$46 to \$55 effective November 1, 1957. Similar increases were made in old age security pensions at the same times, through amendments to the Old Age Security Act. In 1957-58 payments for old age assistance were \$25 million compared with \$20 million in 1956-57, for blind persons allowances \$4 million compared with \$3 million and for disabled persons allowances \$11 million compared with \$7 million.

The Unemployment Assistance Act of 1956 authorized the government to enter into an agreement with any province to provide for a federal contribution toward the costs of unemployment assistance granted by a province or by a municipality. Under the 1956 legislation, subject to certain deductions as set out in the Act, the federal government agreed to pay 50 per cent of these costs. An amendment to the Act approved by Parliament in December, 1957, provided that, effective January 1, 1958, the federal government would be prepared to enter into an agreement whereby the federal contribution would be 50 per cent of all unemployment assistance given by a province or a municipality. Agreements with the provinces cover a period from July 1, 1955 for Newfoundland, Prince Edward Island, Manitoba, Saskatchewan and British Columbia; from January 1, 1956 for New Brunswick; from December 1, 1956 for Ontario; and from January 1, 1958 for Nova Scotia and Alberta. Expenditures of \$8 million in 1957-58 were slightly higher than the expenditures in 1956-57 even though the latter covered a twenty-one month period from July 1, 1955 (the effective date stipulated in the Act) to March 31, 1957.

The following table presents a distribution of payments in 1957-58 to provinces for old age assistance, disabled persons and blind persons allowances and for unemployment assistance.

National Research Council

Expenditures of the National Research Council amounted to \$22 million for 1957-58, \$3 million higher than the 1956-57 total of \$19 million.

The increase of \$3 million consisted of \$1 million in administration and general costs and smaller increases in all other categories.

A comparative summary of expenditures for the last two fiscal years is presented in the following table:

Northern Affairs and National Resources

Expenditures of the Department of Northern Affairs and National Resources were \$49 million in 1957-58, \$12 million above the 1956-57 total of \$37 million.

This was due mainly to increases of \$6 million in the expenditures in the Northwest Territories by the northern administration and lands branch (\$5 million for the construction or acquisition of buildings, works, land and new equipment and \$1 million in the costs of operation and maintenance), \$2 million by the national parks branch, \$3 million by the forestry branch (due mainly to a forest access road programme) and \$1 million in administration and general costs.

The increase in the administration and general costs was due mainly to contributions to the provinces, pursuant to agreements entered into, with the approval of the Governor in Council, by Canada with the provinces, of amounts equal to one-half of the amounts spent by the provinces for camp ground and picnic area developments.

A comparative summary of expenditures for 1957-58 and 1956-57 is given in the following table:

Post Office

Gross expenditures of the Post Office Department for 1957-58 were \$178 million, compared with the 1956-57 amount of \$162 million.

Remuneration of postmasters and staffs at revenue and semi-staff offices, commissions and sub-offices and certain other authorized disbursements are paid from revenue. These payments are included in the \$178 million total and were \$25 million for the fiscal year as compared with \$22 million for the previous year.

Budgetary expenditures for 1957-58 were \$153 million, an increase of \$13 million over the 1956-57 total of \$140 million. The increase was due mainly to increases of \$6 million on account of the general salary increase effective May 1, 1957, and \$5 million in costs of movement of mail.

The following table presents a comparative summary of expenditures for 1957-58 and 1956-57:

Public Works

Expenditures of the Department of Public Works were \$206 million for 1957-58, an increase of \$41 million over the 1956-57 expenditures of \$165 million. Of the \$26 million increase in costs of the development engineering services \$25 million was attributable to the trans-Canada highway; costs of public buildings construction and services increased by \$11 million, of which \$9 million was for the acquisition, construction and improvements of public buildings in Ottawa; and costs of the harbours and rivers engineering services increased by \$3 million due mainly to the acquisition, construction and improvements of harbour and river works.

Royal Canadian Mounted Police

Expenditures of the Royal Canadian Mounted Police for 1957-58 were \$47 million, an increase of \$4 million over the \$43 million spent in 1956-57. This increase is accounted for by a larger outlay of \$2 million in land and air services, and \$1 million each in marine services and headquarters administration and general (due mainly to the salary increase effective May 1, 1957). These payments represented gross expenditures; payments received from the provinces and municipalities for police services totalling \$7 million were credited to revenue.

The following table presents a comparative summary of expenditures for 1957-58 and 1956-57:

Trade and Commerce

Expenditures of the Department of Trade and Commerce were \$57 million for 1957-58 compared with \$55 million for 1956-57. The net increase of \$2 million was due to increases of \$2 million each in assistance re storage costs of grain and in administration and general expenditures, offset in part by a decrease of \$3 million in the outlay of the Dominion Bureau of Statistics. The 1957-58 expenditures of the Dominion Bureau of Statistics did not include an item comparable to the \$4 million spent in 1956-57 for the 1956 census.

Transport

Expenditures of the Department of Transport for 1957-58 amounted to \$207 million, an increase of \$49 million over the 1956-57 total of \$158 million.

Expenditures for air services were \$90 million for 1957-58, an increase of \$20 million over those of the previous year. This was due to an increase of \$12 million in the outlays of the civil aviation division, of which \$9 million was for the construction and acquisition of buildings, works, lands and new equipment including construction work on municipal airports and \$3 million for the control of civil aviation, air traffic control and the operation and maintenance of airways and airports; an increase of \$6 million in the outlays of the telecommunications division of which \$4 million was for the construction and acquisition of new radio aids to navigation facilities; and an increase of \$2 million in the costs of the meteorological division.

Expenditures for marine services at \$33 million, increased by \$5 million over the 1956-57 total. Higher expenditures for the construction and acquisition of steamers accounted for the major portion of this increase.

Expenditures for railway and steamship services amounted to \$18 million, a decrease of \$2 million from the previous year. Reductions of \$1 million in costs of construction and acquisition of auto-ferries and \$1 million in expenditures in connection with the Strait of Canso causeway accounted for this decrease.

Expenditures for the Board of Transport Commissioners were \$13 million, the same as in the previous year.

During 1957-58, \$31 million was paid to cover the net operating deficits of certain Crown corporations, an increase of \$23 million over the 1956-57 amount of \$8 million. Of this increase \$22 million was the result of the reimbursement to the Canadian National Railways on account of its 1957 deficit, for which there was no corresponding charge in 1956-57.

"Non-active" advances to the National Harbours Board were \$5 million in 1957-58 compared with \$4 million for 1956-57.

Veterans Affairs

Expenditures of the Department of Veterans Affairs amounted to \$277 million in 1957-58, an increase of \$26 million over the 1956-57 total of \$251 million. The net increase was mainly accounted for by an increase of \$15 million in pensions for disability or death; an increase of \$7 million in war veterans allowances (the result of legislation authorizing increases in monthly payments of pensions and allowances effective July 1 and November 1, 1957); an increase of \$4 million in the costs of treatment services; and a decrease of \$2 million in the provision for reserve for conditional benefits under the Veterans Land Act.

Expenditures relating to the administration of the Soldier Settlement and Veterans Land Acts were \$5 million, the same as for the preceding year, while the provision for the reserve for conditional benefits under the Veterans Land Act was \$5 million. These conditional benefits are granted to veterans who enter into agreements with the director for purchases of land and chattels provided they fulfil the terms of the agreements for ten years. The amount charged to expenditures under this heading covers one-tenth of the conditional benefits included in sales to veterans.

Presented in the following table is a comparative summary of expenditures for 1957-58 and 1956-57:

All other departments

Expenditures during 1957-58 of departments not dealt with in preceding sections, amounted to \$90 million. This was an increase of \$20 million over the comparable 1956-57 figure of \$70 million. The increase was mainly the result of a \$13 million increase in the expenses of the Chief Electoral Officer, due to the June 1957 and March 1958 federal elections; an increase of \$3 million in expenditures of the Department of Fisheries, mainly in the outlays of the Fisheries Research Board; and an increase of \$2 million in expenditures of the Department of Labour, the major part of which was for vocational training.

4. STATEMENT OF ASSETS AND LIABILITIES OF CANADA

A. SUMMARY

The statement of the assets and liabilities of the Government of Canada, as certified by the Auditor General, is presented on pages 94 and 95 on a comparative basis, showing the balance of each of the principal classifications of accounts at March 31, 1958, the corresponding balance at March 31, 1957, and the increase or decrease during the fiscal year 1957-58. It is followed by explanatory notes and by detailed schedules of the accounts which are also presented on a comparative basis. A description of the structure and more significant features of the statement of assets and liabilities is given in the section on "The Government's Accounting System".

A condensed statement of the assets and liabilities of the Government of Canada at March 31, 1958 and March 31, 1957, and the increases or decreases during the fiscal year 1957-58 is presented in the following table:

B. CHANGES IN PRINCIPAL LIABILITY CLASSIFICATIONS DURING 1957-58

The gross liabilities of the government increased by \$83 million during the fiscal year. Increases of \$284 million in annuity, insurance and pension accounts, \$66 million in suspense accounts and \$12 million in deposit and trust accounts were only partly offset by decreases of \$128 million in current and demand liabilities, \$123 million in unmatured debt and \$27 million in undisbursed balances of appropriations to special accounts.

Current and demand liabilities

Current and demand liabilities decreased by \$128 million during the fiscal year. Decreases of \$81 million in outstanding treasury cheques, \$32 million in accounts payable, \$12 million in matured debt outstanding, \$8 million in non-interest bearing notes to the international monetary fund and the international bank for reconstruction and development, \$2 million in interest due and outstanding, \$2 million in the net liability for post office money orders were offset in part by an increase of \$9 million in interest accrued.

TOTAL LIABILITIES

The changes in the various accounts are shown in the following table:

	874.9	1,002.9	—128.0

Deposit and trust accounts

Deposit and trust accounts increased by \$12 million during 1957-58. The major changes in this category were increases of \$10 million due to a new account "Crown corporation deposits" and \$9 million in contractors securities, and decreases of \$6 million in contractors holdbacks and \$3 million in the prairie farm emergency fund.

In 1957-58 the Governor in Council authorized Crown corporations to deposit in the consolidated revenue fund, with the approval of the appropriate Minister and the Minister of Finance, that portion of their cash which was temporarily in excess of their current requirements and earn interest on minimum monthly balances at a rate determined on the basis of weekly treasury bill yields. These deposits were credited to a new deposit and trust account named "Crown corporation deposits". At March 31, 1958 the balance in the account was \$10 million.

Also during the fiscal year the par value of all bonds and certified cheques held by the government as a guarantee of the fulfilment of contracts was set up in the deposit and trust account "Contractors securities." This amount was also included in the asset category "Securities held in trust" as a contra item. At March 31, 1958 the value of these securities was \$13 million which with a decrease of \$4 million in contractors securities—cash made a net increase of \$9 million in the contractors securities account.

The decrease of \$6 million in the contractors holdbacks account was due to decreases of \$5 million in the holdbacks by Defence Construction Limited and \$1 million in those of the Department of National Defence.

The prairie farm emergency fund's 1957-58 operations resulted in a deficit of \$9 million for the fiscal year. However, as there was a credit of \$3 million in the fund at March 31, 1957, only \$6 million was charged to budgetary expenditures in 1957-58, leaving a nil balance in the fund at March 31, 1958.

A change was made in 1957-58 in the method of recording those portions of certain deposit and trust liabilities that are held in the form of bonds. In prior years these were shown as deductions from the gross liability whereas at March 31, 1958 they are included in the new asset account "Securities held in trust" with the gross liability shown under the deposit and trust heading. For comparative purposes, in the following table the March 31, 1957 balances have been adjusted in accordance with this new method of presentation.

Annuity, insurance and pension accounts

Annuity, insurance and pensions accounts increased by \$284 million in 1957-58. The following table reflects the changes during the fiscal year:

TABLE 53
(In millions of dollars)

ANNUITY, INSURANCE AND PENSION ACCOUNTS	Balance at March 31		Increase or decrease (—)
	1958	1957	
Unemployment insurance fund.....	754.8	885.7	—130.9

Other.....	90.5	83.8	6.7
	2,712.8	2,429.0	283.8

The unemployment insurance fund decreased by \$131 million during the year reducing the balance at March 31, 1958 to \$755 million. Of this amount \$740 million was invested in bonds and accrued interest and \$15 million was held by the Receiver General in the consolidated revenue fund. The decrease of \$131 million in the fund represents the amount by which benefit payments totalling \$385 million exceeded contributions by employers and employees of \$189 million, contributions by the government of \$38 million, income from investments of \$24 million and other miscellaneous revenue credited to the fund. Benefit payments were \$154 million higher than the \$231 million paid out in 1956-57.

The government annuities account increased by \$58 million reflecting the amount by which premium receipts of \$63 million, interest credited to the account by the government of \$38 million and the amount of \$1 million required to maintain the reserve exceeded payments of \$44 million to annuitants and beneficiaries.

The increase of \$127 million in the superannuation account was due mainly to the government's contribution of \$34 million equal to the estimated current and prior service payments of individuals in 1956-57, the government's contribution of \$44 million in respect of the civil service salary increase effective May 1, 1957 and \$40 million interest credited to the account. The remainder of the increase was due to the excess of employees current and prior service contributions of \$38 million and miscellaneous receipts of \$2 million over benefit payments of \$31 million.

The permanent services pension account increased by \$88 million during 1957-58, reflecting the government's contribution of \$50 million which is made at the rate of one and two-thirds times the current and prior service contributions, interest on the account of \$18 million and contributions of \$29 million by permanent services personnel for current and prior years service less payments of \$9 million from the account.

Other annuity, insurance and pension accounts showed an increase of \$7 million for the fiscal year.

Old age security fund

Under the Old Age Security Act pensions of \$55 per month are paid, without a means test, from the old age security fund to all eligible persons seventy years of age and over. The monthly allowance was raised from \$40 to \$46 effective July 1, 1957 and from \$46 to \$55 effective November 1, 1957. Payments from the fund during the fiscal year were \$474 million while credits to the fund from the proceeds of the 2 per cent tax on personal incomes (maximum tax \$60), the 2 per cent tax on corporation profits and the 2 per cent sales tax totalled \$372 million. Temporary loans amounting to \$102 million were required to cover the deficit resulting from these transactions during 1957-58. This \$102 million deficit and the remainder of the 1956-57 deficit of \$2 million were charged to budgetary expenditures in 1957-58 in accordance with Vote 820 of the Special Appropriation Act, 1958.

The following table shows the transactions in the old age security fund for the fiscal years 1953-54 to 1957-58 inclusive:

Undisbursed balances of appropriations to special accounts

This category records the undisbursed balances of appropriations to special accounts for which moneys have been appropriated by Parliament and from which disbursements may be made for authorized purposes in periods subsequent to that in which the appropriation was made. There was a net decrease of \$27 million during the year as shown in the following table:

TABLE 57
(In millions of dollars)

UNDISBURSED BALANCES OF APPROPRIATIONS TO SPECIAL ACCOUNTS	Balance at March 31		Increase or decrease (-)
	1958	1957	
National defence equipment account (section 3, Defence Appropriation Act, 1950).....	211.8	236.1	-24.3
Colombo plan fund.....	60.4	65.9	-5.5

Railway grade crossing fund.....	12.6	9.5	3.1
Other.....	0.1	0.1
	285.4	312.5	-27.1

The transactions in the national defence equipment account resulted in a decrease in the undisbursed balance in the account which was established under Section 3 of the Defence Appropriation Act, 1950, and continued by subsequent votes of Parliament. Under the terms of the Act, the value of defence materials and supplies acquired prior to March 31, 1950, and transferred to members of the North Atlantic Treaty Organization, may be credited to the account and these credits may be used in subsequent years to purchase equipment or supplies for the naval, army or air services of the Canadian forces. Disbursements from the account during the fiscal year were \$24 million. No credits have been made to this account since 1956. The Minister of Finance announced in his budget speech of June 17, 1958 that this account would be liquidated during 1958-59.

The decrease of \$6 million in the Colombo Plan Fund represented the amount by which disbursements from the fund of \$40 million exceeded the \$34 million credited to the fund out of moneys voted by Parliament for assistance to countries in south and south-east Asia.

The increase of \$3 million in the railway grade crossing fund represented the amount by which the \$5 million credited to this account and charged to expenditure exceeded disbursements from the account of \$2 million.

Suspense accounts

Suspense accounts increased by \$66 million during the fiscal year. The changes in the principal accounts in this category during the period are summarized in the following table:

TABLE 58
(In millions of dollars)

SUSPENSE ACCOUNTS	Balance at March 31		Increase or decrease (—)
	1958	1957	
Agreements of sale of Crown assets.....	19.0	23.1	—4.1

Unclaimed cheques.....	4.0	4.8	—0.8
Other.....	3.2	2.4	0.8
	113.3	47.6	65.7

Balances receivable under agreements of sale of Crown assets are set up as contra accounts to corresponding items under other loans and investments. The decrease of \$4 million during the year reflected payments on outstanding agreements including \$1 million each from Canadair Limited and Orenda Engines Limited.

The government's equity in the agency account of Crown Assets Disposal Corporation decreased by \$1 million, leaving a balance in the account of \$6 million at March 31, 1958.

In 1957-58 new accounts were set up to record interest due the government but payment of which had been deferred. The total of \$49 million in these accounts is made up of \$44 million on loans made under the United Kingdom Financial Agreement Act, 1946, and \$5 million on loans made to The St. Lawrence Seaway Authority. These are contra accounts to corresponding items under loans to national governments and loans to, and investments in, Crown corporations. Further explanations are given under these categories.

The increase of \$5 million in the international monetary fund—revaluation of Canadian dollar balance account, represented adjustments occasioned by the decreased value in terms of Canadian dollars of Canada's subscription to the fund. Further explanations are given in the categories "Other loans and investments" and "Suspense accounts" (assets).

Military relief and currency credits decreased by \$1 million. These are contra accounts to those under "Cash—blocked currency" and "Loans to national governments". The decrease of \$1 million represented the expenditure of blocked currency during the fiscal year 1957-58.

Paylist deductions increased by \$1 million during the year. These deductions are for Canada savings bonds, income tax, etc., and are credited to this account pending transmittal to the Department of Finance or to the department concerned.

The replacement of materiel account established by section 11 of the National Defence Act is credited with amounts realized from the sale of materiel that has not been declared surplus to requirements but has been authorized by the Governor in Council to be sold to other countries. The account is debited with disbursements representing amounts paid for the procurement of replacement materiel. During 1957-58 credits to the account exceeded disbursements by \$17 million.

The reduction of \$1 million in unclaimed cheques was due chiefly to the transfer to revenue of cheques unclaimed for ten years or more.

Unmatured debt

The unmatured debt of Canada at the close of 1957-58 amounted to \$14.245 million compared with a total of \$14.368 million at the close of the previous fiscal year. The decrease of \$123 million was attributable entirely to debt payable in Canada. There was no change in debt payable in New York and London.

The details of the various loan issues, redemptions and adjustments resulting in this net decrease are described more fully in the section on "The Public Debt".

In the year under review, unmatured debt obligations payable in foreign currencies have been stated in Canadian dollars converted at the rate of \$2.80 for the pound sterling and par for the U.S. dollar.

C. CHANGES IN PRINCIPAL ASSET CLASSIFICATIONS DURING 1957-58

The total of assets increased during the fiscal year by \$44 million. The principal changes were increases of \$304 million in loans to, and investments in, Crown corporations, \$13 million in securities held in trust (a new category), \$14 million in deferred charges, \$9 million in loans to national governments, \$8 million in other loans and investments, \$1 million in sinking fund and other investments held for retirement of unmatured debt and \$1 million in inactive loans and investments partly offset by decreases of \$250 million in current assets, \$46 million in advances to the exchange fund account and \$9 million in suspense accounts.

Current assets

A decrease of \$250 million in current assets was reflected during the 1957-58 fiscal year. The following table summarizes the change in various accounts in this category:

TABLE 59
(In millions of dollars)

CURRENT ASSETS	Balance at March 31		Increase or decrease (—)
	1958	1957	
Cash in current and special deposits (including blocked currency of \$0.9 million at March 31, 1958 and \$0.4 million at March 31, 1957)...	307.5	472.2	-164.7
Cash in hands of collectors and in transit.....	160.5	132.0	28.5
Departmental working capital advances and revolving funds—			
Agricultural commodities stabilization account.....	26.5	20.7	5.8
Defence production revolving fund.....	54.6	56.4	-1.8
Miscellaneous departmental imprest and advance accounts.....	21.2	21.3	-0.1
Other.....	27.8	25.6	2.2
Securities investment account.....	79.8	204.2	-124.4
Other current assets—moneys received after March 31 but applicable to the current year.....	18.9	14.6	4.3
	696.8	947.0	-250.2

This net decrease of \$250 million in current assets was due mainly to decreases of \$165 million in cash in current and special deposits and \$124 million in the securities investment account which records the government's temporary holdings of its own securities including those held for the government employees purchase plan, offset in part by increases of \$29 million in cash in hands of collectors and in transit, \$6 million in departmental working capital advances and revolving funds and \$4 million in moneys received after March 31 but applicable to the current year.

The increase of \$6 million in departmental working capital advances and revolving funds was due mainly to an increase of \$6 million in the agricultural commodities stabilization account, an increase of \$2 million in other accounts and a decrease of \$2 million in the defence production revolving fund.

The \$6 million increase in the agricultural commodities stabilization account reflected the credit to the account of \$6 million, representing the loss on operations as at March 31, 1958 which was included in the year's expenditure, the net debit of \$10 million representing the excess of purchases over sales during the year and \$2 million in operating costs.

The decrease of \$2 million in the defence production revolving fund reflected the amount by which credits to the account from the sale of essential materials and defence supplies exceeded the cost of acquiring, storing, maintaining and transporting such materials.

Miscellaneous departmental imprest and advance accounts record accountable advances to departments held on deposit in various banks in the name of the department concerned, certain travelling and imprest advances to public officers and advance payments to contractors. During the fiscal year these advances are carried as charges to the relevant appropriations; if they are

Advances to Atomic Energy of Canada Limited, to be covered by obligations or shares of the company, amounted to \$3 million during the fiscal year, bringing advances to \$56 million at March 31, 1958. Advances during the year were for the construction or acquisition of buildings and equipment at Chalk River and Deep River and for the commercial products division at Ottawa. Repayments of \$265 thousand were received from the company in the fiscal year. Advances made in the previous year were covered by the issuance in 1957-58 of \$9 million in capital stock and \$1 million by obligations of the company.

No loans were made during the year to the Canadian Broadcasting Corporation. Total loans to the corporation outstanding at March 31, 1958 were \$27 million. Grants made to the corporation during the fiscal year amounted to \$43 million, of which \$2 million was in connection with the international shortwave broadcasting service.

Advances to the Canadian Farm Loan Board during the year amounted to \$14 million, bringing total loans to the Board outstanding at March 31, 1958 to \$65 million. Repayments of \$128 thousand were received from the Board during the year.

In the fiscal year ended March 31, 1958, the government advanced \$233 million to the Canadian National Railway Company for capital purposes and the retirement of debt in the hands of the public. During the year the Company repaid \$295 million of current and prior year's advances and thus reduced by \$62 million the amount of advances outstanding at March 31, 1958 compared with March 31, 1957. Of the \$295 million repaid, \$289 million was made available from the sale to the public of \$300 million Canadian National Railway Company 4% bonds guaranteed by the Government of Canada.

During the fiscal year the government also purchased \$22 million of 4 per cent preferred stock of the Canadian National Railways to assist the company to finance additional capital expenditures. This stock is issued pursuant to the provisions of the Canadian National Railways Capital Revision Act, 1952, in an amount equal to three per cent of the gross revenues of the company.

To cover the income deficits of the Railway Company the Government provided the company with \$51 million during the year by way of temporary loans. Of this amount \$22 million in respect of the 1957 calendar year deficit was written off to expenditure under the authority of Vote 855 of the Special Appropriation Act, 1958. At March 31, 1958, \$29 million was outstanding on this account.

The total amount made available to the company during the fiscal year was \$306 million and repayments and write-off amounted to \$317 million resulting in a net decrease of \$11 million in the amount outstanding at the end of the fiscal year compared with the previous fiscal year-end.

The following table presents a summary of the transactions with the company during the fiscal year 1957-58:

Loans to Central Mortgage and Housing Corporation during the year amounted to \$114 million, of which \$98 million was for direct loans by the corporation and joint loans with lending institutions, \$15 million for federal-provincial housing projects and \$1 million for advances for house construction. Repayments totalled \$6 million of which \$5 million was in respect of advances for house construction and \$1 million in respect of loans for federal-provincial projects. The net increase for the year in loans to the corporation was \$108 million.

Active advances to the National Harbours Board amounted to \$11 million during the year, bringing the amount outstanding to \$125 million at March 31, 1958. There were no repayments by the Board during the year. This balance represented all the outstanding advances to the Board in connection with harbour developments at Montreal and Vancouver and a portion of those in respect of Three Rivers. In addition, non-active advances to the Board amounted to \$5 million which were charged to Net Debt at the year-end. These were in connection with harbour developments at Churchill, Halifax, Quebec and Saint John.

Loans to the Northern Ontario Pipe Line Crown Corporation in connection with the construction of the Northern Ontario section of the all-Canadian natural gas pipe line totalled \$71 million in 1957-58. There were no repayments by the corporation during the year.

Advances to The St. Lawrence Seaway Authority during the year amounted to \$95 million bringing total loans at the close of the year to \$172 million. In order to record the amounts of interest being deferred on these advances a new account was set up under this category called "The St. Lawrence Seaway Authority—deferred interest" to which has been credited the sum of \$5 million representing the amount of interest deferred up to March 31, 1958. Under the terms of the loans the Authority will pay an annual amount sufficient to amortize both principal and interest over a period of forty-seven years commencing on December 31 of the fourth year immediately following the calendar year in which the Authority first receives tolls from its operations. A contra item in the same amount was credited to a new account "Deferred interest" under the category "Suspense liabilities". Further information is given under that category.

Loans to national governments

The loans to national governments consist of loans to the United Kingdom under the authority of the War Appropriation (United Kingdom Financing) Act, 1942, and the United Kingdom Financial Agreement Act, 1946, loans to other countries under Part II of the Export Credits Insurance Act, 1946, and miscellaneous foreign loans. The following table summarizes the changes in these accounts during the fiscal year:

During the current year the Government of the United Kingdom reduced the balance of the \$700 million interest-free loan granted under the provisions of the War Appropriation (United Kingdom Financing) Act, 1942 by \$30 million as arranged under the terms of an agreement entered into on August 13, 1953, between the Governments of the United Kingdom and Canada. The balance outstanding at March 31, 1958 was \$23 million. Under the terms of the agreement the loan is to continue to be interest-free until December, 1958.

The Government of the United Kingdom deferred the payment of principal and interest on the \$1.185 million loan made under the \$1.250 million credit authorized by the United Kingdom Financial Agreement Act, 1946, the principal outstanding at the close of the year remaining at \$1,097 million. The deferment of principal and interest was by an agreement between the Government of Canada and the Government of the United Kingdom that was approved by a 1957 Act to amend the United Kingdom Financial Agreement Act, 1946. The agreement, which became effective April 29, 1957, permits the United Kingdom in lieu of any right of waiver hitherto existing to defer after December 31, 1956, seven instalments of principal and interest under certain conditions. The first of any such deferred instalments is payable on December 31, 2001, and the others annually thereafter, in order. In addition it permitted the instalment of interest in respect of the year 1956 to be deferred and provided that this instalment of interest so deferred shall be paid on December 31 of the year immediately following the year in which the last of all other instalments, including those deferred, is due. Interest at 2 per cent is payable on deferred instalments of both principal and interest.

In order to record the deferred interest a new account was set up under loans to national governments called "The United Kingdom Financial Agreement Act, 1946—deferred interest" to which the amount of \$44 million was credited representing the amount of the December 1956 and December 1957 deferred interest instalments. A contra item in the same amount was credited to a new account "Deferred interest" under the category "Suspense liabilities". Further information is given under that category.

As shown in the preceding table, repayments of advances under Part II of the Export Credits Insurance Act to certain foreign countries to assist them in purchasing goods and services in Canada amounted to \$20 million for the year.

Miscellaneous loans and advances to foreign governments increased by \$15 million. By an agreement between the Government of Canada and the Government of India, loans totalling \$16 million were made to that country during the year to finance the purchase of wheat and flour from Canada. The loans bear interest at 4½ per cent per annum and are repayable by March 31, 1967 in seven equal annual instalments beginning March 31, 1961.

Other loans and investments

Other loans and investments include Canada's subscription to the capital of and working capital advances and loans to international organizations, loans to provincial and municipal governments, advances to veterans under the Veterans Land Act (less the reserve for conditional benefits) and a number of miscellaneous loans and investments. The following table shows the changes during the fiscal year:

The accounts of the international monetary fund are maintained in terms of United States dollars. In order to keep the government's subscription at the required amount, that portion represented by Canadian dollar balances is revalued quarterly and any settlement required is made annually as at April 30, the end of the fund's fiscal year. The increase of \$5 million during the fiscal year reflected the settlement at April 30, 1957 and the subsequent quarterly adjustments due to the revaluation of the Canadian dollar balances. Further explanations are given in the comments on the asset and liability suspense accounts categories.

Loans to provincial governments decreased by \$3 million, reflecting repayments by the governments concerned.

Overpayments to provinces arising out of 1952 tax-rental agreements amounted to \$5 million. During the course of the fiscal year \$1 million was recovered leaving a balance of \$4 million due at March 31, 1958. The outstanding overpayments bear no interest.

Under the 1952 agreements, at their termination, payments were to be recalculated using revised G.N.P. and population figures based on the 1956 census. The revised G.N.P. figures did not differ materially from those originally used, but the census revealed an increased national population and thus a smaller G.N.P. per capita. This coupled with an over-estimation of population for Newfoundland, Prince Edward Island, New Brunswick, Manitoba and Saskatchewan, would have resulted in substantial overpayments to those provinces had the fourth quarterly instalments been paid on March 31, 1957. However, under the agreements quarterly instalments were not required on March 31, 1957, being replaced in the agreements' final year by terminal payments payable not later than April 30, 1957, which were to adjust any over- or under-payments made during the period of the agreements. In the terminal settlement, all underpayments were adjusted. As those provinces that had been overpaid would have suffered severe budgetary strain had the over-payments been recovered in their entirety from the terminal payment, the federal government agreed to amend the 1952 tax agreements and made payments equivalent to the full quarterly instalments. Any overpayment was to be recovered by equal monthly deductions from the payments accruing to the provinces concerned under the 1957 tax-sharing arrangement. The five provinces which had received overpayments subsequently signed Memoranda of Agreement amending their 1952 agreements to give effect to the above.

There was a net decrease of \$3 million in advances under the Veterans Land Act, resulting from a decrease in advances of \$13 million and an offsetting decrease of \$10 million in the reserve for conditional benefits under the Veterans Land Act.

Miscellaneous loans and investments showed an increase of \$5 million during the current fiscal year. The principal changes resulting in this increase were increases of \$4 million in the acquisition of land to control properties in the vicinity of main terminal airports, \$3 million in loans under the assisted passage scheme and \$3 million in other accounts and decreases of \$4 million in balances receivable under agreements of sale of Crown assets, reflecting repayments received on previous agreements of which \$1 million was received from Canadair Limited and \$1 million from Orenda Engines Limited.

Securities held in trust

This is a new category set up to record the security holdings of various deposit and trust and annuity, insurance and pension and liability suspense accounts that were formerly shown as deductions from the liability. Bonds and certified cheques held in connection with contractors' securities deposits listed under deposit and trust accounts are also recorded under this heading. The balance at March 31, 1958 was \$22 million.

Deferred charges

This category consists of the residual balance of discounts and commissions, redemption bonuses and conversion premiums on loan flotations that have not been amortized or written off to expenditure.

The balance of the unamortized bond discount and commission account increased from \$64 million on March 31, 1957 to \$78 million at March 31, 1958. The net increase of \$14 million during the fiscal year reflected the amount by which the aggregate payments of \$43 million charged to the account for commissions and discounts on new loans and \$5 million representing the unamortized portion of the discount on treasury bills issued in 1957-58 and maturing in 1958-59 (which will be charged to interest on public debt in 1958-59) exceeded the annual amortization charges of \$34 million. This latter amount included \$8 million charged to interest on public debt representing the unamortized discount of treasury bills issued in 1956-57 and maturing in 1957-58.

The following table presents a summary of transactions in the account during the past two fiscal years:

TABLE 64

Unamortized portion of actuarial deficiency in the superannuation account

There was no change during the fiscal year in the unamortized portion of the actuarial deficiency in the superannuation account (that portion of the government's liability in respect of the superannuation account that has not been charged to budgetary expenditure); the balance at March 31, 1958 remained at \$139 million.

Suspense accounts

The decrease of \$9 million in this category was due almost entirely to the adjustment of the government's Canadian dollar equity in the international monetary fund. The accounts of the fund are maintained in terms of United States dollars. In order to keep the government's subscription at the required amount, that portion represented by Canadian dollar balances is revalued quarterly and any settlement required is made annually as at April 30, the end of the fund's fiscal year. The annual settlement with the fund at April 30, 1957 reduced the balance in this account from \$8 million at the beginning of the fiscal year to nil at April 30, 1957. Due to the decreased value of the Canadian dollar in terms of the United States dollar, subsequent quarterly adjustments are reflected in the liability suspense category. The remainder of the decrease was due to a reduction in the temporary loans made by the Minister of Finance to the old age security fund. The remaining \$2 million of the \$8 million advanced in 1956-57 and the \$102 million advanced in 1957-58 was charged to expenditure in that year in accordance with Vote 820 of the Special Appropriation Act, 1958.

Capital assets

Capital assets which consist of assets of the government such as land, buildings, works and equipment, etc., that are charged to budgetary expenditures at the time of acquisition or construction, are shown on the statement of assets and liabilities at a nominal value of \$1.

Inactive loans and advances

This category records those loans and advances which are not currently revenue-producing or realizable. At March 31, 1958 the balance was \$91 million and included the loan of \$49 million to China under the Export Credits Insurance Act, loans of \$24 and \$7 million made to Roumania and Greece in 1919-20 and 1920-21 and advances of \$11 million in respect of the implementation of guarantees (Ming Sung Industrial Company Limited), an increase of \$1 million over March 31, 1957.

Reserve for losses on realization of assets

There was no change in the reserve for losses on realization of assets during the year. The balance at March 31, 1958 was \$546 million.

D. INCREASE IN NET DEBT

The budgetary deficit of \$38 million for the fiscal year 1957-58 resulted in an increase of \$38 million in the net debt of Canada from \$11,008 million at March 31, 1957 to \$11,046 million at March 31, 1958.

E. CONTINGENT LIABILITIES

In addition to its direct liabilities which are reflected in the statement of assets and liabilities of Canada, the government has assumed certain contingent liabilities, the details of which are set out in the section of this survey on "The Public Debt" and on page 112.

The major categories of this indirect or contingent debt are the guarantee of insured loans under the National Housing Act, the guaranteed bonds and debentures of the Canadian National Railways and the guarantee of deposits maintained by the chartered banks in the Bank of Canada. The remainder consists chiefly of guarantees of loans made by chartered banks to the Canadian Wheat Board and to farmers and veterans for certain authorized purposes and guarantees under the Export Credits Insurance Act.

5. THE CASH POSITION

The government's cash position is affected not only by the budgetary transactions explained in some detail in preceding sections but also by non-budgetary transactions and changes in the government's outstanding unmatured debt. Although there was a budgetary deficit of \$38 million in 1957-58, the government's bank balances declined by \$165 million during the same period. This decrease was the net result of the budgetary deficit of \$38 million, a cash requirement of \$127 million for non-budgetary transactions and a very small increase in outstanding unmatured debt (after taking into account transactions in the securities investment and sinking fund accounts).

Non-budgetary receipts and credits relate to transactions which result in increases or decreases in the government's assets and liabilities and do not appear in what might be called the government's income account for the fiscal year nor do they enter into the calculation of the annual budgetary surplus or deficit. However, in considering the full scope of the government's financial operations and in measuring their effect on the government's cash position and their impact on the economy, non-budgetary as well as budgetary transactions must be taken into account.

The increases or decreases in the government's assets and liabilities have been described in detail in the section entitled "Statement of Assets and Liabilities of Canada". On the assets side the non-budgetary transactions consist, for the most part, of loans and advances to, and repayments by, Crown corporations and other government agencies and funds (including the old age security fund), national, provincial and municipal governments, international organizations, veterans and other borrowers. On the liabilities side they relate mainly to receipts and payments in connection with the many deposit and trust accounts, and annuity, insurance and pension funds held or administered by the government.

The following statement summarizes the non-budgetary transactions for 1957-58 and indicates how they, together with the budgetary transactions and changes in the unmatured debt position, affected the government's cash position. For purposes of comparison, the corresponding figures for 1956-57 are also shown.

As the table shows, non-budgetary receipts and credits for 1957-58 (excluding unmatured debt transactions) totalled \$435 million while non-budgetary disbursements and charges (also excluding unmatured debt transactions) amounted to \$562 million, resulting in a net amount of \$127 million required for non-budgetary transactions. As there was a budgetary deficit of \$38 million, \$165 million had to be financed by an increase in unmatured debt or a decrease in cash balances. In 1956-57 there was \$166 million available from non-budgetary transactions and this together with the budgetary surplus of \$258 million made \$424 million available for debt reduction or increase in cash balances.

Non-budgetary receipts and credits totalled \$435 million in 1957-58. Repayments of loans, investments and working capital advances were \$119 million and included \$30 million from the Government of the United Kingdom, \$21 million from other national governments, and \$11 million from Canadian National Railways (loans and advances of \$284 million together with purchases of \$22 million of 4 per cent preferred stock of the company were more than offset by repayments by the company of \$295 million, of which \$289 million was from the proceeds of a bond issue to the public, and \$22 million that was charged to budgetary expenditure in respect of the company's 1957 operating deficit). Net government annuities account receipts were \$58 million and net insurance and pension account receipts were \$221 million. Temporary loans to the old age security fund were reduced by \$2 million. Such loans outstanding at the first of the year were \$2 million and during 1957-58 temporary loans to the fund amounted to \$102 million. Parliament authorized the writing-off to budgetary expenditure in 1957-58 of the outstanding temporary loans of \$104 million. Net receipts and credits in various other accounts amounted to \$35 million.

Non-budgetary disbursements and charges amounted to \$562 million. Loans, investments and working capital advances totalled \$351 million and included \$6 million to the agricultural commodities stabilization account in connection with the purchase and sale of agricultural commodities after allowing for a charge to budgetary expenditure of \$6 million in respect of the loss on operations for 1957-58, \$14 million to Canadian Farm Loan Board for the purpose of making loans to farmers, \$107 million to Central Mortgage and Housing Corporation for the purpose of making housing loans, \$16 million to the Government of India for the purchase of Canadian wheat, \$70 million to Northern Ontario Pipe Line Crown Corporation for financing the Northern Ontario section of the natural gas pipe line, and \$95 million to The St. Lawrence Seaway Authority for the dredging and construction of the seaway. Other non-budgetary disbursements and charges totalled \$211 million and included \$8 million for net payments from the special defence accounts and \$128 million for the net decrease in current and demand liabilities (such as outstanding cheques and outstanding matured debt).

In summary, as unmatured debt outstanding in the hands of the public increased slightly (after taking into account transactions in the securities investment and sinking fund accounts) and budgetary and non-budgetary transactions required financing in the amount of \$165 million, cash balances on deposit with the banks were drawn down by \$165 million.

6. THE PUBLIC DEBT

Gross and net debt

The gross debt of Canada amounted to \$18,418 million at March 31, 1958. Of this total, \$14,245 million or approximately 78 per cent consisted of unmatured bonds and treasury bills the details of which may be found in Appendix No. 4 of Part I of this report. The remaining liabilities, consisting of current and demand liabilities, deposit and trust accounts, annuity, insurance and pension accounts, undisbursed balances of appropriations to special accounts and sundry suspense accounts, at the close of 1957-58 aggregated \$4,173 million or approximately 22 per cent of the total debt.

The net debt of Canada amounted to \$11,046 million, an increase of \$38 million over 1956-57. Total liabilities increased from \$18,336 million to \$18,418 million and net assets increased from \$7,328 million to \$7,372 million at March 31, 1958.

The following table shows the relationship between the gross public debt, the unmatured debt and the net debt as at March 31, 1954 to 1958 inclusive:

The relative burden of the net debt in per capita terms and as a percentage of the gross national product is shown in the table which follows. It is worthy of note that the net debt per capita which was \$727.15 at March 31, 1954 has declined each year to \$647.94 at March 31, 1958, and that, expressed as a percentage of the gross national product, the debt which was 45.4 per cent at March 31, 1954 was 35.1 per cent at March 31, 1958.

GROSS & NET DEBT

NET DEBT AS AT MARCH 31

Unmatured debt

The total unmatured debt of Canada at March 31, 1958 was \$14,245 million. This was \$123 million less than the total at the end of the previous fiscal year and \$331 million less than that at March 31, 1954. However, there was no change in outstanding unmatured debt during the fiscal year as the holdings of securities in the sinking fund and securities investment accounts decreased also by \$123 million. During the same period the gross national product rose from \$24,473 million in 1953 to \$31,443 million in 1957, an increase of 28 per cent. The relative burden, therefore, of the unmatured debt measured in terms of interest charges as a percentage of the gross national product declined from 1.7 per cent in 1953-54 to 1.4 per cent in 1957-58.

Of the total unmatured debt \$13,893 million or 98 per cent was payable in Canada. In terms of Canadian currency the unmatured debt payable in London and New York amounted to \$352 million at the end of 1957-58.

Summary of security issues and redemptions during the year

During the fiscal year 1957-58 the government issued securities payable in Canadian dollars in the principal amount of \$2,527 million (excluding the refunding of treasury bills which mature periodically) and redeemed or converted issues in the amount of \$2,650 million (including the redemption of treasury bills in the amount of \$100 million) all payable in Canadian dollars.

Redemptions were financed as follows:

(in millions of dollars)

By issue of Canada savings bonds, series 12 (net)	1,177
By refunding and conversion	1,350
By available cash	123
	2,650

The net decrease in unmatured debt as a result of these transactions was \$123 million. There was no change during the year in the unmatured debt payable in U.S. dollars and in sterling. At March 31, 1958, the amount payable in New York was \$300 million and the amount payable in London was \$52 million.

Details of redemptions and new issues of securities during the fiscal year are set out in the following tables:

Net sales of Canada savings bonds series 12, which were withdrawn from sale on December 31, 1957, amounted to \$1,177 million and net redemptions of Canada savings bonds series 2 to 11 (of which series 2 matured on November 1, 1957) were \$1,050 million. The net increase during the year for all series was \$127 million and the amount outstanding at March 31, 1958 was \$2,547 million compared with \$2,420 million at the close of the previous fiscal year.

Treasury bills outstanding at the end of the fiscal year amounted to \$1,525 million or \$100 million less than at March 31, 1957.

Interest rates

During the first five months of the year interest rates generally continued to rise and reached a peak during August, 1957. Subsequently, rates dropped considerably and continued the downward trend to the end of the fiscal year. The average interest rate on the government's unmatured debt at March 31, 1958 was 3.05 per cent the same as at the end of the previous fiscal year and 2.86 per cent at March 31, 1954.

The following table sets out the unmatured debt outstanding at March 31 for each of the fiscal years 1954 to 1958 inclusive, with the average rate of interest thereon. For purposes of comparison the unmatured debt is classified as to marketable bonds, Canada savings bonds and treasury bills.

Treasury bill yields reflected a trend similar to that of general interest rates. The yield on three-month bills on April 5, 1957 was 3.69 per cent. In August, 1957, the yield rose to a high of 4.08 per cent declining to a low of 2.27 per cent on the last issue of the fiscal year.

Indirect debt or contingent liabilities

In addition to the direct debt set out in the statement of assets and liabilities the government has assumed certain indirect or contingent obligations. These consist of securities of the Canadian National Railways, guaranteed as to principal and interest or as to interest only, and a number of miscellaneous guarantees, the chief of which are the guarantee of insured loans made by chartered banks and other approved lending institutions under the National Housing Act, 1954, deposits maintained by the chartered banks in the Bank of Canada, bank advances to the Canadian Wheat Board, advances under the Export Credits Insurance Act and bank loans under the Farm Improvement Loans Act.

The government's liability under its guarantee of insured loans under the National Housing Act, 1954 was \$1,395 million at December 31, 1957 compared with \$122 million at December 31, 1954 and \$1,061 million at December 31, 1956.

A summary of the guaranteed bonds and debentures and the other guarantees and contingent obligations assumed by the Government of Canada and the amounts thereof (if determinable) at March 31, 1958 and March 31, 1957, are shown in the following table:

EXPLANATORY NOTES ON THE STATEMENT OF ASSETS AND LIABILITIES

The statement for the fiscal year 1957-58 is similar in form and grouping of categories of assets and liabilities to that presented for the fiscal year 1956-57. The following comments deal with the main groups or categories of the assets and liabilities. Individual accounts are dealt with throughout Part II under the department to which they relate.

ASSETS

1. (a) Cash represents balances of current and special deposits at credit of the Receiver General of Canada in banks in Canada, London, New York, Paris and Bonn, blocked currency deposits in various countries and cash in hands of collectors and in transit. At the close of 1957-58 cash balances held in London, New York, Paris and Bonn are shown at the Canadian dollar equivalent of the exchange rates on March 31, 1958, namely, \$2.74½ Canadian equals £1, .97½ dollars Canadian equals \$1.00 U.S., .002321 dollars Canadian equals 1 franc and .2320 dollars Canadian equals 1 deutschemark compared to \$2.66½, .95½, .002732 and .2275 respectively, for the previous year. The balances in blocked currencies, which may be used only for certain governmental purposes in the country of origin, are also shown at the Canadian dollar equivalent of the exchange rate on March 31. Cash in hands of collectors and in transit represents moneys received by public officers on or before March 31, 1958 but not remitted to the Receiver General of Canada until after that date.
1. (b) Departmental working capital advances and revolving funds constitute the advances outstanding at the close of the relative fiscal years for working funds of certain government departments and represent the value of stock on hand and work in progress. Details are shown in the schedule.
1. (c) This category shows the securities investment account, which records the temporary holdings by the Government of Canada of its own securities (including Canada savings bonds purchased for resale to subscribers under the government employees instalment purchase plan).
1. (d) Moneys received after March 31, but applicable to the current year, are shown in this category.
2. These are advances to finance the purchase of gold and foreign exchange. The value of holdings on the basis of closing exchange rates on March 31 is also shown in parentheses.
3. This category records the cash and securities held by the government for the eventual retirement of its unmatured debt. It includes the sinking fund as well as other cash and securities held for the redemption of the 3% Newfoundland stock 1933/34-43/63 and, in addition, reflects the acquisition by the government of bonds of its own issues payable in New York.
4. Loans to, and investments in, Crown corporations represent the government's outstanding advances to Crown corporations for working capital, capital expenditure and other purposes, investment in the capital of corporations and advances to corporations for reloaning. These loans are detailed in the schedule.
5. Loans to national governments consist mainly of the loans to the Government of the United Kingdom under the authority of The War Appropriation (United Kingdom Financing) Act, 1942 and the United Kingdom Financial Agreement Act, 1946 and loans to foreign countries under the Export Credits Insurance Act for purchase of goods and services in Canada.
6. (a) This category records Canada's subscription to the capital of the international monetary fund and the international bank for reconstruction and development. The subscription to the international monetary fund consists of gold, Canadian dollars, United States dollars and non-interest bearing promissory notes and the subscription to the bank, of Canadian dollars, United States dollars and non-interest bearing promissory notes. The notes, which are payable on demand, are carried on Canada's balance sheet under "Current and demand liabilities". This category also includes working capital advances and loans to international organizations, representing Canada's equity in the various organizations.
6. (b) Under this heading there have been grouped loans to provinces originally made under Relief Acts and other legislation and overpayments arising out of 1952 tax-rental agreements.
6. (c) This account records the cost of the acquisition of properties, building materials, live stock, farm equipment and commercial fishing equipment for purposes of the Act for sale to qualified veterans of World War 2 under sale agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the veterans.
6. (d) This category is composed of miscellaneous loans and balances receivable. The details of the various items in this group may be found in the schedule.
7. This category records the security holdings of various deposit and trust, annuity insurance and pension and liability suspense accounts.

8. This account consists of discounts, commissions, redemption bonuses and conversion premiums on loan flotations remaining to be charged annually to expenditure. These costs are amortized, in the case of general loans, over the period from the date of issue to the optional call date, if one is specified, otherwise to the maturity date of the loan, and in the case of Canada savings bonds over half the unexpired period to maturity date for existing loans at March 31, 1955 and over a period of five years from date of issue for new loans. The amortization of these costs is shown in detail by loan issues in appendix No. 7. The increase in the account of \$13,615,176 is due to new loan flotation costs less the annual charge to expenditure as follows:

New loan flotation costs to be amortized—

Canada savings bonds, 1957, series 12 (preliminary figure) ..	\$10,779,121

9. No amount was appropriated by parliament in 1957-58 to reduce the unamortized portion of the actuarial deficiency in the superannuation account; the amount remains at \$139 million.
10. The only item in this category is the amount of the cheque adjustment suspense account.
11. "Capital assets" is a category which has been set up to record on the government's statement of assets and liabilities at a nominal value of \$1 such capital assets of the government as land, buildings, works, equipment, etc., which, in accordance with long standing practice, are charged to budgetary expenditures and written off to the net debt at the time of acquisition or construction.
12. This group includes loans and advances in the asset category which are not currently revenue-producing or realizable.
13. No amount was added to this account during the year. There were no charges to the account.

NET DEBT

14. For 1957-58 budgetary expenditures exceeded budgetary revenues by \$38 million, resulting in an increase of \$38 million in the net debt for the fiscal year.

LIABILITIES

15. (a) This is the balance of treasury cheques issued and unpaid on March 31.
15. (b) This amount represents the treasury cheques issued in April which are applicable to the previous fiscal year.
15. (c) This account records the non-interest bearing notes payable to the international monetary fund and the bank for reconstruction and development.
15. (d) This item represents the amount of bonds and other securities which have matured but are still in the hands of the public.
15. (e) This represents the amount of interest which has become due on the public debt but remains unpaid.
15. (f) This represents the amount of accrued interest to March 31 on the public debt but is not due and payable until some future date.
15. (g) This group includes miscellaneous liabilities of the Government of Canada. Generally the creditor is in possession of some form of the government's negotiable paper that is due and payable on demand. The amount due to depositors in the post office savings bank is the main item in this group.
16. The accounts in this category represent the government's liability for moneys deposited for various purposes. They fall into two broad classes. The first of these is the deposit accounts which cover mainly those cases where the government has received the moneys as a guarantee that work will be properly performed. The other class, comprising the large majority of the accounts, consists of those cases where the government acts virtually as trustee, administering the funds for the purposes for which they were created.
17. This category records the government's liability as an insurer of certain persons and as administrator of certain pension funds and government annuities. The government receives premiums or similar assessments and in turn pays out specific benefits. There is also included the uninvested portion of the unemployment insurance fund administered by the Unemployment Insurance Commission. The details of the various accounts in this category may be found in the schedule.
18. This category records the undisbursed balances of appropriations to special accounts for which moneys have been appropriated by parliament and from which disbursements may be made for authorized purposes. The national defence equipment account is shown in this category as a separate sub-heading 18 (a).
19. The accounts in this category cover items in which there are elements involving uncertainty as to accounting treatment or disposal and certain credit balances in respect of which accounting treatment is known but which are held for final disposition pending completion of certain conditions.
20. This account shows the unmatured debt of the Government of Canada. The details may be found in the schedule. The obligations payable in sterling and U.S. dollars have been converted on the basis of £1 = \$2.80 and \$1 U.S. = \$1 Canadian. Interest on loans made to the Canadian National Railway System and Predecessor Companies for capital expenditures and deficits, was never taken into the accounts of the government but interest amounting to \$530,832,598 was shown on the books of the railway. The total amount of interest calculated up to December 31, 1936 was \$574,781,637. Any claim the government may have for such interest was transferred to the Canadian National Railways Securities Trust as provided for by the Canadian National Railways Capital Revision Act for 1937.

- (1) Represents 5,000,000 shares no par value capital stock of the Canadian National Railway Company. (Appendix No. 11.)
- (2) Loans to, and investments in, Canadian National Railways. (Schedule D.)
- (3) Amount paid by government in acquiring 600,000 shares of the capital stock of the Canadian Northern Railway Company.
- (4) Initial stated value of 1,000,000 no par value shares of the capital stock of the Canadian National Railway Company. (Appendix No. 11.)
- (5) Of this amount \$7,380,912 was not used for capital expenditures but represented the balance due by the company under agreement made in 1883 for the creation of a fund to be held by the government to guarantee a dividend of 3 per cent per annum for ten years on the company's outstanding stock in an endeavour to assist in financing construction through the sale of additional stock. The amount on deposit with the government was at all times more than sufficient to meet the payments which, under the agreement, the government undertook to make. The obligation of the company was fully discharged in 1886, some years in advance of its due date.

Certified correct,

B. G. McINTYRE,

Comptroller of the Treasury.

The accounts relating to the expenditures which are included in the above Statement have been examined under my direction and, subject to the observations in my report to the House of Commons, made in accordance with the provisions of The Financial Administration Act, I certify that, in my opinion, the Statement is correct.

WATSON SELLAR,

Auditor General.

Certified correct,

B. G. McINTYRE,

Comptroller of the Treasury.

The accounts relating to the revenues which are included in the above Statement have been examined under my direction and, subject to the observations in my report to the House of Commons, made in accordance with the provisions of The Financial Administration Act, I certify that, in my opinion, the Statement is correct.

WATSON SELLAR,

Auditor General.

Appropriation 21 Health of Animals—Compensation for animals slaughtered, including compensation for eggs destroyed from infected premises under terms and conditions approved by the Governor in Council.....		461,032
Expenditures.....	(20)	<u>\$ 146,131</u>

The Animal Contagious Diseases Act empowers the Minister to authorize the slaughtering of animals suffering from infectious or contagious disease, or those suspected of being so infected and those which are or have been in contact or close proximity to such animals, and to pay such compensation as he may determine, not to exceed values stated in the Act for grade and pure bred animals. When the sale of the carcass is unlawful, the Act also provides for additional compensation to be paid in respect of carcasses of animals slaughtered for the reason that they were affected with bovine tuberculosis. This additional compensation is to be the average value the carcasses would have had if the sale had been lawful at time of slaughter, such average value to be determined by the Minister.

The following is a distribution of expenditures by provinces:

Province	Bovine Tuberculosis	Additional Compensation (Carcasses)	Brucellosis	Hog Cholera	Scrapie	Total

A P.C. 1957-10/691, May 20, 1957, authorized an amendment to an agreement with the Province of Manitoba originally approved by P.C. 5/6191, December 7, 1949, for constructing drainage works in the North-West Escarpment and Inter-Lake region of Manitoba. The agreement provided that, on submission of verified accounts, the Federal Government should pay one-half of the cost with the liability during the current fiscal year not to exceed \$150,000. Payment was made to the Province and to date amounted to \$515,142.

B P.C. 1957-1/123, January 31, 1957, authorized a contribution to the Province of Newfoundland in connection with a program of land clearing and development. The agreement provided for payment of one-half of the total expenditure up to \$125,000 during the current fiscal year provided the Province spent at least \$122,289.55. Payments to date amounted to \$358,242.

C P.C. 1956-2/738, May 17, 1956, authorized an amendment to an agreement with the Province of Manitoba originally approved by P.C. 1953-2/571, April 17, 1953, with respect to the reclamation and settlement of certain lands in the Pasquia area of the Saskatchewan River Delta region at a cost to the Federal Government not to exceed \$2,300,000 over a six year period. Expenditures to date amounted to \$1,916,065.

Included the purchase of 5 cars at a net cost of \$11,130.

Contractual payments of \$5,000 or over for rental of equipment were made to the following: H. C. Hatch, \$10,967; Leslie Construction, \$18,922; Watts Bros., \$9,875.

Contract (1956-57) for the construction of ditches and structures: N. W. Leslie, Jr., \$153,070; expenditures, \$73,713; to date, \$117,745, including holdbacks, \$7,607.

Contract (1955-56) for the construction of a culvert: J. S. Quinn Construction Co. Ltd., \$55,886; expenditures, \$11,870; to date, \$55,886 (final). (Original contract was decreased \$18,319 due to overestimating the required amount of excavation).

Contract for the construction of ditches: Ruchotski Brothers, \$41,809; expenditures, \$15,996, including holdbacks, \$1,600.

A The Agricultural Stabilization Act superseded the Agricultural Prices Support Act on March 3, 1958.

Section 13 of the Agricultural Stabilization Act, c. 22, 1957-58, provides authority to establish in the Consolidated Revenue Fund an account to be known as the Agricultural Commodities Stabilization Account, to credit this account with all moneys received by the Board from its operations and to make expenditures out of the Consolidated Revenue Fund under this Act, other than administrative expenses, provided that the debit balance in the Account shall not be greater than \$250,000,000. The balance in the Agricultural Prices Support Account was transferred hereto.

Section 13 (7) directs that "At the end of each fiscal year, the Minister of Finance shall determine the net profit or loss on the operation of the Account for that fiscal year, and if he determines that there is a net profit it shall be charged to the account, but if he determines that there is a net loss, no amount shall be credited to the Account in respect thereof without the authority of Parliament".

Statements showing the financial position and operations of the Agricultural Stabilization Board are shown as an appendix to this section.

B Section 5 (2) of the Agricultural Products Board Act, c. 4, R.S., directs that this account shall be established to record all financial transactions of the Board in connection with the buying, storing, transporting or processing of agricultural products. The debit balance is not to exceed \$15,000,000 at any time. The account is used to record transactions of the Board relating to import or export of agricultural products under agreements between the Government of Canada and the government of any other country or agency thereof, as approved by the Governor in Council. During the year under authority of P.C. 1957-553, April 15, 1957, expenditures in connection with purchase of New Zealand skim milk powder were \$317,470 and receipts from sales were \$658.

C This account was authorized by Vote 556, Appropriation Act No. 4, 1952, Vote 762, Appropriation Act No. 3, 1953, and Vote 783, Appropriation Act No. 5, 1955, for the purpose of financing the production of new and improved varieties of seeds, the acquisition, maintenance and development for experimental purposes of live stock, poultry and eggs, including administrative expenses of all authorized projects; the amount to be charged to the revolving fund at any one time not to exceed \$620,000.

G This account reflects the financial transactions of the Commonwealth Institute of Biological Control, a scientific institution working on the biological control of harmful insects, which is supported by contributions from member countries of the British Commonwealth and is directed by the Executive Council of the Commonwealth Agricultural Bureaux. The Canadian contribution of \$19,531 was charged to Appropriation 4.

H Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.

I By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.

J The Prairie Farm Assistance Act, c. 213, R.S., as amended, provides for a levy of one per cent to be deducted by all licensed purchasers of grain, the amount so deducted to be transferred to the Board of Grain Commissioners for deposit to the credit of a special account known as the Prairie Farm Emergency Fund. Awards are made under the provisions of the Act to farmers in the spring wheat area in accordance with crop failure conditions provided for in the Act and are payable from this fund. The account was credited with the levy on grain, \$5,971,052, and the amount transferred to meet the deficit, \$5,902,873 (charged to Statutory Expenditures).

A The parliamentary authorities for advances to the Company were as follows:

Appropriation 524 To provide for advances to Atomic Energy of Canada Limited in such amounts and on such terms and conditions (including the delivery to Her Majesty, in satisfaction of the advances, of obligations or shares of the Company) as the Governor in Council may approve, to finance the construction of a new reactor (NRU) and auxiliary buildings at Chalk River Projects, works to provide services in connection therewith, to construct or acquire buildings and equipment for the Commercial Products Division in Ottawa and other locations, and housing and other works to be constructed at Deep River; and to authorize Central Mortgage and Housing Corporation to undertake construction of the said housing and other works at Deep River for Atomic Energy of Canada Limited.....\$ 2,379,050

Appropriation 525 To provide for Working Capital Advances to Atomic Energy of Canada Limited, subject to such terms and conditions as the Governor in Council may approve..\$ 1,100,000

Advances totalling \$3,479,050 were made to the Company during the year, under authority of the above Appropriations. The advances of \$9,508,216 in the account at the beginning of the year were transferred to: Capital Stock \$8,863,070 and Loans \$645,146. During the year an amount of \$1,764,800 advanced under authority of Appropriation 524 in respect of housing construction and capital improvements to existing housing at Deep River was transferred to Loans.

B An amount of \$8,863,070 was transferred from Advances to Capital Stock during the year. The closing balance in the account represents 48,188 shares of no par value, issued to the Atomic Energy Control Board in Trust for Her Majesty.

- C This account was debited with \$1,764,800 under authority of P.C. 1957-1046 of August 7, 1957, \$6,073 under authority of P.C. 1957-1047 of August 7, 1957 and \$639,973 under authority of P.C. 1957-1701 of December 20, 1957, in respect of housing and other works to be constructed at Deep River, and capital improvements to existing housing. Repayments of \$265,188 were received from the Company during the year. Interest amounting to \$143,918, at rates of 3½, 4½ and 4½ per cent per annum, was received and credited to Non-Tax Revenue—Return on Investments.
- D By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.
- E During the year this account was transferred to the Department of Labour—Fair Wages Suspense (see under Open Accounts of that Department).

CANADIAN BROADCASTING CORPORATION

The following statements of expenditures and revenues for the Canadian Broadcasting Corporation are only in respect of moneys appropriated by parliament. The financial statements of the Corporation for the year ended March 31, 1958 are shown in Volume II of this Report. As the Department of Transport is responsible for the collection of licence fees in respect of sound broadcasting and television, an account relating to funds derived from that source by the Corporation will be found in the Open Accounts of that Department under Deposit and Trust Accounts.

NOTE.—Revenues are shown on page BB-4, Open Accounts on page BB-4 and Expenditures by Standard Objects on page BB-4.

- A This account was authorized by Vote 626, Appropriation Act No. 2, 1955 and Vote 526, Appropriation Act No. 6, 1956 to provide for working capital advances to posts and advances to employees on posting abroad. The excess of the amounts debited over the amounts credited to this account at any time may not exceed \$275,000.
- The closing balance consisted of advances to posts, \$221,922 and advances to employees, \$25,444. Interest on advances to employees was charged at the rate of 3 per cent per annum to August 31, 1957, and at the rate of 4½ per cent per annum thereafter.
- B This account is operated under the authority of section 69, The Indian Act, c. 149, R.S., as amended. Under the Act, the Superintendent General (the Minister) is empowered to make loans to Indian Bands, groups of Indians, or individual Indians, under regulations established by the Governor in Council. Loans may not exceed \$1,000,000 at any one time.
- C Section 69 of the Immigration Act, c. 325, R.S., authorized the operation of this account with a maximum debit balance of \$12,000,000. Payments to transportation companies for ocean and rail fares and meals en route are made from this account and subsequently charged as loans to immigrants pending repayment. Regulations governing the operation of this account are contained in P.C. 1956-1684, November 14, 1956 pursuant to section 69 (2) of the Act. Continuing authority was granted under provisions of P.C. 1954-7 290, March 4, 1954 for the maintenance of an advance in the amount of \$500,000 to the operating fund of the Intergovernmental Committee for European Migration.
- D Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.
- E By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.
- F This account represents amounts collected under the Immigration Act and held pending final disposal either by refund to the original depositor or forfeiture to the Government. Bonds amounting to \$12,500 held in the custody of the Minister of Finance in this respect are not included in the balance.
- G Under authority of the Family Allowances Act, c. 109, R.S., as amended, and Regulations established thereunder family allowances for eligible Indian children are paid, when it is deemed to be in the best interest of the children, to the Indian Affairs Branch of this Department and credited hereto for subsequent disbursement on behalf of the children concerned. Payments to traders, who, under the direction of the Branch, have furnished supplies to Indian families to the value of such allowances are debited to the account.
- H The Indian Trust Funds represent moneys belonging to the Indian Bands throughout Canada. A statement of the receipts and disbursements for the current fiscal year is shown as an Appendix to this section. Interest credited annually by the Department of Finance to this account is charged to Interest on Public Debt.
- I Section 8 (2) of the National Gallery Act, c. 186, R.S., provided for a special account in the Consolidated Revenue Fund called the National Gallery Special Operating Account to which all money received by the Board of Trustees by way of donation, bequest, revenue or otherwise is to be credited. Section 8 (3) provided that any expenditures for the purpose of the Act may be paid out of this account or out of money appropriated by Parliament for such purposes. Interest of \$30 on the bond is credited to the account annually.
- J Unclaimed wages in respect of cost plus contracts withheld from the final payment to the contractors were credited to this account pending claims therefor. During the year, this account was transferred to the Department of Labour—Fair Wages Suspense (see under Open Accounts of that Department).
- K Section 8 (1) of the National Gallery Act, c. 186, R.S., provided for a special account in the Consolidated Revenue Fund called the National Gallery Purchase Account to which any money appropriated by Parliament in any fiscal year for the purpose of acquiring works of art is to be credited and from which expenditures may be made in that or any subsequent fiscal year for the acquisition of works of art including any costs in connection therewith. An amount of \$108,334 provided through Appropriation 84 was credited hereto.
- L Fines collected under the Immigration Act and other miscellaneous deposits are credited to this account pending final disposition.
- M Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.

A-H The Defence Production Revolving Fund was established under the authority of section 16 of the Defence Production Act, c. 62, R.S., as amended. Sub-section 4 of that section and Vote 825, Appropriation Act, No. 4, 1951 provided that expenditures charged to the Fund shall not at any time exceed the receipts shown therein by more than \$150,000,000. This amount was reduced and Vote 825 repealed by the following:

Appropriation 526 To repeal Vote 825 of the Appropriation Act No. 4, 1951 for the purpose of decreasing from \$150,000,000 to \$100,000,000 the amount by which expenditures charged to the Defence Production Revolving Fund may in the current and subsequent fiscal years exceed receipts shown therein, as provided for in Section 16 of the Defence Production Act.....\$ 1

Debits to the revolving fund cover the cost of acquiring, storing, maintaining and transporting stocks of essential materials and defence supplies as well as working capital loans and advances for their production. Credits represent receipts from the sale of such materials and supplies, and repayments of loans and advances.

Explanations of the various subsidiary accounts maintained within the revolving fund follow. (Details showing the standing of the Defence Production Revolving Fund as at March 31, 1958, prepared from accounts maintained on the accrual basis, will be found in the Appendix further on in this section.)

A In this account are recorded purchases of wool and its sale to cloth manufacturers.

B Expenditures for the purchase of cloth and proceeds from its sale to contractors manufacturing garments for the Armed Services are recorded herein.

- C Charges represented the acquisition of component parts used in the manufacture of aircraft, ships, guns and ammunition. Credits are proceeds from sales to contractors for production of the end product. In the case of the account for aircraft, the credits also include sales to the Department of National Defence, and to the Canadian Commercial Corporation for the Government of the United States.
- D Charges are for the acquisition of certain inventories from Canadian Arsenals Ltd. Credits are proceeds from sales to contractors for production of the end product. This account is now closed.
- E In this account are recorded the purchase and sale of certain strategic materials in addition to that described under Comment I.
- F In this account are recorded working capital advances which were authorized by P.C. 5837, October 31, 1951 and P.C. 2597, May 2, 1952 in connection with the expanded defence program. These advances are additional to those described in Comment J.
- G T.B. 447565, March 31, 1953 approved entry into an agreement with the company whereby it granted a licence to the Crown for the use of all its patent rights in respect of the procurement of various electronic apparatus. Under authority of T.B. 526713, January 30, 1958, payment for the licence for the fiscal year 1956-57 was made to the company in an amount of \$250,000. Repayment was made during the year by the Department of National Defence.
- H In this account are recorded sales tax collected on sales of components to the Department of National Defence, and remittances to the Department of National Revenue.
- I Authority for advances in connection with this activity was obtained through parliamentary appropriations in previous years. Advances in the current fiscal year were from Defence Production Revolving Fund—see Comment E.
- J *Canadian Arsenals Ltd.*—These advances were made in previous fiscal years. Other advances were made from the Defence Production Revolving Fund—see Comment F. The accounts of Canadian Arsenals Ltd. are audited by the Auditor General of Canada and the Balance Sheet as at March 31, 1958, as certified by him, together with supporting schedules, will be found in Volume II of this Report.
- K *Canadian Commercial Corporation.*—Advances were made in previous fiscal years to the Corporation under authority of section 8 (1) of the Canadian Commercial Corporation Act, c. 35, R.S., which stated that funds, not exceeding in the aggregate \$10,000,000, were to be made available to the Corporation for working capital requirements.
- The accounts of the Corporation are audited by the Auditor General of Canada in accordance with the provisions of section 8 (7) of the Act, and the Balance Sheet as at March 31, 1958, as certified by him, together with statement of income and expenditure, will be found in Volume II of this Report.
- L *Polymer Corporation Ltd.*—The closing balance represents the investment of the Crown in the company. Dividend on capital stock amounting to \$4,000,000 was received and credited to Non-Tax Revenue—Return on Investments.
- The accounts of the Corporation are audited by the Auditor General of Canada and the Balance Sheet as at December 31, 1957, as certified by him, together with supporting schedules, will be found in Volume II of this Report.
- M *Algoma Steel Corporation Ltd.*—This represents the balance due for property disposed of under lease-purchase option agreement which terminates April 30, 1977, and provides for annual instalments as follows: to December 31, 1963, \$288,117; for the next thirteen years to December 31, 1976, \$92,428, and the final payment on April 30, 1977, \$30,809. In addition to the annual instalment, an amount of \$9,953 was paid on principal, this to be deducted from the final payment on April 30, 1977. Under the agreement, interest is to be paid on the balance at the rate of 3 per cent per annum. Interest amounting to \$97,476 was received and credited to Non-Tax Revenue—Return on Investments.
- N *Avro Aircraft Ltd.*—T.B. 504490, July 27, 1956 authorized the sale of certain Crown-owned machine tools and equipment at Malton, Ont., to the company for the sum of \$3,768,133, payment to be made as follows:
- One-third of the purchase price on or before July 27, 1956 and the balance of the purchase price in ten annual instalments, each of which shall become payable on or before the 27th day of July in the calendar years 1957 to 1966 inclusive, it being understood and agreed that the company may at any time in its discretion prepay such instalment payments without notice or bonus and it is further understood and agreed that each such instalment shall consist of the greater of:
- (i) an amount equal to the quotient resulting from the division of any balance of such purchase price which may be unpaid on any of such dates by the numbers of such instalments then remaining to be paid; or
 - (ii) an amount equal to the amount, if any, of any income taxes which the company shall not become obligated to pay under the provisions of the Income Tax Act and pertinent Regulations of Canada for the company's fiscal year immediately prior to the annual period for which the instalment payment is owing, by sole reason of the fact that the company shall be permitted to deduct, in

computing its income for such fiscal year additional capital cost allowances in respect of the assets to be sold under this agreement, plus the amount by which the normal capital cost allowance for these assets allowed as an element of cost through overhead for the preceding fiscal year exceeds the value of Crown approved capital expenditures made by the company during the preceding fiscal year.

Any balance of the purchase price remaining unpaid shall bear interest computed at the rate of 5 per cent per annum and such interest shall be payable on or before the 27th of July of each year; unpaid interest shall be treated as principal and shall bear interest accordingly.

During the year the amount owing by the company was increased by \$6,248 due to the revaluation of assets.

In order to record this agreement of sale as an active asset, the amount was charged to this account and a corresponding credit set up under "Suspense Accounts (Liabilities)"—see Comment AM. A payment of \$368,292 was received during the year and credited to this account. Interest amounting to \$125,604 was received and credited to Non-Tax Revenue—Return on Investments.

- (a) a down payment of \$5,585;
- (b) consecutive yearly payments of \$4,344 due on each 27th day of October in the years 1956, 1957 and 1958;
- (c) in addition to the consecutive yearly payments mentioned above, the company shall pay the amount by which its Canadian Federal Income Tax reduction exceeds the amount payable on the instalment dates by reason of increased capital cost allowance;
- (d) interest at the rate of 6 per cent per annum will be charged on the unpaid balance of the purchase price.

In order to record this agreement of sale as an active asset, the amount was charged to this account and a corresponding credit set up under "Suspense Accounts (Liabilities)"—see Comment AN. Payments amounting to \$8,688 were received during the year and credited to this account. Interest amounting to \$521 was received and credited to Non-Tax Revenue—Return on Investments.

P *Bristol Aero Engines Ltd.*—T.B. 490611, September 16, 1955 authorized the sale of certain Crown-owned machine tools and equipment at Montreal and Winnipeg to the company for the sum of \$306,188, payment to be made as follows:

- (a) the sum of \$102,063 on or before the execution of an agreement;
- (b) the balance of \$204,125 in four annual payments, each payment to be a sum not less than the tax benefits to the purchaser, resulting from additional capital cost allowances for the relevant year or the sum of \$51,031, whichever shall be the greater, the first of such payments to be due and payable the 31st day of March, 1956 and the remaining payments on or before the 31st day of March in each year until the whole purchase price is paid;
- (c) interest at the rate of 4 per cent per annum on the amounts from time to time unpaid, such interest to be calculated from the 31st day of March, 1954 and payable at the same time as the above mentioned annual payments are due and payable.

In order to record this agreement of sale as an active asset, the amount was charged to this account and a corresponding credit set up under "Suspense Accounts (Liabilities)"—see Comment AO. AI *The Corporation of the Township of Toronto*.—P.C. 6794, December 19, 1951 authorized capital assistance to A. V. Roe Canada Ltd. for installation of an extension to the water supply system servicing its plant. By an agreement dated December 1, 1951, between the Corporation of the Township of Toronto and the company, a loan of \$475,000 was made to the Corporation to complete the aforementioned extension to the water supply system. By an agreement dated April 15, 1952, the Crown assumed the loan from the company. The loan is secured by debentures of the Corporation, bearing interest at the rate of 3 per cent per annum and maturing between the years 1954 and 1971. Debentures amounting to \$19,951 were paid during the current fiscal year. Interest amounting to \$11,132 was received and credited to Non-Tax Revenue—Return on Investments.

AJ Holdbacks charged to the relevant appropriations of the Department concerned and credited to these accounts under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contracts under regulations of the Treasury Board.

AK By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of 2½ per cent per annum compounded annually.

SUBSIDIES AND OTHER PAYMENTS TO PROVINCES

Subsidies to Provinces (British North America Acts, 1867 to 1952, and other Statutory Authority)..... (24) \$20,570,444

Payments of subsidies to provinces are shown in the first column of the statement below. Details will be found in Appendix 2 to this section of the Report.

Compensation to Provinces, Federal-Provincial Tax-Sharing Arrangements Act, c. 29, 1956.....	353,304,000
Payments to Provinces of a share of income tax collected from corporations whose main business is the distribution to, or generation for distribution to, the public of electrical energy, gas or steam, Section 6, The Tax Rental Agreements Act, 1952, c. 49, 1952.....	7,362,217
(24) \$ 360,666,217	

Under the provisions of the Federal-Provincial Tax-Sharing Arrangements Act, 1956, the Minister of Finance was authorized, where applicable, to pay to the provinces a tax equalization payment, a provincial revenue stabilization payment, and a tax rental payment. Receipt of a tax rental payment was conditional upon a province entering into an agreement with Canada to refrain on its own part and that of its municipalities from the levying of one or more of the following taxes: individual income, corporation income, and succession duties. All provinces except Quebec entered into such an agreement, although the agreement with Ontario was limited to the individual income tax field. Equalization and stabilization payments are payable to a province whether it has or has not entered into a tax rental agreement.

A distribution by provinces of the payments under each authority is given in the tabular statement below.

A This represents superannuation allowances paid to civil servants appointed prior to April 1, 1893, and retired under the provisions of the above Act. Payments to those appointed on or after April 1, 1893, and eligible for superannuation under the above Act, are made from the Superannuation Account—see under Open Accounts further on in this section.

B Under authority of this Act, provision was made for the retirement and payment of allowances, under stipulated conditions, to certain members of the Public Service who were not eligible for annual retiring allowances under the Superannuation and Retirement Act, c. 17, R.S., 1906. Retirements were all effected prior to November 1, 1924, on which date the retirement provisions of the Act expired (c. 69, 1924).

C This Act provides that the Governor in Council may grant to a widow an annual allowance, payable until death or remarriage, of an amount equal to one-fourth of the allowance her husband received under the Superannuation and Retirement Act, c. 17, R.S., 1906, or would have received if, at the time of his death, he had been retired under the Act.

D The Canadian Branch of the Royal Mint became the Royal Canadian Mint, a branch of the Department of Finance, on December 1, 1931. The above authority includes provision for payment to those employees who did not elect to become contributors under the provisions of the Civil Service Superannuation Act, c. 24, R.S., 1927, of the same benefits they would have received if they had remained under the provisions of the United Kingdom Superannuation Acts then in force.

A Cash in Receiver General current deposits represents the total of the balances at credit of the Receiver General in the several banks in Canada, London, New York, Paris and Bonn.

B Cash in Receiver General special deposits consists of balances in the hands of fiscal agents of the Government for the purchase or redemption of Government securities and for the payment of interest.

C In these accounts are recorded the Canadian equivalent of blocked currencies of the relevant countries which were received in connection with war settlements, military relief supplies or currency credits and which are available only within those countries for restricted purposes. At the close of the fiscal year, the Canadian dollar equivalent was adjusted to the market value of these currencies.

D This account is to record moneys received by public officers prior to the close of business on March 31 of any fiscal year but not recorded in A above until after that date.

E In this account are recorded: transactions in connection with the transfer of gold bullion to the Bank of Canada; sales of fine gold to the public; payments made by the Royal Canadian Mint for newly-mined gold, old jewellery, dental scrap, etc.; and the amount of the net gain in refining for the year. The latter amount was transferred to Non-Tax Revenue—Bullion and Coinage. Details of operations will be found in Appendix 1 to this section.

F Credits in these accounts represent the face value of all coin issued to the Bank of Canada and silver bullion, medals, etc., sold. Debits are: (a) the value of all metals purchased for coinage and medal purposes as well as the net value of mutilated coin withdrawn from circulation; and (b) the amount of the net gain for the year, which was transferred to Non-Tax Revenue—Bullion and Coinage. The closing balances represent the cost value of the metals and face value of coin on hand at that date. Details of operations will be found in Appendix 1 to this section.

G This account is charged with the cost of engraving plates and printing blank bonds for future government loans. As they are used, adjusting entries charge "Cost of Issuing New Loans" and credit this account. During the year, an amount of \$28,944 representing the cost of plates and bond tints which became obsolete was charged to Appropriation 800.

H The Fire Losses Replacement Account Act, c. 28, 1953-54 provides that the Minister of Finance may with the approval of the Treasury Board advance such amounts as are required to restore or repair property lost or damaged as a result of a fire, such advances to be charged to the Fire Losses Replacement Account, provided that the aggregate of all amounts standing as a charge against the account shall not exceed \$5,000,000. The Act further provides that if during the fiscal year there is an appropriation against which the expenditure can be charged it shall be charged thereto and deleted from the account. If no appropriation is available, the amount expended from this account must be included in the Estimates for the Service suffering the loss.

Advances made during the year are shown in the following statement:

<u>Department and Particulars</u>	<u>Amount Authorized</u>	<u>Expenditures</u>
Northern Affairs and National Resources—		
Apartment building, Yellowknife, N.W.T.	22,593	10,296
School, Cambridge Bay, N.W.T.	100,000	65,556
	<u>\$ 122,593</u>	<u>\$ 75,852</u>

I The closing balance reflects amounts outstanding in the hands of departments, prepayments to contractors and other accountable advances.

J Collections received after March 31, for a limited period, which are applicable to the fiscal year ending on that date are recorded in this account.

K Temporary holdings by the Government of Canada of its own securities, including Canada Savings Bonds purchased for resale to subscribers under the Government employees' instalment purchase plan, are recorded in this account.

L This account is regulated by Part III of the Currency, Mint and Exchange Fund Act, c. 315, R.S., as amended. A statement of the Exchange Fund Account as at December 31, 1957 is shown in Appendix 3 to this section.

M On the assumption by Canada, under the terms of Union, of the 3 per cent Newfoundland Guaranteed Stock 1933-63, Canada also acquired the sinking fund already established. The closing balances represent the Canadian equivalent of the value of stock and bonds held in the fund, while entries in the current fiscal year were mainly in connection with the acquisition of further stock.

Accounts in connection with Account N, were established pursuant to special arrangements with the Government of the United Kingdom under which sterling was acquired as payment for Newfoundland codfish sold in European markets. This arrangement was discontinued in 1952 and the total of sterling accumulated in N account (which is held in addition to the sinking fund for the eventual retirement of the 3 per cent 1933-63 stock) is invested in stock and United Kingdom Treasury Bills. Interest earnings on N account are deposited in the Receiver General current deposit, London, and credited to Non-Tax Revenue—Return on Investments.

N These accounts reflect the acquisition of Government of Canada Bonds prior to maturity.

O The outstanding principal of amounts provided to the Board, which makes loans on farm property is recorded in these accounts.

The increase of \$1,000,000 in Capital Stock represents the purchase of 10,000 additional shares at the par value of \$100 each as authorized by section 5 of the Canadian Farm Loan Act, c. 36, R.S., as amended.

The increase of \$13,271,630 under Bonds and Notes represents loans evidenced by promissory notes of the Board, \$7,000,000 maturing June 30, 1983 with interest at the rate of 4½ per cent per annum and \$6,400,000 maturing June 30, 1983 with interest at the rate of 4½ per cent per annum less annual instalment of \$128,370 on loan series G.

The Balance Sheet of the Board as at March 31, 1957, as certified by the Auditor General, together with related statements is shown in Volume II of this Report.

P This account records the investment of the Government as the sole owner of the capital stock of the Bank which was acquired under authority of the Bank of Canada Act Amendment Act, c. 42, 1938. Of this amount \$5,000,000 represents the par value of 100,000 shares of capital stock and the balance of \$920,000 represents premium paid in respect of the acquisition in 1938 of shares held by the public. The amount received during the fiscal year by the Government as profits for the Bank year was credited to Non-Tax Revenue—Return on Investments. The financial statements of the Bank are shown in Volume II of this Report.

Q These accounts relate to loans, as authorized by section 23, Export Credits Insurance Act, c. 105, R.S., as amended, and various Orders in Council, made in previous years for the purpose of facilitating and developing trade between Canada and the countries concerned. Decreases represent cash repayments and interest was credited to Non-Tax Revenue—Return on Investments.

R In this account is recorded the obligation of the Government of France in respect of settlement of the accrued interest on certain interim credit advances in 1945-46 by receipt from that Government of bonds which will mature on December 31 of each year until 1977. The amount of the bond maturing in each fiscal year is \$82,000. Interest was credited to Non-Tax Revenue—Return on Investments.

S By an exchange of notes dated June 26, 1951 and July 4, 1951, France agreed to the payment in French francs of the equivalent of \$7,535,580 (U.S.) in full settlement of Canada's claim in respect of military relief after having taken into consideration the amount of \$1,150,000 agreed upon as due France in compensation for French vessels requisitioned by Canada during the war. The decrease represented cash repayments.

- T The decrease represents the sixth of ten annual payments to be made on December 31 of each year under the terms of a settlement agreement, May 1949.
- U Under authority of the War Appropriation (United Kingdom Financing) Act, c. 8, 1942, sterling balances held by Canada in an amount equivalent to \$700,000,000 at the exchange rate of \$4.45 to the pound sterling were converted into a Canadian dollar obligation of the Government of the United Kingdom which, under the provisions of the Act, was non-interest-bearing until after the termination of the war. The United Kingdom Financial Agreement Acts, c. 12, 1946, and c. 27, 1951 (2 Sess.) authorized the continuation of the interest-free provision until January 1, 1954. Under the provisions of the United Kingdom Financial Agreement Act, 1953, c. 11, 1953-54, this loan was to be reduced to \$150,000,000, by a payment from the Government of the United Kingdom, the balance to be repaid by quarterly instalments of \$7,500,000 commencing March 1, 1954, and the loan will continue free of interest until final redemption on December 1, 1958.
- V Under authority of the United Kingdom Financial Agreement Act, c. 12, 1946, as amended, a credit of \$1,250,000,000 was extended to the Government of the United Kingdom which might be drawn on at any time prior to December 31, 1951. The purpose of the credit was to facilitate purchases by the United Kingdom of goods and services in Canada and to assist in making it possible for the United Kingdom to meet transitional postwar deficits in its current balance of payments, to maintain adequate reserves of gold and dollars and to assume the obligations of multilateral trade. No interest was to be payable in respect of any period prior to January 1, 1951. The amount of the credit drawn by December 31, 1951 was to be repaid in 50 annual instalments beginning on that date, with interest at the rate of 2 per cent per annum. The agreement as amended in 1957 provides for the deferment of interest in respect to the year 1956 and of seven instalments of principal and interest after December 31, 1956, under certain conditions.
- W This account was set up to record on the government's books the deferred interest on the loan in V above. The amount is made up of interest due December 31, 1956, \$22,241,802 and December 31, 1957, \$21,932,432. A corresponding credit was set up under Suspense Accounts (Liabilities)—see Comment BR.
- X These accounts reflect Canada's subscriptions to the International Monetary Fund and to the International Bank for Reconstruction and Development. Subscriptions consisted of gold, Canadian dollars, United States dollars and non-interest-bearing notes which are carried as a liability on the Statement of Assets and Liabilities of the Government of Canada under the heading of Current and Demand Liabilities. The increase in the International Monetary Fund represents revaluation adjustments as at January 31, 1958, \$5,118,376, less \$131,241 being revaluation settlement for the year ended April 30, 1957.
- Y This account records the purchase of 3,600 shares of stock of the International Finance Corporation for the amount of \$3,522,375 under authority of Vote 731, Appropriation Act No. 6, 1956.
- Z In these accounts are recorded the outstanding balances in respect of the adjusted amounts of Treasury Bills indebtedness of the Governments of these provinces to the Federal Government pursuant to the provisions of the Western Provinces Treasury Bills and Natural Resources Settlement Act, c. 77, 1947 which provided for the retirement of this indebtedness by annual payments beginning July 1, 1948 and extending over a thirty year period. Decreases represent repayments. Interest on that portion of the indebtedness of each province, which represented the amount of loans for capital and ordinary governmental purposes, was received and credited to Non-Tax Revenue—Return on Investments.
- AA This represents overpayments to these Provinces due to the receipt of revised population figures on the basis of the 1956 census after the payments under the 1952 tax rental agreements had been made. These are to be recovered over a five year period.
- AB This is a non-interest-bearing deposit made by the Government of Canada under the terms of the agreements providing for the establishment of the Bank. The deposit was made in 1930-31.
- AC The decrease represented repayments on loans which were authorized in previous fiscal years under the Municipal Improvements Assistance Act, c. 183, R.S. Interest was credited to Non-Tax Revenue—Return on Investments.
- AD This account relates to (a) advances made to the New Westminster Harbour Commission to assist in the construction and development of the harbour and (b) a loan of \$703,500 in 1947-48 to enable the Commission to meet debentures maturing April 1, 1948. A payment of \$3,500 was made September 7, 1949 leaving a balance of \$700,000 maturing April 1, 1968. Interest was credited to Non-Tax Revenue—Return on Investments.
- AE This loan was made in 1955-56 under authority of Vote 539, Appropriation Act No. 5, 1955. P.C. 1956-500, March 29, 1956 provided that the loan should be repayable in ninety equal semi-annual payments of interest and principal, commencing September 30, 1961. Until the property is serviced, the loan is to bear interest at the same rate as the Association earns on the investment of the funds in Treasury Bills, thereafter at the rate of 3½ per cent per annum to March 31, 1981, at which time the rate will be renegotiated. Interest was credited to Non-Tax Revenue—Return on Investments.
- AF This account records bonds and uncashed cheques held in the custody of the Minister of Finance and furnished as security by contractors to ensure the performance of work. The corresponding credit is shown in various departments under Deposit and Trust Accounts.

In addition, amounts invested in bonds in respect of certain accounts of various departments are held by the Minister of Finance as follows:

These amounts are shown under the various departments as deductions from the accounts to which they pertain.	

AG Premium, discounts and commissions on loans issued in the current year are debited hereto. Amortization charges to current year's expenditure and refunds are credited to this account. Details by loans of the amount amortized will be found in Appendix 7 to Part I of this Report.

AH The balance in this account represents the unamortized portion of the estimated deficiency in the Super-annuation Account which was set up as a deferred charge to be written off to expenditure, subject to Parliamentary approval.

AI This account reflects unadjusted balances resulting from the reconciliation of payments to the chartered banks for redemption of paid cheques with the amount of those cheques as subsequently determined in adjustment of the Outstanding Treasury Cheques Account, and includes amounts for the fiscal years 1942-43 to 1947-48 inclusive, which were debited in previous years under individual Treasury Board authorities.

AJ This account recorded adjustments of the valuation of the Canadian dollar balances on deposit with the International Monetary Fund—see under Other Loans and Investments. The International Monetary Fund—Revaluation of Canadian Dollar Balances is shown under Suspense Accounts (Liabilities) as at March 31, 1958.

AK This account reflects the nominal value placed on capital assets, which include land, buildings, works, equipment, etc., as these assets are written off to expenditure at the time of acquisition or construction.

AL No payments of principal or interest were made during the fiscal year by the Governments of these countries in respect of advances made in previous years.

AM In this account is recorded the outstanding balance of advances made to the Province of Saskatchewan for the purchase of seed grain.

AN A loan to the Ming Sung Industrial Company of Canada Limited by the Dominion Bank, the Imperial Bank of Canada and the Bank of Toronto in 1946 was guaranteed by the Government of Canada under authority of Part II of the Export Credits Insurance Act, c. 105, R.S., as amended. Payments to the banks to implement the guarantee during the current fiscal year were \$1,399,862.

AO This reserve is provided for losses on the realization of assets.

AP Current and Demand Liabilities consist of obligations of the Government of Canada payable currently or on demand. Accounts payable is to record the net liability of accounts paid in April of any year applicable to the previous fiscal year. An amount of \$266 representing Imprest Account cheques and an amount of \$183,619 representing Treasury cheques outstanding for ten years or more were transferred to Non-Tax Revenue—Miscellaneous, and Refunds of Previous Years' Expenditure, respectively.

Further details will be found in Schedule J to the Statement of Assets and Liabilities in Part I of this Report.

- AQ The funds represent the proceeds from the sale of lands set apart under 12 Vic. 1849, Chapter 200, for the support and maintenance of common schools in Upper and Lower Canada, now Ontario and Quebec. Income from the sales is apportioned to the two provinces on the basis of population. Interest apportioned on the same basis is paid semi-annually to these provinces at the rate of 5 per cent per annum and is charged to Interest on Public Debt.
- AR By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually. Securities recorded in this account are in connection with contracts for the printing and engraving of bonds for this Department and stamps for other departments.
- AS The balances in these accounts represent amounts placed on deposit with the Receiver General of Canada pursuant to section 81 (2) of the Financial Administration Act to be paid out for the purposes of the corporation or repaid to the corporations.
- AT These accounts were established to record instalment payments on purchases of Government Bonds by employees of the Government of Canada and Government Agencies.
- AU To this account are credited all amounts received from insurance companies and others who have security deposits in the Department to cover insurance and postage on shipments of securities. It is debited with payments for insurance and the cost of postage as shown on the postage meter.
- AV Section 53 of the Financial Administration Act, c. 116, R.S., as amended, provided for the establishment of this account and for the crediting hereto of the sum of \$25,000, such further amounts as are appropriated by Parliament for the purposes of this section, and any recoveries of losses referred to in section 54 of the Act. Section 54 states that the Minister may, in accordance with and subject to the regulations, pay out of the account any losses sustained by subscribers for (Government) securities who have paid all or part of the purchase price but have not received the security or repayment of the amount so paid, and losses sustained by any person in the redemption of securities.
- AW P.C. 144, January 18, 1936, authorized: (a) the setting up of this Trust Account; (b) the payment of the grant of \$100,000 provided by Vote 383 of Appropriation Act No. 6, 1935, and the crediting of this amount to the account; (c) the Department of Finance to accept further sums not exceeding \$400,000 for credit to the account; (d) the allowing of interest of 3 per cent per annum, paid semi-annually on April 1 and October 1, to the Trustees; and (e) withdrawals from the Fund, in whole or in part, at the pleasure of the Trustees. The interest payments were charged to Interest on Public Debt.
- AX Section 98 of the Financial Administration Act, c. 116, R.S., as amended, authorized the establishment of this account and the crediting hereto of (a) the balance of the Government Officers Guarantee Fund (b) amounts paid by Departments by way of premiums and (c) amounts recovered by Her Majesty in respect of payments out of the account or the Government Officers' Guarantee Fund. Payments may be made out of the account in accordance with the regulations by way of indemnity for losses suffered by Her Majesty or others by reason of defalcations or other fraudulent acts or omissions of public officers. The Act further directs that every payment out of the account and the amount of every loss suffered by Her Majesty by reason of defalcations or omission of a public officer together with a statement of the circumstances, shall be reported annually in the Public Accounts. This information will be found in the Special Section at the end of Part II.
- T.B. 426150, April 17, 1952, approved regulations effective April 1, 1952, concerning the establishment and maintenance of the account. Included in these regulations is a list of departments and Crown corporations to which the Act does not apply. They also contain a direction that no premiums or contributions will be assessed until the Board directs otherwise.
- AY Amounts forming the balance in this account were credited to the Receiver General, in accordance with the provisions of the relevant Act, pending distribution.
- AZ P.C. 3718, August 6, 1952, authorized the transfer by the Custodian of Enemy Property to the Minister of Finance of all property that was vested in or administered by the Custodian pursuant to the Treaty of Peace (Germany) Order, 1920. Money transferred under this authority was to be paid into the Consolidated Revenue Fund and an amount sufficient to pay outstanding claims to any such property was to be credited to a special account in the Fund to be paid in due course in discharge of these claims. The balance in this account represents the amount available for this purpose.
- BA Vote 696, Appropriation Act No. 4, 1952, authorized the Minister of Finance to establish a special account in the Consolidated Revenue Fund to which shall be credited all money received by him from the Custodian of Enemy Property or other sources as prescribed in the vote and also authorized payment from the account (a) to eligible claimants for compensation in respect of World War 2 and (b) of expenses incurred in investigating and reporting on claims.
- Pursuant to P.C. 4354, October 23, 1952, a War Claims Commission was established to inquire into and report upon claims made by Canadians arising out of World War 2 for which compensation may be paid from this or any other fund established for the purpose. The expenses of this Commission are chargeable hereto.

BD Contributions are made to the fund in the form of monthly deductions from the salaries of certain prevailing rate or seasonal and certain other employees. Other credits are the accrual of interest at the rate of 4 per cent per annum on the balance to the credit of each contributor, the offsetting charge being to Interest on Public Debt. Debits represent payment of the amounts to the employees' credit upon resignation or death, or, if they become contributors to the Superannuation Account, transfers to that Account.

BE The Superannuation Account is operated under the Public Service Superannuation Act, c. 47, 1952-53, as amended, which was proclaimed to come into effect January 1, 1954. The following statement shows the transactions in the Superannuation Account during the current fiscal year:

BF The amounts of remittances which are not immediately classifiable are credited hereto and cleared to the proper accounts upon receipt of the necessary information.

BG The will of the late Ernest Davis, who died on May 12, 1936, provided that the residue of his estate would be paid to the Government of Canada. Credits represent the receipts of interest from investments.

BH These are the offsetting accounts to those explained under comments C, S and T.

BI Deductions from the salaries of employees who are paid through Central Pay Office and who have elected to come under the Government plan are credited to this account pending transmittal to the insurance companies participating in the plan.

BJ Through an agreement with the Province of Prince Edward Island the Federal Government financed the building of the Hillsboro bridge in 1905 and the province agreed to pay \$9,750 annually toward the upkeep of the bridge. This was passed on to the Canadian National Railways for maintenance purposes until 1952 when the railway discontinued use of the bridge. Since 1952 the annual payment has been credited to Cash Suspense—Unallocated Funds. During this fiscal year the accumulated amount was transferred to this account.

- BK This account recorded adjustments of the valuation of Canadian dollar balances on deposit with the International Monetary Fund—see under Other Loans and Investments.
- BL Credits to this account represent incomplete subscriptions to Victory Loans 1917 to 1919 and 1941 to 1945 inclusive and to Canada Savings Bonds 1946 to 1956 inclusive.
- BM Unclaimed matured bonds which cannot be delivered are cancelled and the value, including that of any interest coupons, is credited to this account. Disbursements are made to the owners of such bonds upon application.
- BN Amounts received by the Overseas Treasury Officer, London, England, which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.
- BO All cheques except those drawn against Open Accounts, which remain undelivered six months subsequent to date of issue, are credited to this account pending claims therefor. An amount of \$992,923 representing cheques unclaimed for ten years or more was transferred to Non-Tax Revenue—Miscellaneous.
- BP The chartered banks of Canada submit semi-annually to this Department lists of outstanding drafts on Government account. The amounts of these drafts, which cannot be identified, are credited to this account pending information as to the Department or service concerned. Clearance is made upon receipt of such information. An amount of \$95 representing drafts unclaimed for ten years or more was transferred to Non-Tax Revenue—Miscellaneous.
- BQ To this account is credited the value of War Savings Certificates and Stamps which are returned to the Bank of Canada for various reasons. When owners are located or identified, disbursements are made.
- BR This is the offsetting amount to that explained under comment W.
- BS When called bonds are presented for payment with coupons for the period subsequent to the date of call detached, the amount of the missing coupons is withheld from the redemption settlement to the bondholder and credited to these accounts. When the coupons are located or presented for payment, the adjustments by payment or transfer are debited hereto.
- BT These balances represent the total unmaturred debt of the Government of Canada. Details will be found in Appendix 4 to Part I of this Report.

EXCHANGE FUND ACCOUNT

Ottawa, February 21, 1958.

THE HONOURABLE DONALD M. FLEMING,
MINISTER OF FINANCE,
OTTAWA.

Sir:

In accordance with the requirement of section 27(2) of the Currency, Mint and Exchange Fund Act, an audit has been made of the Exchange Fund Account for the fiscal year ended December 31, 1957.

The attached certified statement gives a summary of the Account for the year, and the composition of the balance of the Account as at December 31, 1957, together with comparable figures for the previous year.

The accumulated deficit of \$169,170,000 is \$45,764,000 less than at the close of the preceding year. This reduction is due chiefly to the revaluation of holdings at the rate of \$0.98 13/32 Can. = \$1.00 U.S.

Yours faithfully,

IAN STEVENSON,
for Auditor General.

J. E. COYNE,
Governor.

W. A. CAMERON,

Chief of the Foreign
Exchange Department.

I have examined the transactions in connection with the Exchange Fund Account for the year ended December 31, 1957, and have obtained all the information and explanations I have required. In my opinion, the transactions have been in accordance with the provisions of the Currency, Mint and Exchange Fund Act, and the above statement, which is in agreement with records maintained by the Bank of Canada, exhibits a true and correct view of the composition of the balance of the Account as at December 31, 1957.

IAN STEVENSON,

Expenditures..... (20) \$ 36,645

P.C. 6839 of August 4, 1942, authorized the Minister to establish the rate of bounty to be paid in any fiscal year for the destruction of harbour and gray seals, which cause considerable loss of fish and damage to fishing equipment on both coasts. They are also hosts to the cod-worm on the Atlantic Coast, causing incalculable loss to the industry. During the present fiscal year the bounty was: East Coast, pup seals, \$5; adult seals, \$10; West Coast, all seals, \$5. Payments, East Coast, \$16,385; West Coast, \$20,100.

INTERNATIONAL COMMISSIONS

Appropriation 153 To provide for Canadian share of expenses of the International Fisheries Commission appointed under Treaty dated March 2, 1953, between Canada and the United States for the preservation of the North Pacific Halibut Fisheries.. 111,335
Expenditures..... (22) \$ 108,355

The Convention between Canada and the United States, approved by the Northern Pacific Halibut Fishery Convention Act, c. 43, 1952-53, is for the preservation of the Halibut Fishery of the Northern Pacific Ocean and Bering Sea. The International Pacific Halibut Commission is empowered to make such regulations and investigations with regard to halibut fishing as are necessary to carry out the provisions of the Convention.

The Convention provides that each country appoint three commissioners and pay the salaries and expenses of its appointees and one-half the joint expenses incurred by the Commission.

The Canadian Commissioners were W. M. Sprules, whose name will be found in the salary lists at the end of this section and H. Helland, Prince Rupert, B.C. and R. Nelson, Vancouver, both of whom served without remuneration.

The total disbursements for the year amounted to \$215,969 apportioned as follows: Canada, \$108,355 (including non-sharable expenses of \$809); United States, \$107,614 (including charges of \$68 incurred by other departments). Appropriations 154 and 623 To provide for Canadian share of expenses of the International Pacific Salmon Fisheries Commission appointed under Treaty dated May 26, 1930, between Canada and the United States for the protection, preservation and extension of the Sockeye Salmon Fisheries of the Fraser River System, and a Protocol thereto, signed on December 28, 1956, extending the Convention to include the Pink Salmon Fisheries of the Fraser River System....		243,825
Expenditures.....	(22)	\$ 242,526

The Convention between Canada and the United States for the protection, preservation and extension of the Sockeye Salmon Fisheries of the Fraser River System, signed at Washington on May 26, 1930, as amended by the Protocol signed at Ottawa on December 28, 1956, was confirmed and sanctioned by the Pacific Salmon Fisheries Convention Act, c. 11, 1957.

The Convention provides for the appointment of an International Pacific Salmon Fisheries Commission empowered to conduct a thorough investigation into the natural history of sockeye and pink salmon of the Fraser River and to make recommendations to the Governments for removing or overcoming obstructions to the ascent of sockeye or pink salmon in waters covered by the Convention. All regulations made by the Commission are subject to approval of the two Governments with the exception of orders for adjustment of fishing periods and areas in any season and emergency orders required to carry out the provisions of the Convention.

Each country appoints three Commissioners and pays the salaries and expenses of its own appointees and one-half of the joint expenses incurred by the Commission.

The Canadian Commissioners were A. J. Whitmore, whose name will be found in the salary lists at the end of this section and the Hon. T. Reid, Senator, New Westminster, B.C. and F. D. Mathers, New Westminster, B.C., both of whom served without remuneration.

The total disbursements for the year amounted to \$481,575, apportioned as follows: Canada, \$242,526 (including non-sharable expenses of \$4,053); United States, \$239,049 (including charges of \$576 incurred by other departments). The United States portion was transferred to the United States—Pacific Salmon Treaty Account (see Open Accounts further on in this Section).

The Fisheries Research Board of Canada, replacing the Biological Board of Canada, was established by the Fisheries Research Board Act, c. 121, R.S., as amended, to have charge of all Federal fishery research stations in Canada and to conduct and have the control of investigations of practical and economic problems connected with marine and fresh water fisheries, flora and fauna, and such other work as may be assigned to it by the Minister.

The Board consists of a chairman and not more than eighteen other members. A majority of the members of the Board, not including the chairman, shall be scientists and the remaining members of the Board shall be representative of the Department and the fishing industry. During 1957-58 the Board was comprised of the chairman, 10 scientific members, 5 members representing the fishing industry and 1 representing the Department.

Section 14 of the Act provides that the Board may expend such sums as are necessary for its work from moneys appropriated by Parliament, or from funds received through bequests, donations, the sale of natural history specimens, or from any other source.

Revenues totalling \$6,015 were realized from: sales of publications, \$194; rentals, \$2,748 and sales of fish, \$3,073; and, under the above authority, were applied as a reduction of expenditures.

B The Halibut and Salmon Treaties between the United States and Canada provide that each country pay one-half of the joint expenses incurred by the International Pacific Halibut Commission and the International Pacific Salmon Fisheries Commission. All accounts are paid in the first instance by Canada and monthly statements are rendered for the amounts recoverable from the United States. The closing balances represent outstanding billings.

C These accounts record advances made to the Governments of Nova Scotia and Prince Edward Island in respect of loans made by those Governments to fishermen for the purpose of replacing abnormal losses of equipment suffered in the 1951-52 and 1953 fishing seasons. Vote 631, Appropriation Act No. 2, 1954 and Vote 627, Appropriation Act No. 2, 1955 provided for the advances. Decreases in the accounts represent repayments.

D Vote 540, Appropriation Act No. 5, 1955, provided for the establishment of one or more special accounts replacing those established by Vote 536 of the Appropriation Act No. 4, 1954, for the purposes of a plan to be known as the Fishermen's Indemnity Plan, to be administered in accordance with regulations of the Governor in Council, for the purpose of assisting fishermen to meet abnormal capital losses; and to authorize payment of indemnities; the accounts to be credited with all amounts received by way of premiums and recoveries and with advances in accordance with the regulations, such advances not at any time to exceed \$150,000. The operation of the account was extended by Vote 527, Appropriation Act No. 6, 1956, to authorize payments therefrom of refunds of premiums in accordance with regulations of the Governor in Council.

Details of the account follow:

	Dr. Balance Mar. 31, 1957	Receipts	Disbursements	Dr. Balance Mar. 31, 1958
Fishing Vessel Indemnity Fund	51,160	112,731	95,512	33,941

	<u>\$ 58,454</u>	<u>\$ 181,161</u>	<u>\$ 156,648</u>	<u>\$ 33,941</u>

The Lobster Trap Indemnity Fund was recouped for the net operating loss in the Account as of March 31, 1958 in the amount of \$50,615, charged to Appropriation 803.

- E P.C. 1956-4/1216, August 9, 1956, as amended by P.C. 1956-1/1539, October 18, 1956, authorized the sale of a fish dryer to E. J. Green and Company, Winterton, Newfoundland. The purchase price, after the allowance for depreciation on the original cost, amounted to \$3,034, payable in three instalments, one immediately and further payments on July 31, 1957 and July 31, 1958, with interest at the rate of 5 per cent per annum from July 1, 1956. Interest amounting to \$126 was received and credited to Non-Tax Revenue—Return on Investments.
- F Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.
- G By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.
- H This account records the funds received from the Great Lakes Fisheries Commission covering control and research work in respect to lampreys in the Great Lakes, carried out by the Fisheries Research Board of Canada on behalf of the Commission on a contract basis.
- I Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.

Tax Revenue—

A Insurance Companies—Tax on Net Premiums	68,364
---	--------

Part I of the Excise Tax Act, c. 100, R.S., as amended, levied a tax on net insurance premiums received by companies authorized under the laws of Canada or any province thereof, of (a) 2 per cent on net premiums of companies, other than an association of persons formed on the plan known as Lloyds or an exchange; (b) 3 per cent on net premiums received by every association of persons formed on the plan known as Lloyds and by every exchange. This tax did not apply to marine insurance. An amendment to the Excise Tax Act, c. 37, 1956 provided that this tax would not apply to any premiums received after December 31, 1956. The amount of this tax received during the year was \$45,749.

Under the same authority, a tax of 10 per cent was levied on net premiums paid by any resident of Canada for insurance on property with companies not authorized under the laws of Canada or any province thereof. The amount of this tax received during the year was \$22,615.

A Under the terms of P.C. 1419, April 10, 1952, the Federal Government entered into agreements with the provinces by which the Provincial Governments would be reimbursed fifty per cent of the costs incurred in recruiting farm labourers, male or female, and transporting and placing them on farms within the provinces. The following payments were made to the Provinces: Prince Edward Island, \$245; Nova Scotia, \$9,313; New Brunswick, \$3,446; Quebec, \$16,683; Ontario, \$8,619; Manitoba, \$14,757; Saskatchewan, \$20,326; Alberta, \$46,131; British Columbia, \$8,581.

Transportation costs for interprovincial movement of Farm Workers were paid initially by the Unemployment Insurance Commission, 50 per cent of which were recovered from the various provinces, the other 50 per cent (\$27,022) was charged to this vote.

B Various Orders in Council extending back to 1947 authorized the Minister to make provision for the reception in Canada of immigrants from Displaced Persons Camps and from the United Kingdom and other European countries. This included provision for the establishment and operation of hostels. The Minister was also authorized to enter into agreements with the Provincial Governments whereby they are reimbursed under certain conditions for one-half of the expenditures incurred for medical and hospital services for immigrants.

Transportation costs involved in the movements of immigrants in Canada are provided through votes of the Department of Citizenship and Immigration.

Expenditures were mainly in connection with farm workers and domestics.

C This amount was paid to the Province of Quebec.

The Vocational Training Co-ordination Act c. 286, R.S., as amended, authorized the Minister of Labour with the approval of the Governor in Council, to enter into agreements with the Provinces to provide financial assistance for Vocational Training and made provision for the appointment of an Advisory Council to carry out investigations of problems relating to the operation of the Act. Provincial Governments are

reimbursed for fifty per cent of the expenditures incurred on approved projects under the agreements except "Training of persons to fit them for the Armed Forces" and "Training of personnel of other Departments of the Federal Government" for which the federal contribution is one hundred per cent. Contributions to provinces representing the Federal Government's share of expenditures for Vocational School Assistance and approved training programs were charged to Appropriation 197.

This appropriation was provided for the administrative expenses of the vocational training program and for payment of travelling expenses and per diem allowances of members of the Council who served without salary.

A Travelling expenses of \$500 or over were paid to: J. A. Doyle, \$502; R. Eaton, \$802; G. F. McNally, \$1,064; J. H. Ross, \$730; W. H. Swift, \$661.

Appropriation 197 To provide for carrying out the purposes of the Vocational Training Co-ordination Act and agreements made thereunder; to authorize the Minister of Labour to enter into agreements with any province on terms approved by the Governor in Council to provide financial assistance to vocational schools, and training under youth training projects and to provide for the expenditures thereunder and under vocational training agreements entered into in previous years—Payments to the Provinces

The Unemployment Insurance Act, c. 50, 1955, as amended, has a two-fold purpose, namely, the payment of unemployment insurance benefits to insured workers involuntarily unemployed, and the creation of a national employment service to assist employees and employers in the solution of their employment problems. In addition, the Act provides for the establishment of a special account in the Consolidated Revenue Fund to be known as the Unemployment Insurance Fund—see under Open Accounts further on in this section. The moneys credited to this fund are derived from contributions made by employed persons, employers of such persons and the Government of Canada and are to be utilized only for the payment of unemployment insurance benefits and any other payments permissible under the Act.

- A Expenditures comprised: legal fees, \$17,029; armoured car delivery service, \$23,930; microfilming of records, \$9,163; sundries, \$2,856.
Legal fees of \$500 or over were paid as follows: J. Anctil, Montreal, \$693; Boily, Langlois, Audet and Morrisette, Quebec, \$504; E. Courchesne, Montreal, \$590.
- B Commissions were paid at the rate of 8/10ths of one per cent of sales of stamps and meter impressions. These commissions were on total sales of \$96,749,067.
- C Protective service rendered in offices of the Unemployment Insurance Commission.
- D Charges for the various services were: telephone rentals, \$227,516; long distance telephone calls, \$85,258; telegrams, \$22,025; teletype service, \$1,449; messenger service, \$491. Of this expenditure, \$9,876 was paid to the Department of Finance.
- E Expenditures comprised: newspaper advertising, \$28,952; radio services, \$10,653; other, \$8,611.
- F Expenditures comprised: stationery and office supplies, \$828,093; educational equipment, \$806; office equipment, \$28,293; maintenance charges, \$529; rent of office equipment, \$15,929; signs, \$967. The foregoing expenditures included \$730,017 paid to the Department of Public Printing and Stationery.
- G Expenditures comprised: fees of office, \$113,234; travelling expenses of other than government employees, \$10,440; reimbursement for time lost, \$377; per diem allowances, \$2,234.
Fees and allowances as authorized by P.C. 1957-52 626, May 3, 1957, for Chairmen of Courts of Referees, are \$35 per day or \$22 per part day, and for members \$25 per day or \$15 per part day.
Fees of office of \$500 or over were paid to the following:
Chairmen: F. W. Alexander, Regina, \$770; J. R. Beaton, Kitchener, Ont., \$628; J. L. Boulanger, Quebec, \$1,046; F. J. Conway, Sherbrooke, Que., \$995; J. B. Cooper, Toronto, \$1,260; L. F. A Where an investigation by officials of the Department in respect of a contract on Government works results in an award of further wages, the amount received from the contractor is credited to this account and subsequently distributed to the employees.

This account also reflects amounts received from various departments representing unclaimed wages in respect of cost plus contracts withheld from final payments to contractors pending claims therefor.

B The closing balance in this account represents war service gratuities payable to Polish veterans who were selected for agricultural employment in Canada (P.C. 5201, December 19, 1946) and whose addresses are unknown.

C The net balance of \$15,050,133 at the credit of the Unemployment Insurance Fund represented the recorded liability of the Government of Canada to the Unemployment Insurance Commission. The debit balance under bonds and accrued interest consisted of the book value of the bonds, \$734,011.898 and accrued interest of \$5,740,895. See appendix to this section for Balance Sheet as at March 31, 1958, and statement of Revenue and Expenditure for the year ended March 31, 1958.

D The Government Annuities Act, c. 132, R.S., provides that an account shall be kept, to be called the Government Annuities Account, of all moneys received and paid out under the provisions of the Act. Credits, amounting to \$102,312,824 consisted of: premiums of \$62,680.102; interest at 4 per cent per annum on contracts entered into to April 18, 1948, and after March 31, 1957, \$30,578.303; interest at 3 per cent per annum on contracts for the period April 19, 1948 to March 31, 1952, \$2,572.307; interest at 3½ per cent on contracts issued from April 1, 1952 to March 31, 1957 inclusive, \$5,297.646; and an amount of \$1,184.466 required to maintain reserve which was charged to expenditures. Debits comprised vested annuity and commuted value payments and refunds of premiums, \$43,946,358, and an amount of \$11.179 transferred to Department of Finance, Non-Tax Revenue—Miscellaneous representing dormant liabilities. The closing balance represented the actuarial value of outstanding contracts.

E Receipts which cannot be allocated immediately are credited to these accounts pending clearance to the proper accounts.

GENERAL

To provide for payments under the Emergency Gold Mining Assistance Act, c. 95,

R.S., as amended..... (20) \$ 8,597,620

In order to prevent the closing of mines due to increasing costs of equipment, supplies and labour, and thus avoid the resultant hardships on dependent communities the above Act was passed on May 14, 1948, with payment effective for a period of three years from January 1, 1948. Later amendments to the Act extended the application thereof to the end of 1958.

Assistance is restricted to the mines from which the value of gold produced is not less than 70 per cent of the value of the total output of the mine. The assistance payable to a mine in respect of gold produced and sold in a designated year is the product of the "rate of assistance" and the "assistance ounces". The factor "rate of assistance" applied during the years 1955, 1956 and 1957 was two-thirds of the amount by which the average cost of production of an ounce of gold exceeded \$26.50, the maximum "rate of assistance" being \$12.33. The terms "assistance ounces" applied in the calculations for 1955, 1956 and 1957 was two-thirds of the production of the mine during the designated year. The expression "base year" which was used to calculate the "assistance ounces" in the first seven years of the operation of the Act was eliminated for the years 1955, 1956 and 1957.

Expenditures to date, including the balance of \$1,754,286 in Emergency Gold Mining Assistance Holdbacks (see Open Accounts further on in this section) to provide for payment of holdbacks after final audit, amounted to \$110,512,275.

The following statement shows the payments to mine operators in the current fiscal year and total assistance to March 31, 1958, under the above statutory authority.

Payments under Parts I-IV of the Defence Services Pension Act, c. 63, R.S., as amended (21) \$ 5,769,084

This statutory appropriation is provided for payment of pensions granted under Parts I-IV of the Act, to officers and men of the permanent services and to dependents of deceased officers. Ranks below that of Warrant Officer Class 2 or the equivalent are eligible for pensions on a non-contributory basis, which cease on the death of the recipient. The pay and allowances of officers and warrant officers or the equivalent are subject to deductions for pensions for which their dependents are also eligible. The deductions are credited to Non-Tax Revenue—Miscellaneous. On March 31st, 1958, 3,513 pensions were in issue of which 528 were in respect of deceased officers. A distribution by services follows: Navy, \$1,014,165; Army, \$3,728,278; Air, \$1,026,641.

Details in respect of pensions under Part V of the Act are given under Permanent Services Pension Account—see Open Accounts further on in this section.

Transfers of Pension Contributions, Defence Services Pension Act, c. 63, R.S., as amended (21) \$ 7,438

Part V of the above Act provides for pensions for members of the Permanent Services and for their dependents. Contributions to the previous plan, which was known as the Defence Services Pension Act, Parts I-IV, were made in the form of pay deductions and credited to Non-Tax Revenue, and, as the act provides for the voluntary transfer of a contributor from the old to the new pension plan with full credit for his previous contributions, it was necessary to provide the above amount for transfers of such contributions to the Permanent Services Pension Account—see Open Accounts further on in this section. A distribution by services follows: Army, \$3,440; Air, \$3,998.

Appropriations 245 and 817 Defence Services Pension Act—Government contribution to the Permanent Services Pension Account.....	49,731,909

*And equivalent ranks in Army and Navy.

Clothing Credit and Kit Upkeep Allowance.—P.C. 1955-19/447, March 30, 1955, effective April 1, 1955, provides that a man below the rank of Warrant Officer Class 1 of the Canadian Army Regular, the Regular Air Force and the Reserves on Continuous Duty is entitled to a clothing credit equal to the value of any items of clothing and equipment authorized by the approved scales of issue but not issued and a clothing credit at the rate of \$7 for a man and \$8 for a woman for each month of service in the Canadian Army Regular, the Regular Air Force or for each month with the Reserves on Continuous Duty. P.C. 1955-19/447, provides also, that a man of the Regular Naval Force and a man of the Reserves performing Continuous Naval Duty is entitled to a Kit Upkeep Allowance of \$7 per month for Petty Officers 2nd Class and below and \$8 per month for Chief Petty Officers 1st Class, Chief Petty Officers 2nd Class and Petty Officers 1st Class and \$9 per month for females of rank of Chief Petty Officers 1st Class and below.

Separated Family's Allowance.—Under certain conditions set forth in Service regulations, this allowance, ranging from \$46 per month for ranks below Sergeant or equivalent rank to \$150 per month for a Major General or equivalent rank, is payable to members of the Forces in receipt of marriage allowance who are obliged to live apart from their families because appropriate accommodation is not available or who have not been authorized to move their families to their place of duty at public expense. An additional \$15 per month is payable if there are any dependent children.

Supplementary Allowances—Duty Outside Canada.—Unless the Minister otherwise directs, members of the three Services posted for duty outside Canada are entitled to receive supplementary allowances based on the cost of living index for the country concerned in relation to that of Canada. The amounts of the monthly allowances vary by rank and the percentage payable is governed by certain conditions as follows: accompanied by dependents, rations not provided, 100 per cent; accompanied, rations provided for family, 50 per cent; accompanied, rations provided for service member only, 75 per cent; unaccompanied, messing facilities not available, 67 per cent; unaccompanied, messing facilities available, 33 per cent.

Supplementary allowances payable as at March 31, 1958, in certain countries range as follows (the first rate in each case is for Corporal or equivalent rank and ranks below and the latter for Brigadier or equivalent rank): France \$114—\$457; Germany \$52—\$339; Japan \$58—\$270; United Kingdom \$52—\$285; United States of America \$62—\$423.

An education allowance may be paid to an officer or man who is unable to obtain schooling for his children without payment of a tuition fee. This allowance may be paid from the time a child commences school until he attains the age of 19 years or until he commences a university course or the equivalent thereof, whichever is the earlier. The allowance shall not exceed \$200 per child per education year in respect of a child who, as at the date of commencement of his education year, has not reached his 13th birthday or \$400 per child per education year, in the case of any other child.

Rental Allowances—Duty Outside Canada.—Service personnel serving outside Canada who are authorized to receive Supplementary Allowances and who are not provided with accommodation are reimbursed for a portion of their rent, the amounts varying with the rank and the gross monthly rent paid.

Foreign Allowance.—This allowance is payable to officers or men of the Navy, Army and Air Force, while serving outside of Canada for a period in excess of 30 days, who are not in receipt of Supplementary Allowances. The rates range from \$9 per month for Corporal or equivalent rank and ranks below to \$55 for Major General or equivalent rank.

Special Allowances—United Kingdom and Continental Europe.—P.C. 1956-23/901, June 14, 1956, as amended by P.C. 1957-19/1312, October 3, 1957, effective September 1, 1957, authorized payment of special allowances, at the following rates, to married officers and men of the Canadian Forces detailed for duty in the United Kingdom and Continental Europe who are not in receipt of supplementary allowances.

A Transactions in respect of these accounts are under the authority of various Orders in Council and Treasury Board Minutes which limit the outstanding debit balances.

B This account is charged with expenditures for operating costs of Pinetree Stations. Credits consist of recoveries of these amounts from the Government of the United States.

C Article VIII of the Agreement approved by the Visiting Forces (North Atlantic Treaty) Act, c. 284, R.S., as amended, deals with claims for damages to third parties arising from accidents in which a Visiting Force is involved. This account is debited with the amount chargeable to other States of such claims for damages which took place in Canada and is credited with recoveries.

D This account was authorized by the following appropriation:

Appropriation 528 To authorize, under such terms and conditions as the Governor in Council prescribes, a capital assistance loan to the Town of Oromocto, New Brunswick, to be covered by town debentures, for the purpose of assisting in the completion of the physical development of municipal works.....\$ 1,500,000

During the current fiscal year loans in the amount of \$1,500,000 were made and repayments of \$14,032 received. Interest in the amount of \$24,154 was received and credited to Non-Tax Revenue—Return on Investments.

E This account was established under authority of Vote 732, Appropriation Act No. 6, 1956. During the current fiscal year, loans in the amount of \$2,000,000 were made to Central Mortgage and Housing Corporation under the following authority:

Appropriation 527 To authorize loans to be made in respect of housing projects constructed, pursuant to an agreement with the Minister of National Defence, for occupancy by members of the Canadian Forces; such loans to be at interest rates and in accordance with such terms and conditions as the Governor in Council prescribes.....\$ 4,166,667

- F This account records the value of Japanese Telephone Company bonds issued to the Department of National Defence. In 1952 a deposit of 35,000 Japanese Yen was made with the Japanese Telephone Company in connection with telephone extensions installed in the Canadian Embassy, Tokyo. This deposit was redeemable within five years provided the telephone instruments were returned to the company within that time. In 1954 this deposit was exchanged for long term bonds in the same amount maturing in ten years with interest at $6\frac{1}{2}$ per cent per annum.
- G T.B. 471953, June 11, 1954 approved entry into an agreement with the New Brunswick Electric Power Commission whereby the Department of National Defence will pay for the construction of a power transmission line to Camp Gagetown, New Brunswick, on the basis of progress payments as the work proceeds. Cost of construction, estimated to be \$225,000, will be repaid by the Commission in five annual instalments of \$45,000 each, beginning January 1, 1959.
- H T.B. 487896, June 17, 1955 approved entry into an agreement with the Town of Dartmouth, N.S., for the construction of a water main to Albrow Lake Naval Radio Station and authorized the Department of National Defence to advance the Town of Dartmouth, without interest, by way of capital assistance, the sum of \$25,000. This loan is to be repaid in five annual instalments of \$5,000 each.
- I To this account are credited sums deducted from the pay of officers and men of the Royal Navy who are on loan to the Canadian Navy, for contributions under the Widows, Orphans and Old Age Contributory Pensions Act of the United Kingdom and deductions in respect of long service pensions at rates equivalent to those applicable to Royal Canadian Navy personnel under Part V of the Defence Services Pension Act. Payments to the British Admiralty under agreement were debited to the account.
- J Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.
- K By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.
- L Credits to this account are made up of deductions from pay and allowances of Royal Canadian Navy, Canadian Army and Royal Canadian Air Force Officers appointed to short or medium service commissions. Such deductions are equal to the monthly pension deduction calculated under Part V of the Defence Services Pension Act. The account is debited with payments to the officers on termination of service, payments to their heirs in case of death before termination of service and transfers to Permanent Services Pension Account in respect of officers granted long service commissions.
- M To this account are credited the service estates of deceased members of the Armed Forces of World War 2 and the post-war Services. Net assets of estates are distributed to the legal heirs under the administration of the Judge Advocate General in his capacity as Director of Estates of this Department.
- N Section 55 of the National Defence Act, c. 184, R.S., as amended, directs *inter alia* that the Minister of National Defence may request the Minister of Finance to allocate any portion of the moneys appropriated by Parliament for the purpose of the Defence Research Board for scholarship or grants in aid of research and investigations. Moneys so allocated are held in trust by the Minister of Finance and disbursed on the requisition of the Minister. The balance in this account represents the undistributed portion of such grants. An amount of \$21,339 representing refund of the unexpended balance of grants was credited to Non-Tax Revenue—Refunds of Previous Years' Expenditure.
- O Credits to this account represent the Royal Canadian Naval portion of the Herbert Lott Naval Trust Fund which is administered by the British Admiralty. These funds are allocated to Active or Reserve Force units which show marked efficiency in fighting practices and exercises.
- P This account records amounts received from the United Kingdom Government in respect of the Korean Operations Pool Accounts which are maintained by the Commonwealth of Australia on behalf of the participating countries. The funds received by Canada and held in this account are to be paid over to the Korean Operations Pool as required.
- Q Under a Deed of Gift of the late J. Dazell McKee, securities to the value of \$1,000 are held in trust by the Department. Revenue derived therefrom is credited to this account and used to defray certain expenses in connection with the annual award of the McKee Trophy to the individual who is considered by the Minister, upon recommendation of the selection committee, to have made the most outstanding contribution toward the advancement of Canadian aviation.
- R This fund was established in 1909 by the late Lord Strathcona. The interest is to be expended in encouraging physical and military training in the public schools of Canada. Payments of interest are made to the trustees semi-annually at the rate of 4 per cent per annum, and are charged to Interest on Public Debt.
- S Unclaimed wages in respect of cost plus contracts were withheld from final payments to contractors and credited to this account pending claims therefor. The balance of this account was transferred to Deposit and Trust Accounts—Fair Wages Suspense of the Department of Labour.
- T This account is maintained in connection with expenditures on behalf of the Government of the United States of America.
- U This account pertains to Part V of the Defence Services Pension Act and is credited with (a) current and arrears personal pension contributions; (b) amounts previously credited to Non-Tax Revenue on account

of contributions of personnel formerly under Parts I to IV of the Act who subsequently elected to transfer to Part V; and (c) Government contributions and annual interest. It is charged with pensions, allowances, gratuities and refunds of contributions.

V Part II of the Public Service Superannuation Act, c.47, 1952-53, as amended, which came into effect January 1, 1955, provides for payment of Supplementary Death Benefits to members of the Regular Forces except those who were members on July 1, 1954, and elected not to become participants on or before November 1, 1954. It also provides that Regular Force participants who having been members of the Regular Forces substantially without interruption for 5 years or more and who cease to be members of the Regular Force, may, within 30 days after that time elect to continue to be participants. The account is authorized to be credited with: (a) contributions by participants; (b) Government's contribution (one sixth of benefits paid in respect of participants who, at the time of death were members of the Regular Forces or who were elective Regular Force participants to whom pensions were payable under the Defence Services Pension Act); and (c) interest. It is also authorized to be debited with: (a) benefits paid in respect of participants who, at the time of death were members of the Regular Forces or who were elective Regular Forces participants to whom a pension was payable under the Defence Services Pension Act; and (b) benefits paid in respect of elective Regular Forces participants to whom a pension was not payable under the Defence Services Pension Act upon their retirement from the Regular Forces.

The following statement shows the transactions in the account during the current fiscal year:

- W Charges to this account during the current fiscal year, for procurement were classified as follows: Navy—armament equipment, \$313,218; Army—ammunition and bombs, \$10,609,676, tanks and armoured fighting vehicles, \$160,323, mechanical equipment, including transport, \$2,643,039, armament equipment, \$8,449,626, signal and wireless equipment, \$881,998, miscellaneous equipment, \$1,264,965. An amount of \$13,310, representing adjustments of previous years' credits because of non-delivery of materiel was transferred to Revenue.
- X P.C. 2769, April 6, 1943, authorized the Minister of Finance to enter into arrangements with chartered banks to handle, through bank branches, payroll deduction purchases of Victory Loan Bonds and Canada Savings Bonds by certain employees who were not paid through Central Pay Office. The closing balance represents unclaimed instalments deducted from the salaries of employees who left the Government Services before sufficient deductions had been made to complete their subscriptions.
- Y Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.
- Z This represents the civilian employees' share of residual profits from the wartime operation of the Naval Services Headquarters Canteen and is available for release on the authority of the Deputy Minister for the benefit of these employees.
- ZA Transactions in this account comprised: (a) deductions from the pay and allowances of Naval, Army and Air Force personnel for Canada Savings Bonds credited to this account pending transmittal to the Department of Finance; and (b) deductions from the salaries of certain civilian employees not paid by Central Pay Office credited to this account pending transmittal to the department or agency concerned.
- ZB Section 11 of the National Defence Act, c. 184, R.S., as amended, provides that the Governor in Council may authorize the Minister to deliver to any department or agency of the Government of Canada any materiel that has not been declared surplus and that is not immediately required for the use of the Canadian Forces or the Defence Research Board or for any other purposes under this Act, for sale to such countries on such terms as the Governor in Council may determine. The proceeds of such sales are to be paid into a special account in the Consolidated Revenue Fund and, subject to the approval of the Governor in Council, shall be used for the procurement of materiel; and payments out of the special account shall be made by the Minister of Finance on the requisition of the Minister of National Defence. Proceeds from such sales amounting to \$19,687,498 were credited to this account during the fiscal year. Charges during the fiscal year were classified as follows: Army—ammunition and bombs, \$30,099, armament equipment, \$389, signal and wireless equipment, \$15,748, miscellaneous equipment, \$84; Air—aircraft and engines, \$3,040,488.

A The National Film Board Operating Account was provided for by section 18 of the National Film Act, c. 185, R.S., which also directed that the account be credited with (a) moneys received in respect of operations of the Board, (b) amounts transferred from appropriations made by Parliament for the operations of the Board, other than for the acquisition of capital equipment, in respect of expenditures incurred in such operations, and (c) amounts transferred from appropriations for expenditures by other departments for film activities, in respect of work undertaken for those departments. Payments in liquidation of liabilities arising out of the expenditures incurred by the Board are charged to the Account.

Subsection (5) directs that "At the end of each fiscal year, the value of the inventory of the Board and accounts receivable of the Board shall be determined in accordance with regulations to be made by the Governor in Council, and if such value, added to the receipts shown in the Account, exceeds the total of expenditures shown in the Account and liabilities in respect of operations of the Board then due and payable, an amount equal to the excess shall be transferred to the Consolidated Revenue Fund as revenue, but if the value is less no amount may be credited to the Account to meet the deficiency except pursuant to an appropriation by Parliament for that purpose".

Vote 587, Appropriation Act No. 2, 1956 provided that expenditures may exceed the receipts shown in the account by not more than \$900,000 or such lesser amount as may be fixed by the Treasury Board.

This appropriation was provided for the cost of operating the Immigration Medical Service in Canada and abroad, which performs all duties as assigned to the Department of National Health and Welfare under the Department of National Health and Welfare Act, in connection with the examination and treatment of immigrants.

The European Section of this Service has its headquarters at London, England, and offices at London, Liverpool, Leeds, Bristol, Glasgow, Belfast, Dublin, Paris, Brussels, The Hague, Cologne, Berlin, Hamburg, Stuttgart, Munich, Copenhagen, Helsinki, Vienna, Rome and Athens.

The Prescreening Section supervises the preliminary medical examination of immigrants in all other parts of the world where no Canadian medical officers are located.

The Canadian Section is responsible for the final medical examination of all immigrants on arrival in Canada and for the treatment of those who are ill on arrival or become ill while accommodated in Immigration Halls.

The Service also provides treatment under the authority of P.C. 1957-11/848, June 20, 1957, for immigrants after being admitted to Canada while en route to destination or while receiving care and maintenance pending placement in employment or under the care of the Department of Citizenship and Immigration, in cases where the immigrants lack the financial resources to pay treatment costs themselves. Sick bays are operated at Halifax and Saint John, in connection with the Immigration Halls. The Immigration Hospital (Savard Park) at Quebec has been used primarily for the treatment of Hungarian refugees suffering from pulmonary tuberculosis. Examination facilities are maintained at all principal sea and airports.

Savard Park Hospital, Quebec (200 beds) and Rockhead Hospital, Halifax (100 beds) are maintained primarily for the treatment of immigration cases. The latter is being maintained on a non-operating basis. A breakdown of expenditure follows:

Savard Park Hospital, Quebec: salaries, \$469,777; medical and hospital supplies, \$12,662; food supplies, \$95,217; medical and hospital equipment, \$7,847; laundry services, \$24,920; miscellaneous, \$19,906; total, \$660,329.

Rockhead Hospital, Halifax: salaries, \$15,628; miscellaneous, \$3,107; total, \$18,735.

A Included medical fees of \$249,797 mainly for x-rays of prospective immigrants, and \$774,372 for maintenance of patients.

B This expenditure covered the Department's share of rent of office accommodation in Europe.

C Included \$10,824 for medical and hospital equipment.

D Consists of receipts from services provided by Savard Park Hospital, of which \$178,802 was for the treatment of Indians.

Revenues arising from services provided through the above expenditure amounted to \$13,513 from the sale of meals.

These grants were established in 1948-49 as a step in the development of adequate health services for the people of Canada. Grants are available to the provinces upon terms and conditions approved by the Governor in Council and upon certification by the Minister that a province has agreed thereto. General conditions which apply to all grants are that projects may be submitted as part of a satisfactory provincial plan or program for the development of the relevant health service, and that the province undertakes (a) to expend the moneys received out of its share of the grant for the development of the approved plan or program; (b) to furnish from time to time, reports and statements of expenditure to the Minister covering the development of the plan or program; (c) to refund unexpended moneys on completion of any project or at the end of the fiscal year whichever is earlier; and (d) maintain adequate records and accounts. Payment of grants is based on the submission of audited claims for reimbursement of expenditures made by provincial governments. Payments in the 1957-58 fiscal year were made under the General Health Grants Rules authorized by P.C. 1957-16/565, April 18, 1957, as amended by P.C. 1958-30/336, March 4, 1958. Specific conditions pertaining to each grant are given below.

A *Hospital Construction Grant*. This grant is to assist the provinces to provide adequate accommodation for hospitals and health services, living quarters for nurses and internes, and hospital training facilities by grants of \$2,000 per bed or bed equivalent for hospitals and health services and \$750 per bed for living quarters for nurses and internes. Prior to January 1, 1958, the distribution was made on the basis of \$1,000 per bed for active treatment beds or bed equivalents in the case of health facilities; \$1,500 per bed for chronic, convalescent, mental and tuberculosis beds and \$500 per bed for living quarters for nurses. It also provides assistance for major renovations of existing facilities. Conditions of this grant require that construction or renovation projects be submitted in accordance with a provincial plan or program for the provision of adequate accommodation and that the province undertakes to contribute to the capital cost of the project an amount at least equal to the federal contribution, which in any case shall not exceed one third of the total cost of construction.

This amount was credited to Temporary Loan to the Old Age Security Fund—see under Open Accounts further on in this section.

Family Allowances Payments, Family Allowances Act, c. 109, R.S., as amended.. (25) \$437,886.560

The above Act, as amended, provides for payment of monthly allowances for all eligible children under the age of sixteen years who are resident in Canada. For administrative purposes, regional offices of the Family Allowances Division have been established in each provincial capital.

While application for registration of a child for Family Allowances is made by both parents, the allowances are normally paid to the female applicant, except in most unusual circumstances. There are certain eligibility requirements set out in the legislation including maintenance by the parent, school attendance, etc. The scale of monthly payments in effect as of April 1, 1957, was as follows: under 6 years of age, \$5; 6-9 years, \$6; 10-12 years, \$7; 13-15 years, \$8. On authority of Appropriation Act No. 4, 1957, Sec. 10, effective September 1, 1957, the scale of monthly payment for each child is as follows: for children under 10 years of age—\$6 per month; for children from 10 to 16 years of age—\$8 per month. Payment ceases with the payment for the month in which the child reaches the age of 16 years.

Payments of allowances are made under authority of the Act, from unappropriated moneys in the Consolidated Revenue Fund; while the administrative expenses are payable out of moneys appropriated by Parliament for that purpose (Appropriation 284).

P.C. 5093, August 3, 1945, as amended, authorizes the payment of Family Allowances for eligible Eskimo and Indian Children to the Department of Northern Affairs and National Resources and the Indian Affairs Branch of the Department of Citizenship and Immigration, where it is in the best interests of the child. Disbursements, on behalf of children in respect of whom allowances are paid, are made from the relevant Deposit and Trust Accounts of those Departments.

A distribution, by provinces, of payments made to parents or other parties responsible for the maintenance of children eligible for such allowances follows.

Old Age Assistance—Payment of Federal Share of Assistance, Old Age Assistance

Act, c. 199, R.S., as amended. (26) \$25,069,589

The Act makes provision for Federal contributions to the provinces towards assistance to persons who have attained the age of 65 years and who fulfil the residence and income requirements specified in the Act. The Federal contribution for the period April 1 to June 30, 1957 was 50 per cent of not more than \$40 per person per month. This rate was increased to \$46 by Appropriation Act No. 4, 1957, effective July 1, 1957 and to \$55 per month by an Act to amend the Old Age Assistance Act, c. 6, 1957-58, effective November 1, 1957. In order to qualify, an applicant must have resided in Canada for the 10 years immediately preceding the date of the proposed commencement of assistance. Both the Act and the regulations under the Act make special provision for persons who may have been absent during the 10 year period. The maximum income allowed in a year including assistance was at the following rates:

	April 1 to June 30, 1957	July 1 to Oct. 31, 1957	Nov. 1, 1957 to Mar. 31, 1958
Unmarried	\$ 720	\$ 840	\$ 960
Married	1,200	1,380	1,620
Married with blind spouse	1,320	1,740	1,980

Assistance is not payable to any person who is in receipt of an allowance under the Blind Persons Act, the Disabled Persons Act or the War Veterans' Allowance Act, or a pension under the Old Age Security Act.

Under the Act, the Provincial Government is required to enter into an agreement with the Federal Government. Subject to the provisions of the Act, a province may specify the minimum age of a recipient and any other conditions of eligibility set forth in the provincial law, the maximum assistance to be paid and the maximum amounts of allowable income.

Under their agreements, the provinces and the two territories paid assistance at maximum rates during the year with the following exceptions: (a) for the period November 1 to December 31, 1957, Newfoundland paid at the rate of \$46 per month; (b) for the period November 1, 1957 to March 31, 1958, the Yukon Territory paid at the rate of \$46 per month.

Under all agreements, old age assistance is payable at the age of 65 years. The maximum amounts of income allowed by the agreements are the amounts specified in the Act. There are no added conditions of eligibility.

Blind Persons Allowances—Payment of Federal Share of Allowances, Blind Persons Act, c. 17, R.S., as amended.....	(26)	\$ 3,576,210
---	-------------	---------------------

The Act makes provision for Federal contributions to the provinces towards the payment of allowances to blind persons of 18 years of age or over who fulfil the residence and income requirements. The Federal contribution for the period April 1 to June 30, 1957 was 75 per cent of not more than \$40 per person per month. This rate was increased to \$46 by Appropriation Act No. 4, 1957, effective July 1, 1957 and to \$55 per month by an Act to amend the Blind Persons Allowances Act, c. 4, 1957-58, effective November 1, 1957. The Act requires residence in Canada during the 10 years immediately preceding the date of the proposed commencement of the allowance but makes special provision for persons who may have been absent from Canada during the 10 year period. The maximum income allowed in a year including allowance was at the following rates:

	<u>April 1 to June 30, 1957</u>	<u>July 1 to Oct. 31, 1957</u>	<u>Nov. 1, 1957 to Mar. 31, 1958</u>
Unmarried	\$ 960	\$ 1,080	\$ 1,200
Unmarried with a dependent child/children ..	1,160	1,560	1,680
Married	1,560	1,740	1,980
Married with blind spouse	1,680	1,860	2,100

An allowance for blindness is not payable to any person who is in receipt of assistance under the Old Age Assistance Act, an allowance under the Disabled Persons Act or the War Veterans' Allowances Act, a pension under the Old Age Security Act, or a pension in respect of blindness under the Pension Act.

Under the Act, the Provincial Government is required to enter into an agreement with the Federal Government. Subject to the provisions of the Act, a province may specify the maximum allowance to be paid and the maximum amounts of allowable income. Under their agreements, the provinces and the two territories paid assistance at maximum rates during the year with the following exceptions: (a) for the period November 1 to December 31, 1957 Newfoundland paid at the rate of \$46 per month, (b) for the period November 1, 1957 to March 31, 1958, the Yukon Territory paid at the rate of \$46 per month. The maximum amounts of income allowed by the agreements are the amounts specified in the Act.

Disabled Persons Allowances—Payment of Federal Share of Allowances, Disabled Persons Act, c. 55, 1953-54, as amended.....	(26)	\$11,091,664
--	-------------	---------------------

The Act makes provision for Federal contributions to the provinces towards the payment of allowances to totally and permanently disabled persons of 18 years of age or over who fulfil the residence and income requirements and other conditions specified in the Act. The Federal contribution for the period April 1 to June 30, 1957 was 50 per cent of not more than \$40 per person per month. This rate was increased to \$46 by Appropriation Act No. 4, 1957, effective July 1, 1957 and to \$55 per month by an Act to amend the Disabled Persons Allowances Act, c. 5, 1957-58, effective November 1, 1957. The Act requires residence in Canada during the 10 years immediately preceding the date of the proposed commencement of the allowance but makes special provision for persons who may have been absent from Canada during the 10 year period. The maximum income allowed in a year including allowance was at the following rates:

	<u>April 1 to June 30, 1957</u>	<u>July 1 to Oct. 31, 1957</u>	<u>Nov. 1, 1957 to Mar. 31, 1958</u>
Unmarried	\$ 720	\$ 840	\$ 960
Married	1,200	1,380	1,620
Married with blind spouse	1,320	1,740	1,980

An allowance for disability is not payable to any person who is in receipt of an allowance under the Blind Persons Act, assistance under the Old Age Assistance Act, an allowance under the War Veterans' Allowance Act or a pension under the Old Age Security Act.

Under the Act, the Provincial Government is required to enter into an agreement with the Federal Government. Subject to the provisions of the Act, a province may specify the minimum age of a recipient and any other conditions of eligibility set forth in the provincial law, the maximum allowance to be paid and the maximum amount of allowable income.

Under their agreements, the provinces and the two territories paid assistance at maximum rates during the year with the following exceptions: (a) for the period November 1 to December 31, 1957 Newfoundland paid at the rate of \$46 per month; (b) for the period November 1, 1957 to March 31, 1958, the Yukon Territory paid at the rate of \$46 per month. The maximum amounts of income allowed by the agreements are the amounts specified in the Act. The minimum age specified in the agreements is 18 years.

Unemployment Assistance—Payment of Federal Share of Assistance—Unemploy-
ment Assistance Act, c. 26, 1956, as amended.....

(26)

\$ 8,233,125

The Unemployment Assistance Act of 1956 authorized the Federal Government to enter into an agreement with any province to provide for a federal contribution toward the costs of unemployment assistance granted by a province or by a municipality. Under the 1956 legislation when the number of persons in receipt of assistance in a province exceeded .45 per cent of the population of the province, the Federal Government agreed to pay 50 per cent of the costs of the excess. An amendment to the Unemployment Assistance Act approved by Parliament in December, 1957, provided that, effective January 1, 1958, the Federal Government would be prepared to enter into an agreement whereby the federal contribution would be 50 per cent of all unemployment assistance given by a province or by a municipality.

The conditions under which payment is granted and the rates of assistance are determined by the province or municipality. Expenditures for both employable and unemployable persons may be included and the costs of maintaining persons in homes for special care, such as homes for the aged and nursing homes, are considered as shareable.

Agreements with the provinces cover a period from July 1, 1955 for Newfoundland, Prince Edward Island, Manitoba, Saskatchewan and British Columbia; from January 1, 1956 for New Brunswick; from December 1, 1956 for Ontario and from January 1, 1958 for Nova Scotia and Alberta.

		\$ 5,887,938	\$ 3,991,804

This appropriation was provided for the cost of the overall planning and organization of a civil defence program in Canada in co-operation with provincial and municipal authorities, the United States, and other countries. This planning included (a) the production and distribution of educational and informational material

on all phases of civil defence precautionary measures, (b) the provision of warning systems, firefighting and radiation equipment and the standardization of hose couplings, (c) the stock piling of medical and other equipment and supplies, (d) first aid training in hospitalization and evacuation, and (e) the operation of a technical training school at Arnprior, Ont.

A Included the purchase of medical supplies, \$1,168,792; food, \$25,789; training supplies, \$39,810.

B Contracts of \$5,000 or over were awarded through the Department of Public Works for work at the Civil Defence School, Arnprior, Ont., as follows: Acme Tree Specialists, for improvements to grounds, \$5,941; expenditures, \$5,941 (final); M. Sullivan & Son Ltd. (a) construction of new foundation, Building No. 13, \$12,747; expenditures, \$1,275; to date, \$12,747 (final); (b) construction of new foundation, Building No. 14, \$9,767; expenditures, \$1,367; to date, \$9,767 (final); (c) installation of heating equipment in Hangers Nos. 1 and 2 and Drill Hall, \$24,800; expenditures, \$24,800 (final); (d) repairs in Hangers Nos. 1 and 2 and Drill Hall, \$19,678; expenditures, \$19,678 (final).

C Included \$40,941 for experimental and training equipment, and \$248,035 for warning and communications equipment.

D T.B. 515450, April 25, 1957 prescribed the following terms and conditions under which grants were made available to the provinces and municipalities for general Civil Defence purposes:

(1) that upon the certificate of the Minister of National Health and Welfare that a province or territory has (a) submitted and recommended a project or projects for the improvement and strengthening of Civil Defence either provincial or local relating to or providing for:

- (i) organization, administration and training expenditures, including training exercises and air raid warning installation costs;
- (ii) equipment and clothing, including uniforms required for administration, training and operations, for which there is normally no peacetime use other than for civil defence;
- (iii) construction and alterations for civil defence purposes;
- (iv) operational equipment having a peacetime use.

(b) furnished in connection therewith a detailed statement of the cost of such projects and the proportions of such cost to be provided from provincial or territorial as well as municipal funds; (c) undertaken to furnish not later than April 30, 1958, and from time to time prior thereto as the Minister may require, reports covering the development of such projects, and (d) undertaken to maintain adequate records and accounts.

(2) The Minister shall make payment to a province, territory or municipal Civil Defence organization, as the case may be, which furnishes from time to time a statement of the amounts actually expended since April 1, 1957; (a) in respect of projects coming within classifications (i) to (iii), 25 per cent of the total expenditure on such projects and in addition an amount equal to the provincial or territorial contribution; (b) in respect of projects coming within classification (iv), an amount equal to the amounts actually expended by the province or territory, providing that the Federal contribution does not exceed one-half of the total amount actually expended on such projects;

(3) Where a province has indicated in writing that (a) it does not intend to avail itself of the moneys to which it might become entitled, and (b) it has no objection to a municipal civil defence organization within the said province submitting a project directly to the Minister, and provided that the said municipal civil defence organization then submits a project directly to the Minister and gives a satisfactory undertaking that it will carry out all of the obligations relating to the said project ordinarily required of a province, the Minister may, at his discretion, consider and deal with such project as though it had been submitted and recommended by the province.

In connection with the following statement, it will be noted that the total of the maximum amounts to which the provinces may become entitled is in excess of the total provided through Appropriation 287 as it was not anticipated that the provinces would qualify for the maximum entitlements during the current fiscal year:

Province	Maximum Entitlement	Approved Projects	Expenditures

A This account was established to record the temporary loans to the Fund to supplement tax revenues when these are not sufficient to provide for Old Age Security payments. The balance of \$1,506,234 as at March 31, 1957 and an amount of \$102,401.662 in respect of loans during the current fiscal year were charged to Appropriation 820.

B By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.

C The Old Age Security Act, c. 200, R.S., as amended, provided for the payment, without a means test, of a monthly pension of \$40 to eligible residents of Canada seventy years of age or over effective from the first day of January, 1952. On authority of sec. 11 of Appropriation Act No. 4, 1957, the monthly payment was increased to \$46, effective July 1, 1957. An Act to amend the Old Age Security Act, c. 3, 1957-58, increased the monthly payment to \$55, effective November 1, 1957. The principal requirements which an applicant must fulfil refer to age and residence. The applicant must have resided in Canada for the ten years immediately preceding the day on which the application is approved. Special provision is made, however, for those who

may have been absent from the country during this period. The Act also provided for the imposition of a 2 per cent sales tax, a 2 per cent personal income tax not to exceed \$60 per annum and a 2 per cent tax on corporate profits for payment of these pensions. Section 11 of the Act directed that (a) an account shall be established in the Consolidated Revenue Fund to be known as the Old Age Security Fund to which shall be credited in each fiscal year the amounts derived from the above taxes, (b) all pensions payable under the Act are to be charged to the Fund, and (c) if the Minister of Finance is of the opinion that the amount to the credit of the Fund is or will be less than the amount required to pay the pensions payable under the Act, he may direct that amounts be credited to the Fund by way of temporary loans and the amounts of such loans are to be charged to the Fund by way of repayment at such time as the Minister of Finance may direct.

Details of transactions in the Old Age Security Fund follow:

- A This account reflects the investment of the Crown in the capital stock of the Company which was incorporated under section 17 of the Research Council Act, c. 239, R.S., as amended. The Balance Sheet of the Company as at March 31, 1958, as certified by the Auditor General, together with related statements, is shown in Volume II of this Report.
- B Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.
- C By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.
- D An amount of \$45,000 being a contribution from the St. Lawrence Seaway Authority for research in connection with the Seaway was credited hereto.
- E Vote 284, Appropriation Act No. 6, 1956, authorized the establishment of this account to which was credited the balance of the amount remaining as at March 31, 1956, in the Sir Frederick Banting Fund comprised of private donations. Payments out of the account in respect of projects relating to the advancement of natural sciences are recommended by the President of the National Research Council and approved in accordance with regulations of the Governor in Council. During the year interest in the amount of \$17,376 was credited hereto.
- F This account is credited with revenue of the National Research Council derived from laboratory fees, sale of publications, work done for outside organizations, etc., which, by authority of the Research Council Act, c. 239, R.S., as amended, may be expended by the Council.
- G To this fund, which is for the furtherance of research work, are credited contributions received from organizations and individuals.
- H In this account are recorded the deductions at the rate of 5 per cent per annum made from the gross wages of employees who have signed an agreement with the Council to work at certain Northern Stations for not less than twelve months. The holdbacks are to be refunded when the contracts have been satisfactorily completed, together with a bonus equal to the amounts of the holdbacks. If the terms of the contract have not been fulfilled, the holdbacks are to be forfeited to the Crown.

		<u>\$28,707,000</u>	<u>\$28,137,163</u>

This appropriation was provided to meet the cost of (a) the examination and appraisal of imported goods; (b) the assessment and collection of the duties and taxes payable thereon; (c) the assessment and collection of excise duties, excise taxes, and sales tax on domestic goods; and (d) the supervision of Customs bonded warehouses and licensed Excise establishments and the port administration of the Customs and Excise laws and regulations.

In addition to the payments from this appropriation, 106 Customs and Excise officers received \$14,203 from other departments for part time services.

A Extra services during regular working hours and overtime services on Sundays, holidays and outside of regular hours were performed for the accommodation of railway companies and business firms, and included the services of port officers assigned to duties of a supervisory nature in bonded factories and warehouses. The cost of the extra services and a large proportion of the overtime services were paid for by the parties accommodated. The sum of \$1,226,592 so recovered was credited to this appropriation.

B Expenditures consisted of court costs and other expenses, \$3,726; and payments to lawyers, \$45,941. Legal fees of \$500 or over were paid to: J. G. Ahern, Montreal, \$3,535; M. M. Bancroft, Calgary, Alta., \$621; J. Bruneau, Montreal, \$748; F. Caron, Montreal, \$712; J. P. Dansereau, Montreal, \$703; D. W. K. Dawe, St. John's, \$565; Day, Wilson, Kelly, Martin and Morden, Toronto, \$887; J. Decary, Montreal, \$929; M. Fleming, Toronto, \$1,146; P. Gelinas, Montreal, \$1,136; G. R. Hunter, Winnipeg, \$1,342; J. Marineau, Montmagny, Que., \$598; R. Noel, Montreal, \$750; J. C. Nolin, Montreal, \$514; R. Ouimet, Montreal, \$1,560; J. Tellier, Montreal, \$1,831.

C Expenditures from this allotment included \$117,110 for travelling and living expenses of officers while acting in a relieving capacity away from their places of residence; also \$34,776 for removal expenses.

D Partially offsetting this expenditure, the sum of \$20,936 was recovered (chiefly at the port of Montreal) and is included under Non-Tax Revenue—Services and Service Fees.

E For the purpose of providing uniforms for customs officers, cloth is purchased by the Department for resale to clothing manufacturers—see Customs and Excise Revolving Fund under Open Accounts further on in this section. This allotment includes the cost of the completed uniforms, as well as waterproof clothing, leggings, hats, caps, buttons and badges, which are purchased in quantity.

F Stamps required for customs and excise purposes, and law stamps, required under the provisions of the Exchequer Court Act, c. 98, R.S., as amended, and the Supreme Court Act, c. 259, R.S., as amended, are manufactured under contract.

The revenues from customs and excise seizures were derived mainly from seizures under the provisions of the Customs Act, c. 58, R.S., as amended, and the Excise Act, c. 99, R.S., as amended.

GENERAL COMMENT

In order to expedite the release of perishable and other imported goods, and as a guarantee of payment of customs duties and excise taxes thereon, and of sales and excise taxes payable by licensees, securities are furnished the Department and deposited with the Department of Finance for safe-keeping. At March 31, 1958, the securities so deposited were \$3,898,000 for customs purposes and \$2,153,300 for excise purposes.

A The operation of a revolving fund for the purpose of acquiring and managing material to be used in the manufacture of uniforms for customs and excise officers was authorized by Vote 632, Appropriation Act No. 2, 1954, which provided that the amount to be charged to the fund at any time may not exceed \$90,000. Cloth is purchased by the department for resale to clothing manufacturers, who are subsequently paid for the completed uniforms—see Appropriation 292.

A statement of operations for the fiscal year ended March 31, 1958, follows:

Sales			73,978
Cost of goods sold			
Inventory March 31, 1957	15,447		
Purchases	86,083

B Holdbacks charged to the relevant appropriation and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.

C By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.

D Cash deposits posted as a guarantee of payment of customs duty and excise taxes on products released under permission of the collectors are credited to this account.

E An appellant to the Income Tax Appeal Board is required to pay to the Receiver General a fee of \$15 upon the serving of the notice of appeal and if the appeal is allowed, in whole or in part, the fee is returned to him, but not otherwise. Credits in this account represent the receipt of such fees while debits are refunds to successful appellants or the transfer to Non-Tax Revenue—Miscellaneous of deposits where appeals were disallowed.

F An appellant to the Exchequer Court from a decision of the Minister of National Revenue as to his assessment is required to give security for the costs of the appeal, to the satisfaction of the Minister, in a sum not less than \$400. The decision of the Exchequer Court determines the final disposition of the deposit. If the appeal is allowed, the amount is returned to the appellant; otherwise, the amount, or such part of it as is required to pay the taxed costs of the Crown, is transferred from this account to Non-Tax Revenue—Miscellaneous. No interest is allowed on the deposit. As at March 31, 1958, bonds in the amount of \$400 were held in the custody of the Minister of Finance but are not recorded in this account.

G This account is used to record instalment payments of arrears of domestic excise taxes and penalties held by the Department until the full amount has been collected or the case has been otherwise disposed of; and of customs duty and excise taxes on importations found on investigation to be properly payable, and held to be applied on amending entries, or to be taken to account by seizure on completion of the investigations.

H Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.

Comparative Statement of Accounts Receivable

	March 31, 1958	March 31, 1957
Collectible	4,595,495	3,623,336
Uncollectible	720,375	635,101
	<u>\$ 5,315,870</u>	<u>\$ 4,258,437</u>

The amount shown as collectible comprises domestic excise taxes, \$4,532,698; customs seizures, \$60,573; sundries, \$2,224.

Uncollectibles comprise: domestic excise taxes, \$666,833; customs seizures, \$4,673; customs duties and excise taxes on importations, \$30,359; sundries, \$18,510.

Items totalling \$136,818 were deleted from Accounts Receivable—Uncollectible under authority of P.C. 1957-17/454, April 4, 1957, in accordance with section 23 of the Financial Administration Act.

No breakdown, as between current and previous fiscal years, is available from departmental records in respect of excise tax revenue accounts.

The above statement does not include accounts receivable of the Taxation Division.

This appropriation was provided for the cost of investigations which are designed to provide the basic information necessary to plan the future development, on an international basis, of the water resources of the Columbia River Basin, comprising 39,000 square miles in British Columbia, for the purpose of navigation, flood control, power development, irrigation, fisheries, conservation of wildlife and other purposes.

For the purpose of co-ordinating and conducting the technical studies, the International Joint Commission appointed an International Columbia River Engineering Board consisting of 4 members. The Canadian representatives are J. D. McLeod, an employee of this Department, and J. P. Carriere, employed by the Department of Public Works.

A Payments of \$500 or over were made to: Province of British Columbia, \$3,500, for survey work; T. H. Hogg, Willowdale, Ont., \$1,562, to date, \$5,562, for consulting engineer's fees; U.S. Army Corps of Engineers, \$2,434, for operation of computer.

Appropriation 309 Fraser River—Federal expenditures in connection with investigations to be carried out by Fraser River Board.....	100,000
Expenditures.....	(20) \$ 89,088

Gross expenditures for the year were \$176,560 of which the Province of British Columbia's share was \$88,280. Recoveries from the Province were \$93,651 of which \$87,472 was credited to the vote and \$6,179 to Non-Tax Revenue—Refunds of Previous Years' Expenditures.

Expenditures to date on this project were \$1,512,979 of which \$755,681 has been recovered from the Province of British Columbia.

Appropriation 310 To provide for a contribution to the cost of constructing a dam on the Conestogo River near Glen Allan, Ontario, for the purposes of flood control and water conservation, in accordance with the terms of an agreement entered into between Canada and the Province of Ontario.....	450,000
Expenditures.....	(20) \$ 281,764

The agreement, which was authorized by P.C. 1953/35-1259, August 13, 1953, provides that Canada will contribute 37½ per cent of the cost of actual construction to a maximum of \$2,025,000.

The Eastern Rockies Forest Conservation Board was established by the Eastern Rocky Mountain Forest Conservation Act, c. 59, 1947, as amended. The composition of the Board, effective April 1, 1955, was changed to consist of three members, one of whom was appointed by the Governor in Council and two by the Lieutenant-Governor of Alberta in Council, with the Chairman and Chief Executive Officer of the Board appointed by the Lieutenant-Governor of Alberta in Council from the two provincial members.

Generally, the purpose and function of the Board is to plan, advise on, direct, supervise and carry out the construction, operation and maintenance of all projects and facilities required for the proper protection of the forests of that area of the East Slope of the Rocky Mountains forming part of the watershed of the Saskatchewan River. Under an Agreement as contained in the Act, the Province of Alberta undertook to carry out, under the direction of the Board, the program of works prescribed each year and the program of forest management laid down by the Board.

Under the Agreement contained in an Act to amend the Eastern Rocky Mountain Forest Conservation Act, c. 41, 1952, the Province of Alberta undertook to pay, from April 1, 1952, all maintenance and other current expenditures required by the program formulated by the Board, including the expenditures of the Board.

A This expenditure represented the annual salary of H. Kennedy.

B This expenditure represented travelling expenses incurred by H. Kennedy.

A Appropriation 629, Appropriation Act No. 2, 1955 authorized the operation of this account for the purpose of financing the purchase of stores to be used in construction projects at the new Aklavik site. The amount to be charged to the revolving fund at any time is not to exceed \$500,000.

During the year the account was debited with purchases amounting to \$64,195 and credited with issues of \$34,207 charged to the relevant appropriations.

B The Commission is authorized by the Northwest Territories Power Commission Act, c. 196, R.S., as amended by the Northern Canada Power Commission Act, c. 42, 1956, to construct and operate power plants in the Northwest Territories, the Yukon Territory and elsewhere in Canada under certain conditions, and to purchase, lease or sell power. The name of the commission was changed by the latter Act.

Of advances amounting to \$660,000 made during the fiscal year 1956-57, an amount of \$500,000 was authorized in that year by the following:

Appropriation 734 Advances to the Northwest Territories Power Commission for the purpose of capital expenditures in accordance with provisions of Section 15 of the Northwest Territories Power Commission Act, subject to such terms and conditions as the Governor in Council may approve.....\$ 500,000

The balance of \$160,000 together with advances of \$6,340,000 made during the current year under section 15(1) of the Act were authorized by:

Appropriation 529 To authorize advances to the Northern Canada Power Commission for the purpose of capital expenditures in accordance with subsection (1) of Section 15 of the Northern Canada Power Commission Act.....\$ 6,500,000

Further advances of \$750,000 were made under section 15(2) of the Act which directs that expenditures made from such advances shall be included in estimates for the following year.

An additional amount of \$120 representing accrued interest, calculated in accordance with section 16(2) of the Act was charged to this account in the current fiscal year.

Repayments of loans to the following power plants were received during the year: Snare River, \$225,010, Fort Smith, \$6,401, Mayo Landing, \$178,957 and Fort Simpson, \$3,844.

Interest amounting to \$221,806 was paid to the Receiver General and credited to Department of Finance, Non-Tax Revenue—Return on Investments.

The accounts of the Commission are audited by the Auditor General of Canada and the Balance Sheet as at March 31, 1958, as certified by him, together with supporting schedules, will be found in Volume II of this report.

C This account was opened under authority of section 14 of the Northern Canada Power Commission Act, c. 42, 1956, in order to pay the Commission the sum of \$50,000 as a fund for the purpose of meeting expenditure incurred by the Commission in carrying out investigations of projects for supplying public utilities, in accordance with section 13 of the Act.

D Under the Natural Resources Transfer Agreement which was authorized by the Manitoba Natural Resources Act, c. 29, 1930, as amended, the Government of the Province of Manitoba agreed to pay the Federal Government its share of the amounts expended on Lac Seul and Lake of the Woods Storage Projects. Details were given in Public Accounts, 1951 and 1952. Interest amounting to \$52,068 for the calendar year 1957 was received and credited to Non-Tax Revenue—Return on Investments.

E Appropriation 539, Appropriation Act, No. 4, 1954, established authority to provide for a continuing special account in the Consolidated Revenue Fund to which shall be charged expenditures incurred by the Lake of the Woods Control Board in respect of the regulation of the waters in the Winnipeg River Watershed and expenditures incurred under the terms of the Lac Seul Conservation Act, 1928.

The balance outstanding in the account at any time is not to exceed \$35,000.

A statement of changes in the account during the current fiscal year follows:

	Transferred from Appropriation 306	Paid to Province of Ontario	Total Charges	Amounts Rec'd from Province of Manitoba

F This account was established under authority of Appropriation 546, Appropriation Act, No. 3, 1953 and Appropriation 763, Appropriation Act, No. 4, 1954, to provide for loans to or investments in respect of individual Eskimos or groups of Eskimos to promote their commercial activities and to provide housing. The amount to be charged to the fund at any time is not to exceed \$150,000.

Loans to Eskimos under conditions approved by T.B. 452928, June 24, 1953, are charged to this account and repayments of principal are credited hereto.

Interest at the rate of 5 per cent per annum amounting to \$1,182 was credited to Non-Tax Revenue—Return on Investments.

G P.C. 1956-1057, July 12, 1956, authorized the sale of a bungalow court known as "Green Gables Bungalow Court", located at Cavendish in Prince Edward Island National Park to Robert Scott Humphrey for \$55,000 to be paid in five equal instalments of \$11,000, the first to be paid on or before June 15, 1956, and the remaining instalments of \$11,000 each to be paid on the 1st of September in each of the years 1957, 1958, 1959 and 1960, subject to the condition that interest will be paid annually at the rate of 5 per cent on the outstanding balance.

Interest amounting to \$2,659 was received and credited to Non-Tax Revenue—Return on Investments.

H During the fiscal year collections of principal were \$18,400, of which payments to Provinces of their share of collections in accordance with agreements were \$944; losses written off and charged to expenditures were \$146,755. The balance represents the principal outstanding on seed grain and relief advances issued prior to 1926. Interest amounting to \$1,452 was received and credited to Non-Tax Revenue—Return on Investments.

I P.C. 4066, October 7, 1947, authorized an agreement with the Yukon Coal Company Limited under which the Company was to undertake the immediate bringing into production of its coal deposits at Tantalus Butte, Y.T., and was to receive advances not exceeding in total \$300,000, bearing interest at 3½ per cent per annum repayable at the rate of \$2 per ton of coal produced and sold. No advances were made during the current fiscal year. Advances to date totalled \$294,125 of which \$63,886 has been repaid including \$6,640 which was credited to this account in the current year. Interest amounting to \$8,638 was received and credited to Non-Tax Revenue—Return on Investments.

J The net increase represents: (a) further advances amounting to \$3,339 in the current year made under authority of Appropriation 540, Appropriation Act No. 4, 1954, for the purpose of providing adequate water distribution and sewage disposal systems within the City of Whitehorse, less repayments of \$18,209; (b) advances amounting to \$2,337 in the current year under authority of Appropriation 542, Appropriation Act No. 5, 1955, for the development of a new subdivision, adjoining the present city of Whitehorse; and (c) an amount of \$116,300 representing revenues derived from the sale of lots, including \$14,300 received in the current year, which had been credited to this account as prepayments on the loan and which was transferred to Northern Affairs and National Resources Suspense pending a decision by Treasury Board regarding acceptance as the agreement did not provide for prepayments. Interest amounting to \$51,564 was received and credited to Non-Tax Revenue—Return on Investments.

K Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.

L By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.

M Under authority of the Family Allowances Act, c. 109, R.S., as amended, and regulations established thereunder, family allowances for eligible Eskimo children are paid, when it is deemed to be in the best interest of the children, to this Department and credited hereto for subsequent disbursement on behalf of the children concerned. Payments to traders who, under the direction of the Department, have furnished supplies to Eskimo families to the value of such allowances, are debited to the account.

N Damage to property in Banff National Park was sustained as a result of operations by the Calgary Power Ltd. in 1951. After negotiation, the Department agreed to repair the damage and the Calgary Power Ltd. agreed to pay, as the work progressed, \$131,441 subject to adjustments. The cost of repairs to date, \$121,136, has been repaid by the Company. The closing balance represents funds advanced by the Company to pay for repairs not yet made.

O To this account are credited amounts representing guarantee deposits under regulations established by P.C. 1953-525, April 2, 1953, governing the leasing of oil rights in the Northwest Territories and the Yukon Territory; and P.C. 1955-859, June 8, 1955, governing timber rights in the Northwest Territories. In addition, bonds to a value of \$699,800 are held in the custody of the Minister of Finance but are not recorded in this account.

P P.C. 1081, April 5, 1949, authorized an agreement with the Province of Alberta, effective March 31, 1949, for supplying to residents of the National Parks in the Province, health and welfare services similar to those enjoyed by other residents of Alberta. P.C. 2473, May 16, 1950, established the regulations governing the levying of a tax on the residents, beginning with the calendar year 1950, to cover the cost of these services, which had been borne by the relevant appropriation in the intervening period. The general authority to enter into an agreement and levy the tax is section 7 of the National Parks Act, c. 189, R.S., as amended.

Taxes collected by the superintendents of the parks are credited to this account and quarterly repayments to the Province for disbursements as specified in P.C. 1081 are charged hereto.

Q This fund was created under authority of the Land Titles Act, c. 162, R.S., as amended, to indemnify title holders who may suffer loss through mis-descriptions in titles, and from other causes specified in the Act. Fees are collected from the parties who register deeds with the Registrars of Land Titles in the Northwest Territories and the Yukon Territory. Interest is added to the funds annually, the present rate being 3 per cent. Credits consisted of fees, \$1,456, and interest, \$1,119. Over a long period of years, no claims for compensation have been made from this fund.

R Revenues of the Government of the Northwest Territories are credited to this account. Payments from the account are made for territorial purposes as authorized by ordinances of the Commissioner and Council of the Northwest Territories up to the limit of the credit balance in the account.

S This account is maintained for the Public Administrator—Arctic and Hudson Bay Registration District, N.W.T., who is a Federal Government employee at Ottawa.

T This account is credited with advances from the St. Lawrence Seaway Authority for work done by this Department on the St. Lawrence River. As the work in this connection was terminated during the fiscal year 1957-58, the balance remaining in the account was refunded.

- U Unclaimed wages in respect of cost plus contracts were withheld from final payments to contractors and credited to this account, pending claims therefor. In view of the ruling that unclaimed wages of workmen so engaged must now be deposited to the Department of Labour Fair Wages Suspense Account, the existing balance in the account was transferred to that Department.
- V Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.
- W Deductions from the wages of certain employees not paid by Central Pay Office are credited to this account pending transmittal to the department or agency concerned.

POST OFFICE DEPARTMENT

Under authority of the Post Office Act, c. 212, R.S., as amended, the Post Office Department, under the direction of the Postmaster General, is entrusted with the management and operation of the postal services of Canada and the Post Office Savings Bank. In addition, the Department performs certain services of an agency nature for other departments (without remuneration in some instances), the most important of which are: receiving payments on Government annuities; selling unemployment insurance stamps; and making available to the public certain forms and literature issued by Government Departments.

Post Offices are divided into two main groups, namely, staff offices and revenue offices. The postmasters and staffs of the staff offices are paid from parliamentary appropriations. Postmasters of revenue offices and their staffs are paid by salary warrants issued by headquarters of the Post Office Department and charged to Postal Revenue.

The Appendix to this Section contains the Departmental Balance Sheet as at March 31, 1958 and Statement of Revenue and Expenditure for the year ended March 31, 1958.

NOTE.—Revenues are shown on page S-10, Open Accounts on page S-12 and Expenditures by Standard Objects on page S-21.

A . The operation of this fund was authorized by Vote 541, Appropriation Act No. 4, 1954 and extended by Vote 543, Appropriation Act No. 5, 1955, and Vote 528, Appropriation Act No. 6, 1956, for the purpose of: (a) acquiring and managing material to be used for the manufacture of uniforms and satchels, and (b) acquiring and managing materials and fittings to be used in the manufacture of mail bags; the total amount to be charged to the revolving fund at any one time not to exceed \$895,000.

A statement of operations for the year ended March 31, 1958, follows:

Sales	684,744
Cost of Goods Sold—	
Inventory as at March 31, 1957	376,166
Purchases	759,561
	1,135,727

	685,275
Net Loss	\$ 531

The consist of the debit balance as at March 31, 1958 was as follows:

Inventory	450,452	
Add: Accounts Receivable	51	
	450,503	
Less: Accounts Payable	570	
		449,933
Add: Net Loss		531
		<u>\$ 450,464</u>

The loss for 1957-58 is carried over to the fiscal year 1958-59 to be adjusted through an increase in the selling price of materials.

B The Post Office Account is a composite balance representing the difference between the value of certain of the recorded assets and liabilities of the Post Office Department.

C Credits consisted of: deposits, \$9,097,664, and interest credited to the accounts at the rate of 2½ per cent per annum, \$852,085. Debits represented withdrawals. Included in the closing balance was an amount of \$16,474 which represented the cash portion of the Post Office Guarantee Fund (which is administered by the Postmaster General). The remaining portion of this Fund consisted of securities with a face value of \$386,500 held in the custody of the Minister of Finance.

D By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half percent per annum compounded annually.

Bonds amounting to \$229,000 held in the custody of the Minister of Finance as security for the payment of postage on mail matter are not included in this account.

E Deductions from the salaries of certain employees not paid by Central Pay Office are credited to this account pending transmittal to the department or agency concerned.

Levesque as Commissioners pursuant to Part I of the Inquiries Act, to enquire into and make recommendations concerning:

- (a) the policies which will best serve the national interest in relation to the export of energy and sources of energy from Canada;
- (b) the problems involved in, and the policies which ought to be applied to, the regulation of the transmission of oil and natural gas between provinces or from Canada to another country, including, but without limiting the generality of the foregoing, the regulation of prices or rates to be charged or paid, the financial structure and control of pipeline corporations in relation to the setting of proper prices or charges, and all such other matters as it is necessary to enquire into and report upon, in order to ensure the efficient and economical operation of pipelines in the national interest;
- (c) the extent of authority that might best be conferred on a National Energy Board to administer, subject to the control and authority of Parliament, such aspects of energy policy coming within the jurisdiction of Parliament as it may be desirable to entrust to such a Board, together with the character of administration and procedure that might best be established for such a Board;
- (d) whether, in view of its special relationship to the Northern Ontario Pipeline Crown Corporation and the nature of its financing and control, any special measures need be taken in relation to Trans-Canada Pipe Lines Limited in order to safeguard the interests of Canadian producers or consumers of gas; and
- (e) such other related matters as the Commissioners consider it necessary to include in reporting upon those specified above.

B The late The Right Hon. W. L. Mackenzie King bequeathed Laurier House, Ottawa, and the sum of \$225,000 to the Government of Canada. The Laurier House Act, c. 163, R.S., directed that an account to be known as the Mackenzie King Trust Account be set up in the Consolidated Revenue Fund and that the amount of \$225,000 be credited thereto. Interest computed in accordance with the terms of the Act is to be credited to the account at the end of each fiscal year and charged to Interest on Public Debt. The interest is to be used to assist in the maintenance of Laurier House which is to be preserved as a place of historic interest and also to provide accommodation for study and research. Expenditures are to be made by the Dominion Archivist subject to the approval of the Governor in Council. No expenditures were made from the account during 1957-58.

C Section 12 (1) of the National Library Act, c. 330, R.S., provided for a special account in the Consolidated Revenue Fund called the National Library Purchase Account to which any money appropriated by Parliament in any fiscal year for the purpose of acquiring books for the National Library is to be credited and from which expenditures may be made in that or any subsequent fiscal year for the acquisition of books, including any costs in connection therewith. An amount of \$33,334 provided through Appropriation 345 was credited hereto.

The Public Printing and Stationery Act, c. 226, R.S., authorizes advances from the Consolidated Revenue Fund to the Queen's Printer, for the purchase of material for the execution of orders given or requisitions made under the provisions of the Act, and for the payment of wages of workmen engaged in the execution of such orders or requisitions. The amount of outstanding advances under this authority, after deducting therefrom all amounts due by either House of Parliament or by the several Departments, shall at no time exceed \$4,000,000.

In the Printing Branch the charge for work done is made on a unit price basis for the various classes of work executed. The cost of light, heat, power, telephone service, etc., paid by other departments, is not taken into account.

Expenses in respect of general administration and accounting services for the Printing and Stationery Branches are provided for in the Departmental Administration appropriation. Other expenses in connection with operating the stores and with service calls and overhauls of office equipment, are provided for in the appropriation entitled "Purchasing, Stationery and Stores."

The following is a statement of the operations for the year ended March 31, 1958, as shown in the Queen's Printer Advance Account.

Dry Docks Subsidies, Dry Docks Subsidies Act. c. 91, R.S.	(20)	\$ 250,343
A Burrard Dry Dock (North Vancouver)		112,500
B Saint John Dry Dock		137,843
		\$ 250,343

Payment of a subsidy is based on a certificate of the Chief Engineer of the Department that the dock has been kept in a constant state of efficiency, that no discrimination has been shown against any vessel wishing to use the dock, and that the rates charged have not exceeded the rates agreed upon between the Department and the dry dock management.

The Act of 1910 and the amending Act of 1917 are consolidated in the Dry Docks Subsidies Act, c. 91, R.S.

- A As authorized by c. 27, 1917, this subsidy, payable to Burrard Dry Dock Company Limited, for a period of 35 years, is $4\frac{1}{2}$ per cent of the total cost of various works completed on different dates. The total cost has been fixed at \$2,500,000 for purposes of determining the subsidy. Payments will continue until 1960. The amount of \$2,382 is retained from the subsidy each year and is deposited to the credit of the Burrard Dry Dock Pontoons Replacement Fund Account (see under Open Accounts further on in this section).
- B As authorized by c. 27, 1917, this subsidy, payable to Saint John Dry Dock and Shipbuilding Company Limited, for a period of 35 years, is $4\frac{1}{2}$ per cent of the total cost of various works completed on different dates. The total cost has been fixed at \$5,500,000 for purposes of determining the subsidy. Final subsidy payment was made in respect of works the cost of which was fixed at \$1,271,086 on July 1, 1954, \$564,660 on December 31, 1955, \$1,202,153 on July 1, 1957 and \$1,372,312 on January 1, 1958. Payments on other works will continue until 1959.

Expenditures represent reimbursement to the Corporation in accordance with the provisions of the Central Mortgage and Housing Corporation Act, c. 46, R.S., for payments made under authority of section 4 of the National Housing Act, c. 188, R.S., as amended, which states that the Central Mortgage and Housing Corporation may agree with an approved lending institution to meet certain travelling expenses incurred in the making of joint loans under Parts I, II and III of this Act for the construction of houses on farms or in small remote communities designated by the Corporation.

Housing Research and Community Planning, National Housing Act, 1954, c. 23, 1953-54, as amended.....	(22)	\$ 662,240
---	------	------------

Expenditures represent reimbursement to the Central Mortgage and Housing Corporation under authority of section 35 of the Act for payments made under authority of section 31 which states "it is the responsibility of the Corporation to cause investigations to be made into housing conditions and the adequacy of existing housing accommodation in Canada or in any part of Canada and to cause steps to be taken for the distribution of information leading to the construction or provision of more adequate and improved housing accommodation and the understanding and adoption of community plans in Canada".

Grants to Municipalities re Slum Clearance, National Housing Act, 1954, c. 23, 1953-54, as amended.....	(20)	\$ 1,000,000
--	------	--------------

Section 23 of the Act authorized the payment of grants, subject to agreements which may be entered into with the approval of the Governor in Council, to assist in defraying the cost to any municipality of acquiring and clearing slum areas or blighted or sub-standard areas suitable as a location for a low cost or moderate cost rental housing project. The same section authorizes Central Mortgage and Housing Corporation to be paid the money required to carry out such agreements. P.C. 1955-885, June 15, 1955, approved an agreement with the City of Toronto for the acquisition and clearance of a blighted or sub-standard area known as Regent Park South. The agreement provides for a grant not exceeding \$3,679,874 based on one-half of the difference between the cost of acquiring and clearing land and the sale price of the land.

This expenditure represented reimbursement to the Corporation of part payment of the grant.

Losses on Sales of Property, National Housing Act, 1954, c. 23, 1953-54, as amended	(22)	\$ 295
---	------	--------

This expenditure represents reimbursement to Central Mortgage and Housing Corporation of the loss sustained on a house it purchased from a builder and subsequently resold. The transaction is within the terms of section 38 of the Act. Authority for reimbursement is in section 22 of the Act.

	<u>\$ 535,508,002</u>	<u>\$ 107,509,344</u>	<u>\$ 643,017,346</u>

(1) P.C. 1957-745, May 27, 1957, P.C. 1957-1346, October 9, 1957, and P.C. 1957-1553, November 22, 1957, approved advances in the current fiscal year pursuant to section 22 of the Central Mortgage and Housing Corporation Act, c. 46, R.S. Advances during the current fiscal year amounted to \$97,500,000 and repayments were \$125,294. Interest is payable at varying rates based on rates prevailing at the time commitments were made by the Corporation. In this connection, an amount of \$13,868,175 was received and credited to Non-Tax Revenue—Return on Investments.

(2) Section 37 of the National Housing Act, 1954, c. 23, 1953-54, as amended, authorized advances to the Corporation out of moneys provided by Parliament for that purpose. In the current fiscal year the amount so provided was as follows:

Appropriations 531 and 661 To provide for advances to Central Mortgage and Housing Corporation for the purposes of subsection (1) of Section 37 of the National Housing Act, 1954, in respect of housing projects for veterans and for housing projects at Gander, Newfoundland, and at Pembroke, Ontario, for sale or rental.....\$ 1,356,000

Advances made during the current fiscal year were \$1,350,000 and repayments \$5,174,091. Interest is payable at the rate of 2 per cent per annum on the outstanding balance of advances made to March 31, 1953 and at the rate of 3½ per cent per annum on advances made subsequent to that date. An amount of \$2,058,404 in respect of this interest was received and credited to Non-Tax Revenue—Return on Investments.

(3) Section 36 of the National Housing Act, c. 23, 1953-54, as amended, authorized advances out of the Consolidated Revenue Fund to the Corporation for the purpose of undertaking projects jointly with the government of any province. Provision is made for repayment of all or any part of the outstanding principal advances under this section without notice or bonus, if the Corporation so desires. The limit of advances which may be a charge against this account at any time is \$50,000,000. However, the Act provides that it may be recouped in the following fiscal year from moneys appropriated by Parliament for that purpose.

The balance at the beginning of the fiscal year was transferred during the year to Loan Account No. 4. Advances during the current fiscal year amounted to \$15,000,000. A further amount of \$99,531 representing losses on land assembly transactions and rental housing projects was also charged to the account.

(4) The increase represents the amount of \$5,000,000 transferred from Loan Account No. 3 and charged to moneys appropriated by Parliament for that purpose, less repayments by the Corporation of \$1,140,802. The parliamentary authority for the transfer was:

Appropriation 779 To provide for the advances charged to the special account in the Consolidated Revenue Fund established by subsection (4) of Section 36 of the National Housing Act, 1954, in respect of housing and land development projects undertaken jointly with the governments of the provinces during the fiscal year 1956-57\$ 5,000,000

Interest at rates varying from 3 per cent to 3½ per cent per annum is payable on advances from Loan Accounts No. 3 and No. 4. In this connection an amount of \$1,276,991 was received and credited to Non-Tax Revenue—Return on Investments.

C Under the terms of the Dry Docks Subsidies Act, c. 91, R.S., amounts deducted from subsidies payable to the Burrard Dry Dock Company Limited, are credited to this account, to which interest at the rate of 3 per cent per annum is also credited and charged to Interest on Public Debt. The moneys are to be used for the renewal of the pontoons in connection with the dry dock.

D Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.

E By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.

- F This account records the value of contractors' securities and earnings held pending the settlement of claims made by their creditors. Payments made in accordance with the terms of such settlements are debited hereto.
- G Under authority of P.C. 2965, October 4, 1939, the Department of Public Works took over from the Province of British Columbia for maintenance and operation, the railway bridge at New Westminster, known as the Fraser River Bridge, the transfer being effective from December 1, 1939. All tolls collected from railways using this bridge are credited to this account. The cost of ordinary maintenance and operation is met from moneys voted by Parliament and such vote entitled "Roads and Bridges—Maintenance and Operation" is recouped at the end of each fiscal year from the revenues collected. The balance remaining in the fund is held pending final settlement with the Province.
- H Credits to this account represent miscellaneous guarantee deposits, on which interest is not allowed, while debits are the releases of such deposits on the request of the Department.
- I Unclaimed wages in respect of cost plus contracts were withheld from final payments to contractors pending claims therefor. The balance in this account was transferred during the fiscal year to the Department of Labour Fair Wages Suspense Account.
- J Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.

This appropriation was provided to meet the costs of operation and maintenance, including salaries of civilian employees, of field divisions of the Royal Canadian Mounted Police and of the Air Division. Field divisions are employed in the enforcement of federal statutes throughout Canada. They also provide policing services, under contract, to all provinces except Ontario and Quebec and to 129 cities and towns.

A Commissioned officers are appointed by the Governor in Council, and non-commissioned officers, constables and special constables, by the Commissioner. The following was the strength in the various commissioned and non-commissioned ranks at March 31, 1958: 7 assistant commissioners, 15 superintendents, 51 inspectors, 6 sub-inspectors, 155 staff-sergeants, 242 sergeants, 764 corporals, 2,845 constables and 150 special constables. General rates of pay are given under Appropriation 396.

B Expenditures comprised: (a) kit upkeep allowance, \$368,741; (b) plain clothes allowance, \$50,080; (c) special northern subsistence allowance at the rate of \$1.50 per diem, \$73,430; northern cash allowance at rates ranging from \$2 to \$3 per diem, \$52,213; special Newfoundland allowance at rates ranging from \$30 to \$55 monthly, \$45,558; (d) married accommodation allowance, \$565,818. General rates of allowances are given under Appropriation 396.

C Expenditures were for analyst, court, legal and veterinary fees, and miscellaneous professional and special services. Payments of \$500 or over were: for analyst fees, The University of Saskatchewan, Saskatoon, \$625; for legal fees, D. B. MacKenzie, Edmonton, \$1,055, Brian G. Savage, Moncton, N.B., \$862.

Tuition fees paid on behalf of members of the Force and civilian employees amounted to \$5,054. Payments of \$500 or over were made to: Spartan Air Service Ltd., Ottawa, \$2,250.

D Expenditures represent payment for services of the Canadian Corps of Commissionaires and the British Columbia Corps of Commissionaires in connection with the protection of Federal Government buildings and property. T.B. 482506 of February 8, 1955, as amended, authorized the Commissioner to enter into agreements for such services. The basic rate is to be as established periodically by Treasury Board on recommendations received from the Department of Labour, for the relevant locations. The agreements provide for payment of additional amounts at specified rates to the respective Corps for administrative expenses and the necessary transportation costs for proper supervision of the protective services.

E Expenditures included an amount of \$256,619 paid to the Department of Veterans Affairs—see Appropriation 396.

F The cost of rations for men in barracks where messes have been established is paid to the officers commanding the several divisions in the form of mess ration allowances at varying rates based on the number and cost of meals served.

This appropriation was provided to meet the costs of operation and maintenance, including salaries of civilian employees, of the Marine Division. This Division is employed in the enforcement of federal statutes along the seaboards and inland waterways and in assisting land divisions in the transport of personnel and carrying out police investigations in areas where water transportation is necessary. A particular duty is the enforcement of those sections of the Customs Act relating to smuggling including the maintenance of preventive patrols.

A The following was the strength in the various commissioned and non-commissioned ranks at March 31, 1958: 2 superintendents, 3 inspectors, 2 sub-inspectors, 13 staff-sergeants, 16 sergeants, 28 corporals, 36 constables, 145 special constables. General rates of pay are given under Appropriation 396.

B Expenditures comprised: plain clothes allowance, \$51; kit upkeep allowance, \$8,553; special northern subsistence allowance, \$1,870, and married accommodation allowance, \$24,326. General rates of allowances are given under Appropriations 396 and 398.

C Expenditures included an amount of \$14,137 paid to the Department of Veterans Affairs—see Appropriation 396.

D Expenditures were for provisions, mess ration allowances and fuel for cooking.

A P.C. 1954-21/561, April 14, 1954, approved the operation of the Royal Canadian Mounted Police Revolving Fund for the purchase and sale of material for the manufacture of uniforms. The operation of this fund was authorized by Vote 547, Appropriation Act No. 3, 1953, and Vote 633, Appropriation Act No. 2, 1954. The amount to be charged to the fund at any one time is not to exceed \$450,000.

A statement of operations for the year ended March 31, 1958, follows:

Sales			249,398
Cost of Goods Sold—			
Inventory, March 31, 1957	272,928

B This account was authorized under the provisions of the Royal Canadian Mounted Police Act, c. 241, R.S., as amended. All moneys received by personnel of the Force in connection with the performance of their duties, over and above their pay and allowances, are deposited to the Fund, and benefits are payable therefrom as directed by P.C. 7/1948 of August 1, 1936, and amendments thereto. The closing balance does not include British Government Savings Bonds in the amount of £1,620.58, held in the name of the Commissioner, Royal Canadian Mounted Police by the Bank of Montreal, London, England.

C By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.

D This fund was established under the provisions of Part IV of the Royal Canadian Mounted Police Act, c. 241, R.S., as amended, whereby a widows' and dependents' pension fund is maintained by 5 per cent contributions thereto from the pay of members of the Force other than commissioned officers. Credits consist of contributions, \$440,518; interest for the year ended March 31, 1958, credited hereto by the Department of Finance, \$147,281 and interest collected from contributors in respect of delayed payments, \$802. Debits are withdrawals of contributions, \$42,409, pensions to dependents, \$23,853 and lump sum benefits paid to dependents, \$4,956.

E This account pertains to Part V of the Act. The following statement shows the transactions in the account during the current fiscal year:

	Debit	Credit
Balance as at March 31, 1957		10,889,735

	<u>\$13,719,334</u>	<u>\$13,719,334</u>

F The Royal Canadian Mounted Police Act, c. 241, R.S., as amended, directs that service of officers and constables of former provincial police forces taken over by the Royal Canadian Mounted Police may count for pension purposes, subject to payment therefor. Payment for this prior service was in some instances made by the provinces concerned, and in others by the personnel, and the amounts were credited to this account. As pensions to these men are a direct charge to the Consolidated Revenue Fund, the amount to the credit of each man is transferred to Revenue when he is pensioned. Withdrawals also represent payments to time-expired personnel not eligible for pension.

G Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.

Addendum to Statement of
Assets and Liabilities

Methods of valuing the assets vested in the Custodian as at December 31, 1957

<u>Asset</u>	<u>Details of Valuation</u>
Cash	Foreign currencies included under this heading were converted to Canadian funds at current rates of exchange.
Gold	Valued at \$38.50 per fine ounce, the price ruling at the outbreak of war.
Securities	Valued at par, except: (a) no par value shares, which are entered at \$1 each; and (b) securities deemed worthless which are recorded at one cent per block of shares held in individual accounts. Foreign securities (other than U.S. which are recorded at par of exchange) were converted to Canadian funds at the exchange rates prevailing at the outbreak of World War II.
Equities in companies controlled by the Custodian	Valued at net worth, i.e., the combined amount of capital and surplus, according to most recent financial statements available; and at a nominal value of \$1 for each equity where no such statements were available.
Real estate	At the amounts assessed for municipal tax purposes.
Mortgages	At the amount of the unpaid principal.
Agreements for sale	At the amount of the unpaid sale price.
Mineral rights	At nominal value of \$1 each.
Other assets:	
Licence agreements	At minimum rental value.
Accounts receivable	At face value.
Personal effects	At real, appraised or nominal values.
Sundry: Life insurance policies, undistributed estates, copyright agreements, land rentals, and uncollected debts	At nominal value of \$1 for each item.

THE CUSTODIAN—*Concluded*

Ottawa, March 27, 1958.

THE HONOURABLE ELLEN FAIRCLOUGH,
SECRETARY OF STATE,
OTTAWA.

Madam,

The accounts of the Custodian have been audited for the year ended December 31, 1957, and the following financial statements have been examined:

Statement of Assets and Liabilities as at December 31, 1957 (with Addendum); and
Cumulative Statement of Income and Expense in Administering the Regulations to December 31, 1957.

The Addendum to the Statement of Assets and Liabilities explains the bases used in recording the various classes of assets vested in the Custodian, and no changes were made in these bases during the year under review.

As in previous years, income earned from cash funds vested in the Custodian, and from investments acquired from such cash funds, has been recorded as income of the Custodian.

Subject to the foregoing observation, I certify that, in my opinion, the Statement of Assets and Liabilities is properly drawn up so as to give a true and fair view of the state of the Custodian's affairs as at December 31, 1957, and the Cumulative Statement of Income and Expense gives a true and fair summary of the income and expense, cumulatively to that date and for the year under review.

Yours faithfully,

IAN STEVENSON,
for Auditor General.

SPECIAL

Payment of carrying costs of temporary wheat reserves owned by the Canadian

Wheat Board, The Temporary Wheat Reserves Act, c. 2, 1956..... (20) \$33,307,928

The above statutory authority provides that where, after July 31, 1955, the stocks of wheat of the Canadian Wheat Board exceed one hundred and seventy-eight million bushels at the commencement of a crop year, the Minister of Finance shall, out of the Consolidated Revenue Fund, pay to the Board for each day in that crop year an amount equal to the portion of the said stocks that exceeds one hundred and seventy-eight million bushels at the commencement of that crop year, multiplied by the carrying charge rate paid by the Board at the end of the immediately preceding crop year. If at the commencement of a crop year the stocks of wheat of the Board are not in excess of one hundred and seventy-eight million bushels, no payment shall be made by the Minister of Finance to the Board under this Act in respect of that or any subsequent crop year.

The stocks of wheat of the Canadian Wheat Board as at August 1, 1957 amounted to 407,679,021.4 bushels and, after the deduction of 178,000,000 bushels as required by section 3 of the Act, the balance of stocks on which payment is based was 229,679,021.4 bushels. The total amount due the Board was \$35,553,509 which amount is arrived at by multiplying the balance of stocks of 229,679,021.4 bushels by the carrying charge of .04241 cents per bushel per diem for the period August 1, 1957 to July 31, 1958.

The above amount represents the balance of payments for the crop year 1956-57 of \$9,605,589 and payments to March 31, 1958 for the crop year 1957-58 of \$23,702,339.

A This account is operated pursuant to the provisions of subsection 3 of section 166, Canada Grain Act, c. 25, R.S., as amended, whereby an accountable advance not exceeding \$500,000 may be made out of the unappropriated moneys in the Consolidated Revenue Fund to the Board of Grain Commissioners for working capital to meet freight charges and weighing and inspection fees on grain received into or discharged from government elevators, such charges and fees being subsequently recovered from owners of the grain.

B This account was authorized by Vote 657, Appropriation Act No. 2, 1952, and Vote 588, Appropriation Act No. 2, 1956, to provide for working capital advances to posts and employees on posting abroad. The balance of this account may not exceed \$250,000 at any time.

The closing balance consisted of advances to posts, \$168,022, and advances to employees, \$62,682. Interest on advances to employees was charged at the rate of 3 per cent per annum to August 31, 1957 and 4½ per cent thereafter.

C The balance represents the investment of the Crown in the capital stock of this company. The accounts of the company and its wholly owned subsidiaries, Northern Transportation Company Limited and Eldorado Aviation Limited are audited by the Auditor General of Canada and the Balance Sheets as at December 31, 1957, as certified by him, together with supporting schedules, will be found in Volume II of this Report.

D This Corporation was incorporated under the Export Credits Insurance Act, c. 105, R.S., as amended, to promote the revival of trade and to encourage exports from Canada by the provision of Government guarantees. An amendment to the Act, c. 15, 1953-54, provides that the authorized capital of the Corporation is \$15,000,000 and that the amount of \$5,000,000 previously debited hereto shall continue to be the capital surplus of the Corporation. During the year an amount of \$420,119 representing excess of premiums over amount required to meet expenses and overhead arising out of insurance contracts was received and credited to Non-Tax Revenue—Miscellaneous.

The accounts of the Corporation are audited by the Auditor General of Canada and the Statement of Assets and Liabilities as at December 31, 1957, as certified by him, together with supporting schedules will be found in Volume II of this Report.

E The closing balance represents the subscription by the Minister of Finance for capital stock in the Corporation under authority of section 10 of the Export Credits Insurance Act, c. 105, R.S., as amended.

F Section 6(2) of the Northern Ontario Pipe Line Crown Corporation Act, c. 10, 1956 authorizes the lending of moneys to the Corporation. The increase in the account represents advances under this section.

Interest received during the fiscal year amounted to \$569,303 which was credited to Non-Tax Revenue—Return on Investments.

G Advances are made to the company for the purpose of acquiring the Capital Stock of the former Eldorado Mining and Refining Limited, which was appropriated by the Crown under authority of P.C. 535 of January 27, 1944. When purchases of stock are made by the Company, this account is credited with the value of the stock and the debit is to the account described under I.

H This account records the purchase of 18,575 ordinary shares in the "Berger House" located on Elizabeth Street, Sydney, Australia. These shares were purchased in order to obtain security of tenure in perpetuity for the Trade Commissioner Service office in Sydney.

- The liability of the Government of Canada for the value of paid-up capital stock of the former company which had not been redeemed at the close of the fiscal year is recorded herein.
- J This account records funds made available by Atomic Energy of Canada Limited, to provide for expenditures incurred by the Exhibition Branch, Department of Trade and Commerce for exhibits and displays.
- K Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.
- L By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.
- M This account records the funds made available from a grant by the Ford Foundation to support a one year program of fellowships for teachers from India who will be studying in Canada.
- N P.C. 2047, May 29, 1947, provided for the employment in Canada of selected German scientists and technicians required for industrial and educational purposes. This account is credited with cash deposits, received from prospective employers of such persons, of amounts estimated as necessary to defray their travelling expenses from Germany to Canada and return, and debited with the relative travelling expenses when ascertained.
- O This account records the funds made available by the United Nations to provide for the payment of transportation of fellows and scholars of the United Nations Technical Assistance Administration and Food and Agriculture Organization who travel in Canada.
- P Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.

BOARD OF GRAIN COMMISSIONERS FOR CANADA

(Established by the Canada Grain Act)

Ottawa, August 5, 1958.

The Chairman and Members,
Board of Grain Commissioners for Canada,
Winnipeg, Man.

Dear Sirs:

An examination* has been made of the accounts and records of your Board for the year ended March 31, 1958 and a Statement of Revenue and Expenditure is appended hereto.

A comparative summary of expenditure and revenue for the fiscal years 1957-58 and 1956-57 is:—

	<u>1957-58</u>	<u>1956-57</u>
Expenditure	4,295,130	4,084,163
Revenue	2,556,670	3,038,945
Excess of expenditure over revenue	<u>\$ 1,738,460</u>	<u>\$ 1,045,218</u>

Securities amounting to \$8,500 held in lieu of security bonds required in accordance with the provisions of Section 79 of the Canada Grain Act were inspected and were found to be in order and in agreement with the details shown in the bond register maintained in the office of the licensing officer of the Board.

Yours faithfully,

WATSON SELLAR,
Auditor General.

CANADIAN GOVERNMENT ELEVATORS

Ottawa, August 5, 1958.

The Chairman and Members,
Board of Grain Commissioners for Canada,
Winnipeg, Man.

Dear Sirs:

CANADIAN GOVERNMENT ELEVATORS

An examination has been made of the accounts and records of the Canadian Government Elevators for the year ended March 31, 1958, and certified financial statements are attached.

BALANCE SHEET

The net surplus from 1913-14 to March 31, 1958, without provision for depreciation on plant and equipment, is \$15,201,482 applicable to the several elevators as follows:

Port Arthur	5,287,360
Moose Jaw	3,481,153
Saskatoon	4,114,379
Calgary	1,927,810
Edmonton	782,845
Lethbridge	430,599
Prince Rupert	38,534
	<u>\$15,201,482</u>

Deposits to the credit of the Consolidated Revenue Fund amounting to \$14,395,873 net represent the accumulated surplus of the cash received from elevator earnings over the cash payments made from parliamentary appropriations to cover the cost of operating the elevators. The amount was increased during the year by \$477,913.

OPERATING STATEMENT

A summary comparison of revenue and expenditure for the fiscal years 1957-58 and 1956-57 is as follows:

	<u>1957-58</u>	<u>1956-57</u>

Approved.

A. E. JACOBSON,
General Manager.

I have examined the accounts of the Canadian Government Elevators for the year ended March 31, 1958, and have obtained all the information and explanations I have required. In my opinion the above Balance Sheet gives a true and fair view of the state of the Elevators' affairs as at March 31, 1958, and the related Operating Statement gives a true and fair view of its operations for the year, according to the best of my information and the explanations given to me and as shown by the books of the Elevators.

WATSON SELLAR,
Auditor General.

There are five official railway cars under the jurisdiction of the Department of Transport, two of which are for the use of the Governor General. All expenses in connection with the maintenance and operation of the cars are charged to this appropriation with the exception of commissary supplies provided for other than the Minister of Transport. These supplies are paid for directly by the Departments whose Ministers have used the official railway cars or by the office of the Governor General. Commissary supplies provided for the Minister of Transport amounted to \$347.

The cars are hauled free of charge by the railways provided they are attached to regular scheduled trains.

Appropriations 452 and 849 Payments to Hudson Bay Railway in respect of the calendar year 1957—Difference between expenditures for operation and maintenance and revenues from operation.....

Expenditures..... (33) \$ 579,950

This appropriation was provided for the payment of the operating deficit of the Hudson Bay Railway which had been operated by the Canadian National Railways under definite financial arrangements whereby the Government of Canada was responsible directly for the annual operating deficit. From January 1, 1958, under authority of P.C. 1958-217, February 7, 1958, the Hudson Bay Railway has been incorporated fully in the Canadian National Railways System and any surplus or deficit hereafter is to be included in the general financing of the System.

For the period from January 1 to December 31, 1957, the operating expenditures amounted to \$4,922,197, including management fee of \$12,000, and the revenues to \$4,342,247, resulting in a deficit of \$579,950.

Brown (Apr. 1 to Mar. 31); K. D. Hage (Apr. 1 to June 30); E. R. Walker (Apr. 1 to Oct. 25).

A Includes \$608,087 covering salaries of employees working under service contracts at certain stations in Northern Canada.

By T. B. 505349, August 16, 1956, the Treasury Board authorized the Department to enter into service contracts of two years' duration with persons required to work at certain Northern stations and set out approved basic rates of pay.

The Board also directed that the employment shall be subject to the following conditions: (a) that free board and lodging are to be provided during the period of duty at station of assignment; (b) that officers-in-charge are to be paid \$25 a month in addition to the basic rates; (c) that 5 per cent of the employee's gross wages is to be held back until the employee has completed his contract; (d) that on satisfactory completion of the contract the holdback is to be returned with a bonus of an amount equal to the amount of the holdback; (e) that in the event that the contract is not satisfactorily completed, the holdback will be automatically forfeited; (f) that the Department will assume travelling expenses from the point of engagement to the point of assignment in Northern Canada and return, and such other travelling expenses as are incurred at the direction of the Department; and (g) also bear the cost of a prescribed medical examination.

By T.B. 527807, February 12, 1958, the above regulations were amended effective January 1, 1958 whereby the period of employment was changed to "approximately two years' duration" and the bonus payable on completion of contract would be an amount equal to 5 per cent of the gross wages earned during the entire period of employment under contract.

B Payments of \$5,000 or over for weather reporting services with the stations shown in parentheses were made to: Aluminum Co. of Canada, Ltd., Montreal (Lake Manouan, Que.) \$8,360; Canadian National Railways (Grand Banks, Nfld.) \$11,100; Canadian National Railways (St. Anthony, Nfld.) \$17,562; Canadian National Railways (Twillingate, Nfld.) \$17,939; Corporation of the City of Kamloops, B.C. A Under the provisions of section 21 of the Railway Act, P.C. 148/1426, March, 1952, authorized the appointment of Riddell, Stead, Graham and Hutchison, Chartered Accountants, Vancouver, as accounting advisers on freight rate applications and on the installation of a uniform system of accounting for Canadian Railways. During the year they received \$40,475 for their services.

B George A. Thompson, Toronto, received \$11,344 for reporting the proceedings of the Board.

C Canada Law Book Co. Ltd., Toronto, received \$1,000 as a contribution towards the cost of publication of the principal decisions of the Board in *Canadian Railway and Transportation Cases*, Volume 74.

Contributions to the Railway Grade Crossing Fund, Railway Act, c. 234, R.S., as amended	(20)	\$ 5,000,000
---	------	--------------

Details will be found under Open Accounts further on in this section.

To provide for payments to the Canadian Pacific Railway Company and the Canadian National Railway Company equal to the annual cost of maintaining the trackage between specified points, in Ontario, on the transcontinental lines of the said Railways in accordance with Chapter 234, Revised Statutes.....	(20)	\$ 7,000,000
---	------	--------------

Section 468 of the Railway Act, c. 234, R.S., as amended, provided for payment, when authorized by the Governor in Council, out of the Consolidated Revenue Fund (a) to the Canadian Pacific Railway Company of an amount equal to the annual cost of maintaining the trackage between Sudbury and Fort William on its transcontinental line of railway, and (b) to the Canadian National Railway Company of an amount equal to the annual cost of maintaining trackage corresponding in extent to that mentioned in (a), between Capreol and Fort William and between Cochrane and Armstrong on the transcontinental lines of the Canadian National Railways. The aggregate of the payments is not to exceed the sum of seven million dollars in any year. Payments in 1957-58 were authorized by P.C. 1953-686, April 30, 1953.

The Board of Transport Commissioners for Canada is charged with the duty of determining the annual cost of maintaining the trackage for which payment may be made and of directing the application of the amounts paid to a reduction in freight rates on traffic moving over the said trackage.

The Canadian Pacific Railway received \$3,363,011 and the Canadian National Railways, \$3,636,989.

Expenditures for Other Departments

Services were rendered and work performed for other Departments by the Department of Transport and expenditures of \$8,871,427 were charged to the appropriations of such Departments, including \$8,146,146 to those of the Department of National Defence.

A The Northwest Communication System is operated by the Canadian National Telegraph Company on behalf of the Department. The revolving fund was established under authority of Vote 559, Appropriation Act No. 4, 1952, Vote 632, Appropriation Act No. 2, 1953, and Vote 590, Appropriation Act No. 2, 1956, for the purpose of financing the purchase of materials and supplies to be held in Northwest Communication System Stores for use on both Capital and Maintenance Works. The amount to be charged to the fund at any one time may not exceed \$250,000.

The fund was debited during the year with purchases amounting to \$1,176,931 and credited with issues of \$1,160,127.

B This account is operated as a revolving fund under authority of the Financial Administration Act. Vote 630, Appropriation Act No. 2, 1955 fixed the amount that may be charged to the fund at any one time at \$5,000,000.

During the year this account was debited with \$5,629,449 representing the cost of goods purchased and with \$173,072 covering salaries and wages of Departmental employees engaged in the manufacture of certain material and credited with issues of \$5,466,616 charged to the relevant appropriations and also an amount of \$56,827 representing write-off of obsolete stores and inventory shortages charged to Appropriation 856.

C These accounts reflect the transactions in respect of advances made to the Canadian National Railways for debt redemption, capital expenditure purposes and temporary loans in respect of the 1958 deficit under the authorities quoted.

The Consolidated Balance Sheet of the Canadian National Railways as at December 31, 1957 together with related statements is shown in Volume II of this report.

D Under the provisions of the Canadian National Railways Capital Revision Act, c. 311, R.S., as amended the Minister of Finance was authorized:

- (a) to release the Company from certain claims of Her Majesty amounting to \$736,385,405, being 50 per cent of the indebtedness of the Company to Her Majesty and the public as at December 31, 1951, in exchange for preferred stock of the Company;
- (b) to purchase from time to time, in the years 1952 to 1960 inclusive, out of the Consolidated Revenue Fund, preferred stock of the Company to the total value not exceeding three per cent of the gross revenue of the National Company, to be used to meet expenditures for additions and betterments of the System;
- (c) in order to relieve the Company of 10 years' interest payments on an amount of \$100,000,000, to release claims by Her Majesty totalling this amount in exchange for an obligation of the Company to pay the sum of \$100,000,000 on January 1, 1972, with interest at such rates and upon such terms as the Governor in Council prescribes, except that no interest shall be payable in respect of the period of ten years from January 1, 1952.

With respect to (a) above, the principal amount of \$736,385,405 specified in Schedule A of the Act was released in exchange for 736,385,405 shares of four per cent preferred stock of the Company. Additional stock to the value of \$129,903,526 was purchased subsequently as provided in (b), of which stock to the value of \$21,875,189 was purchased during the current fiscal year.

E Under authority of section 8 of the Canadian National Railways Capital Revision Act, c. 22, 1937, the balances then standing in Public Accounts in respect of: Canadian Government Railways—Open Accounts, Canadian Government Railways—Store Accounts, and the Saint John and Quebec Railway—Open and Stores Accounts were adjusted as prescribed in the Act and the residue was consolidated under the title of "Canadian Government Railways, Working Capital". This amount is carried against the Canadian National Railways without interest, as representing a fair approximation of the amount of Canadian National Railways Working Capital utilized for Canadian Government Railways purposes.

F This account records recoverable advances made to the Canadian National Railway Company under authority of various parliamentary appropriations, to be used for the completion of the ferry terminal at Bar Harbour, Maine, U.S.A.

The procedure for repayment of the loans was established by P.C. 1954-43/733, May 20, 1954, and P.C. 1955-1224, August 16, 1955, which provided that: (a) the aggregate of the loans be repaid by the Company in thirty consecutive, annual payments without interest, commencing one year after the ferry service has been in operation, and (b) the annual payments shall not form part of the accounts of the Company but shall be charged to the cost of operating the ferry service.

An amount of \$38,776 was refunded by the Company during the current fiscal year.

G In this account is recorded a loan to the Canadian National Railway Company under authority of Vote 791, Appropriation Act No. 5, 1955, for the purpose of providing working capital for the operation of the Yarmouth, N.S., and Bar Harbour, Maine, U.S.A., Ferry Service.

Interest on this loan at the rate of 3½ per cent per annum is credited to Non-Tax Revenue—Return on Investments, Department of Finance.

H This account reflects the status of advances made to the Canadian National (West Indies) Steamships Ltd., for working capital purposes under authority of Vote 649, Appropriation Act No. 2, 1951.

The Balance Sheet of the Company as at December 31, 1957, together with related statements is shown in Volume II of this report.

I Vote 764, Appropriation Act No. 4, 1954, authorized a loan of \$3,600,000 to the Canadian National (West Indies) Steamships, Ltd., for the redemption of Government Guaranteed Gold Bonds, maturing March 1, 1955.

P.C. 1955-255, February 23, 1955, established the procedure for repayment of the loan, which provided that: (a) \$2,000,000 of the loan, bearing interest at the rate of 2½ per cent per annum, be repaid by semi-annual payments in amounts at the option of the Company, sufficient to liquidate the loan on September 1, 1963, with interest payable on the thirty-first day of March in each year, and (b) the balance of \$1,600,000, without interest, on or before June 30, 1955.

Interest on this loan is credited to Non-Tax Revenue—Return on Investments, Department of Finance.

Vote 631, Appropriation Act No. 2, 1955, authorized the acceptance of 16,000 shares of capital stock of the Company in satisfaction of \$1,600,000 of the loan, thereby cancelling the provision under (b) above.

J The Corporation was incorporated under the Canadian Overseas Telecommunication Act, c. 42, R.S., as amended, to establish, maintain and operate in Canada and elsewhere external telecommunication services by cable, radiotelegraph, radiotelephone and any other means of telecommunication for the conduct of public communications and to co-ordinate Canada's external telecommunication services with those of other parts of the British Commonwealth of Nations.

Section 14 of the Act provides that the Minister of Finance may pay to the Corporation for capital purposes amounts not exceeding \$4,500,000 and in addition any moneys appropriated by Parliament.

Pursuant to this section of the Act advances amounting to \$4,500,000 for capital purposes and, under authority of various appropriation Acts, advances of \$7,836,064 for additions and betterments to facilities were made in previous years.

Further advances amounting to \$300,000 were also made under authority of the following:

Appropriation 662 Loan to the Canadian Overseas Telecommunication Corporation in accordance with Section 14 of the Canadian Overseas Telecommunication Act for additions and betterments to facilities.....\$ 1,000,000

Interest on these advances at the rate of 3½ per cent per annum is credited to Non-Tax Revenue—Return on Investments, Department of Finance.

The Balance Sheet of the Corporation as at December 31, 1957, as certified by the Auditor General, together with related statement is shown in Volume II of this Report.

K The Authority was incorporated under the St. Lawrence Seaway Authority Act, c. 242, R.S., as amended, for the purposes of providing and maintaining, either wholly in Canada or in conjunction with works undertaken by an appropriate authority in the United States, a deep waterway between the Port of Montreal and Lake Erie.

Section 25 of the Act authorized the Minister of Finance, with the approval of the Governor in Council, to make loans to the Authority from time to time to the extent that Parliament has authorized such loans. The Minister of Finance may also under section 26 make temporary loans to the Authority out of the Consolidated Revenue Fund, but such loans are not to exceed \$10,000,000 and are repayable within one year from the dates the loans were granted.

Advances amounting to \$77,500,000 were made to the Authority under authority of various appropriation Acts in previous years.

Further advances amounting to \$94,500,000 were made during the current year under authority of the following:

Appropriation 532 Loans to the St. Lawrence Seaway Authority in such manner and subject to such terms and conditions as the Governor in Council may approve.....\$100,000,000

Interest amounting to \$4,743,209 which became due and payable and payment of which was deferred in accordance with P.C. 1956-1048, July 2, 1956, was recorded in the second account. A corresponding credit was set up under Suspense Accounts—St. Lawrence Seaway Authority—Deferred interest.

The Balance Sheet of the Authority as at December 31, 1957, as certified by the Auditor General, together with related statements is shown in Volume II of this Report.

N P.C. 4250, August 24, 1949 authorized the Department to enter into an agreement with the Corporation of the City of Montreal with respect to the construction of a vehicular tunnel under the Lachine Canal at St. Remi Street and provided that the lands upon which the tunnel and approaches are constructed, other than Lachine Canal reserve lands, were to be conveyed to the City upon completion of the tunnel by the Department.

Under the terms of the agreement the Corporation was required to reimburse one-third of the cost of construction of the tunnel, with interest at the rate of $3\frac{1}{2}$ per cent per annum calculated from the date of conveyance of the lands, provided that the amount did not exceed the sum of \$1,500,000 plus interest and such amount was to be repaid in thirty consecutive annual instalments, the first of which was to be due and payable twelve months after the date of conveyance of the lands, namely June 12, 1953.

The cost of construction of the tunnel for purposes of the agreement has been established at \$4,132,353 and the share to be reimbursed by the City at \$1,377,451 plus \$21,378 for supplementary ducts installed at the request of the Montreal Hydro Commission, with interest at the rate of $3\frac{1}{2}$ per cent per annum.

During the year, a repayment of \$31,598 was applied against the loan and interest amounting to \$40,927 was credited to Non-Tax Revenue—Return on Investments.

Debentures of the City of Montreal furnished as security are held in the custody of the Minister of Finance.

O Under authority of P.C. 2293, April 17, 1952, the management and operation of the spur line leading from a point near Atikokan to Steep Rock Lake, Ontario, the Ore Dock at Port Arthur and facilities constructed by the railway at the expense of the Government, as authorized by P.C. 8423, September 18, 1942, to assist the Steep Rock Iron Mines Ltd., in the development of the iron ore deposit, were entrusted to the Canadian National Railway Company.

The capital cost of any additions, betterments or extensions and the cost of operating and maintaining the properties are to be assumed by the Company. The Government is to receive from the railway 6 cents per gross ton on all ore transported from the mines and handled over the Port Arthur Ore Dock until the cost (without interest) of the facilities entrusted has been amortized in full.

P This account reflects the transactions in connection with recoverable advances made under authority of various parliamentary appropriations to the Northwest Communication System, which is operated by the Canadian National Telegraphs on behalf of the Department, for the extension of the facilities from Edmonton to the Yukon-Alaska Border.

The procedure for repayment of the loans was established by T.B. 438055, April 1, 1953, which provided that (a) the provisioning charges were to be credited in total to the loans and (b) one-tenth of the remaining outstanding loans was to be repaid each year from the annual rental revenue, the balance of the revenue being treated by the system as earnings.

All provisioning charges have been paid by the Agencies using the facilities and the amount of \$28,269 represents the portion of rental revenue which has been credited to the loan as provided in (b) above.

Q This account reflects the transactions in respect of the conversion of a Naval Tactical Trainer to an Universal Air Traffic Control Simulator charged to funds, amounting to \$200,000 provided by the Government of the United States of America. T.B. 524075, November 21, 1957 authorized the entry into an agreement with Computing Devices of Canada Ltd., Ottawa, for the provision of the necessary studies for the conversion at an estimated cost of \$200,000, including a fee of \$18,182. During the current year the Company received \$186,868, including a fee of \$16,944.

R This account was credited with fees amounting to \$745,326, received by the Department of Transport with applications for sound broadcasting and television licences. The fees are held by the Department and are released from time to time to the Canadian Broadcasting Corporation after the licences have been issued.

The account was debited with releases to the Canadian Broadcasting Corporation amounting to \$443,050.

The Balance Sheet of the Corporation as at March 31, 1958, as certified by the Auditor General, together with the related statements is shown in Volume II of this Report.

S In this account are recorded the deductions at the rate of 5 per cent per annum made from the gross wages of employees who have signed an agreement with the Department to work at certain Northern Stations for a duration of two years. The holdbacks are to be refunded when the contracts have been satisfactorily completed, together with a bonus equal to the amounts of the holdbacks. If the terms of the contract have not been fulfilled, the holdbacks are to be forfeited to the Crown. Effective January 1, 1958, the period of employment was changed to "approximately two years' duration" and the bonus payable is to be an amount equal to 5 per cent of the gross wages paid during the entire period of employment under contract.

T Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.

U By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one half per cent per annum compounded annually.

V In this account are recorded amounts deposited with the Department as guarantees for wharfage charges, radio tolls, damages to government properties, etc. Cash deposits are credited to this account but interest is not allowed on these deposits. Bonds amounting to \$55,700 furnished as guarantees were held in the custody of the Minister of Finance at the close of 1957-58.

W Under authority of c. 22, Statutes of 1907 and amendments, the Fund was established for the purpose of providing retiring allowances for railway employees who are retired on account of old age, physical or mental infirmity, and other causes. The Fund was credited with (a) employees' contributions (1½ per cent of their monthly salary or wages); (b) an annual contribution not exceeding \$100,000 by the Canadian National Railways, together with a special contribution, as authorized by the Canadian National Railways Financing and Guarantee Act, c. 12, 1941, to offset the deficit as at December 31, 1957, and (c) Federal Government Contributions (see Appropriation 470) charged to the appropriation provided by Parliament, making a total of \$5,713,340 credited to this account. Payments of retiring allowances and administration expenses amounting to \$5,713,968 were debited hereto.

X To this account are credited the collections made by the Federal Government at Gander Airport on behalf of the Provincial Government under the Newfoundland Social Security Assessment Act, 1949. This account is debited with payments to the Province and with a commission of 3 per cent of collections earned by the Department which are credited to Revenue.

Y This account reflects the transactions in respect of the relocation to a new site of the Department of Transport Aeradio Transmitting Station at Goose Bay, Labrador.

The station is being transferred at the request of the United States Air Force and the Government of United States has agreed to pay the cost of moving the establishment.

Z Unpaid wages of members of ships' crews who have been lost at sea as well as amounts due for loss of personal effects, were credited to this account pending direction as to payees.

AA This endowment fund is to provide annually a medal to the winner of the John Webster Trophy, presented, in perpetuity, for the encouragement of amateur aviation in Canada. The account is credited with interest accruing on the bonds and debited with the annual expenditure incurred for the striking of the medal. No medal was awarded this year.

AB Under authority of Part VI of the Canada Shipping Act, c. 29, R.S., as amended, each Pilotage Authority shall, within its district, have power, by by-laws confirmed by the Governor in Council, to make certain regulations relative to the conducting of the pilotage business of the district, said regulations to provide for the establishment of a fund for the relief of superannuated licenced pilots, or of their wives, widows or children, provided that the rate of contributions to such fund shall not be less than 5 per cent of the pilot's earnings. The rates of contribution at the present time are: Halifax, 5 per cent; Sydney, 16 per cent; Saint John, 14 per cent; Montreal, 10 per cent; British Columbia, 10 per cent. These accounts show the status, and transactions during the fiscal year, of the various funds.

AC The fund was established under authority of section 265 of the Railway Act, c. 234, R.S., as amended, which provides that "sums heretofore and hereafter appropriated and set apart to aid actual construction work for the protection, safety and convenience of the public in respect of crossings shall be placed to the credit of a special account to be known as 'The Railway Grade Crossing Fund'."

The sums are to be applied by the Board of Transport Commissioners solely towards the cost, not including maintenance and operation, of work actually done in respect of existing crossings at rail level and on reconstruction and improvement of grade separations at crossings in existence on June 28, 1955.

The total amount that may be applied must not exceed in the case of a crossing at rail level sixty per cent of such cost or \$300,000 and in the case of reconstruction and improvement of a grade separation at a crossing, thirty per cent or \$150,000, whichever is the lesser.

Under the provisions of the Act any amount to the credit of the Fund together with a sum of \$5,000,000 which is to be appropriated in each fiscal year commencing with the first of April, 1955, is to be applied towards the cost of work actually done in respect of crossings but where at the commencement of the fiscal year there remains an uncommitted balance of more than \$2,000,000, the amount to be credited in that year is to be such amount as, with the uncommitted balance, totals \$7,000,000.

No amount shall be applied unless a crossing has been in existence at least three years prior to the making of the order by the Board.

During the current year the fund was credited with a sum of \$5,000,000 and debited with expenditures amounting to \$1,877,685.

Outstanding commitments as at March 31, 1958 amounted to \$12,563,112.

Payments were made as follows: Province of Alberta, Department of Highways, Edmonton, \$107,656; County of Brant, Ont., \$67,689; Canadian National Railways, \$502,148; Canadian Pacific Railway Co., \$333,627; Chesapeake and Ohio Railway Co., \$14,693; Essex Terminal Railway Co., \$9,200; Grand River Railway Co., \$5,296; Corporation of the City of Hamilton, Ont., \$134,721; County of Lennox and Addington, Ont., \$8,405; Province of Manitoba, Department of Public Works, Winnipeg, \$18,296; Northern Alberta Railway Co., \$10,577; Ontario Northland Railway, \$9,379; Province of Ontario, Provincial Treasurer, Toronto, \$260,579; Province of Quebec, Department of Roads, Quebec, \$99,207; Quebec Central Railway Co., \$6,832; Quebec North Shore and Labrador Railway Co., \$6,300; City of Victoria, B.C., \$101,841; County of Welland, Ont., \$157,992; sundry payments (20) each under \$5,000, \$23,247.

AD To this account were credited all moneys collected by the Department of Transport, East Coast and West Coast Radio Services, and Edmonton-Whitehorse Circuit for radio messages. The collections were subsequently apportioned as between this Department and the public utilities concerned, disbursements to the latter being made from the account. From time to time during the fiscal year, moneys earned by the Department were transferred to revenue. The balance will be apportioned when the relevant information is received.

AE Receipts which cannot be allocated immediately are credited to this account pending clearance to the proper accounts.

AF To this account were credited all moneys collected by the Government Telegraph and Telephone Service for telegraph and telephone message tolls. The collections were subsequently apportioned as between this Department and various commercial communication systems concerned, disbursements to the latter being made from the account. From time to time moneys earned by the Department of Transport were transferred to revenue. The balance will be apportioned when the relevant information is received.

AG This account records the deferred interest in respect of loans shown under K above.

AH Deductions from the salaries of certain employees not paid by Central Pay Office are credited to this account pending transmittal to the department or agency concerned.

CANADIAN MARITIME COMMISSION

The Commission was established by the Canadian Maritime Commission Act, c. 38, R.S., effective from November 1, 1947, to consider and recommend to the Minister such policies and measures as it considers necessary for the operation, maintenance, manning and development of a merchant marine and ship-building and ship-repairing industry commensurate with Canadian maritime needs.

The Act also provides that the Commission shall (a) exercise and perform on behalf of the Minister such powers, duties and functions of the Minister under the Canada Shipping Act, as the Minister may require; (b) administer, in accordance with regulations of the Governor in Council, any steamship subventions voted by Parliament; and (c) exercise or perform any other powers, duties or functions conferred on, or required to be performed by, the Commission by or pursuant to any other Act or order of the Governor in Council.

The Commission consists of three members appointed by the Governor in Council for a period of five years.

A-B These loans cover capital expenditures and are fully secured by certificates of indebtedness.

A Expenditures at these harbours are treated as Non-Active Loans and charged to Net Debt. In the case of Three Rivers, expenditures since April 1, 1953 are included in B.

Expenditures provided by Appropriations 496 and 771 and charged to Net Debt during 1957-58 were as follows:

Churchill	236,116
Halifax	2,220,165
Quebec	1,950,643
Saint John	388,869
	<u>\$ 4,795,793</u>

B Expenditures at these harbours are treated as active assets and are recorded on the statement of Assets and Liabilities of the Government of Canada. In the case of Three Rivers, expenditures prior to April 1, 1953 are included in A.

Parliamentary appropriations are generally provided in connection with these accounts and the appropriation in the current year, Appropriation 535 and the accounting therefor are given below. In addition an amount of \$4,900 was transferred to this account from the Generally—Unforeseen and Miscellaneous item of Appropriation 496 to be used for Capital Expenditures. Of this amount, \$4,816 was expended. A statement by harbours of the advances charged to these appropriations during the current year follows:

	<u>Montreal</u>	<u>Three Rivers</u>	<u>Vancouver</u>	<u>Total</u>
Advances charged to:				
Appropriation 535	10,901,774	205,574	51,564	11,158,912

	(27) <u>\$ 145,783,000</u>	<u>\$ 145,582,754</u>

This appropriation was provided for the cost of pensions and other payments authorized under the Pension Act, c. 207, R.S., as amended, the Civilian War Pensions and Allowances Act, c. 51, R.S., as amended, and the Civilian Government Employees (War) Compensation Order, P.C. 45/8848 November 22, 1944; pensions in respect of the North West Rebellion, 1885; and general service pension awards. The Pension Act was amended effective July 1, 1957 by Appropriation Act No. 4, 1957.

A Pensions are awarded by the Canadian Pension Commission, according to percentage of disability attributable to service, to veterans and other eligible persons who have been disabled, including additional pension for dependents, and to dependents of deceased eligible persons.

The following table shows the scale of pensions for 100 per cent disability and for death.

Annual Rates

*Rank (Army)	Single 100 per cent disability		Pensions for death; Widow or Dependent Parent	
	April 1 to June 30, 1957	July 1, 1957 to March 31, 1958	April 1 to June 30, 1957	July 1, 1957 to March 31, 1958

*And equivalent ranks in Navy and Air Force.

Additional pension (100 per cent disability) for married pensioners eligible therefor, \$540 to June 30, 1957 and \$600 thereafter; first child, \$240; second child, \$180; each additional child, \$144. These additional pensions are, like the basic pension for a single pensioner, scaled down with a lower per cent disability.

Additional pension for death to dependents—child or dependent brother or sister, orphan child or orphan brother or sister; first child, \$480; second child, \$360; each additional child, \$288. In accordance with the provisions of the Act, pensions awarded to parents or brothers or sisters may be less than these amounts.

B Last sickness and burial expenses, when the deceased pensioner was destitute, not exceeding \$185 to June 30, 1957 and \$250 thereafter.

Appropriation 515 Gallantry Awards—World War 2 and Special Force.....	21,500
Expenditures..... (28) \$	20,447

This appropriation was provided for the cost of pecuniary benefits to members of the Forces during World War 2, or of the Special Force (Korea) who were awarded the Victoria Cross, the Distinguished Flying Cross, the Distinguished Conduct Medal, the Conspicuous Gallantry Medal, the Distinguished Service Medal, the Military Medal or the Distinguished Flying Medal.

The above expenditures represent payments to veterans who elected to receive their awards in the form of allowances.

Appropriations 518 and 776 To provide for the payment of grants to veterans settled on Provincial Lands in accordance with agreements with Provincial Governments under Section 38 of the Veterans' Land Act and payment of grants to veterans settled on Dominion Lands, in accordance with an agreement with the Minister of Northern Affairs and National Resources under Section 38 of the Veterans' Land Act.		240,000
Expenditures.	(28)	\$ 218,516

A veteran who is settled on Provincial or Dominion Lands and who has not received assistance under other sections of the Act may receive a grant not exceeding \$2,320 subject to the agreements that have been made with the province in which such land is situated and subject to his complying with the terms of his agreement for ten consecutive years. Grants take the form of disbursements by the Director for permanent improvements to the properties or for the purchase of livestock, farm, commercial fishing, and other types of machinery and equipment.

Appropriation 519 To provide for the payment of grants to Indian veterans settled on Indian Reserve Lands under Section 39 of the Veterans' Land Act.		100,000
Expenditures.	(28)	\$ 77,932

Under the above authority, an amount not exceeding \$2,320 may be granted by the Director, the Veterans' Land Act, to an Indian veteran who settles on Indian Reserve Lands, the said grant to be paid to the Minister of Citizenship and Immigration, who shall have the control and management thereof on behalf of the Indian veteran.

The above expenditures represent payments to the Indian Affairs Branch of the Department of Citizenship and Immigration.

Appropriation 520 To provide for the reduction of indebtedness to the Director of Soldier Settlement of a settler in respect of a property in his possession, the title of which is held by the Director, or such Soldier Settlement Loans which are administered by the Indian Affairs Branch of the Department of Citizenship and Immigration, by an amount which will reduce his indebtedness to an amount in keeping with the productive capacity of the property or his ability to repay his indebtedness under regulations approved by the Governor in Council.		2,084
Expenditures.	(28)	\$ 1,434

P.C. 33/3875, August 22, 1952, approved the regulations in respect of the reduction of indebtedness. Of the above amount, \$1,380 was applied as principal and \$54 as interest. The offsetting credits were to: British Family Settlement Loans, \$943; Soldier Land Settlement Loans, \$437—see under Open Accounts further on in this section; and Revenues, \$54.

Appropriation 521 To authorize and provide, subject to the approval of the Governor in Council, for necessary remedial work on properties constructed under individual firm price contracts and sold under the Veterans' Land Act to correct defects for which neither the veteran nor the contractor can be held financially responsible and for such other work on other properties as may be required to protect the interest of the Director therein.....

		<u>\$ 1,152,845</u>	<u>\$ 1,017,339</u>

- A This allotment covers the placement services rendered by the National Society for the Deaf and Hard of Hearing, \$7,167; and the Canadian Paraplegic Association, \$9,409.
- B Includes payments to part time instructors engaged for the purpose of marking correspondence courses, \$24,603.
- C Vocational training benefits may be paid to a veteran who takes a course in vocational or technical training, which has been approved as likely to fit him for employment or re-employment or to enable him to obtain better or more suitable employment. Allowances are payable for a period of twelve months or, in special cases, for a period not exceeding the period of service of the veteran.
- D Allowances may be paid to a veteran who engages on his own account in any business and is awaiting returns therefrom. Allowances are payable for a period not exceeding the veteran's period of service or twelve months, whichever is the lesser.
- E Allowances may be paid to a veteran who resumes or commences within one year and three months after discharge: (a) a course for the purpose of qualifying for admission to a university; (b) a university course, academic or professional, to which he is regularly admitted; or (c) a post-graduate course, either academic or professional. The last may be taken after completion of an undergraduate course. Allowances are payable for the period during which the veteran is making satisfactory progress in the course. Commencing with the fiscal year 1946-47, advances were made to universities for the purpose of making small loans to meet emergency conditions among veterans who are being paid educational allowances. As repayments are received by the universities, the amounts are forwarded to the Department. The outstanding balance at the close of the current fiscal year was \$115,489.
- F Payments were made to the Unemployment Insurance Commission (mainly for members of the Korean and regular forces) for the combined contributions of the employer and the veteran, for the veteran's period of service up to a maximum of three years after July 5, 1950.
- G Transportation and travelling expenses are paid to veterans who are taking vocational and technical training away from their home areas.
- H Controlled assistance, generally in the form of cash, to provide shelter, lodgings, fuel and food to veterans in the following classifications who are unemployed and in necessitous circumstances:
- (a) Veterans who served with the Canadian Forces during World War 1, and who are in receipt of small disability pensions under the Canadian Pension Act.
- (b) Veterans who served in World War 1 with Her Majesty's Forces other than Canadian or with the Forces of Her Majesty's Allies and who are in receipt of small disability pensions, and were resident in Canada on or before December 1, 1924.
- Direct payments of tuition fees to universities, colleges and schools were: Acadia University, Wolfville, N.S., \$3,976; University of Alberta, Edmonton, \$6,839; University of British Columbia, Vancouver, \$17,871; Carleton University, Ottawa, \$2,473; Dalhousie University, Halifax, \$5,142; University of Manitoba, Winnipeg, \$3,590; McGill University, Montreal, \$7,586; Mount Allison University, Sackville, N.B., \$3,403; University of New Brunswick, Fredericton, \$4,996; Ontario College of Art, Toronto, \$2,295; Queen's University, Kingston, Ont., \$8,518; Ryerson Institute of Technology, Toronto, \$2,890; St. Francis Xavier University, Antigonish, N.S., \$5,936; University of Saskatchewan, Saskatoon, \$4,056; University of Toronto, \$13,943; University of Western Ontario, London, Ont., \$8,073; miscellaneous schools, colleges, etc., (each under \$2,000), \$33,327.

A Section 55 of the Veterans' Land Act, c. 280, R.S., as amended, provides for the establishment of this account, the outstanding balance in which may not exceed \$15,000,000 at any time. It is used by the Director for the purchase, sub-division and development of land; progress payments to veterans during construction and completion of unfinished houses after termination of the construction contract, etc. After the construction contract for each house has been completed, Central Mortgage and Housing Corporation will place or arrange to have placed a mortgage on the property and reimburse the revolving fund the full cost to the Director for that property.

B The closing balance represents the amount due the Department by the Government of New Zealand for treatment services and payment of pensions on its behalf.

C *Veterans' Land Act Advances.*—This account relates to the acquisition by the Director, the Veterans' Land Act, of properties, building materials, live stock, farm equipment and commercial fishing equipment for purposes of the Act for sale to qualified veterans of World War 2 and Korea under sale agreements which carry specified conditional benefits if the terms of such agreements are adhered to by the Veterans.

The authority for advances in connection with this account is provided by the following appropriation:

F The Army Benevolent Fund Act, c. 10, R.S., as amended, directs, *inter alia*, that: (a) there shall be set up in the Consolidated Revenue fund a special account called the Army Benevolent Fund; (b) certain canteen profits and other funds shall be credited to the Receiver General of Canada, (c) such funds shall be deemed to have been received by Her Majesty in trust for the purposes of this act; (d) the Receiver General shall credit the fund semi-annually with interest at the rate of 3½ per cent per annum on \$5,000,000 and 2½ per cent on the balance of the minimum monthly balances to the credit of the fund; (e) there shall be constituted a Board to be called "The Army Benevolent Fund Board" to authorize payment out of the fund to or for the benefit of, veterans or their dependents or the widows, children or other dependents of deceased veterans of such amounts as the Board may from time to time determine; (f) the Auditor General shall examine the accounts of the Board annually and shall examine accounts of committees quarterly; and (g) the Board shall submit an annual report of its affairs and operations to the Minister who shall forthwith lay the report before Parliament.

G This fund is under the jurisdiction of the Canadian Pension Commission. Moneys held in this account include: (a) pensions placed under administration of the Canadian Pension Commission; (b) donations, legacies, gifts, bequests, etc., received by the Commission for the use of pensioners or dependents in distressed circumstances; (c) the Detention Allowances Fund—Canadian seamen.

H Holdbacks charged to the relevant appropriations and credited to this account under authority of section 40 of the Financial Administration Act, c. 116, R.S., as amended, are paid out in accordance with the contract under regulations of the Treasury Board.

I By regulations established under authority of section 39 of the Financial Administration Act, contractors are required to furnish security for the satisfactory performance of the work. Cash deposits credited hereto bear interest at the rate of two and one-half per cent per annum compounded annually.

J Regulations in respect of the service estates of deceased members of the Armed Forces, who died while receiving hospital treatment or institutional care under the control or direction of the Department, were established by P.C. 2279 of June 13, 1947. The proceeds of the estates are credited to this fund, in which individual accounts are maintained and from which payments are made to beneficiaries on Departmental authorization.

K Credits consist mainly of initial and excess payments by veterans and civilian purchasers as provided under the Act, which are held pending approval of sales. Other items included are veterans' sales proceeds held pending re-disbursement on their present or second establishment, insurance fire loss proceeds to pay

- for restoration of fire damage, and moneys sent in by veterans and civilian purchasers to be held for payment of taxes and insurance and other related items.
- L Moneys held in this account include: (a) war service gratuities (World War 1) held by the Department for mental, tubercular and other long treatment cases or for men whose whereabouts are unknown; (b) profits of canteens operated in various departmental institutions, which are used for the benefit of patients; (c) donations, legacies, gifts, bequests, etc., received by the Department to be disbursed for the benefit of patients in departmental institutions; (d) personal funds of patients in departmental institutions; and (e) war service gratuities paid under the War Service Grants Act, c. 289, R.S., as amended, and held by the Department for men while under treatment.
- Also included in the account are amounts derived from Re-establishment Credits as authorized by section 12 (h) of the Act, which provides, that such amounts may be used for "payment of premiums under any insurance scheme established by the Government of Canada". Where a veteran exercised this option, the amount required to effect annual payments on the insurance scheme selected is withdrawn from his Re-establishment Credit account and credited to this fund. As payments become due, transfer of the appropriate amount is made to the designated Fund.
- M P.C. 2048 of May 6, 1948, as amended by P.C. 2182 of July 6, 1949, sets up the regulations respecting the medical treatment and maintenance of Veterans' Care cases and the section dealing with these cases reads as follows: "The veteran shall, if required, pay to the Department for administration, while receiving veterans' care, pension and other income and resources to which he may be entitled; and that from any balance remaining after providing for a trust fund and comforts and clothing, the Department may apply towards the cost of maintenance a sum not exceeding \$120 per month, provided that any pension paid to the Department in respect of dependents shall be utilized for the benefit of such dependents and that such other pension and any other income and resources be applied in accordance with a scale set by the Minister and approved by the Treasury Board."
- N This account is maintained in connection with the provisions of the Returned Soldiers' Insurance Act, c. 54, 1920, as amended, which relates to life insurance for veterans of World War 1. The account was credited with the amount received as premiums and an amount of \$522,054 representing an actuarial liability adjustment as at March 31, 1957 and debited with disbursements for death benefits and cash surrender values. The final date on which application for this insurance might be received was August 31, 1933.
- O This account is maintained in connection with the provisions of the Veterans' Insurance Act, c. 279, R.S., as amended, which relates to life insurance for veterans of World War 2. The account was credited with the amount received as premiums and an amount of \$62,052 representing an actuarial liability adjustment as at March 31, 1957 and debited with disbursements for death benefits and cash surrender values.
- P This fund was established under authority of P.C. 116/9745, December 27, 1943, as amended, to provide for fire insurance on purchased properties. There were no fire losses during the fiscal year 1957-58.
- Q The Veterans' Land Act, c. 280, R.S., as amended by c. 66, 1953-54, section 56 provides for the establishment of the Veterans' Land Act Insurance Account. Upon satisfactory completion of each construction contract, the Director is repaid his cost by Central Mortgage and Housing Corporation from the proceeds of a mortgage as well as 1/8 of the insurance fee that has been included in the amount of such mortgage which the Director will credit to this account. If the Director suffers a loss on his sale of the property as a result of the construction not being satisfactorily completed by the veteran contractor the amount of such loss is chargeable to this account.

Postmaster	2,335	220	2,115	Conversion of official funds to his own use. Postmaster was dismissed, prosecuted and given a suspended sentence provided he made restitution. Recovery of funds not anticipated because of his poor financial circumstances.
Postmistress	429	164	265	Misappropriated funds and was dismissed, prosecuted and given a two year suspended sentence. Further recovery not anticipated since she died on August 11, 1957, in very destitute circumstances.
Postmaster	407	270	137	Postmaster misappropriated Post Office funds by withholding C.O.D. remittances. Recovery of funds not anticipated owing to suicide of postmaster.
Postmaster	140	120	20	Conversion of funds to his own use. Postmaster was dismissed, prosecuted and sentenced to a term in the penitentiary. Recovery not anticipated owing to the Postmaster's destitute condition following his prison term.
Postmaster	304	202	102	Financial mismanagement of the office by Postmaster. Court action was abandoned in view of his straitened circumstances and poor health.
Postmistress	1,524	1,016	508	Conversion of official funds to own use. Postmistress was dismissed, but because of her extremely poor financial situation, prosecution was not proceeded with.
Postmistress	381	150	231	Postmistress misappropriated Post Office funds to make payments on a farm. She was dismissed and legal action was deferred pending possible restitution. However her husband had had only intermittent employment and has been unable to make good the loss.
Postmaster	1,872	383	1,489	Conversion of Post Office funds to pay store accounts. The Postmaster was dismissed from office with insufficient evidence to warrant prosecution. Further recoveries not anticipated due to financial situation.

Postmistress	2,821	1,648	1,173	Conversion of official funds to own use. The Postmistress was dismissed from office. Further payments are not anticipated due to financial situation.
Postmistress	1,168	645	521	Conversion of official funds to own use. No further payments are expected due to financial situation.
Postmistress	3,173	985	2,188	Misappropriation of Post Office funds. The Postmistress was dismissed from office, prosecuted, and sentenced to a fine of \$300 or three months imprisonment. She was ordered to pay compensation of \$1,000 to the Post Office Department. Further recoveries are to be credited to the Post Office Guarantee Fund.
Postmaster	1,556	1,221	335	Conversion of Post Office funds to own use. The Postmaster was dismissed from office but Court action was waived on compassionate grounds.
Postmaster	1,041	405	636	Conversion of Post Office funds to own use. The Postmaster was dismissed from office, prosecuted, found guilty and fined \$200 or six months imprisonment. He was also ordered to pay the Post Office Department \$25 per month but was unable to carry out this order because he has had only intermittent employment.
Postmaster	4,116	1,226	2,890	Conversion of Post Office funds to his own use and falsifying accounts. The Postmaster was dismissed from office, remanded for six months to arrange restitution. Further recoveries not anticipated because of financial situation.
Postmistress	336	70	266	Financial mismanagement of office. The Postmistress was dismissed and prosecution was left in abeyance on the understanding that her husband would make regular monthly payments on the indebtedness.
Postmistress	198	91	107	Conversion of Post Office funds. The Postmistress was dismissed due to financial mismanagement of office. Further recoveries are not anticipated due to her poor financial circumstances.

<u>Responsible Employee</u>	<u>Amount of Loss</u>	<u>Amount Recovered</u>	<u>Net Charge to Account</u>	<u>Particulars</u>
Postmaster	1,191	596*	595	Conversion of official funds to own use. The Postmaster was dismissed from office and prosecuted. He was ordered to pay \$70 monthly towards his indebtedness since he was declared bankrupt and agreed to pay 50 per cent of his indebtedness of \$1,191.
Postal Staff	150		150	Investigation could not fix responsibility on any one person since the employees were working in cramped quarters and at a time when a great deal of waste paper was destroyed.

1958**

THIS is the report required by section 70 of the Financial Administration Act to be made to the House of Commons on the results of audit examinations of the accounts of Canada, for the fiscal year ended 31st March 1958.

2. The examinations were made by means of tests as in previous years, with the extent of the tests being determined by the types of activities and the nature of transactions, and by the statutory directions in section 67 of the Financial Administration Act to ascertain whether

- (i) the accounts were faithfully and properly kept,
- (ii) all public money was fully accounted for, with administrative practices effectively regulating assessments, collections and allocations of the revenue,
- (iii) expenditures were for the purposes for which appropriations were made, and
- (iv) records maintained and rules regulating use of public property adequately protected the public interest.

These, together with the reporting directions in section 70 of the Act (listed in paragraph 27 below), necessitate that, in addition to an accountancy audit, examinations be made to determine whether any branch of the Public Service failed to maintain satisfactory accounting procedures or neglected to observe the statutory directions and financial conventions and practices designed to preserve Parliament's control of the public purse.

3. Examinations disclosed that the accounts had, in general, been faithfully and properly kept. It is long-established practice to review departmental accounts continuously throughout the year; therefore, any irregularities observed were, where practicable, brought forthwith to the notice of the Treasury or the department concerned. Whenever appropriate action was taken in the year under review, no audit reference is now made. An unusual feature was that the Public Service was financed during the year, first by means of interim Supply Acts, and then by special warrants issued by the Governor General on the advice of the Governor in Council, with some 1957-58 charges ultimately receiving sanction of law by the Special Appropriation Act, 1958, which received assent on 6th September 1958.

4. Ready access to all pertinent records, files and accounts was enjoyed in the audit, and supplementary explanations were promptly provided. The co-operation extended by Treasury and departmental officers having facilitated the performance of the audit, appreciation is now recorded.

Financial Outcome of the Year 1957-58

5. Revenues of the year amounted to \$5,048,800,000 and expenditures to \$5,087,400,000, the deficit therefore being \$38,600,000. A comparison with previous years is now given, to the nearest \$100,000:

<u>Year</u>	<u>Revenues</u>	<u>Expenditures</u>	<u>Surplus</u>	<u>Deficit</u>
1954-55	\$ 4,123,500,000	\$ 4,275,400,000		\$ 151,900,000
1955-56	4,400,000,000	4,433,100,000		33,100,000
1956-57	5,106,500,000	4,849,000,000	\$ 257,500,000	
1957-58	5,048,800,000	5,087,400,000		38,600,000

6. *Revenues.* Income tax continued to be the major source of revenue, individuals paying approximately \$1,500 million and corporations about \$1,235 million, exclusive of collections for the purposes of the Old Age Security Act (listed in paragraph 26 below). Compared with the previous year, individuals paid \$99 million more income tax in 1957-58, and corporations \$33 million less.

7. The principal revenues, compared with the corresponding amounts in previous years, were:

<u>Source</u>	<u>1954-55</u>	<u>1955-56</u>	<u>1956-57</u>	<u>1957-58</u>
Income tax	\$ 2,265,300,000	\$ 2,279,500,000	\$ 2,745,200,000	\$ 2,798,900,000
Excise taxes	824,200,000	902,200,000	984,200,000	952,600,000
Customs duties	397,200,000	481,200,000	549,100,000	498,100,000
Excise duties	226,500,000	249,400,000	271,400,000	300,100,000
Other taxes	60,200,000	83,400,000	98,000,000	73,100,000
Return on investments..	134,000,000	149,300,000	206,600,000	169,400,000
Post Office (net)	131,300,000	137,400,000	145,800,000	152,900,000
Other non-tax	84,800,000	117,600,000	106,200,000	103,700,000
	<u>\$ 4,123,500,000</u>	<u>\$ 4,400,000,000</u>	<u>\$ 5,106,500,000</u>	<u>\$ 5,048,800,000</u>

8. A relatively large number of taxes are grouped in the excise taxes totals, but sales tax continued to be the most important, producing over \$703 million in the year—about \$14 million less than in the previous year. Departmental opinion is that the repeal of excise taxes on candy, chewing gum and soft drinks early in 1957 affected revenues of the year to the extent of \$17 million, and that the December 1957 reduction in the rate of excise tax on automobiles decreased receipts from that tax by \$7 million. The tax on certain categories of insurance premiums (when paid subsequent to 31st December 1956) was repealed by c. 37, Statutes 1956. In 1956-57, the last year in which this tax was imposed, it produced \$16,700,000.

9. In making a comparison of receipts under the heading "Return on Investments", it is to be borne in mind that: (a) in 1956-57 there was a windfall to Consolidated Revenue Fund when the Bank of Canada surrendered \$42,593,000, being the amount of inner reserves no longer required when it adopted amortized cost as the basis for

valuing its holdings of government securities, and (b) in 1956-57 the Canadian National Railways paid a dividend of more than \$26 million, representing 1956 profits from operations, whereas in the next year the company had a deficit. A summarized classification of Return on Investments' sources, to the nearest \$100,000, is:

Source	1954-55	1955-56	1956-57	1957-58
Bank of Canada	\$ 41,500,000	\$ 38,300,000	\$ 89,900,000	\$ 68,700,000
Exchange Fund Account	10,900,000	10,800,000	17,400,000	22,900,000
Canadian National Railways	4,100,000	11,900,000	30,800,000	12,500,000
Central Mortgage and Housing Corporation	16,200,000	18,500,000	17,500,000	18,200,000
Polymer Corporation Limited ...	3,300,000	5,000,000	6,000,000	4,000,000
Eldorado Mining and Refining Limited		2,500,000		3,500,000
Other Crown corporations	12,300,000	8,800,000	8,900,000	7,600,000

Other investments, deposits, etc..	2,900,000	11,700,000	16,600,000	12,600,000
Miscellaneous	8,000,000	8,300,000	9,200,000	9,300,000
	<u>\$ 134,000,000</u>	<u>\$ 149,300,000</u>	<u>\$ 206,600,000</u>	<u>\$ 169,400,000</u>

10. A detailed listing of the 1957-58 Return on Investments items is given in Appendix 3 to Part I of the Public Accounts, therefore a few comparisons only are now made. The Bank of Canada Act requires the Bank to surrender its surplus annually to the Receiver General and the surplus exceeded by \$21,400,000 that of the previous year (though the total amount received from the Bank was \$21,200,000 less, because of the special transaction referred to in the preceding paragraph). Central Mortgage and Housing Corporation is also required, by section 30 of its Act, c. 46, R.S., to surrender its annual profits. In 1957-58 the amount received in respect of profits was \$1,017,000, the \$17,204,000 balance of the \$18,221,000 included in the above table being interest on loans made to the Corporation out of Consolidated Revenue Fund. Of the \$17,495,000 received in the previous year, \$869,000 was on account of profits and the balance for interest on loans.

11. The increase in Exchange Fund Account earnings was mainly due to the higher average interest return prevailing in New York on short-term securities in the calendar year 1957—apart from \$1,083 million in gold holdings, the resources of the Account as at 31st December 1957 were almost entirely in United States securities. The advances to the Account at that date were approximately \$1,911 million.

12. The \$4,000,000 received from Polymer Corporation Limited comprises dividend payments, as does also the \$3,525,000 received from Eldorado Mining and Refining Limited.

13. Section 84 of the Income Tax Act requires those Crown corporations listed in Schedule D to the Financial Administration Act to pay corporation tax. The payments made or to be made by six of the "proprietary" corporations were estimated to amount to \$10,600,000, including \$970,000 by Central Mortgage and Housing Corporation. The profits of \$1,017,000 surrendered to the Receiver General by this Corporation, as noted in paragraph 10 above, were after providing for this tax.

14. It will be observed that there is a decrease of over \$23 million in interest earnings on loans to national governments in each of the last two fiscal years when compared with 1955-56. Interest deferments on the 1946 loan to the United Kingdom is the main reason. This loan agreement provides that, in certain circumstances, the United Kingdom may defer an interest payment and it has twice done so. An amendment, ratified by c. 37, Statutes 1957, First Session, now limits to seven the number of deferments between 1957 and the year 2000, and fixes a 2% interest charge on amounts deferred. Because of this amendment, \$445,000 of interest was received on deferred interest account during the last fiscal year.

15. The decrease of \$4,000,000 in interest on other investments, deposits, etc., in the year is mainly accounted for by a decrease of \$3,800,000 in Security Investment Account earnings, which amounted to \$5,200,000 in 1956-57 but to only \$1,400,000 in the year under review.

16. *Expenditures.* For the first time since the end of World War II, recorded expenditures exceeded \$5 billion, the amount being \$5,087 million, of which \$1,668 million represented National Defence costs. Although without audit significance, it is noted, by comparison, that expenditures of the Government of Canada ten years ago totalled \$2,195 million, including National Defence costs of \$196 million; while twenty years ago expenditures were \$534 million with \$33 million spent on defence.

17. Compared with 1956-57, expenditures were \$237 million greater, with over 85% of the increase being in outlays by the departments of National Health and Welfare, Public Works, Transport and Veterans Affairs. Reference is now made to the more substantial increases.

18. The major increase in expenditures of the Department of National Health and Welfare was in the charge for the Old Age Security Fund deficit, which was \$104 million, including a \$1.5 million carry-over from the previous year. This was \$95 million more than in 1956-57. Another large increase was the additional \$40 million spent on family allowances in 1957-58. This was due, in part, to the larger number of eligible children, but to a greater extent to the upward revision in rates authorized by Parliament in April 1957 with effect from 1st September. The total of the family allowance payments in 1957-58 was approximately \$438 million compared with \$397 million in the previous year.

19. In the Department of Public Works, the major increase was in expenditures on the Trans-Canada Highway, these being \$62 million as compared with \$36 million in the year before. About \$49 million was paid to the provincial governments, while the Government of Canada spent \$13 million on Trans-Canada Highway work in the national parks. Another material increase was in public building construction in Ottawa; expenditures totalled about \$17 million, or \$9 million more than in 1956-57.

20. In the Department of Transport, a charge without a 1956-57 parallel is the \$22,073,000 payment to the Canadian National Railways to cover its deficit (in the previous year it had a surplus). The corporate accounts record a deficit of \$29,573,000, but the Auditors' report notes:

In recognition of the obsolescence now occurring with steam locomotives, supplementary depreciation amounting to \$7,500,000 has been charged to operating expenses this year to provide in part for the deficiency in the depreciation reserves which will arise from the early retirement of steam locomotives and their replacement by diesel power.

The \$7,500,000 of supplementary depreciation was deducted in determining the amount to be paid to the Railway. In the direct activities of the Department of Transport, the major increase was in costs of the Air Services Division, these amounting to about \$90 million, or \$20 million more than in the previous year.

21. In the Department of Veterans Affairs, war pensions were \$15 million greater and war veterans' allowances \$7 million greater than in the previous year. These costs are now approaching \$200 million annually, \$146 million being expended on war pensions and \$49 million on war veterans' allowances in the year under review.

22. Department of Finance expenditures include \$100 million paid to the Canada Council in accordance with the provisions of the Canada Council Act, c. 3, Statutes 1957, First Session. This was a special item in 1957-58. On the other hand, two \$50 million bookkeeping charges recorded in 1956-57 were not repeated in 1957-58: one to supplement the reserve for possible losses on realization of assets and the other to reduce the actuarial deficit in the Superannuation Account. Although the foregoing items offset one another, the total of departmental expenditure charges was greater, mainly because Public Debt charges increased \$33 million. The most substantial decrease was in tax rental payments to the provinces, the \$13 million reduction being due to the Province of Ontario ceasing to rent its corporation tax field as from 1st January 1957.

23. No department spends currently nearly as much as does the Department of National Defence. The amount was \$1,668 million in 1957-58—a decrease of about \$91 million when compared with outlays of the year before. Leaving aside mutual aid to NATO countries, the most significant variations in expenditures were in Navy accounts, there being decreases of about \$20 million in expenditures for ship construction, \$9 million in those for aircraft and engines and \$6 million in those for signal and wireless equipment. While Army and Air costs were also somewhat less than in the previous year, the \$79 million spent in defence research was over \$9 million more than in 1956-57.

24. The \$1,668 million shown above as spent by the Department of National Defence does not include expenditures amounting to over \$24 million recorded as charges to the National Defence Equipment Account (see paragraph 116), nor expenditures amounting to more than \$3 million charged to funds provided from proceeds of sales of materiel under the authority of section 11 of the National Defence Act.

25. The Post Office is a public service where direct association exists between moneys collected and services performed. In 1957-58 net Post Office income was about \$152,900,000, which was approximately \$7 million more than that in the previous year.

On the other hand, the expenditures of \$153,300,000 were about \$13 million greater. Thus, an operating surplus of \$5,800,000 in 1956-57 has been followed by a \$400,000 deficit. While a variety of costs were greater in the year under review, the most significant increases were in salaries and wages.

26. *Old Age Security Fund.* By law, charges to this special account are not reflected in the statement of expenditure and revenue required by section 64 of the Financial Administration Act. When the Old Age Security Act was enacted in 1951, an aim was to create a self-supporting fund to be fed by proceeds of taxes imposed by the Act. This expectation never being realized, each year resort has been made to the provision in the Act permitting the Minister of Finance to make "temporary loans" to the Old Age Security Fund. The Act requires that he report these to Parliament, at the same time indicating

whether, in his opinion, the revenues of the Fund are or will be sufficient in the ensuing year to meet the charges on the Fund without further loans and, if it appears that the revenues will not be sufficient, he shall state what measures he recommends for the purpose of increasing the revenues of the Fund.

Except in 1953-54 when a write-off was authorized against the reserve for possible losses on realization of assets, the practice has been to convert the "loans" into charges against annual appropriations. The deficit in the past year is the largest of record, due mainly to monthly payments having been increased from \$40 to \$46 on 1st July 1957 and then to \$55 on 1st November. A summary for the past five years is:

	<u>1953-54</u>	<u>1954-55</u>	<u>1955-56</u>	<u>1956-57</u>	<u>1957-58</u>

Observations on Revenue and Expenditure Transactions

27. Section 70 of the Financial Administration Act requires the Auditor General to report annually to the House of Commons the results of his examinations, and directs that attention be drawn to cases observed where

- (a) a public employee wilfully or negligently omitted to collect or receive money belonging to the Government of Canada,
- (b) public money was not duly accounted for and paid into Consolidated Revenue Fund,
- (c) an appropriation was exceeded or was applied to a purpose or in a manner not authorized by Parliament,

- (d) an expenditure was not authorized or was not properly vouched or certified,
- (e) there was a deficiency or loss through the fraud, default or mistake of any person, or
- (f) a special warrant authorized the payment of money.

The section further directs that the Auditor General include in his report any other case he "considers should be brought to the notice of the House of Commons".

28. Twice during the year under review, Parliament was dissolved to permit a general election. In anticipation of the first dissolution, an interim grant of Supply was made by Parliament to cover one-half of all Estimates items then before the House, plus, in the case of some items, further fractions. When the second dissolution took place on 1st February 1958, there remained, generally speaking, one-sixth of the Main Estimates to be provided for and all or a substantial portion of the Supplementary Estimates tabled in October and January. The special warrant referred to below was issued on 7th February to bridge this financial gap. In a normal year the House of Commons decides amounts available for expenditure and regulates the application of votes; the use of the special warrant had the effect of transferring this function temporarily to the Executive. However, *ex post facto* legislative action was taken on 6th September 1958 when the Special Appropriation Act, 1958, took notice of all grants by warrant or otherwise and directed that they "be deemed to have been enacted by Parliament on the 1st day of April 1957".

29. Section 28 of the Financial Administration Act permits the issue of special warrants to authorize charges on Consolidated Revenue Fund when Parliament is not in session and an expenditure is urgently required for the public good. In the course of the fiscal year 1957-58 three special warrants were issued:

<u>Date</u>	<u>Purpose</u>	<u>Amount</u>
16th August 1957	Assistance Fund (War Veterans Allowances)	\$ 300,000
19th August 1957	Assistance to immigrants and refugees	2,428,000
7th February 1958	Public Service administration and operating needs	544,290,332

The amount of the special warrant of 7th February was based on the total of the Estimates before the House of Commons at the time of dissolution, but some items were reduced and others excluded, either because revised estimates indicated that the full listed amounts were not regarded as necessary, or the purpose of the items was outside the ambit of section 28 of the Financial Administration Act.

30. *Colombo Plan Special Account.* Included in the 7th February warrant was \$5,733,000 for the Colombo Plan Fund established by c. 12, Statutes 1952-53. Since the balance at credit of the Account was \$61,417,000 as at 31st January 1958, the \$5,733,000 did not qualify within the expression "urgently required" in section 28 of the Financial Administration Act.

31. *NATO Contribution.* Each member of NATO is annually assessed by the Secretary General its share of the administrative budget of the Organization, and also of the cost of constructing the Organization's permanent Headquarters building. These

assessments are made after the budgets for the calendar year are approved. In March 1958, Canada voluntarily made a \$69,057 advance payment on account of the administrative budget and a \$78,015 advance payment with respect to the Headquarters building. As the budgets still had to be approved by the appropriate NATO body, and as the Secretary General had made no demand on Canada, these payments out of funds made available by special warrant may not be regarded as meeting the test of urgency.

32. *Purchase of a Wharf.* A few years ago a mining corporation decided to construct a townsite at Tilt Cove, Newfoundland, and to undertake copper mining operations in the area. The corporation, considering port facilities for vessels of 10,000 ton register a necessity, sought assistance in developing a harbour. In 1955, the Department of Public Works undertook a survey to establish if others might need harbour services in the area, but before any report was made the corporation contracted directly for the construction of a wharf and facilities.

33. On 12th April 1957, Treasury Board authorized the Department of Public Works: (a) to acquire from the company the land and port facilities, (b) to take over the construction contract which had been entered into "at negotiated unit prices without calling for tenders", (c) to arrange that the mining corporation contribute 50% of the cost and "finance the Department's share of the cost until funds in the amount of \$350,000 are provided by Parliament in Supplementary Estimates for the fiscal year 1957-58", and (d) to arrange that the project be operated as a public wharf with the corporation paying dues at rates fixed by the Department of Transport.

34. The Department of Public Works was still negotiating when a subsequent Executive decision caused the Department to write the corporation on 18th September 1957, to inform it that: "Funds are not being included in the Supplementary Estimates to provide for this expenditure, and consequently the Department is unable to proceed with the acquisition of the wharf". However, Estimates tabled on 28th January 1958 included \$350,000 for the wharf.

35. On 11th March 1958, Treasury Board directed the Department to pay the \$350,000:

in full and final settlement of all its interests and claims in the wharf and wharfing facilities at Tilt Cove, Newfoundland, the site thereof and approaches thereto and the water lot immediately adjoining the said wharf and wharfing facilities and also in respect of a limited interest in a right of way over lands vested in the Corporation...

As noted above, Supplementaries were tabled on 28th January, but no interim supply was granted with respect to them. The expenditure was neither a charge to an interim supply grant nor one that met the test of being "urgently required for the public good" for warrant purposes. Moreover, while the cheque bears an April date, payment was not made to the mining corporation until a date in May 1958.

36. *Unforeseen Expenses.* An unusual application of the 'Unforeseen Expenses' vote was observed in the review of transactions of the National Gallery. The Board of Trustees, as a body corporate, enjoys a power to contract in its own name, with section 8 of the National Gallery Act, c. 186, R.S., providing that:

8. (1) There shall be a special account in the Consolidated Revenue Fund called the National Gallery Purchase Account to which shall be credited any money appropriated by Parliament in any fiscal year for the purpose of acquiring works of art, and any expenditure for the acquisition of works of art in that or any subsequent fiscal year, including any costs in connection therewith, may be paid out of the moneys so appropriated and credited.

37. \$130,000 was included for the Account in the 1957-58 Estimates, with \$108,334 becoming available by interim grants of Supply. The Board, having proceeded on the assumption that the full amount would be credited before 31st March, had agreed to pay \$25,000 to an art dealer before that date, being half the purchase price of a Picasso, and so found itself in financial straits when the Government decided in February 1958 that the balance of the item did not meet the test of being 'urgently required for the public good' for special warrant purposes. Treasury Board on 12th February authorized a \$25,000 transfer from the 'Unforeseen Expenses' vote to cover the payment due in 1957-58, but it is difficult to regard the amount as applied to an unforeseen expense.

38. Founded on audit observations, it is suggested that the text of the vote for Unforeseen Expenses be further considered. It now reads:

To provide, subject to the approval of the Treasury Board, for miscellaneous minor or unforeseen expenses including authority to re-use any sums repaid to this appropriation from other appropriations, and special compensation or other rewards for inventions or practical suggestions for improvements—\$1,500,000.

With such a text, it is obvious that parliamentary control would be strengthened were this vote restricted to unforeseen expenses, and not used, as is now the case, also to pay recurring costs. An illustration is the cost of the Suggestion Award Board. 'Suggestion awards' are still small in total, but they have more than doubled in the past five years: from \$9,300 to \$21,900. Under the present style of the Estimates item, Parliament exercises no control over the amount that may be spent on this activity—which is operated by civil servants to reward other civil servants.

39. *Revenue Collecting Practices.* Two minor instances were observed where departmental practices are inconsistent with legislation. The first concerns Customs Tariff item 438c, which has a text of approximately 700 words, but it will suffice to note that it provides, among other things, that metal stampings may be imported either free of duty or at a reduced rate by automobile manufacturers under certain conditions. The questioned practice arises when the stampings pass through Customs as an integral part of an assembly that is subject to duty. The Department of National Revenue applies a practice called 'split billing', under which the stampings incorporated in the assembly are permitted entry duty free, while duty is levied on the balance of the assembly. Audit attention was not directed to any legislation that allows free entry in these circumstances.

40. The other questioned revenue collecting practice is associated with a provision in the Excise Tax Act, as amended by c. 56, Statutes 1953-54. This amendment stipulates that if goods imported are already wrapped, packaged, put up in boxes or bottles or otherwise prepared for sale, the packaging "shall be deemed to be subject to the same rate of duty as the goods contained therein", for the purpose of establishing duty-paid value for sales tax calculations. However, a departmental instruction states that:

where the goods being imported are subject to sales tax only, not excise tax, and the packaging takes a different rate of duty for Customs purposes than the goods which it contains, the sales tax may be applied on the relative duty paid values as determined by the Customs Division.

It was explained that a reason for this practice is that there is inconsistency in invoicing packaging material, and administrative problems arise as a result. Such may be the case, but the Department is giving an application which is at variance with the text of the statute.

41. *Fire Losses.* Back in the days of Sir John A. Macdonald, it was decided that:

in view of the large amount, varied character and widely separated position of the property in the Dominion belonging to the Crown, it is a wise economy for the Government to underwrite its own risks.

This 1881 decision of policy, still in effect, is quoted to preface a question: What should be the practice with respect to the amount, if any, of insurance a contractor should be obligated to carry to protect the Crown during performance of contracts? Settlements of two fire losses observed in the course of recent audits prompt the query.

42. On Remembrance Day, 1954, employees of a plumbing firm were working in a stores warehouse at Griesbach Barracks, Alberta. A spark, during welding operations, started a blaze and before the fire was out the building was damaged to the extent of \$425,000 and \$3,500,000 of military stores destroyed. The contractor was sued, but there was general agreement that were judgment for the full amount awarded in favour of the Crown, it would be to a great extent a barren financial victory; therefore when \$250,000 was tendered in June 1957 by an insurance company, it was accepted and that closed the matter. The other settlement was in respect of a fire loss at Camp Sarcee in November 1956, caused by workmen breaking a gas main when excavating outside a building. Damage to the building and contents amounted to \$2.250,000. \$250,000 was recovered from an insurance company and \$50,000 from the contractor in the year under review.

43. A review of contract forms used by various departments discloses that a clause common to all requires firm price contractors to keep buildings insured during construction. However, only in certain contracts is it required that contractors insure the Crown against public liability and property damage or other special risks. The question is whether enunciation of a general policy is desirable.

44. *Services Performed for the United Nations.* It will be recalled that the UN Emergency Force, now operating on the borders of Egypt, was hurriedly organized in November 1956, without prior agreement as to reimbursement of costs incurred. By

way of information, it is noted that from the outset to 31st March 1958 the cost to the Government of Canada for military services supplied has totalled \$10,783,000. It has now been agreed in principle that Canada will absorb: (a) pay and allowances, (b) the cost of clothing and personal equipment and (c) transportation costs to the Canadian seaboard. In turn, the United Nations is responsible for: (a) the cost of maintenance and of spare parts required in connection with unit equipment and aircraft, (b) food and billeting costs and (c) transportation costs outside of Canada. Of the \$10,783,000 spent, the United Nations is to reimburse \$4,187,000, of which \$792,000 was received in the fiscal year 1957-58. The Canadian contingent was initially equipped at Canadian expense on the understanding that it would return with its equipment intact and in a serviceable condition, the United Nations to make good deterioration beyond that provided for under normal depreciation schedules.

45. *Indo-China Truce Commissions.* Canada also has military personnel and civilian officials serving with the Indo-China Truce Commissions. Expenditures are on a cost-sharing basis. From 1954 to 31st March 1958, charges to the National Defence vote amounted to \$4,895,000 and to the External Affairs vote \$1,388,000—and of the \$6,283,000 total, \$1,743,000 has been classed as recoverable. An initial payment of \$554,000 was received in March 1958 from the fund known as the “Common Pool”, established by the Geneva Conference members.

46. *Application Given to a ‘Dollar’ Vote.* In 1953 disastrous floods swept over the United Kingdom and Europe. Vote 572 of that year granted a million dollars to the Canadian National European Flood Relief Fund. The Canadian Red Cross Society agreed to administer the grant along with a somewhat larger sum raised by public subscription. When the relief task was completed, the Society reported that an unexpended balance of \$506,000 remained. An opinion of the law officers was to the effect that as this sum had not been used for the purpose for which it had been provided, it should be returned to Consolidated Revenue Fund, unless Parliament otherwise directed. The result was an item in a 1956 Appropriation Act reading:

557. To authorize the expenditure for international relief purposes, or other relief purposes authorized by the Governor in Council, of the unexpended portion of the grant made by the Government of Canada to the Canadian National European Flood Relief Fund by Vote 572 of the Appropriation Act No. 2, 1953—\$1.

When this item was before Committee of Supply on 22nd March 1956, the then Minister of Finance stated:

This is a legalistic item arising out of the fact that of the million dollar vote which Parliament passed in favour of the Canadian Red Cross three years ago, I believe, in connection with relief in the United Kingdom, Holland and Denmark for flood victims, about half was spent. About half a million dollars is outstanding to the Canadian Red Cross at the moment. The question arises as to whether the money was in fact returnable to the Consolidated Revenue Fund, since it had not been used for that particular purpose at that time. The reason for this vote, then, is to ensure in the hands of the Canadian Red Cross that amount of \$506,000, so they may use it for other European relief purposes similar, or somewhat similar, to the original purpose of the vote. (Debates, p. 2508)

47. Consequently, after the vote was enacted the Government indicated to the Department of External Affairs that it was to arrange that it be consulted by the Red Cross Society with respect to all proposed payments and that the Department was to bring special cases to the notice of the Governor in Council.

48. Late in June 1957, 'Hurricane Audrey' roared across the Gulf of Mexico and did great damage in the State of Louisiana. The *Toronto Globe and Mail*, on Monday, 1st July 1957, reported that:

The Canadian Red Cross announced Saturday a cash gift of \$50,000 to the American Red Cross to help cope with the devastation caused by Hurricane Audrey.

The records of the Department indicate that it was consulted after this announcement.

49. Attention is drawn because: (a) in 1956 the then Minister of Finance had informed the House that the purpose of Vote 557 was to permit the funds to be used for "European relief purposes similar, or somewhat similar, to the original purpose of the vote"; and (b) the \$50,000 grant to the American Red Cross Society was announced without prior consultation with the Department.

50. *Payments of Interest without Authority.* The Canada Council Act received assent on 28 March 1957 and came into operation on 15th April. The Council being financially dependent on income from investments, section 15 provides that:

15. The Minister of Finance may, during the first year after the coming into force of this Act, advance to the Council, out of the Consolidated Revenue Fund, amounts not exceeding in the aggregate one hundred thousand dollars, upon such terms and conditions as to interest, terms of repayment and otherwise as are approved by the Governor in Council.

No use was made of this section; instead, on 15th April (a) an expenditure charge was recorded for \$100 million, being an amount equivalent to the sum of the grants to the Council, stipulated by the Act, (b) simultaneously, a credit was entered in a special account in the name of the Council in Department of Finance books, and (c) an order in council authorized payment of interest thereon at the rate of one-quarter of one per cent below the current average treasury bill rate. The consequence was that when the special account was closed fifteen days later, the Council was paid \$100 million as grants and also \$142,603 as interest.

51. The text of section 20 of the Financial Administration Act was relied on for authority to pay the interest. This section permits interest to be paid on "money received by or on behalf of Her Majesty for a special purpose and paid into the Consolidated Revenue Fund". To accept the present transaction as coming within those words strains the intent of the section.

52. Another interest payment arrangement is also noted. A Treasury Board Minute of 1st October 1957 reads:

The Board, in connection with works under contract chargeable to Vote No. 359 "Ottawa—Construction of Public Buildings", and to Vote No. 373 "Prince Edward Island—Construction of Harbour and River Works", authorizes the payment of interest at the rate

of five per cent per annum on the amounts owing to contractors, and unpaid due to limitations of Interim Supply, from the time when such claims become payable until payment can be made when further Interim Supply is provided.

In April 1957 assent was given to a Supply Bill which granted one-half the amount of each of the two items in order to provide funds during the period of the general election and until Parliament could again consider monetary needs of the Crown. Parliament met on 14th October and further grants of supply were made on 24th October when the Minute became inoperative.

53. By relying on the Minute, interest payments totalling \$5,530 were made with respect to twelve contracts in the Ottawa area—the largest cheque was for \$1,383 and the smallest for \$5.74 (no payments were made with respect to any work contract in Prince Edward Island). Section 38 of the Financial Administration Act stipulates that:

38. It is a term of every contract providing for the payment of any money by Her Majesty that payment thereunder is subject to there being an appropriation for the particular service for the fiscal year in which any commitment thereunder would come in course of payment.

Consequently, the contracts making no provision for interest, an implication is that the Crown was under no liability to pay.

54. *Selection of Appropriation to Charge.* The following expenditures are noted because they will probably recur. There is an Indian reserve on Walpole Island in the St. Clair River and the Indian agent and others reported that erosion along the shoreline was taking place. A Public Works Department engineer, after making an investigation, concluded that:

The aggravated condition of the past few years is due: one-third to commercial navigation, one-third to abnormally high levels and one-third to normal erosion which takes place along the bank of any body of water.

In the audit it was observed that: (a) the Department of Transport declined to assume any financial responsibility for erosion caused by shipping, (b) previous remedial work had been done as a charge to a vote administered by Public Works, (c) the Department of Public Works was prepared to recognize the work as a departmental obligation but its vote for the purpose was committed to such a degree that it could not bear the cost. It appears that \$90,000 may have to be spent on protective works over a period of three years and a contract for \$32,799 was awarded in 1957-58. It was negotiated by the Department of Public Works, but the Department of Citizenship and Immigration absorbed the cost as a charge to its appropriation reading:

Indian Agencies—Construction or Acquisition of Buildings, Works, Land and Equipment.

55. The audit concern is the propriety of so charging the cost when a Public Works appropriation reads:

To provide for remedial works where damages are caused by, or endanger, navigation or Federal Government structures and to complete protection works already under way—\$750,000.

It would seem that by this text Parliament fixed departmental responsibilities and financial boundaries. Moreover, it seems reasonable to assume that a parliamentarian checking the Public Accounts to ascertain amounts spent on remedial works would not expect a charge of this nature to be recorded against an appropriation administered by the Department of Citizenship and Immigration.

56. *Special Pension Plans.* The Main Estimates for 1957-58 included a new item reading:

133. Government contributions to Pension Plans for employees engaged locally outside Canada—\$100,000.

The Public Service Superannuation Act specifically bars "an employee engaged locally outside Canada" from becoming a contributor under that Act, yet the text of this vote has been relied on to provide authority to initiate two pension schemes. Accordingly, doubt is entertained as to the regularity of the resulting charges to Consolidated Revenue Fund. Details of the two schemes are now given by way of information.

57. On 7th March 1957, Order in Council P.C. 1957-26/290 authorized the Minister of Finance to contract for a group annuity policy with a Canadian insurance company for the Government's locally engaged employees in the United States. Under this scheme, the employee contributes 5% while the Government is to pay:

- (a) the amount necessary each month to complete purchase of annuity credits for future service, after application of employees' contributions and employer's withdrawal credits;
- (b) the full amount required to purchase past service benefits by contributions made once annually over a period not greater than five years subsequent to April 1, 1957.

In ordinary circumstances the annuities are to take effect at age 65 and "are to be paid for a period certain of 60 months or until the death of the employee, whichever is later". The Order in Council ends with this direction:

Contributions payable by the Government of Canada are to be charged to the appropriation for this purpose included in the Estimates of the Department of Finance.

58. Another Order in Council, P.C. 1957-38/1387 of 19th October 1957, is brief, taking the form of accepting a Treasury Board recommendation

that the High Commissioner for Canada in the United Kingdom be authorized to apply to the Sun Life Assurance Company of Canada for a group policy, to provide a superannuation scheme for locally engaged employees in the United Kingdom and in Ireland in the service of Her Majesty the Queen in right of Canada, in accordance with rules approved by the Treasury Board.

59. As at 31st March 1958, there were 434 employees covered by the plans, with employees' contributions in the year amounting to \$33,000. Contributions by the Government in the fiscal year were \$32,000 for current service and \$34,000 for past service.

60. *Unemployment Assistance Act.* When this legislation was introduced the Minister sponsoring the Bill stated:

I think I can say we will be able to write 'finis' to the deadlock which has existed in this country for a decade or more on the subject of the responsibility of the several governmental jurisdictions for what we call residual assistance, and that henceforth there will be an assurance of organized assistance to persons in need in any part of Canada who cannot qualify for help under any of the existing social welfare measures such as unemployment insurance, supplementary benefits, old age assistance, disability pensions and so on. By this legislation we will eliminate the obstacle presented in the past by the fact that each jurisdiction has argued that responsibility belonged to another level of government. Now no excuse will exist for denying assistance to those in need in any province which has entered into an agreement with the federal government. (Debates, 27th June 1956)

There was general acceptance of the aims of the Bill, but a degree of dissatisfaction existed with respect to the drafting, a leading member of the Opposition, for example, describing it as "a hodge-podge of generalizations" which "leaves everything wide open".

61. The Federal Government's share of expenditures in 1957-58 exceeded \$8 million and agreements with provinces have been in operation sufficiently long to permit appraisal of the workings of the Act. Audit opinion is that the statute includes ambiguities which have resulted in varying interpretations, and that the text merits further consideration.

62. As the purpose of the legislation is to provide needy unemployed persons with aid in addition to that provided by existing social welfare measures, the Act takes notice of the probability that many will be inmates of institutions or, in the language of section 4, in "homes for special care". This expression is defined by the Act to mean:

nursing homes, hostels for indigent transients, homes for the aged, poor houses, alms houses, and hostel facilities provided for the aged within housing projects constructed under the National Housing Act.

When the Bill was in committee, the Minister drew a distinction between institutions receiving provincial assistance and those operated by the province. Using a nursing home to illustrate, he said that the intent of the legislation was that it apply only to inmates of a nursing home:

maintained by a church or by a municipality in conjunction with a church or by a voluntary organization; or an old age pension home, either one operating on its own under the old basis or one under the National Housing Act. In other words we seek to include those institutions that are not normally considered as provincial and for which the patients receive assistance through the provinces.

Whether the definition of "homes for special care" is too broad or too narrow is something outside the audit, but the definition needs clarification if disagreements with provinces are to be avoided.

63. Section 4 lists costs to be excluded from any claim by a province and then enumerates some permissive costs having marginal characteristics. Experience has been that a clear line of demarcation is difficult to draw. For example, among costs that may not be recognized are:

payments made in respect of medical, hospital, nursing, dental and optical care, drugs and dressings, funeral expenses and travelling expenses.

On the other hand, among the costs that may be recognized are:

payments made to or on behalf of persons who are inmates of homes for special care and who would not normally be cared for in general, acute, chronic or convalescent hospitals, tuberculosis sanatoria, mental institutions, institutions for incurables, orphanages or child welfare institutions.

Extracting medical costs that constitute part of the service that a nursing home provides for its inmates can be a source of friction; alternatively, if not done, a problem is presented to federal officers certifying that a claim of a province is within the provisions of the Act. It would be in the common interest were the intent of Parliament more specifically stated.

64. It was observed that income from old age security pensions, old age assistance or war veterans' allowances was not being fully applied as an offset against expenditures, when costs of a provincial home for special care formed the basis of a claim against the Federal Government. This seems inconsistent with section 4 of the Unemployment Assistance Act, the intent of which appears to be that costs become shareable only after the full amount of the public payment to the individual has been taken into calculation.

65. *Unspent Family Allowances.* Section 5 of the Family Allowances Act provides that the allowances are to be applied "exclusively towards the maintenance, care, training, education and advancement of the child". Although this is the *raison d'être* of various child placing agencies, the Department of National Health and Welfare has directed that allowance moneys paid to them as guardians of children "must be used to provide extras not normally the responsibility of the agency acting as a parent", and that amounts received are to be deposited by the agencies in special bank accounts. In the event of the death of the child directly concerned, any balance at credit is required to be transferred to the accounts of other children of the same family in care of the agency or, if there be none, to the other family allowances accounts.

66. The power to enforce this directive may be debatable, but it is its consequences that attracted audit notice. For example, one agency now has over \$140,000 accumulated and has it invested in various securities, some paying as high as 6%, with each child's account credited only with the equivalent of bank interest, the balance apparently being available for application towards administrative costs.

67. *War Pensions.* Section 5 of the Pension Act, c. 207, R.S., grants the Canadian Pension Commission "full and unrestricted power and authority to . . . adjudicate upon all matters and questions relating to the award, increase, decrease, suspension or cancellation of any pension". Nonetheless, notice is now taken of the application given to

section 38 of the Act. In certain circumstances, the section permits pensions to parents of deceased members of the forces if in dependent condition (defined in the Act as "the condition of being without earnings or income sufficient to provide maintenance"). Subsection (5) provides that these pensions be "subject to review from time to time and shall be continued, increased, decreased or discontinued in accordance with the amount deemed necessary by the Commission to provide a maintenance for such parent . . .".

68. Where a pension award is sought by a parent who falls into a dependent condition subsequent to the death of a son, the prime requisite to qualify is, by subsection (3) of section 38, that he or she be "incapacitated by mental or physical infirmity from earning a livelihood". However, in many instances awards are continued although the pensioner later obtains full-time employment and earns in excess of the amount deemed necessary by the Commission to provide maintenance. The Commission relies on subsection (7) which stipulates, *inter alia*, that "the pension to a widowed mother shall not be reduced on account of her earnings from personal employment". To illustrate: the Commission refused in 1945 to make an award to a widowed mother because she was earning \$12 a week and thereby considered "not incapacitated from earning a livelihood". In 1946 when her employment ceased, an award of \$25 monthly was granted and continues to be paid although information of record indicates she is now earning \$180 a month. In another case, a widowed mother was awarded a pension in 1953 which continues to be paid although in 1954 she obtained a Civil Service appointment and now occupies a classified position with a starting salary of \$2,130. In both instances the Commission's decision not to disturb the pension was based on the view that subsections (3) and (5) are subordinate to (7).

69. Although section 38 of the Act implies the application of a means test, there is no direction pertaining to the notice to be taken of personal assets—apart from the income therefrom—that might be used to provide maintenance. To illustrate: a pension may continue in payment to a widowed mother who also receives old age security pension and (a) owns a home free of encumbrance and (b) possesses securities of substantial value.

70. Because of the difficulty in reconciling the various subsections and because present-day social legislation differs so materially from that which existed some forty years ago when section 38 was enacted, attention is now drawn to the matter.

71. *Air Transport Tariff Rates.* This paragraph treats with two cases where contractors are willing to refund to the Government amounts totalling about \$93,000, but a statute stands in the way. In the spring of 1956 the Department of Defence Production chartered helicopters for use in the transport of freight and personnel required on the Mid-Canada Early Warning Line project. The aircraft were chartered for only a short period because it was expected that the R.C.A.F. would take over the work. That not occurring, the helicopters continued in use throughout the summer and fall. This materially reduced costs to the contractors, so in the summer of 1956 the Department negotiated with them to substitute, with retroactive application, rates that would have been paid under the approved tariff if the contracts had originally been entered into for the longer periods.

72. Air rates are, by the Aeronautics Act, subject to the approval of the Air Transport Board, and once a rate is approved the carrier may not reduce charges without the consent of the Board. The proposed new agreement was therefore brought to the notice of the Board by the Department. The Board declined to approve, apparently because, unless an approved tariff provides for retroactive adjustments, the extension of the period of the agreement is not cause for automatic concurrence by the Board. In money, the consequence is that one company has around \$73,000 and another about \$20,000 which they would willingly refund to the Crown were that not a breach of the law.

73. *Cost of a Motor Vessel.* A vote in a 1954-55 Appropriation Act was for \$250,000 to start construction of an auto ferry (with estimated cost shown as \$1,086,000 in the Estimates) to ply between Wood Islands, P.E.I., and Caribou, N.S. A ferry service was already in operation, the Government of Canada annually contributing \$158,000 towards its support.

74. The Appropriation Act received assent on 26th June 1954, but it was not until 31st March 1955 that Treasury Board authorized a contract to be negotiated with a builder recommended by the Canadian Maritime Commission, work to proceed on a "price to be negotiated basis", with the proviso that:

although the eventual cost of the vessel is estimated at \$1,500,000, the expenditure under the contract is to be limited to \$1,000,000 pending completion of price negotiations...

The next pertinent Treasury Board Minute is dated 24th October 1956, and approved a contract at cost plus a fixed fee of \$85,000, with a cost ceiling of \$1,420,000. However, on 1st February 1957, the Board increased the ceiling to \$1,950,000.

75. The amount being still an under-estimate of cost, on 18th July 1957 the Board increased the sum available to \$2,462,930 "because of design changes and modifications introduced by the Department of Transport". Another Treasury Board Minute, dated 7th November 1957, once more increased the contract amount, this time to \$2,935,500, because of: "(a) unrealistic character of earlier estimates; (b) modifications which developed in the requirement; (c) delays in construction due to late steel deliveries (d) limited experience of contractor in production of a vessel of this complexity." Finally, on 24th April 1958, Treasury Board added \$224,557 "required to meet increased costs", bringing the total authorized to \$3,160,057.

76. The Department of Transport accepted the vessel on 25th April 1958. Up to the close of the 1957-58 fiscal year, payments under the contract amounted to \$3,079,000. In addition, there are the payments to the firm of naval architects responsible for the plans and specifications and supervision of construction. This firm received a fee of 11½% plus certain out-of-pocket expenses, etc., and to the end of 1957-58 had been paid \$372,060. Thus a project, originally listed in the 1954-55 Estimates as having an ultimate estimated cost of \$1,086,000, has cost more than three times that amount, and without the records disclosing the need to proceed without negotiating for a firm price contract after tenders had been invited.

77. It is noted above that in 1954-55 the Government was contributing \$158,000 towards the support of the service between Wood Islands and Caribou. Before the *Lord Selkirk* was completed the subvention had been increased to \$163,000. In April 1958, the Department of Transport arranged with the company operating the service that it charter the *Lord Selkirk* on the basis that the company mans, operates, insures, maintains and keeps the vessel in repair. In addition, the company is annually to pay (a) an amount representing 4% of the actual cost of construction—the life of the vessel being estimated at 25 years, and (b) $3\frac{1}{2}\%$ interest on the unrecovered portions, from time to time, of the cost of construction. The subsidy was increased to \$567,000 for 1958-59, subject to reduction if the operation should prove profitable.

78. *Air Force Contracts.* Two contracts negotiated by the Department of Defence Production are now noted because doubt is entertained with respect to the interpretation given later amendments. The first is a cost-plus contract, awarded in May 1956, covering the preparation for storage, removal from storage and preparation for flight or delivery to the R.C.A.F. of aircraft, aero engines and other major equipment in stored reserve at various R.C.A.F. units in Eastern Canada. The contractor's charges also included amounts relating to the maintenance and servicing of R.C.A.F. hangars and shop equipment. The contract was amended in January 1958, to authorize "performance of work related to or associated with execution of above tasks as directed", by the commanding officer of an Air Force repair depot and this has been interpreted as regularizing retroactively the unauthorized expenditures referred to above, which totalled over \$100,000 to January 1958. The doubt is whether the amendment is within the Executive authorization to contract.

79. The other contract was with respect to jet engine repair and overhaul for the R.C.A.F. overseas. An amendment provides that when the requirements of the 'green strip' practice necessitate additional stripping, etc., an extra £225 per engine would be paid. The expression 'green strip' in aviation jargon is ordinarily regarded as meaning that, as an added safety precaution, one engine in every ten passing tests after overhaul should be additionally stripped, rebuilt and retested. The contractor did not interpret the contract in this manner, charging £225 for each of 170 engines rejected on inspection after overhaul and requiring further work to put them in acceptable condition. The billings were paid accordingly, but prior to the year-end recovery action had been commenced.

80. *Non-Productive Payments.* Some cases are now noted where obligations were incurred in a legal manner but the public did not benefit from payments made in the fiscal year 1957-58.

81. A ten-year lease was signed by the Department of Public Works in 1949 for approximately 21,000 square feet of office space in a Toronto building. The annual rental was \$53,400 and the space was occupied by the Department of Citizenship and Immigration until May 1957, when it moved into larger rented quarters. Although part of the premises was sublet in February 1958, the net cost to the Crown for unoccupied space amounted to approximately \$50,000 before a quit-lease was obtained in May 1958.

82. A ten-year lease negotiated in Hamilton in 1948 also involved approximately 21,000 square feet of space—at an annual rental charge of \$42,108. The space was secured to provide accommodation while a new public building was being constructed. The new building was completed in 1955 and, since then, the rented premises have remained unoccupied except for about 5,000 square feet used by an R.C.A.F. recruiting unit—and an additional 3,000 square feet sublet to a university during a six months' period at a rate less than half that paid by the Department.

83. A firm of architects was retained in 1955 to prepare plans and specifications and supervise construction of a Post Office building in Quebec City. The agreed fee was 5% of the cost of the project, then estimated at \$2,500,000. The City originally concurred in the selection of the site, but the municipal planning authorities later took exception to a building being erected there because that would interfere with a replanning of the area. After the Government agreed to seek a new site in March 1956, the architects were instructed to discontinue work on the plans. They submitted an account for \$108,579 but Treasury Board, in January 1958, authorized payment of \$86,677 as full and final settlement.

84. In 1953 a contract was signed for the construction of a small vessel for the Navy. It provided for a fixed price of \$120,548, the Government providing various items of machinery, etc. The contract called for completion in six months, but three years elapsed before delivery was made. A departmental explanation includes:

The principal contributing factor for this delay was occasioned by non-delivery of vital equipment supplied on a "free issue" basis. This equipment included propellers, shafting, electrical equipment and numerous other items of auxiliary machinery and components. Certain items of this equipment failed to perform when it was supplied and had to be renewed. In addition other items required refurbishing due to the length of time it was necessary to hold them in storage. The foregoing, together with changes in specifications, increased costs of materials and labour rates have all contributed to the increased costs in construction.

Having considered this, in July 1957 Treasury Board authorized a compensatory payment of \$23,170 to the contractor over and above the contract price of \$120,548.

85. *Printing of Non-Public Technical Journals.* It is generally accepted that the prior sanction of Parliament is a requisite in any arrangement where a department will make a grant-in-aid payment to an association or society. In the course of the audit now being reported on, an unusual arrangement of long standing attracted attention. The Agricultural Institute of Canada, formerly the Canadian Society of Technical Agriculturists, is being assisted by the Department of Agriculture arranging that its scientific journals be printed by the Queen's Printer, with the charges paid by the Department. In summary form, the facts are:

- (a) In 1933 the Canadian Society of Technical Agriculturists sought financial aid from the Department of Agriculture because the National Research Council and others were discontinuing grants to the Society and membership support was declining.
- (b) In 1934 the Society began printing a review consisting of current news topics, while the cost of printing scientific material in *The Canadian Journal of Agricultural Science* was assumed by the Department of Agriculture (with editing and other costs still borne by the Society).

- (c) In 1957-58 payments for eight editions of agricultural scientific journals (under three different titles) were made, press runs generally being in excess of 2,500 copies. The Queen's Printer's charges totalled \$18,619, recorded as follows:

<u>Vote</u>		<u>Amount</u>
8	Science Service, Botany.....	\$ 210
10	Science Service, Entomology.....	1,606
11	Science Service, Forest Biology.....	4,096
12	Experimental Farms, Administration.....	6,002
15	Branch Experimental Farms, Operation.....	2,081
22	Production Service, Live Stock.....	4,624

- (d) Members engaged in research—approximately one-half of the membership—receive the journals without charge. Moneys received from subscribers by the Society are turned over to the Department and amounted to \$2,581 in 1957-58.

86. *Unusual Transportation Costs.* An expenditure of \$29,140 was incurred to transport, by chartered aircraft, 113 members of a Newfoundland militia unit to Camp Petawawa and return. It was observed that: (a) the men were in camp less than a week and (b) it was estimated that transport could have been provided by the R.C.A.F. for about \$7,000 less, though not as comfortably as in the chartered aircraft.

87. A number of cases were observed where charges for moving furniture and effects of Service personnel were patently unrealistic, although permissive under the regulations. In one case, the cost of moving the furniture and effects of an R.C.A.F. officer from one house to another, a distance of approximately half a mile, within the confines of Rockcliffe Air Station, amounted to \$314. The mover's account reads:

To packing at old residence, unpacking and setting up at new residence—		
8 Barrels	@ \$7.00 each.....	\$56.00
1 Box	@ 5.50	5.50
32 Cartons	@ 1.75 each.....	56.00
18 Cartons	@ 2.75 each.....	49.50
1 Crate	@ 4.00	4.00
5 Wardrobes	@ 5.00 each.....	25.00
		<hr/> 196.00
To removal of household effects from Cottage Row to Rigel Road—		
Van and 4 men—		
10¼ hours	@ \$11.50 per hour.....	117.88
		<hr/> \$ 313.88
		<hr/> <hr/>

In the audit it could not be established why extensive packing was necessary or why Service vehicles were not used.

88. Another like account attracted attention; this time the amount was \$341 and the move from Billings Bridge, Ottawa, to Uplands Air Station, five miles away. At the other extreme was \$3,831 paid for moving an officer's effects from Ottawa to Vancouver. This was done by moving van although a rail movement would have cost about \$1,000 less.

89. *An Over-reimbursement to a Public Employee.* In 1940 an External Affairs officer stationed abroad lost personal property by reason of enemy action. The Department paid \$4,000 in 1942; five years later the British authorities paid \$8,330, and a \$5,290 payment by the Canadian Government in 1949 brought the total to \$17,620. When particulars of the claims were reviewed by the War Claims Commission, the decision was that \$16,315 was fair compensation for loss suffered. The officer had therefore been overpaid \$1,305. This decision has been on record for over a year and the salary rate of the officer is such as to tolerate recovery by deductions from salary. However, that has not been done; instead, the sole administrative effort seems to have been to urge amendments to the regulations to permit more generous interest allowance to claimants.

90. *Irregular Employment beyond Normal Retirement Age.* While there were several irregular payments of salary in various departments of government in like circumstances during the year under review, attention is drawn to the following case because the amount is substantial and involves an employee of the Audit Office. When Public Service Superannuation Act contributors reach the age of 65, the employing department either superannuates or arranges for extensions of service up to age 70, the contributor then automatically ceasing to be a member of the Public Service.

91. The case now noted is of an employee recruited for the Audit Office in 1941, then giving his birth date as 9th October 1895. A birth certificate was requested in January 1958, and when delivered in March it was found that the man was 72, his date of birth being 9th October 1885. He was released forthwith. An opinion was sought from the law officers as to superannuation status, because he was already over 65 when certain pertinent statutory regulations took effect. In due course they advised that the irregularity was limited to salary payments totalling \$11,700 made between October 1955 and March 1958, after the man was 70 years old.

92. Although the Audit Office was deceived, fair value was received for salary paid; therefore the law officers were asked to draft an appropriate text to be included in the 1959-60 Estimates item for the Audit Office, in the hope that Parliament may be disposed to regularize the payments. The Office, of course, has amended its practice with respect to securing birth certificates for record purposes.

93. *A Contract with a Civil Servant.* The following case is noted because it is unusual and of doubtful regularity. A Colombo Plan government sought technical assistance from Canada in establishing greater efficiency in a phase of administration. Opinion was that the expert selected (a civil servant) should spend approximately three months on the job, and the financial arrangement was that in addition to his salary (\$11,000 per annum) and expenses, he would receive an honorarium of \$2,500.

94. An administrative problem was to devise an arrangement that would allow the honorarium to be paid without coming in conflict with section 16(1) of the Civil Service Act:

16. (1) In the absence of special authority of Parliament, no payment additional to the salary authorized by law shall be made to any deputy head, officer, clerk or employee

permanently employed in the Civil Service in respect of any service rendered by him, whether in the discharge of his ordinary duties of office or of any other duties that may be imposed upon him, or that he may undertake or volunteer to discharge or otherwise perform.

After the officer had gone overseas it was arranged with the Civil Service Commission that leave of absence without pay be granted. After he returned, a formal contract agreement was signed in August 1958 and he was paid \$5,989 out of Colombo Plan moneys, whereupon he refunded to the Receiver General the \$3,292 already paid to him as salary in the period from 1st February to 19th May 1958.

95. *Double Salary Payments.* In certain circumstances it is possible that a public servant simultaneously performs the duties of two positions. Reference is now made to two cases which were observed where postmasters had been pensioned with annuities computed on the basis that each had served as a postmaster and had at the same time been a janitor for the Department of Public Works. One case will be used to illustrate what happened.

96. In 1921 a postmaster in an Ontario town was appointed part-time caretaker of the Post Office building. He continued in that status to 31st March 1947, at which time he was receiving \$900 a year for the work. On 1st April 1947 he was appointed full-time caretaker and was receiving \$2,160 annual salary as caretaker when retired in 1957. Throughout, of course, he received salary as postmaster. The position was one of unclassified 'revenue postmaster' until April 1948 when it was classified by the Civil Service Commission. When retired, the man was receiving \$4,620 as postmaster, along with the \$2,160 as caretaker, his combined annual remuneration from the Government of Canada totalling \$6,780. For each position, contributions had been made to superannuation so two separate pension awards were made: \$2,429 annually for the postmaster position and \$757 for the caretaking work. Later, these were combined and a consequence was that the part-time caretaker service prior to 1948 was treated as full-time for computation purposes. The effect was to increase the annual pension by \$403. That is, it became \$3,589 instead of two pensions totalling \$3,186.

97. *General Elections' Expenditures.* The 1957-58 accounts include expenditures with respect to the general election held on 10th June 1957 and also that of 31st March 1958. Expenditure charges with respect to the June election approximated \$6,800,000 while over \$6,200,000 was expended in connection with the March election. By the time the audit was completed a further \$2,500,000 had been disbursed as a charge to the fiscal year 1958-59. Administrative opinion is that the \$8,700,000 approximates 80% of accounts to be paid in connection with the 31st March election.

98. The increase in the cost of the second election was, in the main, due to upward revisions in the tariff of fees authorized by the Governor in Council. The minimum allowance payable to a returning officer for personal services during an election was increased from \$500 to \$1,500. A deputy returning officer's allowance was increased from \$15 to \$18, and that of poll clerk from \$10 to \$12. The printing allowance per name on the preliminary lists of electors was increased from 15 to 17 cents in urban

divisions and from 14 to 16 cents in rural divisions. Allowances payable to urban enumerators were increased from 10 cents a name, with a minimum of \$25, to \$25 plus 10 cents a name; comparable increases were given to rural enumerators.

99. A matter that attracted notice in the review of transactions related to the June 1957 election was that in a few electoral districts ballots printed far exceeded the number of electors. The outstanding case was a constituency with 14,700 electors where 23,500 ballots were printed. While this was not repeated in that constituency during the March election, it was observed that some returning officers had ordered substantial numbers of ballots to be printed in excess of names on voters' lists.

100. Section 100 of the Canada Elections Act stipulates that no person be appointed returning officer, election clerk, deputy returning officer, poll clerk, enumerator or revising officer unless he is an elector in the electoral district within which he is to act. In 82 polling divisions of St. Paul's (Toronto) enumerators appointed for the March election were not electors in that district. A second enumeration cost \$12,053: payments to enumerators \$8,438, and re-printing the preliminary list of electors \$3,615. The Chief Electoral Officer directed an inquiry and in the resulting report it is recommended that:

If the residential requirement of enumerators is of substantial importance the oath of office of enumerators should be amended to require the enumerator to swear that he is qualified to vote in that electoral district.

101. The authority for the appointment of a constable at a polling station is section 48 of the Act, which provides that:

Any deputy returning officer may appoint a constable to maintain order in his polling station throughout polling day; this authority, however, shall not be exercised unless the services of such constable are deemed absolutely necessary; a constable may be appointed only when there is actual or threatened disorder, or when it is likely that a large number of electors will seek to vote at the same time; . . .

On election day in 1957 constables cost \$40,000, while on 31st March 1958 the cost rose to \$53,000, due mainly to the constable allowance having been increased from \$5 to \$6. In some electoral districts the authority to appoint constables was used extensively. For example, in one New Brunswick electoral district constables were appointed at 183 of the 206 polling stations, and in an Ontario electoral district constables were appointed at 211 of 247 polling stations. One instance was noted where a constable was listed as an invalid on the list of electors. It was also observed that a number of the constables were women.

102. *Purchase of Real Estate.* In January 1958 the Department of National Defence secured Treasury Board consent to purchase a piece of real estate in New Brunswick for \$28,500. On 30th April 1958, a cheque was drawn payable jointly to the vendor and the legal agent of the Government. The amount is recorded as a 1957-58 expenditure charge although the cheque was not delivered to the payee nor transfer of title effected until 14th May. Section 35 of the Financial Administration Act permits payments to be made during the month of April as a charge to the fiscal year last ended only for

"goods received or services rendered prior to the end of the fiscal year". Moreover, the charging of 1957-58 accounts with a payment not actually made until 14th May is inconsistent with a direction of the Treasury Board that

payment may be made out of funds available for the fiscal year in which the Board approval was given provided that evidence of a clear title and other subsidiary matters required by the regulations are delivered in time to allow payment to be made within the thirty days immediately following the end of the fiscal year...

103. *Unpaid Accounts.* A few cases were observed where departments failed to live entirely within the amounts available for administrative and operating expenses, when unpaid accounts were taken into consideration. The major instance was in connection with services for the welfare and education of Indians, administered by the Department of Citizenship and Immigration. Examinations made in April and May indicated that approximately \$390,000 of accounts which were due and payable were carried forward into 1958-59 in the Welfare item, and \$560,000 in the Education item. When the accounts were closed for 1957-58 it transpired that there were lapsings in these items of \$20,000 and \$140,000, respectively.

104. *Prairie Farm Emergency Fund Deficit.* The special account in connection with the Prairie Farm Assistance Act, c. 213, R.S., is (a) credited with collections of the statutory 1% levy on grain purchased by licensed buyers, (b) charged with awards made to farmers under the Act, and (c) credited with advances made by the Minister of Finance whenever the balance in the Account is insufficient to pay awards.

105. The Act dates from 1939 and annually there were deficits until 1951-52 when collections exceeded awards. In two other years since, there also were surpluses. Throughout the entire period, practice has been annually to charge a deficit to Expenditure, without securing parliamentary authority so to do.

106. On the other hand, when a year's activities produced a surplus, practice is to leave it at credit of the Account (as part of the liability item "Deposit and Trust Accounts", in the Statement of Assets and Liabilities) with the amount used to cover deficits in subsequent years. Thus, as at 31st March 1957, a balance of \$3,249,245 stood at the credit of the Account, representing the surplus resulting from 1956-57 operations.

107. In the year under review, awards exceeded levy collections by \$9,152,118. After applying the surplus balance of \$3,249,245 noted above, a debit balance of \$5,902,873 remained in the Account. An order in council of 22nd May 1958 has authorized the Minister of Finance to "make an advance out of the Consolidated Revenue Fund" to cover this deficit; nevertheless, in accordance with established practice, the amount has been written off as a charge to Expenditure in the year, without a vote authorizing that to be done.

STATEMENT OF ASSETS AND LIABILITIES

108. There are a few changes in the form of the 1957-58 Statement. One is to include under a new heading, "Securities held in trust", securities previously treated as deductions from the related liabilities' items (with the exception of the Unemployment Insurance Fund investment in bonds). In addition, contractors' security deposits made in the form of bonds or undeposited certified cheques are now included under the new heading. Related liabilities' items are, of course, now included at the full rather than net amounts.

109. Interest deferred under the United Kingdom Financial Agreement Act, 1946, as amended in 1957, has been capitalized, with the offsetting credit included in the liabilities' item, "Suspense accounts" (see paragraph 124). A similar change has been made with respect to the St. Lawrence Seaway Authority loan (included in the item "Loans to, and investments in, Crown corporations") by capitalizing interest accrued, the offsetting credit again being included in the liabilities' item, "Suspense accounts".

Assets

110. In summary form, the assets as at 31st March 1958, in comparison with the two previous year-ends, were:

	31st March 1956	31st March 1957	31st March 1958
Current assets	\$ 1,591,042,000	\$ 947,057,000	\$ 696,832,000
Exchange Fund Account	1,950,000,000	2,021,000,000	1,975,000,000
Sinking Fund investments, etc.	210,847,000	210,805,000	211,741,000
Loans to, and investments in, Crown corporations	1,998,455,000	2,250,506,000	2,554,267,000
Loans to national governments	1,549,804,000	1,478,559,000	1,487,985,000
Other loans and investments	656,241,000	655,189,000	662,790,000
Securities held in trust	9,382,000	9,607,000	22,646,000
Unamortized loan flotation costs	56,874,000	63,920,000	77,535,000
Unamortized actuarial deficiency in Superannuation Account	189,000,000	139,000,000	139,000,000
Suspense accounts	50,015,000	9,432,000	2,000
Inactive loans, etc.	87,970,000	89,456,000	90,854,000
	<u>8,349,630,000</u>	<u>7,874,531,000</u>	<u>7,918,652,000</u>
Reserve for losses on realization of assets..	496,384,000	546,384,000	546,384,000
	<u>\$ 7,853,246,000</u>	<u>\$ 7,328,147,000</u>	<u>\$ 7,372,268,000</u>

111. *Superannuation Account Deficiency.* The audit certificate is again to be regarded as qualified with respect to the \$139 million item representing the unamortized portion of the actuarial deficiency in the Superannuation Account. Following an actuarial valuation made in 1949, a \$214 million credit was entered in the Superannuation Account on the liabilities' side, with an offsetting charge on the assets' side. Special parliamentary appropriations have since reduced the amount to \$139 million.

112. Audit opinion continues to be that the Superannuation Account balance on the liabilities' side should reflect only credits authorized by law, and that no item should appear on the assets' side with respect to an actuarial deficiency.

113. *Inactive Loans and Investments.* These approximated \$91 million at the year-end. The total increased \$1,400,000 during the year because the Minister of Finance paid that amount on account of a guarantee given in 1946 with respect to bank loans for the construction of ships in Canadian yards on the order of the Ming Sung Industrial Company of Canada Limited. A total of \$10,500,000 has now been paid by reason of the guarantee, which became operative when the Government of China failed to honour its undertaking to the banks.

Liabilities

114. The Statement of Assets and Liabilities records a total of \$18,418,542,000 in liabilities as at 31st March 1958, a summary classification in comparison with the two previous year-ends being:

	31st March 1956	31st March 1957	31st March 1958
Current and demand liabilities	\$ 969,465,000	\$ 1,002,909,000	\$ 874,874,000
Deposit and trust accounts	180,643,000	175,318,000	187,018,000
Annuity, insurance and pension accounts...	2,187,255,000	2,429,021,000	2,712,813,000
Undisbursed balances of appropriations to special accounts	343,673,000	312,556,000	285,367,000
Suspense accounts	45,009,000	47,578,000	113,363,000
Unmatured debt	15,407,570,000	14,368,416,000	14,245,107,000
	<u>\$ 19,133,615,000</u>	<u>\$ 18,335,798,000</u>	<u>\$ 18,418,542,000</u>

115. *Unemployment Insurance Fund.* The balance at the credit of this Fund is included in the amount shown for Annuity, Insurance and Pension Accounts only to the extent of \$15,050,000 because the practice is to deduct, in the supporting schedule, that part of the Fund which is invested under the authority of section 85 of the Unemployment Insurance Act, c. 50, 1955. Actually, the Fund had resources of \$755 million at the end of the fiscal year—a decrease of \$131 million when compared with the previous year-end.

116. *Undisbursed Balances of Appropriations to Special Accounts.* Attention is again drawn to the listing of the following as liability items:

	31st March 1956	31st March 1957	31st March 1958
National Defence Equipment Account	\$ 281,934,000	\$ 236,075,000	\$ 211,739,000
Colombo Plan Fund	52,489,000	65,923,000	60,368,000
Railway Grade Crossing Fund	7,142,000	9,526,000	12,648,000
National Capital Fund	1,960,000	960,000	543,000
National Library Purchase Account	53,000	72,000	65,000
National Gallery Purchase Account	95,000		4,000
	<u>\$ 343,673,000</u>	<u>\$ 312,556,000</u>	<u>\$ 285,367,000</u>

Generally regarded, these items are unspent balances of parliamentary appropriations that are distinguishable from annual votes only to the extent that power to spend is without time limit. The largest is the National Defence Equipment Account. In the course of the Budget Speech on 17th June 1958, the Minister of Finance announced:

...we propose to eliminate the balance remaining in the National Defence Equipment Account. This Account was set up in 1950 when NATO was being organized, and to it was credited the value of all equipment given by Canada to our NATO allies. At its peak there was about \$310 million in this Account. The former Government drew on this Account from time to time by charging to it, and not to budgetary expenditures, the cost of replacing such equipment. On the basis of past practice there would be about \$165 million in this Account at the end of this year. We believe that in the interests of good accounting practice and the maintenance of proper parliamentary control of expenditures this Account should be liquidated during the current year.

117. The audit certificate appearing on the Statement of Assets and Liabilities is accordingly to be regarded as qualified.

118. *Veterans Insurance Account.* Although not explicitly required by the Veterans Insurance Act, c. 279, R.S., a special account has been maintained in the Consolidated Revenue Fund since 1945, to which premiums received have been credited and payments made under the Act have been charged. The practical value of the Account rests in the fact that it provides a ready means to establish the financial position of this insurance scheme. As of 31st March 1958, the balance at credit of the Account was \$17,842,000.

119. The matter now referred to concerns the propriety of leaving an \$800 payment as a charge in the Account. The facts are: A veteran took out a policy, with his wife named beneficiary. Subsequently he obtained a Reno divorce, remarried and named the new wife beneficiary. Following the death of the insured in 1955, the Department paid her \$1,656. The first wife successfully contested this and payments were also made to her. Action was then started to recover the first payments on the ground that they had been made in "mistake of fact". A defence was that payment having been made in "mistake of law", the amount was unrecoverable. Before trial, a compromise settlement resulted in \$856 being paid to the Receiver General. No undertaking was given to repay \$800, representing premiums paid after the second marriage. An order in council of 24th September 1957 directed that no action be taken to recover the \$800.

120. The \$800 write-off of a balance due to the Crown may not be regarded as a proper charge to the Veterans Insurance Account. The charge should have been to an appropriation.

121. *Permanent Services Pension Account.* The Defence Services Pension Act does not specify the amount of the contribution to be made by the Crown. That is done by a vote in annual Appropriation Acts. For several years, the contribution has been one and two-thirds the amount paid by contributors. In a sense, the contribution is a 'book-keeping' expenditure since actual outlays are less than receipts, but actuarial estimates are that the Account is now in deficit position to the extent of \$326 million. Therefore,

it is reasonable to assume that in due course Government contributions will involve large payments unless (a) contribution rates are increased or (b) drastic revisions are made in the legislation.

122. The current state of this Pension Account is the reason why attention is drawn to a recent award, although one may wonder whether Parliament contemplates that section 49 of the Act may be used to grant a life pension of \$964 annually to a 30-year-old man in good health. The section permits, among other things, grant of pension to a contributor, regardless of age, if he has the necessary service, is not otherwise barred, and Treasury Board accepts a certificate that his retirement "will promote economy or efficiency". In the case now noted, an airman, with almost five years service, was given a five year commission in 1951, which was later extended for one year. Upon the commission terminating on 17th May 1957, the young man ceased to be an officer of the Force. In turn, Treasury Board accepting the Department's certificate that his retirement "will promote economy or efficiency", a \$964 life pension took effect from that date.

123. The Act does not define the phrase "retired compulsorily" so another illustration of administrative application is given. The senior officer involved had long service but less than 35 years so was subject to section 3(2):

(2) An officer who retires voluntarily after twenty-five years' service is entitled to a pension for life, twenty per cent less than he would be entitled to if he were retired compulsorily.

In December 1957 he was appointed Lieutenant Governor of a province, "effective on the 15th day of January 1958". Before that date, Treasury Board concurred in a departmental recommendation that he be granted retiring leave with pay from the 15th January to the 2nd October when he would be compulsorily retired on full pension of \$10,900. In passing, because of a 1948 Court decision, a lieutenant governor may be paid both salary and pension without abatement; however, the audit concern is whether it is appropriate to regard appointment to a civil position as cause to invoke "retired compulsorily" provisions in the Defence Services Pension Act.

124. *Suspense Accounts.* This item has increased from about \$47,600,000 to \$113,363,000 and includes the following items which, since they will generate revenue amounts in future years, might more appropriately have been classified under a Deferred Credits heading:

Deferred interest under United Kingdom Financial Agreement Act, 1946	\$44,174,000
Credits arising out of agreements of sale of Crown assets.....	18,955,000
Accrued interest on loans to the St. Lawrence Seaway Authority..	4,743,000
Government equity in agency account of Crown Assets Disposal Corporation	5,763,000

In the accounts for the current fiscal year, these items are being treated as deferred credits by the Department of Finance.

125. A balance in the Suspense Accounts' item which merits consideration is the \$58,500 associated with a railway bridge in Prince Edward Island. In 1900 Parliament ratified an agreement between Canada and Prince Edward Island for the construction of the Hillsborough River Bridge, which would be used by the Canadian Government Railways and also serve as a highway bridge. The Province undertook to pay \$9,750 annually towards the interest on the cost of construction and maintenance of the bridge. When the bridge was subsequently transferred to the C.N.R., the amounts recovered from the Province were paid over to the railway company. However, in 1951 the Board of Transport Commissioners forbade railway traffic over the bridge and granted permission to the C.N.R. to abandon the Hillsborough section of the Murray Harbour branch, and the payments to the railway company were discontinued. The \$58,500 represents amounts recovered from the Province from 1st January 1952 to 31st December 1957.

126. *Public Savings Plans.* The first issue of Canada Savings Bonds was offered to the public in 1946 and, regardless of cash needs of the Government, there has been an issue every year since, because a purpose is to combat inflation and at the same time make available to small investors a Government bond which may be purchased by means of payroll deductions or other instalment payments, and which is redeemable at par on demand. The 1946 campaign produced subscriptions of \$535 million while the cost of the campaign was \$4.5 million. Within five years, about \$292 million of the bonds had been presented for redemption and at the end of ten years only about \$57 million remained outstanding. The most recent issue with a time-record is that made in the fall of 1956: subscriptions totalled \$834 million, with the cost of the campaign amounting to \$8.6 million. Redemptions have been at such a rate that almost 56% of the issue was redeemed within 18 months.

127. Since 1946, sales of Canada Savings Bonds have approximated about \$7 billion but only bonds to a value of around \$2,550 million were outstanding as at 31st March last, with about 50% representing proceeds of the 1957 campaign.

128. Over the period, flotation costs have amounted to \$67 million. Of course, in addition to these costs, and interest payments during the periods bonds remain outstanding, there are the costs incurred by the Bank of Canada in handling redemptions.

129. Up to the 1920s the Department of Finance was required by the Savings Banks Act to operate a savings office in each province of Canada. The Post Office relied on the same Act to operate the Post Office Savings Bank. The Savings Banks Act was repealed in 1951 but section 5 of the Post Office Act provides that the Postmaster General may, among other things, establish and operate a post office savings bank, while sections 47 to 52 treat with phases of operations.

130. As at 31st March 1958, Post Office Savings Bank deposits, included in "Deposit and Trust Accounts", approximated \$35 million—a decrease of over \$4 million in the past five years and about a million in the past year. The current interest rate is $2\frac{1}{2}\%$, but a departmental estimate is that cost is about 3.4% when administrative costs are added.

131. These savings schemes represent policy decisions, therefore the foregoing statistics are inserted simply to describe the current situation.

Net Debt

132. As of 31st March 1958, the Net Debt, being the excess of liabilities over recorded assets, was \$11,046,274,000, representing an increase of \$38,623,000 during the year under review.

CROWN CORPORATIONS

133. Crown corporations are classified in schedules to the Financial Administration Act as departmental, agency or proprietary. Departmental corporations are financed in the same manner as branches of departments, with expenditures and revenues detailed in the appropriate sections of the Public Accounts. The accounts of the following 21 corporations were examined and reported on by the Auditor General:

134. Section 87 of the Financial Administration Act requires the auditor of a Crown corporation to report whether in his opinion:

- (a) proper books of account have been kept by the corporation;
- (b) the financial statements of the corporation

- (i) were prepared on a basis consistent with that of the preceding year and are in agreement with the books of account,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the corporation's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of income and expense, give a true and fair view of the income and expense of the corporation for the financial year; and
- (c) the transactions of the corporation that have come under his notice have been within the powers of the corporation under this Act and any other Act applicable to the corporation.

135. All information required for audit purposes was readily provided and the performance of the audits was facilitated by the co-operation and assistance of accounting and other officers of the corporations. What follows relates to points noted in the audits.

136. *Canadian Patents and Development Limited.* This corporation is a subsidiary body of the National Research Council and exists to administer patents and inventions having commercial attributes. \$6,978 earned during the year from royalties, licensing fees, etc., in respect of inventions by public servants who are not members of the staff of the National Research Council, is reported as income of the Crown corporation. As the Public Servants Inventions Act seems applicable to such inventions, the amount referred to is public money and therefore payable to the Receiver General.

137. *Crown Assets Disposal Corporation.* The Surplus Crown Assets Act, c. 260, R.S., provides that the Corporation may retain such percentage of the net proceeds of sales as the Governor in Council may fix to meet administrative costs and other expenses. Over the years, 10% has been the authorized percentage. Administrative costs and other expenses actually incurred by the Corporation have consistently been less; for example, in the last three fiscal years, the relation of expenses to net proceeds of sales was: 6.18%, 5.38% and 6.23%, respectively. A consequence has been that the Corporation had a surplus balance of \$575,518 as at 31st March 1958, after making voluntary surrenders to the Receiver General of \$5,037,000 in 1951, \$1,727,000 in 1952, \$1,000,000 in 1956 and \$500,000 in 1957.

138. In the year ended 31st March 1958, the Corporation made no outright surrender to the Receiver General, but it did make a special deposit of \$475,000 on general account (along with one of \$500,000 on agency account). Thus the Receiver General has the use of the money, while the Corporation is being paid interest and at the same time protecting itself against a deficit position in the future. The practice of invariably allowing a 10% commission, while at the same time permitting the Corporation to accumulate surplus balances, appears inconsistent with the aim of the legislation.

139. *National Battlefields Commission.* In reporting on the transactions of the Commission, it was noted that doubt was entertained as to the statutory power of the Commission to spend for a particular purpose. Subsequently, by Vote 582, Parliament appropriately ratified the action of the Commission.

Sir,

The accounts and financial statements of Canadian Arsenals Limited have been examined for the year ended March 31, 1958. In compliance with the requirements of section 87 of the Financial Administration Act, I report that, in my opinion:

- (a) proper books of account have been kept by the Company;
- (b) the financial statements of the Company
 - (i) are in agreement with the books of account and were prepared on a basis consistent with that of the preceding year, save that no provision for price adjustments and unforeseen increases in costs under uncompleted contracts was made in the year under review, and the \$2,350,196 balance of the amounts previously provided was treated as a special credit to income, it being Management's present intention to meet any such adjustments out of income of the forthcoming year. In view of the Company's reduced activities and of the lesser immediate likelihood of adjustments having to be made, no audit objection is taken to this change in accounting policy,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the Company's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of income and expense, give a true and fair view of the income and expense of the Company for the financial year; and
- (c) the transactions of the Company that have come under my notice have been within the powers of the Company under the Financial Administration Act and any other Act applicable to the Company.

CANADIAN PATENTS AND DEVELOPMENT LIMITED—*Concluded*

OTTAWA, May 9, 1958.

THE HONOURABLE GORDON CHURCHILL,
MINISTER OF TRADE AND COMMERCE,
OTTAWA.

Sir,

The accounts and financial statements of Canadian Patents and Development Limited have been examined for the year ended March 31, 1958.

Revenue of \$6,978 earned during the year from royalties, licensing fees, etc., in respect of inventions by public servants other than employees of the National Research Council, is treated as income of the Company, as in the previous year, instead of being paid to the Receiver General of Canada as public money, under the provisions of the Financial Administration Act.

In compliance with the requirements of section 87 of the Financial Administration Act, I report that, in my opinion, subject to the foregoing observation:

- (a) proper books of account have been kept by the Company;
- (b) the financial statements of the Company, having regard for the footnote to the balance sheet
 - (i) are in agreement with the books of account and were prepared on a basis consistent with that of the preceding year,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the Company's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of income and expense, give a true and fair view of the income and expense of the Company for the financial year; and
- (c) the transactions of the Company that have come under my notice have been within the powers of the Company under the Financial Administration Act and any other Act applicable to the Company.

Yours faithfully,

IAN STEVENSON,
for Auditor General.

FEDERAL DISTRICT COMMISSION—*Concluded*

OTTAWA, September 1, 1958.

THE RIGHT HONOURABLE J. G. DIEFENBAKER,
PRIME MINISTER OF CANADA,
OTTAWA.

Sir,

The accounts and financial statements of the Federal District Commission have been examined for the year ended March 31, 1958. In compliance with the requirements of section 87 of the Financial Administration Act, I report that, in my opinion:

- (a) proper books of accounts have been kept by the Commission;
- (b) the financial statements of the Commission

THE NATIONAL BATTLEFIELDS COMMISSION—*Concluded*

OTTAWA, May 5, 1958.

THE HONOURABLE ALVIN HAMILTON,
MINISTER OF NORTHERN AFFAIRS AND
NATIONAL RESOURCES,
OTTAWA.

Sir,

The accounts and financial statements of The National Battlefields Commission have been examined for the year ended March 31, 1958.

An advance of \$2,044 was made during the year from the Special Land Purchase Account, towards the \$2,725 cost of a memorial to be erected in recognition of the public service of the first Chairman of the Commission. The Commission has statutory power to erect such monuments, statues and other works "as seem fitting and appropriate" but it would seem probable that the legislative aim is to provide for the commemorating of deeds of those associated with the Battle of the Plains of Abraham rather than of the appointed commissioners. Therefore, great as was the contribution of Sir George Garneau in the development of the National Battlefields, audit doubt is entertained as to the regularity of the financial transaction now noted.

In compliance with the requirements of section 87 of the Financial Administration Act, I now report that, otherwise, in my opinion:

- (a) proper books of account have been kept by the Commission;
- (b) the financial statements of the Commission
 - (i) were prepared on a basis consistent with that of the preceding year and are in agreement with the books of account,
 - (ii) in the case of the balance sheet, give a true and fair view of the state of the Commission's affairs as at the end of the financial year, and
 - (iii) in the case of the statement of income and expense give a true and fair view of the income and expense of the Commission for the financial year; and
- (c) the transactions of the Commission that have come under my notice have been within the powers of the Commission under the Financial Administration Act and any other Act applicable to the Commission.

Yours faithfully,

WATSON SELLAR,
Auditor General.

AUDITORS' REPORT

TO THE HONOURABLE THE MINISTER OF TRANSPORT,
OTTAWA, CANADA.

We have examined the books and accounts of the Canadian National Railway System for the year ended December 31, 1957. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the above consolidated balance sheet and the related consolidated income statement are prepared on a basis consistent with that of the preceding year except for the additional provision for depreciation referred to in Note 1 which we approve, and subject to the position with regard to depreciation accruing prior to the adoption of depreciation accounting referred to in Note 1, are properly drawn up so as to give a true and fair view of the state

of the System's affairs at December 31, 1957 and of the results of operations for the year then ended, according to the best of our information and the explanations given to us and as shown by the books of the System.

We further report that in our opinion proper books of account have been kept by the System and the transactions of the System that have come under our notice have been within the powers of the System.

We are also submitting a supplementary explanatory report.

GEORGE A. TOUCHE & CO.
Chartered Accountants.

February 25, 1958.

CANADIAN NATIONAL RAILWAYS—*Continued*

Notes to Consolidated Financial Statements at December 31, 1957

Note 1. Property Investment:

Additions since January 1, 1923 have been recorded at cost and properties and equipment brought into the System at January 1, 1923 are included at the values appearing in the Books of the several railways now comprising the System to the extent that they have not been retired or replaced.

Depreciation on Canadian Lines: Depreciation accounting as adopted for equipment in 1940, for hotel properties in 1954 and for track and road structures and all other physical properties except land in 1956 has been continued in 1957. The depreciation rates used are based on the estimated service life of the properties but do not provide for depreciation which was not recorded in prior years under the replacement and retirement accounting principles then in force, nor for extraordinary obsolescence resulting from the introduction of more efficient equipment. In recognition of the obsolescence now occurring with steam locomotives, supplementary depreciation amounting to \$7,500,000 has been charged to operating expenses this year to provide in part for the deficiency in the depreciation reserves which will arise from the early retirement of steam locomotives and their replacement by diesel power.

Depreciation on U.S. Lines: Replacement accounting for track and depreciation accounting for equipment and other physical property except land has been continued in accordance with the regulations of the Interstate Commerce Commission.

Note 2. Buffalo and Lake Huron Railway Company:

The railway line of this company has been operated as a part of the System for many years under a lease arrangement. Pursuant to an offer made in November 1956 to the shareholders of the company, all the shares of the capital stock have been purchased. The assets and liabilities of this company, including \$3,148,856 for property investment and \$2,023,765 of long term debt, have been consolidated with the System accounts.

Note 3. Material and Supplies:

The inventory has been priced at laid down cost based on weighted average cost for ties, rails and fuel and latest invoice price for new materials in general stores, and at estimated utility or sales values for usable second hand, obsolete and scrap materials.

Note 4. Capital Stocks:

The capital stock of the Canadian National Railway Company (other than the four per cent preferred stock) and the capital investment of Her Majesty in the Canadian Government Railways are included in the net debt of Canada and disclosed in the historical record of government assistance to railways as shown in the Public Accounts of Canada.

Note 5. Pensions:

At December 31, 1957 an amount of \$177,967,669 had been accumulated in the Pension Trust Fund in respect of pension liabilities. This amount represents provision for pensions in force under the 1935 plan, but not for pensions granted under prior plans or for increased benefits granted to employees who were contributors under the 1935 plan and who retired on pension prior to January 1, 1952. Consistent with its established practice the railway has made no transfer or allocation of funds for pensions conditionally accruing in respect of employees now in service.

Note 6. Major Commitments:

(a) Chicago & Western Indiana Railroad Company:

Pursuant to a joint supplemental lease dated May 1, 1952, the Grand Trunk Western Railroad Company and four other proprietary-tenant companies are obligated to pay, as rental, sinking fund payments sufficient to retire bonds at maturity and interest as it falls due with respect to First Collateral Trust Mortgage 4½% Sinking Fund Bonds Series "A" due May 1, 1982. The Grand Trunk Western's proportion is one-fifth in the absence of default of any of the other tenant companies. The bonds outstanding at December 31, 1957 total \$57,375,000.

(b) Detroit & Toledo Shore Line Railroad Company:

The Grand Trunk Western Railroad Company is jointly and severally liable as guarantor of principal, interest and sinking fund payments with respect to \$2,850,000 First Mortgage 3½%-30 year Series "A" Bonds, due December 1, 1982, of the Detroit & Toledo Shore Line Railroad Company.

THE HONOURABLE,
 THE MINISTER OF TRANSPORT,
 OTTAWA, CANADA.

Sir,

In accordance with the requirements of the Canadian National Railways Act we report, through you, to Parliament on our audit of the accounts of the Canadian National Railway System for the year ended December 31, 1957.

The following report appears at the foot of the balance sheet which together with the related statement of income is included in the annual report of the System.

"We have examined the books and accounts of the Canadian National Railway System for the year ended December 31, 1957. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the above consolidated balance sheet and the related consolidated income statement are prepared on a basis consistent with that of the preceding year except for the additional provision for depreciation referred to in Note 1 which we approve, and subject to the position with regard to depreciation accruing prior to the adoption of depreciation accounting referred to in Note 1, are properly drawn up so as to give a true and fair view of the state of the System's affairs at December 31, 1957 and of the results of operations for the year then ended, according to the best of our information and the explanations given to us and as shown by the books of the System.

We further report that in our opinion proper books of account have been kept by the System and the transactions of the System that have come under our notice have been within the powers of the System.

We are also submitting a supplementary explanatory report."

This is the aforementioned supplementary explanatory report.

CONSOLIDATED BALANCE SHEET

TEMPORARY CASH INVESTMENTS

These investments are carried at a total cost of \$6.4 million and consist of System securities aggregating \$5.5 million and other securities issued or guaranteed by the Government of Canada or Provincial Governments. At December 31, 1957, the approximate market value of all these investments was \$6.0 million being 6 per cent below cost.

MATERIAL AND SUPPLIES

A physical inventory of material and supplies was taken by system personnel as at September 30, 1957, and the inventory records have been adjusted for overages and shortages disclosed by this count. Material and supplies at December 31, 1957 exceeded that of December 31, 1956 by approximately \$8.8 million. In addition to general price increases, the major factors accounting for this increase were:

Stores department increase	\$ 2.4 million
The normal issues of stores items to the shops were severely curtailed during the latter part of the year as a result of a decline in activity. However, the stores department was still receiving new materials which had been previously ordered.	
Roadway materials, rail and ties increase	\$12.3 million
In the latter part of 1957 the Railway received materials with respect to 1958 requirements which customarily would have arrived at a later date.	
Fuel stocks decrease	(\$ 7.3 million)
Coal supplies have decreased by reason of the Railway's dieselization programme and the lead time on purchasing fuel oil is considerably less than that for coal stocks.	

INSURANCE FUND

The Investments of the fund comprise Government bonds and similar securities. Based on market quotations at December 31, 1957, the value of these securities was less than their cost by approximately \$1.4 million or 10 per cent. However, no loss will be sustained unless it is necessary to sell the securities prior to maturity.

CANADIAN NATIONAL RAILWAYS—*Continued*

INVESTMENTS IN AFFILIATED COMPANIES NOT CONSOLIDATED

These investments are represented by capital stocks, bonds and advances to companies affiliated with but not forming part of the National System. Except for Trans-Canada Air Lines, they do not represent voting control and accordingly the companies are not treated as units of the System. Such investments have been made in association with other railways primarily to secure the benefits of traffic interchange and terminal facilities. The basis of the balance sheet figure is cost or, in respect of certain United States securities, at par which is less than the special valuations approved by the Interstate Commerce Commission.

We have carried out an audit of Trans-Canada Air Lines upon which we have reported separately. The accounts of the other companies have in the majority of instances been audited by joint committees composed of system accountants.

PROPERTY INVESTMENT

Additions to properties and equipment during the year, acquired in accordance with the approved Capital Budget, amounted to \$252.3 million. The property accounts of the Buffalo and Lake Huron Railway Company, were brought into the consolidated property accounts at December 31, 1957 accounting for an additional \$3.1 million increase in the property account.

Note 1 of the notes to financial statements deals with Property Investment and states, in part, as follows:

"Depreciation on Canadian Lines: Depreciation accounting as adopted for equipment in 1940, for hotel properties in 1954 and for track and road structures and all other physical properties except land in 1956 has been continued in 1957. The depreciation rates used are based on the estimated service life of the properties but do not provide for depreciation which was not recorded in prior years under the replacement and retirement accounting principles then in force, nor for extraordinary obsolescence resulting from the introduction of more efficient equipment. In recognition of the obsolescence now occurring with steam locomotives, supplementary depreciation amounting to \$7,500,000 has been charged to operating expenses this year to provide in part for the deficiency in the depreciation reserves which will arise from the early retirement of steam locomotives and their replacement by diesel power."

In our report for the previous year, dated March 5, 1957, we referred to the anticipated deficiency in accumulated depreciation and we expressed the opinion that consideration should be given to providing out of income for the deficiency with respect to steam locomotives. We also noted that the railway's officers had been examining this situation with the object of devising remedial action which would be consistent with good accounting practice, acceptable to the Board of Transport Commissioners and compatible with the governing statutes. In our opinion the action taken by the Railway conforms with the foregoing requirements. We have been informed that further amounts will be provided in future years, the amount in each year being determined after considering, among other things, the influence of the dieselization programme which is related to the obsolescence of steam locomotives.

OTHER ASSETS AND DEFERRED CHARGES

Included under the heading "Other investments" are deferred amounts receivable with respect to the disposal of certain properties, Government of Canada and System bonds valued at cost, and unlisted securities held primarily for purposes of traffic benefit valued at or below cost.

"Other assets" consist mainly of deferred receivables under agreement.

"Deferred charges" include the unamortized cost of opening ballast pits which will be written off on the basis of yardage used; the estimated salvage value of non-perishable material allotted temporarily to construction projects; miscellaneous debit items not otherwise provided for or which cannot be disposed of until additional information is received.

OTHER LIABILITIES AND DEFERRED CREDITS

The principal items included under the above heading are the outstanding capital value of the workmen's compensation awards by the Provinces of Ontario and Quebec; percentages retained from contractors pending completion of work in progress; deferred payments of principal and interest under agreement; estimated liability for overcharge claims; estimated portion of prepaid revenues on freight in transit; liability to former members of Grand Trunk Railway Insurance and Provident Society, and miscellaneous items not otherwise provided for or which cannot be disposed of until additional information is received.

LONG TERM DEBT

System securities of a par value of \$73.3 million held by the public were repaid during the year. Additional funds of \$270.3 million were received from the Government of Canada as temporary loans to finance public debt repayments, capital expenditures and additional advances to Trans-Canada Air Lines.

Subsequent to December 31, 1957, the Railway has sold to the public, through the Bank of Canada, \$300 million twenty-three year 4 per cent bonds, the proceeds of which have been applied to the repayment of temporary loans received from the Government of Canada.

CANADIAN NATIONAL RAILWAYS—*Concluded*

SHAREHOLDERS' EQUITY

In compliance with Section 6 of the Canadian National Railways Capital Revision Act, the Minister of Finance purchased during the year from the Company at par 22,750,879 four per cent preferred shares of one dollar par value equal to three per cent of the gross operating revenues of the System for the twelve months ended November 30, 1957. An additional 1,737,359 preferred shares of an aggregate par value equivalent to three per cent of the gross revenues for the month of December were purchased in January, 1958.

CONSOLIDATED INCOME STATEMENT

Net income for the year decreased \$55.7 million from that of the previous year. In round amounts this is explained as follows:

	<u>Million</u>
Decrease in operating revenues resulting from a decline in the volume of traffic, partly offset by rate increases and an improvement in traffic mix	21.6
Increased road and equipment maintenance as a result of expansion of road maintenance work, principally on the Western Region, and also as a result of increased wage and material costs ..	18.3
Increased depreciation charges resulting from capital additions and \$7.5 million special depreciation on steam locomotives mentioned in Note 1 to the financial statements	14.8
Decrease in transportation expense due principally to dieselization and lower volume of traffic	(3.8)
Increase in other operating expenses, net	2.0
Decrease in taxes and rents due principally to a reduction in equipment rentals as a result of lower traffic and the increased ownership of freight cars	(4.1)
Decrease in other income, net	1.7
Increase in fixed charges due principally to interest on additional temporary loans	5.2
Decrease in net income	<u>\$55.7</u>

The deficit for the year of \$29.6 million is recoverable from the Government of Canada. At December 31, 1957, \$13.0 million had been received on account and the balance due of \$16.6 million is shown on the balance sheet as an amount receivable.

GENERAL

CORPORATE ORGANIZATION

During the year The Dalhousie Navigation Company, Limited was amalgamated with the Canadian National Railway Company. This elimination was part of the continuing programme of simplifying the corporate structure.

Primarily to effect a reduction in rent for leased roads the System acquired the outstanding stock of the Buffalo and Lake Huron Railway Company at a cost of \$1.1 million.

ACCOUNTING METHODS

Improvements are being made constantly in all areas of accounting and control as a result of the continuous review of clerical and accounting procedures being carried out. The principles of integrated data processing have been successfully applied in appropriate areas and, as part of this development, an electronic computer centre was opened in Montreal during the year.

We wish to record our appreciation of the excellent co-operation and assistance received from the officers and employees of the System during our audit.

Yours faithfully,

GEORGE A. TOUCHE & CO.

CHARTERED ACCOUNTANTS

410 ST. NICHOLAS STREET

MONTREAL

REPRESENTED IN THE

UNITED STATES OF AMERICA AND GREAT BRITAIN

March 4, 1958.

THE HONOURABLE,
 THE MINISTER OF TRANSPORT,
 OTTAWA, CANADA.

Sir,

We report, through you, to Parliament on our audit of the accounts of Canadian National (West Indies) Steamships, Limited, for the year ended December 31, 1957.

The following report appears at the foot of the balance sheet which, with the related income statement, is included in the annual report of the Corporation.

"We have examined the books and accounts of the Canadian National (West Indies) Steamships, Limited, for the year ended December 31, 1957. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the above balance sheet and the related income statement are prepared on a basis consistent with that of the preceding year and are properly drawn up so as to give a true and fair view of the state of the Corporation's affairs at December 31, 1957, and of the results of operations for the year then ended, according to the best of our information and the explanations given to us, and as shown by the books of the Corporation.

We further report that in our opinion proper books of account have been kept by the Corporation and the transactions of the Corporation that have come under our notice have been within the powers of the Corporation.

We are also submitting a supplementary explanatory report."

This is the abovementioned supplementary explanatory report.

BALANCE SHEET

INSURANCE INVESTMENT FUND

The investments of the fund comprise Government bonds and similar securities. Based on market quotations at December 31, 1957, the value of these securities was less than their cost by approximately \$192,000 or 6 per cent. However, no loss will be sustained unless it is necessary to sell the securities prior to maturity.

CAPITAL ASSETS

Vessels are carried at cost less accumulated depreciation. During the year expenditures totalling \$64,019 were made to provide for additional refrigerated cargo space on the five steamships. This work was not continued after July 4, 1957 when the vessels ceased operation due to labour difficulties.

Provision for depreciation during the year was made on a basis consistent with that of the preceding year, using the following rates:

Three diesel powered vessels	5 per cent on cost
Five steamships	3 per cent on cost

We are informed that all equipment has been maintained in efficient operating condition during the year.

INCOME STATEMENT

The suspension of service as of July 4 has caused a substantial loss of revenues. Lay-up expenses, which include costs not directly attributable to revenue producing voyages, have increased \$586,608 during 1957. The greater part of this increase represents expenses of an operating nature which would have been related to revenues under normal conditions. The deficit for the year was \$648,850 of which at December 31 \$142,500 had been recovered from the Government of Canada and the balance of \$506,350 appears as an account receivable on the balance sheet.

CANADIAN NATIONAL (WEST INDIES) STEAMSHIPS, LIMITED—*Concluded*

GENERAL

The following summary indicates how available funds have been utilized.

Working Capital at December 31, 1956		371,134
Additional funds provided:		
Amount recoverable from the Government of Canada on account of the deficit	648,850	
Provision for depreciation, which does not involve the outlay of funds	275,231	
		<u>924,081</u>
		1,295,215
Funds applied:		
Deficit for the year	648,850	
Reduction in Government of Canada loan	250,000	
Capital expenditure	64,019	
		<u>962,869</u>
Working Capital at December 31, 1957	\$	<u><u>332,346</u></u>

Consistent with its established practice, the Corporation has not made transfers or allocations of funds for pensions conditionally accruing in respect of employees now in service.

Future operations will be seriously affected by the prolonged inactivity of the service, although to what extent we are not in a position to assess.

We wish to express our appreciation of the excellent co-operation and assistance received from officers and employees of the Corporation during our audit.

Yours faithfully,
GEORGE A. TOUCHE & CO.

Auditors' Report

AUDITORS' REPORT

TO THE MINISTER OF PUBLIC WORKS:

We have examined the attached financial statements of Central Mortgage and Housing Corporation for the year ended December 31, 1957, and have obtained all the information and explanations we have required. Our examination included a general review of the accounting procedures and such tests of accounting records and other supporting evidence as we have considered necessary in the circumstances.

In our opinion, proper books of account have been kept and the financial statements of the Corporation were prepared on a basis consistent with that of the preceding year and are in agreement with the books.

The transactions of the Corporation that have come under our notice have been, in our opinion, within the powers of the Corporation.

In our opinion, the attached financial statements are properly drawn up so as to give a true and fair view of the state of the Corporation's affairs as at December 31, 1957, and of the results of its operations for the year ended on that date, according to the best of our information and the explanations given to us and as shown by the books of the Corporation.

FEBRUARY 25th, 1958.

THE HONOURABLE,
 THE MINISTER OF TRANSPORT,
 OTTAWA, CANADA.

Sir,

We report to Parliament through you on our audit of the accounts of Trans-Canada Air Lines for the year ended December 31st, 1957, carried out under authority of the Trans-Canada Air Lines Act.

The following report accompanies the balance sheet and related statement of income, which are included in the annual report of the Corporation.

"We have examined the books and accounts of Trans-Canada Air Lines for the year ended December 31st, 1957. Our examination included a general review of the accounting procedures and such tests of the accounting records and other supporting evidence as we considered necessary in the circumstances.

In our opinion the accompanying balance sheet and related statement of income are properly drawn up so as to give a true and fair view of the state of the Corporation's affairs at December 31st, 1957, and of the results of its operations for the year then ended, according to the best of our information and the explanations given to us, and as shown by the books of the Corporation, and in our opinion the statements are prepared on a basis consistent with that of the preceding year, except that a provision of \$1,200,000 for accelerated depreciation on Super Constellation aircraft was included in the 1956 accounts and no such provision was made in 1957.

We further report that in our opinion proper books of account have been kept by the Corporation, and the transactions of the Corporation that have come under our notice have been within the powers of the Corporation.

We are also submitting a supplementary explanatory report."

This is the aforementioned supplementary explanatory report.

BALANCE SHEET

MATERIALS AND SUPPLIES

A physical inventory of materials and supplies was taken by the Corporation's personnel during 1957. Suitable adjustments have been made in the records to reflect overages and shortages disclosed by the inventory taking. Values of quantities on hand at the time of inventory determination were arrived at on a basis consistent with prior years, that is, laid down cost based on latest invoice price with appropriate reductions for obsolete items.

The increase in materials and supplies resulted from the introduction into service during the year of an additional fourteen Viscount and two Super Constellation aircraft, and also from general increases in parts prices.

INSURANCE FUND

At December 31st, 1957 the balance in the fund comprised:

Cash and accrued interest.....	83,857
Securities, at cost.....	5,998,620
	<hr/> 6,082,477
Less: Amount payable to the Corporation.....	411,900
	<hr/> <hr/> \$ 5,670,577

The investments in the fund, consisting of Government bonds and similar securities, had a market value at December 31st, 1957 of approximately \$5,510,000 or 8% below total cost. An actual loss will occur only if it is found necessary to sell the securities prior to their maturity. The interest earnings of the fund totalling \$200,577 have been included in non-operating income.

TRANS-CANADA AIR LINES—*Continued*

Claims and expenses arising from accidents are provided for by self-insurance and by insurance placed with outside underwriters. Because of optional deduction provisions in the policies written by outside underwriters, the Corporation is required within specified limits to bear the initial costs of any accidents. During the year, claims and expenses representing the total liabilities of the Corporation incurred prior to December 31st, 1957 were charged against the insurance reserve. The changes in the reserve during the year are summarized as follows:

Balance at December 31st, 1956.....	6,000,000
Less: Net charge to the Corporation for claims and expenses.....	530,000
	<hr/> 5,470,000
Add: Transfer from Surplus.....	200,577
Balance at December 31st, 1957.....	<hr/> <u>\$ 5,670,577</u>

PROPERTY AND EQUIPMENT

Property and equipment is valued at original cost less accumulated depreciation. During the year under review the net investment in property and equipment increased by \$16,488,000, accounted for as follows:

Aircraft and component parts—representing 14 Viscounts and 2 Super Constellations.....	21,527,000
Ground facilities and components.....	1,667,000
Buildings (including survey costs for future expansion).....	153,000
	<hr/> 23,347,000
Less: Retirements.....	1,504,000
	<hr/> 21,843,000
Less: Net increase in accumulated depreciation.....	5,355,000
	<hr/> <u>\$16,488,000</u>

The net increase in accumulated depreciation is made up of depreciation provided against operations amounting to \$6,819,000 less charges of \$1,464,000 representing retirements and miscellaneous adjustments.

Provision for depreciation has been made on a straight line basis as follows:

Super Constellation	—to reduce to residual values over a period of seven years from date of being put into service.
Viscount	—to reduce to residual values over a period of nine years from date of being put into service.
North Star and DC3	—reduced to residual values in prior years.
Ground facilities	—to amortize over estimated useful life, the period depending on the type of asset.

The foregoing basis is the same as the previous year with the exception that there has been no charge corresponding to the special charge for accelerated depreciation on the Super Constellation aircraft.

During the year six DC3's were taken out of service of which one was sold at a gain of \$120,000 over the aircraft's residual value. This gain has been credited to non-operating income.

We are informed that all equipment has been maintained in efficient operating condition.

PROGRESS PAYMENTS ON PURCHASE OF AIRCRAFT

The balance in the account at December 31st, 1957 comprises payments made during 1957 and prior years representing progress payments on:

14 Viscount aircraft and related equipment for delivery in 1958.....	4,119,000
6 Douglas DC8 aircraft for delivery in 1960 and 1961.....	992,000
20 Vanguard aircraft for delivery in 1960 and 1961.....	1,010,000
Super Constellation engine spares.....	66,000
	<hr/> <u>\$ 6,187,000</u>

TRANS-CANADA AIR LINES—Continued

Amounts totalling \$118,000,000 remain to be paid prior to or upon completion of these contracts. At December 31st, 1957 the Corporation was protected by forward contracts against foreign currency fluctuations on aircraft purchase commitments to the following extent:

United States funds.....	\$18,300,000
Sterling	£ 4,829,000

NOTES PAYABLE

This amount represents a note payable to the Corporation's bankers, which was repaid subsequent to the date of the balance sheet.

INCOME TAXES

Income taxes payable, if any, will be nominal because of the fact that expenses charged to the insurance reserve are allowable for purposes of establishing taxable income.

LOANS AND DEBENTURES

An additional \$12,000,000 required for the purchase of capital assets was borrowed from Canadian National Railways during the year, increasing the notes payable to \$32,000,000.

WORKING CAPITAL

The following summary, expressed to the nearest thousand dollars, shows the factors affecting working capital during the year.

Working capital at December 31st, 1956.....	7,748,000
Funds provided:	
Net income for the year.....	404,000
Depreciation, not involving the outlay of funds.....	6,819,000
Loans received:

	<hr/>
Working capital at December 31st, 1957 (without deducting the temporary bank loan which was subsequently repaid from additional loans from the Canadian National Railways)	\$ 5,811,000

STATEMENT OF INCOME

A comparison of the 1957 and 1956 results indicates the following principal variations:

Increase in operating revenues (15%).....	13,690,000
Larger items:	
Passenger	\$12,045,000 (16%)
Mail	793,000 (9%)

	<hr/>
Decrease in income from operations.....	612,000
Decrease in non-operating income.....	135,000
Increase in interest on capital invested.....	404,000
	<hr/>
Decrease in net income.....	\$ 1,151,000

TRANS-CANADA AIR LINES—Concluded

Available space in terms of seat miles increased approximately 20% in 1957 over 1956 whereas seat miles occupied increased only 16%. Accordingly the per cent of occupancy decreased from 73% in 1956 to 71% in 1957. In accordance with the contract the increase in mail traffic was accompanied by a reduction in the unit mail payment received.

GENERAL

Notes evidencing indebtedness under the Pay Later Plan for overseas transportation have been discounted with the bank. The relative contingent liability is shown as a footnote to the Balance Sheet. A reserve of \$16,800 for possible delinquent payments of these notes is included in accounts payable.

Where applicable, foreign currencies have been converted at the following rates:

United States dollars—at par.

Sterling—at \$2.80 to the pound.

During the year the Corporation continued its policy of carrying out surveys designed to maintain operational and administrative efficiency. Improvements of various accounting functions through the application of mechanical and electronic equipment have also been effected.

We wish to express appreciation to the Corporation's officers and staff for their excellent co-operation and assistance.

Yours faithfully,

GEORGE A. TOUCHE & CO.

AUDITORS' REPORT

MILLAR, MACDONALD & CO.

CHARTERED ACCOUNTANTS

THE CANADIAN WHEAT BOARD,
WINNIPEG, MANITOBA.

We have examined the Consolidated Balance Sheet of The Canadian Wheat Board as at 31st July 1957 and the statements of operations and supporting schedules for the crop year ended on that date and have obtained all the information and explanations we have required. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion and according to the best of our information and the explanations given to us and as shown by the books of the Board, the accompanying Consolidated Balance Sheet and statements of operations and supporting schedules are properly drawn up so as to exhibit a true and correct view of the financial position of The Canadian Wheat Board as at 31st July 1957, and the results of its operations for the crop year ended on that date, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

NORTHERN ONTARIO PIPE LINE CROWN CORPORATION—*Concluded*

OTTAWA, February 21, 1958.

THE HONOURABLE GORDON CHURCHILL,
MINISTER OF TRADE AND COMMERCE,
OTTAWA.

Sir,

The accounts and financial statement of the Northern Ontario Pipe Line Crown Corporation have been examined for the year ended December 31, 1957. In compliance with the requirements of section 87 of the Financial Administration Act, I now report that, in my opinion:

- (a) proper books of account have been kept by the Corporation;
- (b) the financial statement of the Corporation
 - (i) was prepared on a basis consistent with that of the preceding year and is in agreement with the books of account, and
 - (ii) gives a true and fair view of the state of the Corporation's affairs as at the end of the financial year, and
- (c) the transactions of the Corporation that have come under my notice have been within the powers of the Corporation under the Financial Administration Act and any other Act applicable to the Corporation.

Yours faithfully,

IAN STEVENSON,
for Auditor General.
